З А К О Н
ЗА РАТИФИКАЦИЈА НА ПРОТОКОЛОТ ЗА ПРИСТАПУВАЊЕ НА РЕПУБЛИКА МАКЕДОНИЈА КОН СВЕТСКАТА ТРГОВСКА ОРГАНИЗАЦИЈА

Член 1

Се ратификува протоколот за пристапување на Република Македонија кон Светската трговска организација, склучен на 15 октомври 2002 година во Женева.

Член 2

Протоколот, наведен во членот 1 на овој закон, е потпишан во оригиналот на англиски, француски и шпански јазик. Текстот на Протоколот во оригинал на англиски и во превод на македонски јазик гласи:

PROTOCOL ON THE ACCESSION OF THE REPUBLIC OF MACEDONIA

Preamble

The World Trade Organization (hereinafter referred to as the "WTO"), pursuant to the approval of the General Council of the WTO accorded under Article XII of the Marrakesh Agreement Establishing the World Trade Organization (hereinafter referred to as the "WTO Agreement"), and the Republic of Macedonia,

Taking note of the Report of the Working Party on the Accession of the Republic of Macedonia to the WTO Agreement reproduced in document WT/ACC/807/27, dated 26 September 2002 (hereinafter referred to as the "Working Party Report"),

Having regard to the results of the negotiations on the accession of the Republic of Macedonia to the WTO Agreement,

Agree as follows:

PART I GENERAL

1. Upon entry into force of this Protocol pursuant to paragraph 8, the Republic of Macedonia accedes to the WTO Agreement pursuant to Article XII of that Agreement and thereby becomes a Member of the WTO.

2. The WTO Agreement to which the Republic of Macedonia accedes shall be the WTO Agreement, including the Explanatory Notes to that Agreement, as rectified, amended or otherwise modified by such legal instruments as may have entered into force before the date of entry into force of this Protocol. This Protocol, which shall include the commitments referred to in paragraph 255 of the Working Party Report, shall be an integral part of the WTO Agreement.

3. Except as otherwise provided for in paragraph 255 of the Working Party Report, those obligations in the Multilateral Trade Agreements annexed to the WTO Agreement that are to be implemented over a period of time starting with the entry into force of that Agreement shall be implemented by the Republic of Macedonia as if it had accepted that Agreement on the date of its entry into force.

4. The Republic of Macedonia may maintain a measure inconsistent with paragraph 1 of Article II of the GATS provided that such a measure was recorded in the list of Article II Exemptions annexed to this Protocol and meets the conditions of the Annex to the GATS on Article II Exemptions.

PART II - SCHEDULES

5. The Schedules reproduced in Annex I to this Protocol shall become the Schedule of Concessions and Commitments annexed to the General Agreement on Tariffs and Trade 1994 (hereinafter referred to as the "GATT 1994") and the Schedule of Specific Commitments annexed to the General Agreement on Trade in Services (hereinafter referred to as "GATS") relating to The Republic of Macedonia. The staging of the concessions and commitments listed in the Schedules shall be implemented as specified in the relevant parts of the respective Schedules.

6. For the purpose of the reference in paragraph 6(a) of Article II of the GATT 1994 to the date of that Agreement, the applicable date in respect of the Schedules of Concessions and Commitments annexed to this Protocol shall be the date of entry into force of this Protocol.

PART III - FINAL PROVISIONS

7. This Protocol shall be open for acceptance, by signature or otherwise, by the Republic of Macedonia until 31 March 2003.

8. This Protocol shall enter into force on the thirtieth day following the day upon which it shall have been accepted by the Republic of Macedonia.

9. This Protocol shall be deposited with the Director-General of the WTO. The Director-General of the WTO shall promptly furnish a certified copy of this Protocol and a notification of acceptance by the Republic of Macedonia thereto pursuant to paragraph 9 to each Member of the WTO and to the Republic of Macedonia.

This Protocol shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.

Done in Geneva this fifteenth day of October 2002 in a single copy in the English, French and Spanish languages, each text being authentic, except that a Schedule annexed hereto may specify that it its authentic in only one of these languages.

Schedule of Concessions and Commitments on Goods

Schedule CLIV - Republic of Macedonia

This Schedule is authentic only in the English language

PART I - MOST-FAVOURED-NATION TARIFF
SECTION I - Agricultural Products
SECTION I - A Tariffs

Note 1 --Where there is a rate indicated in the "Final Bound rate" column, the tariff reduction for that tariff line shall be implemented in equal annual stages beginning from the date of accession of the Republic of Macedonia to the WTO Successive reductions shall be implemented as of 1 January each year until the final bound rate is reached as indicated in the "Implementation" column. The reduced rate will in each stage be rounded off to the first decimal.

Note 2 -- The Republic of Macedonia shall maintain its applied rates, including other duties and charges:
a) for HS 1205 (rape or colza (canola) seeds, whether or not broken) at a level no higher than that for HS 1201 (soya beans, whether or not broken);
b) for HS 1208.90 (flours and meals of rape or colza (canola) seeds) and feed peas of 0713.10.90.90 (other) at a level no higher than that for HS 1208.10 (flours and meals of soya beans);
c) for HS 1514 (rape or colza (canola) oil and its fractions, whether or not refined, but not chemically modified) at a level no higher than that for HS 1507 (soya-bean oil and its fractions, whether or not refined, but not chemically modified); and
d) for HS 2306.41 and 2306.49 (oil-cake and other solid residues, whether or not ground or in the form of pellets, resulting from the extraction of rape and colza (canola) oil) and feed peas of 0713.10.90.90 (other) at a level no higher than that for HS 2304 (oil-cake and other solid residues, whether or not ground or in the form of pellets, resulting from the extraction of soya-bean oil).

Note 3 – Other Duties and Charges--The Republic of Macedonia will apply an export promotion fee of 0.1 percent through 31 December 2005 pursuant to Article 25 of the new Law on Foreign Trade, enacted by the Parliament in June 2002 (Official Gazette 45/02) which extends the application of Articles 57a, 57b, and 57g governing the 0.1 percent fee until 31 December 2005. The Republic of Macedonia binds "other duties and charges" at 0.1 percent from the date of accession and at "zero" from 1 January 2006.

Schedule CLIV - Republic of Macedonia

This Schedule is authentic only in the English language

PART I - MOST-FAVOURED-NATION TARIFF

SECTION II - Other Products

Note 1--Where there is a rate indicated in the "Final Bound rate" column, the tariff reduction for that tariff line shall be implemented in equal annual stages beginning from the date of accession of the Republic of Macedonia to the WTO. Successive reductions shall be implemented as of 1 January each year until the final bound rate is reached as indicated in the "Implementation" column. The reduced rate will in each stage be rounded off to the first decimal.

Note 2 -- Other Duties and Charges--The Republic of Macedonia will apply an export promotion fee of 0.1 percent through 31 December 2005 pursuant to Article 25 of the new Law on Foreign Trade, enacted by the Parliament in June 2002 (Official Gazette 45/02) which extends the application of Articles 57a, 57b, and 57g governing the 0.1 percent fee until 31 December 2005. The Republic of Macedonia binds "other duties and charges" at 0.1 percent from the date of accession and at "zero" from 1 January 2006.

2504900000	- Other	4				0
2505	Natural sands of all kinds, whether or not coloured, other than metal-bearing sands of Chapter 26:					
2505100000	- Silica sands and quartz sands	5				0
2505900000	- Other	5				0
2506	Quartz (other than natural sands); quartzite, whether or not roughly trimmed or merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape:					
2506100000	- Quartz	23	15	2007		0
	- Quartzite:					
2506210000	- - Crude or roughly trimmed	23	15	2007		0
2506290000	- - Other	23	15	2007		0
250700	Kaolin and other kaolinic clays, whether or not calcined:					
2507002000	- Kaolin	0				0
2507008000	- Other kaolinic clays	0				0
2508	Other clays (not including expanded clays of heading 6806), andalusite, kyanite and sillimanite, whether or not calcined; mullite; chamotte or dinas earths					
2508100000	- Bentonite	4				0
2508200000	- Decolourising earths and fuller's earth	0				0

2510	Natural calcium phosphates, natural aluminium calcium phosphates and phosphatic chalk:					
2510100000	- Unground	0				0
2510200000	- Ground	0				0
2511	Natural barium sulphate (barytes), natural barium carbonate (witherite), whether or not calcined, other than barium oxide of heading 2816:					
2511100000	- Natural barium sulphate (barytes)	4				0
2511200000	- Natural barium carbonate (witherite)	4				0

2512000000	Siliceous fossil meals (for example, kieselguhr, tripolite and diatomite) and similar siliceous earths, whether or not calcined, of an apparent specific gravity of 1 or less	0				0
2513	Pumice stone; emery, natural corundum, natural garnet and other natural abrasives, whether or not heat-treated:					
	- Pumice stone:					
2513110000	- - Crude or in irregular pieces, including crushed pumice ("bimskies")	5				0
2513190000	- - Other	5				0
2513200000	- Emery, natural corundum, natural garnet and other natural abrasives	0				0
2514000000	Slate, whether or not roughly trimmed or merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape	7				0
2515	Marble, travertine, ecaussine and other calcareous monumental or building stone of an apparent specific gravity of 2,5 or more, and alabaster, whether or not roughly trimmed or merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape:					
	- Marble and travertine					
2515110000	- - Crude or roughly trimmed	21.7	15	2005		0
251512	- - Merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape					
2515122000	- - - Of a thickness not exceeding 4 cm	21.7	15	2005		0
2515125000	- - - Of a thickness exceeding 4 cm but not exceeding 25 cm	21.7	15	2005		0
2515129000	- - - Other	21.7	15	2005		0
2515200000	- Ecaussine and other calcareous monumental or building stone; alabaster	21.7	15	2005		0
2516	Granite, porphyry, basalt, sandstone and other monumental or building stone, whether or not roughly trimmed or merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape:					
	- Granite:					
2516110000	- - Crude or roughly trimmed	21.7	15	2005		0
251612	- - Merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape:					
2516121000	- - - Of a thickness not exceeding 25 cm	21.7	15	2005		0
2516129000	- - - Other	21.7	15	2005		0

2516220000	- - Merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape	5				0
2516900000	- Other monumental or building stone	5				0
2517	Pebbles, gravel, broken or crushed stone, of a kind commonly used for concrete aggregates, for road metalling or for railway or other ballast, shingle and flint, whether or not heat-treated; macadam of slag, dross or similar industrial waste, whether or not incorporating the materials cited in the first part of the heading; tarred macadam; granules, chippings and powder, of stones of heading 2515 or 2516, whether or not heat-treated:					
251710	- Pebbles, gravel, broken or crushed stone, of a kind commonly used for concrete aggregates, for road metalling or for railway or other ballast, shingle and flint, whether or not heat-treated:					
2517101000	- - Pebbles, gravel, shingle and flint	5				0
2517102000	- - Limestone, dolomite and other calcareous stone, broken or crushed	5				0
2517108000	- - Other	5				0
2517200000	- Macadam of slag, dross or similar industrial waste, whether or not incorporating the materials cited in subheading 2517 10	5				0
2517300000	- Tarred macadam	5				0
	- Granules, chippings and powder, of stones of heading 2515 or 2516, whether or not heat- treated:					
2517410000	- - Of marble	21.7	15	2005		0
2517490000	- - Other	21.7	15	2005		0
2518	Dolomite, whether or not calcined or sintered, including dolomite roughly trimmed or merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape; dolomite ramming mix					
2518100000	- Dolomite, not calcined or sintered	21.7	15	2005		0
2518200000	- Dolomite, calcined or sintered	21.7	15	2005		0
2518300000	- Dolomite ramming mix (condensed mix)	21.7	15	2005		0
2519	Natural magnesium carbonate (magnesite); fused magnesia; dead burned (sintered) magnesia, whether or					

	not containing small quantities of other oxides added before sintering; other magnesium oxide, whether or not pure					
2519100000	- Natural magnesium carbonate (magnesite)	0				0
251990	- Other:					
2519901000	- - Magnesium oxide, other than calcined natural magnesium carbonate	0			AU	0

2520209000	- - Other	21.7	15	2005		0
2521000000	Limestone flux; limestone and other calcareous stone, of a kind used for the manufacture of lime or cement	7				0
2522	Quicklime, slaked lime and hydraulic lime, other than calcium oxide and hydroxide of heading 2825:					
2522100000	- - Quicklime	5				0
2522200000	- Slaked lime	10				0
2522300000	- Hydraulic lime	5				0
2523	Portland cement, aluminous cement, slag cement, supersulphate cement and similar hydraulic cements, whether or not coloured or in the form of clinkers:					
2523100000	- Cement clinkers	10				0
	- Portland cement:					
2523210000	- - White cement, whether or not artificially coloured	15				0
2523290000	- - Other	15				0
2523300000	- Aluminous cement	0				0
252390	- Other hydraulic cements					
2523901000	- - Blast furnace cement	0				0
2523903000	- - Pozzolanic cement	0				0
2523909000	- - Other	0				0
252400	Asbestos:

2524008000	- Other	28	0	2007	CA	0
2525	Mica, including splittings; mica waste.					
2525100000	- Crude mica and mica rifted into sheets or splittings	0				0
2525200000	- Mica powder	0				0
2525300000	- Mica waste	0				0
2526	Natural steatite, whether or not roughly trimmed or merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape, talc.					
2526100000	- Not crushed, not powdered	4				0
2526200000	- Crushed or powdered	3				0
2528	Natural borates and concentrates thereof (whether or not calcined), but not including borates separated from natural brine; natural boric acid containing not more than 85 % of H3 BO3 calculated on the dry weight:					
2528100000	- Natural sodium borates and concentrates thereof (whether or not calcined)	0				0
2528900000	- Other	0				0
2529	Felspar; leucite; nepheline and nepheline syenite; fluorspar:					
2529100000	- Felspar	5				0
	- Fluorspar:					
2529210000	- - Containing by weight 97 % or less of calcium fluoride	5				0
2529220000	- - Containing by weight more than 97 % of calcium fluoride	5				0
2529300000	- Leucite; nepheline and nepheline syenite	5				0
2530	Mineral substances not elsewhere specified or included:					
253010	- Vermiculite, perlite and chlorites, unexpanded:					
2530101000	- - Perlite	0				0
2530109000	- - Vermiculite and chlorites	0				0
2530200000	- Kieserite, epsomite (natural magnesium sulphates)	0				0

3105300000	- Diammonium hydrogenorthophosphate (diammonium phosphate)	6	JP, US
3105400000	- Ammonium dihydrogenorthophosphate (monoammonium phosphate) and mixtures thereof with diammonium hydrogenorthophosphate (diammonium phosphate)	6	JP, US
	- Other mineral or chemical fertilisers containing the two fertilising elements nitrogen and phosphorus:		
3105510000	- Containing nitrates and phosphates	6	JP, US
3105590000	- - Other	6	JP, US
3105600	- Mineral or chemical fertilisers containing the two fertilising elements phosphorus and potassium:		
3105601000	- - Potassic superphosphates	6	JP, US
3105609000	- - Other	6	JP, US
3105900	- Other:		
3105901000	- - Natural potassic sodium nitrate, consisting of a natural mixture of sodium nitrate and potassium nitrate (the proportion of potassium nitrate may be as high as 44 %), of a total nitrogen content not exceeding 16,3 % by weight on the dry anhydrous product	3	JP, US
	- Other:		
3105909100	- - - With a nitrogen content exceeding 10 % by weight on the dry anhydrous product	6	JP, US
3105909900	- - - Other	6	JP, US
	TANNING OR DYING EXTRACTS; TANNINS AND THEIR DERIVATIVES; DYES, PIGMENTS AND OTHER COLOURING MATTER; PAINTS AND VARNISHES; PUTTY AND OTHER MASTICS; INKS		
3201	Tanning extracts of vegetable origin; tannins and their salts, ethers, esters and other derivatives:		
3201100000	- Quebracho extract	0	JP, US
3201200000	- Wattle extract	0	JP, US
320190	- Other:		
3201902000	- - Sumach extract, vallonia extract, oak or chestnut extract	0	JP, US
3201909000	- - Other	0	JP, US
3202	Synthetic organic tanning substances; inorganic tanning substances; tanning preparations, whether or not containing natural tanning substances; enzymatic preparations for pre-tanning:		
3202100000	- Synthetic organic tanning substances	0	JP, US
3202900000	- Other	0	JP, US
320300	Colouring matter of vegetable or animal origin (including dyeing extracts but excluding animal black), whether or not chemically defined; preparations as specified in Note 3 to this Chapter based on colouring matter of vegetable or animal origin:		
	- Colouring matter of vegetable origin and preparations based thereon:		
3203001100	- - Black cutch (Acacia catechu)	5	JP, US

3203001900	- - Other				JP, US
32030090 00	- Colouring matter of animal origin and preparations based thereon				JP, US
3204	Synthetic organic colouring matter whether or not chemically defined, preparations as specified in Note 3 to this Chapter based on synthetic organic colouring matter; synthetic organic products of a kind used as fluorescent brightening agents or as luminophores,whether or not chemically defined:				
	- Synthetic organic colouring matter and preparations based thereon as specified in note 3 to this chapter				
3204110000	- - Disperse dyes and preparations based thereon	0			JP, US
3204120000	- - Acid dyes, whether or not premetallised, and preparations based thereon; mordant dyes and preparations based thereon	0			JP, US
3204130000	- - Basic dyes and preparations based thereon	0			JP, US
3204140000	- - Direct dyes and preparations based thereon	0			JP, US
3204150000	- - Vat dyes (including those usable in that state as pigments) and preparations based thereon	0			JP, US
3204160000	- - Reactive dyes and preparations based thereon	0			JP, US
3204170000	- - Pigments and preparations based thereon	0			JP, US
3204190000	- - Other, including mixtures of colouring matter of two or more of the subheadings 3204 11 to 3204 19	0			JP, US
3204200000	- Synthetic organic products of a kind used as fluorescent brightening agents	0			JP, US
3204900000	- Other	0			JP, US
3205000000	Colour lakes; preparations as specified in Note 3 to this Chapter based on colour lakes	12.7	6	2005	JP, US
3206	Other colouring matter; preparations as specified in Note 3 to this chapter, other than those of heading 3203, 3204 or 3205; inorganic products of a kind used as luminophores, whether or not chemically defined:				
	- Pigments and preparations based on titanium dioxide				
3206110000	- - Containing 80 % or more by weight of titanium dioxide calculated on the dry matter	0			AU, JP, US
3206190000	- - Other	0			
3206200000	- Pigments and preparations based on chromium compounds	0			JP, US
3206300000	- Pigments and preparations based on cadmium compounds	0			JP, US
	- Other colouring matter and other preparations				
3206410000	- - Ultramarine and preparations based thereon	0			JP, US
3206420000	- - Lithopone and other pigments and preparations based on zinc sulphide	0			JP, US
3206430000	- - Pigments and preparations based on hexacyanoferrates (ferrocyanides and ferricyanides)	0			JP, US
320649	- - Other				
3206491000	- - - Magnetite	0			JP, US
3206499000	- - - Other	0			JP, US
3206500000	- Inorganic products of a kind used as luminophores	0			JP, US
3207	Prepared pigments, prepared opacifiers and prepared colours, vitrifiable enamels and glazes, engobes (slips), liquid lustres and similar preparations, of a kind used in the ceramic, enamelling or glass industry; glass frit and other glass, in the form of powder, granules or flakes :				
3207100000	- Prepared pigments, prepared opacifiers, prepared colours and similar preparations	5			JP, US
320720	- Vitrifiable enamels and glazes, engobes (slips) and similar preparations:				
3207201000	- - Engobes (slips)	5			JP, US
3207209000	- - Other	5			JP, US
3207300000	- Liquid lustres and similar preparations	5			JP, US
320740	- Glass frit and other glass, in the form of powder, granules or flakes:				
3207401000	- - Glass of the variety known as "enamel" glass	5			JP, US
3207402000	- - Glass, in the form of flakes of a length of 0,1 mm or more but not exceeding 3,5 mm and of a thickness of 2 micrometres or more but not exceeding 5 micrometres	5			JP, US
3207403000	- - Glass in the form of powder or granules, with a silicon dioxide content of not less than 99% by weight	5			JP, US
3207408000	- - Other	5			JP, US

3208	Paints and varnishes (including enamels and lacquers) based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in a non-aqueous medium; solutions as defined in note 4 to this chapter				
320810	- Based on polyesters				
3208101000	- - Solutions as defined in note 4 to this chapter	17.3	6.5	2007	JP, US
3208109000	- - Other	17.3	6.5	2007	JP, US
320820	- Based on acrylic or vinyl polymers				
3208201000	- - Solutions as defined in Note 4 to this Chapter	17.3	6.5	2007	JP, US
3208209000	- - Other	17.3	6.5	2007	JP, US
320890	- Other:				
	- - Solutions as defined in note 4 to this chapter:				
3208901100	- - - Polyurethane of 2,2'-(tert-butylimino)diethanol and 4,4'-methylenedicyclohexyl diisocyanate, in the form of a solution in N,N-dimethylacetamide containing by weight 48% or more of polymer	5			JP, US
3208901300	- - - Copolymer of p-cresol and divinylbenzene, dissolved in N,N-dimethylacetamide, with a copolymer content of not less than 48% by weight	5			JP, US
3208901900	- - - Other	5			JP, US
	- - Other:				
3208909100	- - - Based on synthetic polymers	5			JP, US
3208909900	- - - Based on chemically modified natural polymers	5			JP, US
3209	Paints and varnishes (including enamels and lacquers) based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in an aqueous medium:				
3209100000	- Based on acrylic or vinyl polymers	17.3	6.5	2007	CA, JP, US
3209900000	- Other	17.3	6.5	2007	CA, JP, US
321000	Other paints and varnishes (including enamels, lacquers and distempers); prepared water pigments of a kind used for finishing leather:				
3210001000	- Oil paints and varnishes (including enamels and lacquers)	17.3	6.5	2007	JP, US
3210009000	- Other	17.3	6.5	2007	JP, US
3211000000	Prepared driers	17.3	6.5	2007	JP, US
3212	Pigments (including metallic powders and flakes) dispersed in non-aqueous media, in liquid or paste form, of a kind used in the manufacture of paints (including enamels); stamping foils; dyes and other colouring matter put up in forms or packings for retail sale:				
321210	- Stamping foils:				
3212101000	- - With a basis of base metal	5			JP, US
3212109000	- - Other	5			JP, US
321290	- Other:				
	- - Pigments (including metallic powders and flakes) dispersed in non-aqueous media, in liquid or paste form, of a kind used in the manufacture of paints (including enamels):				
3212901000	- - - Pearl essence	5			JP, US
	- - - Other:				
3212903100	- - - - With a basis of aluminium powder	5			JP, US
3212903900	- - - - Other	5			JP, US
3212909000	- - Dyes and other colouring matter put up in forms or packings for retail sale	5			JP, US
3213	Artists', students' or signboard painters' colours, modifying tints, amusement colours and the like, in tablets, tubes, jars, bottles, pans or in similar forms or packings:				
3213100000	- Colours in sets	6			JP, US
3213900000	- Other	6			JP, US
3214	Glaziers' putty, grafting putty, resin cements, caulking compounds and other mastics; painters' fillings; non-refractory surfacing preparations for facades, indoor walls, floors, ceilings or the like :				
321410	- Glaziers' putty, grafting putty, resin cements, caulking compounds and other mastics; painters' fillings:				
3214101000	- - Glaziers' putty, grafting putty, resin cements, caulking compounds and other mastics	6			JP, US
3214109000	- - Painters' fillings	6			JP, US
3214900000	- Other	6			JP, US
3215	Printing ink, writing or drawing ink and other inks, whether or not concentrated or solid:				
	- Printing ink				
3215110000	- - Black	0			JP, US

13 101

3215190000	- Other	0			JP, US
321590	Other:				
3215901000	- Writing or drawing ink	6			JP, US
3215908000	- Other	6			JP, US
	ESSENTIAL OILS AND RESINOIDS; PERFUMERY, COSMETIC OR TOILET PREPARATIONS				
3302	Mixtures of odoriferous substances and mixtures (including alcoholic solutions) with a basis of one or more of these substances, of a kind used as raw materials in industry; other preparations based on odoriferous substances, of a kind used for the manufacture of beverages:				
330290	- Other:				
3302901000	- Alcoholic solutions	5			JP, US
3302909000	- Other	5			JP, US
330300	Perfumes and toilet waters:				
3303001000	- Perfumes	21.3	6.5	2007	JP, US
3303009000	- Toilet waters	21.3	6.5	2007	JP, US
3304	Beauty or make-up preparations and preparations for the care of the skin (other than medicaments), including sunscreen or sun tan preparations, manicure or pedicure preparations:				
3304100000	- Lip make up preparations	21.3	6.5	2007	JP, US
3304200000	- Eye make-up preparations	21.3	6.5	2007	JP, US
3304300000	- Manicure or pedicure preparations	21.3	6.5	2007	JP, US
	- Other:				
3304910000	- - Powders, whether or not compressed	21.3	6.5	2007	JP, US
3304990000	- - Other	21.3	6.5	2007	JP, US
3305	Preparations for use on the hair:				
3305100000	- Shampoos	21.3	6.5	2007	JP, US
3305200000	- Preparations for permanent waving or straightening	21.3	6.5	2007	JP, US
3305300000	- Hair lacquers	21.3	6.5	2007	JP, US
330590	- Other:				
3305901000	- - Hair lotions	21.3	6.5	2007	JP, US
3305909000	- - Other	21.3	6.5	2007	JP, US
3306	Preparations for oral or dental hygiene including denture fixative pastes and powders; yarn used to clean between the teeth (dental floss), in individual retail packages:				
3306100000	- Dentifrices	21.3	6.5	2007	JP, US
3306200000	- Yarn used to clean between the teeth (dental floss)	6.5			JP, US
3306900000	- Other	21.3	6.5	2007	JP, US
3307	Pre-shave, shaving or after shave preparations, personal deodorants, bath preparations, depilatories and other perfumery, cosmetic or toilet preparations not elsewhere specified or included; prepared room deodorizers, whether or not perfumed or having disinfectant properties:				
3307100000	- Pre-shave, shaving or after-shave preparations	21.3	6.5	2007	JP, US
3307200000	- Personal deodorants and antiperspirants	21.3	6.5	2007	JP, US
3307300000	- Perfumed bath salts and other bath preparations	21.3	6.5	2007	JP, US
	- Preparations for perfuming or deodorizing rooms, including odoriferous preparations used during religious rites:				
3307410000	- - "Agarbatti" and other odoriferous preparations which operate by burning	21.3	6.5	2007	JP, US
3307490000	- - Other	21.3	6.5	2007	JP, US
3307900000	- Other	21.3	6.5	2007	JP, US
	SOAP, ORGANIC SURFACE-ACTIVE AGENTS, WASHING PREPARATIONS, LUBRICATING PREPARATIONS, ARTIFICIAL WAXES, PREPARED WAXES, POLISHING OR SCOURING PREPARATIONS, CANDLES AND SIMILAR ARTICLES, MODELLING PASTES, "DENTAL WAXES" AND DENTAL PREPARATIONS WITH A BASIS OF PLASTER				
3401	Soap; organic surface-active products and preparations for use as soap, in the form of bars, cakes, moulded pieces or shapes, whether or not containing soap; organic surface-active products and preparations for washing the skin, in the form of liquid or cream and put up for retail sale, whether or not containing soap; paper, wadding, felt and nonwovens, impregnated, coated or covered with soap or detergent:				
	- Soap and organic surface-active products and preparations, in the form of bars, cakes, moulded pieces or shapes, and paper, wadding, felt and nonwovens, impregnated, coated or covered with soap or detergent:				

3401110000	For toilet use (including medicated products)	25.3	6.5	2007	JP, US
3401190000	- - Other	25.3	6.5	2007	JP, US
340120	- Soap in other forms:				
3401201000	- - Flakes, wafers, granules or powders	25.3	6.5	2007	JP, US
3401209000	- - Other	25.3	6.5	2007	JP, US
3401300000	-Organic surface-active products and preparations for washing the skin, in the form of liquid or cream and put up for retail sale, whether or not containing soap	27.7	6.5	2012	JP, US
3402	Organic surface-active agents (other than soap); surface-active preparations, washing preparations (including auxiliary washing preparations) and cleaning preparations, whether or not containing soap, other than those of heading 3401				
	- Organic surface-active agents, whether or not put up for retail sale:				
340211	- - Anionic:				JP, US
3402111000	- - - Aqueous solution containing by weight 30% or more but not more than 50% of disodium alkyl [oxydi (benzenesulphonate)]	0			
3402119000	- - - Other	0			JP, US
3402120000	- - Cationic	0			JP, US
3402130000	- - Non-ionic	0			JP, US
3402190000	- - Other	0			JP, US
340220	- Preparations put up for retail sale:				
3402202000	- - Surface-active preparations	27.7	6.5	2012	JP, US
3402209000	- - Washing preparations and cleaning preparations	32.2	6.5	2012	JP, US
340290	- Other:				
	- - Surface-active preparations:				
3402901010	- - - Over 60% active substance, for industry use	0			JP, US
3402901090	- - - Other	27.7	6.5	2012	JP, US
3402909000	- - Washing preparations and cleaning preparations	32.2	6.5	2012	JP, US
3403	Lubricating preparations (including cutting-oil preparations, bolt or nut release preparations, anti-rust or anti-corrosion preparations and mould release preparations, based on lubricants) and preparations of a kind used for the oil or grease treatment of textile materials,leather,furskins or other materials,but excluding preparations containing, as basic constituents,70 % or more by weight of petroleum oils or of oils obtained from bituminous minerals				
	- Containing petroleum oils or oils obtained from bituminous minerals:				
3403110000	- - Preparations for the treatment of textile materials, leather, furskins or other materials	0			JP, US
340319	- - Other:				
3403191000	- - - Containing 70 % or more by weight of petroleum oils or of oils obtained from bituminous minerals but not as the basic constituent	6			
	- - - Other:				JP, US
3403199100	- - - - Preparations for lubricating machines, appliances and vehicles	6			JP, US
3403199900	- - - - Other	6			
	- Other:				JP, US
3403910000	- - Preparations for the treatment of textile materials, leather, furskins or other materials	0			
340399	- - Other:				JP, US
3403991000	- - - Preparations for lubricating machines, appliances and vehicles	6			JP, US
3403999000	- - - Other	6			
3404	Artificial waxes and prepared waxes				JP, US
3404100000	- Of chemically modified lignite	0			JP, US
3404200000	- Of poly (oxyethyleve) (polyethylene glycol)	0			
340490	- Other:				JP, US
3404901000	- - Prepared waxes, including sealing waxes	0			JP, US
3404909000	- - Other	0			
3405	Polishes and creams, for footwear, furniture, floors, coachwork, glass or metal, scouring pastes and powders and similar preparations (whether or not in the form of paper, wadding, felt, nonwovens, cellular plastics or cellular rubber, impregnated, coated or covered with such preparations),excluding waxes of heading 3404:				
3405100000	- Polishes, creams and similar preparations, for footwear or leather	17.3	6.5	2007	JP, US
3405200000	- Polishes, creams and similar preparations, for the maintenance of wooden furniture, floors or other woodwork	17.3	6.5	2007	JP, US

14

3405300000	- Polishes and similar preparations for coachwork, other than metal polishes	17.3	6.5	2007	JP, US
3405400000	- Scouring pastes and powders and other scouring preparations	17.3	6.5	2007	JP, US
340590	- Other:				
3405901000	- - Metal polishes	17.3	6.5	2007	JP, US
3405909000	- - Other	17.3	6.5	2007	JP, US
340600	Candles, tapers and the like.				
	- Candles:				
3406001100	- - Plain, not perfumed	12.2	6.5	2005	JP, US
3406001900	- - Other	12.2	6.5	2005	JP, US
3406009000	Other	12.2	6.5	2005	JP, US
340700	Modelling pastes, including those put up for children's amusement; preparations known as "dental wax" or as "dental impression compounds", put up in sets, in packings for retail sale or in plates, horseshoe shapes, sticks or similar forms; other preparations for use in dentistry, with a basis of plaster (of calcined gypsum or calcium sulphate)				
3407000010	- Dental preparations	5			JP, US
3407000090	- Other	6			JP, US
	ALBUMINOIDAL SUBSTANCES; MODIFIED STARCHES; GLUES; ENZYMES				
3506	Prepared glues and other prepared adhesives, not elsewhere specified or included; products suitable for use as glues or adhesives, put up for retail sale as glues or adhesives, not exceeding a net weight of 1 kg:				
3506100000	- Products suitable for use as glues or adhesives, put up for retail sale as glues or adhesives, not exceeding a net weight of 1 kg	12.2	6.5	2005	JP, US
	- Other:				
3506910000	--Adhesives based on polymers of headings 3901 to 3913,or on rubber	4			JP, US
3506990000	- - Other	4			JP, US
3507	Enzymes; prepared enzymes not elsewhere specified or included.				
3507100000	- Rennet and concentrates thereof	0			JP, US
350790	- Other:				
3507901000	- Lipoprotein lipase	0			JP, US
3507902000	- - Aspergillus alkaline proteinase	0			JP, US
3507909000	- - Other	0			JP, US
	EXPLOSIVES; PYROTECHNIC PRODUCTS; MATCHES; PYROPHORIC ALLOYS; CERTAIN COMBUSTIBLE PREPARATIONS				
3601000000	Propellent powders	0			JP, US
3602000000	Prepared explosives, other than propellent powders	0			JP, US
360300	Safety fuses; detonating fuses, percussion or detonating caps, igniters, electric detonators:				
3603001000	- Safety fuses; detonating fuses	0			JP, US
3603009000	- Other	0			JP, US
3604	Fireworks, signalling flares, rain rockets, fog signals and other pyrotechnic articles.				
3604100000	- Fireworks	15.3	6	2005	JP, US
3604900000	- Other	15.3	6	2005	JP, US
3605000000	Matches, other than pyrotechnic articles of heading 3604	6			JP, US
3606	Ferro-cerium and other pyrophoric alloys in all forms; articles of combustible materials as specified in note 2 to this chapter:				
3606100000	- Liquid or liquefied-gas fuels in containers of a kind used for filling or refilling cigarette or similar lighters, and of a capacity not exceeding 300 cm3	15.5	6.5	2005	JP, US
360690	- Other:				
3606901000	- - Ferro-cerium and other pyrophoric alloys in all forms	15.5	6.5	2005	JP, US
3606909000	- - Other	15.5	6.5	2005	JP, US
	PHOTOGRAPHIC OR CINEMATOGRAPHIC GOODS				
3701	Photographic plates and film in the flat, sensitised, unexposed, of any material other than paper, paperboard or textiles; instant print film in the flat, sensitised, unexposed, whether or not in packs.				
370110	- For X-ray:				
3701101000	- - For medical, dental or veterinary use	2			JP, US
3701109000	- - Other	9.3	6.5	2007	JP, US
3701200000	Instant print film	9.3	6.5	2007	JP, US
3701300000	- Other plates and film, with any side exceeding 255 mm	9.3	6.5	2007	JP, US
	- Other:				
3701910000	- - For colour photography (polychrome)	9.3	6.5	2007	JP, US

3703909000	- Other	9.3	6.5	2007	JP, US
370400	Photographic plates, film, paper paperboard and textiles, exposed but not developed:				
3704001000	- Plates and film	2			JP, US
3704009000	- Other	2			JP, US
3705	Photographic plates and film, exposed and developed, other than cinematographic film:				
3705100000	- For offset reproduction	2			JP, US
3705200000	- Microfilms	2			JP, US
3705900000	- Other	2			JP, US
3706	Cinematographic film, exposed and developed, whether or not incorporating sound track or consisting only of sound track:				
370610	- Of a width of 35 mm or more:				
3706101000	- - Consisting only of sound track	0			JP, US
	- - Other:				
3706109100	- - - Negatives; intermediate positives	0			JP, US
3706109900	- - - Other positives	0			JP, US
370690	- Other:				
3706901000	- - Consisting only of sound track	0			JP, US
	- - Other:				
3706903100	- - - Negatives; intermediate positives	0			JP, US
	- - - Other positives:				
3706905100	- - - - Newsreels	0			JP, US
	- - - - Other, of a width of:				
3706909100	- - - - - Less than 10 mm	0			JP, US
3706909900	- - - - - 10 mm or more	0			JP, US
3707	Chemical preparations for photographic uses (other than varnishes, glues, adhesives and similar preparations); unmixed products for photographic uses, put up in measured portions or put up for retail sale in a form ready for use:				
3707100000	- Sensitising emulsions	9.3	6.5	2007	JP, US
370790	- Other:

	MISCELLANEOUS CHEMICAL PRODUCTS				
3801	Artificial graphite; colloidal or semi-colloidal graphite; preparations based on graphite or other carbon in the form of pastes, blocks, plates or other semi-manufactures:				
3801100000	- Artificial graphite	6			JP, US
380120	- Colloidal or semi-colloidal graphite				
3801201000	- - Colloidal graphite in suspension in oil, semi- colloidal graphite	6			JP, US
3801209000	- - Other	6			JP, US
3801300000	- Carbonaceous pastes for electrodes and similar pastes for furnace linings	0			JP, US
3801900000	- Other	6			JP, US
3802	Activated carbon; activated natural mineral products; animal black, including spent animal black:				
3802100000	- Activated carbon	6			JP, US
3802900000	- Other	6			JP, US
380300	Tall oil, whether or not refined:				
3803001000	- Crude	0			JP, US
3803009000	- Other	0			JP, US
380400	Residual lyes from the manufacture of wood pulp, whether or not concentrated, desugared or chemically treated, including lignin sulphonates, but excluding tall oil of heading 3803:				
3804001000	- Concentrated sulphite lye	6			JP, US
3804009000	- Other	6			JP, US
3805	Gum, wood or sulphate turpentine and other terpenic oils produced by the distillation or other treatment of coniferous woods; crude dipentene; sulphite turpentine and other crude para-cymene; pine oil containing alpha-terpineol as the main constituent:				
380510	- Gum, wood or sulphate turpentine oils:				
3805101000	- - Gum turpentine	6			JP, US
3805103000	- - Wood turpentine	6			JP, US
3805109000	- - Sulphate turpentine	6			JP, US
3805200000	- Pine oil	5			JP, US
3805900000	- Other	0			JP, US
3806	Rosin and resin acids, and derivatives thereof; rosin spirit and rosin oils; run gums:				

380610	Rosin and resin acids		
3806101000	- Obtained from fresh oleoresins	5	JP, US
3806109000	- Other	5	JP, US
3806200000	- Salts of rosin, of resin acids or of derivatives of rosin or resin acids, other than salts of rosin adducts	5	JP, US
3806300000	- Ester gums	5	JP, US
3806900000	- Other	5	JP, US
380700	Wood tar; wood tar oils; wood creosote; wood naphtha; vegetable pitch; brewers' pitch and similar preparations based on rosin, resin acids or on vegetable pitch		
3807001000	- Wood tar	6	JP, US
3807009000	- Other	6	JP, US
3808	**Insecticides, rodenticides, fungicides, herbicides, anti-sprouting products and plant growth regulators, disinfectants and similar products, put up in forms or packings for retail sale or as preparations or articles (for example, sulphur-treated bands, wicks and candles, and fly-papers)**		
380810	**- Insecticides:**		
3808101000	**- - Based on pyrethroids**	6.5	**JP, US**
3808102000	- - Based on chlorinated hydrocarbons	6.5	JP, US
3808103000	- - Based on carbamates	6.5	JP, US
3808104000	- - Based on organophosphorus compounds	6.5	JP, US
3808109000	- - Other	6.5	JP, US
380820	- Fungicides:		
	- - Inorganic:		
3808201010	- - - Preparations based on copper compounds	6.5	JP, US
3808201500	- - - Other	6.5	JP, US
	- - Other:		
3808203000	- - - Based on dithiocarbamates	6.5	JP, US
3808204000	- - - Based on benzimidazoles	6.5	JP, US
3808205000	- - - Based on diazoles or triazoles	6.5	JP, US
3808206000	- - - Based on diazines or morpholines	6.5	JP, US
3808208000	- - - Other	6.5	JP, US
380830	- Herbicides, anti-sprouting products and plant- growth regulators:		
	- - Herbicides:		
3808301100	- - - Based on phenoxy-phytohormones	6.5	CA, JP, US
3808301300	- - - Based on triazines	6.5	CA, JP, US
3808301500	- - - Based on amides	6.5	CA, JP, US
3808301700	- - - Based on carbamates	6.5	CA, JP, US
3808302100	- - - Based on dinitroaniline derivates	6.5	CA, JP, US
3808302300	- - - Based on derivatives of urea, of uracil or of sulphonylurea	6.5	CA, JP, US
3808302700	- - - Other	6.5	CA, JP, US
3808303000	- - Anti-sprouting products	6.5	CA, JP, US
3808309000	- - Plant growth regulators	6.5	CA, JP, US
380840	- Disinfectants		
3808401000	- - Based on quaternary ammonium salts	6.5	JP, US
3808402000	- - Based on halogenated compounds	6.5	JP, US
3808409000	- - Other	6.5	JP, US
380890	- Other:		
3808901000	- - Rodenticides	6.5	JP, US
3808909000	- - Other	6.5	JP, US
3809	Finishing agents, dye carriers to accelerate the dyeing or fixing of dyestuffs and other products and preparations (for example, dressings and mordants), of a kind used in the textile, paper, leather or like industries, not elsewhere specified or included		
	- Other		
3809910000	- - Of a kind used in the textile or like industries	3	JP, US
3809920000	- - Of a kind used in the paper or like industries	3	JP, US
3809930000	- - Of a kind used in the leather or like industries	3	JP, US
3810	Pickling preparations for metal surfaces; fluxes and other auxiliary preparations for soldering, brazing or welding; soldering, brazing or welding powders and pastes consisting of metal and other materials; preparations of a kind used as cores or coatings for welding electrodes or rods:		
3810100000	- Pickling preparations for metal surfaces, soldering, brazing or welding powders and pastes consisting of metal and other materials	3	JP, US
381090	- Other:		
3810901000	- - Preparations of a kind used as cores or coatings for welding electrodes and rods	3	JP, US
3810909000	- - Other	3	JP, US

3811	Anti-knock preparations, oxidation inhibitors, gum inhibitors, viscosity improvers, anti-corrosive preparations and other prepared additives, for mineral oils (including gasoline) or for other liquids used for the same purposes as mineral oils:				
	- Anti-knock preparations:				
381111	- - Based on lead compounds:				
3811111000	- - - Based on tetraethyl-lead	5			JP, US
3811119000	- - - Other	5			JP, US
3811190000	- - Other	5			JP, US
	- Additives for lubricating oils				
3811210000	- - Containing petroleum oils or oils obtained from bituminous minerals	6			JP, US
3811290000	- - Other	6			JP, US
3811900000	- Other	6			JP, US
3812	Prepared rubber accelerators; compound plasticisers for rubber or plastics, not elsewhere specified or included; anti-oxidising preparations and other compound stabilisers for rubber or plastics:				
3812100000	- Prepared rubber accelerators	3			JP, US
381220	- Compound plasticisers for rubber or plastics:				
3812201000	- - Reaction mixture containing benzyl 3-isobutyryloxy-1-isopropyl, 2,2-dimethyl propyl phathalate and benzyl 3-isobutyryloxy-2,2,4- trimethylpentyl phtalate	3			JP, US
3812209000	- - Other	3			JP, US
381230	- Anti-oxidising preparations and other compound stabilisers for rubber or plastics:				
3812302000	- - Anti-oxidising preparations	3			JP, US
3812308000	- - Other	3			JP, US
3813000000	Preparations and charges for fire-extinguishers; charged fire-extinguishing grenades	6			JP, US
381400	Organic composite solvents and thinners, not elsewhere specified or included; prepared paint or varnish removers:				
3814001000	- Based on butyl acetate	6			JP, US
3814009000	- Other	6			JP, US
3815	Reaction initiators, reaction accelerators and catalytic preparations, not elsewhere specified or included:				
	- Supported catalysts:				
3815110000	- - With nickel or nickel compounds as the active substance	0			JP, US
3815120000	- - With precious metal or precious metal compounds as the active substance	0			JP, US
381519	- - Other:				
3815191000	- - - Catalyst, in the form of grains, of which 90 % or more by weight have a particle size not exceeding 10 micrometres, consisting of a mixture of oxides on a magnesium silicate support containing by weight: - 20% or more but not more than 35 % of copper, and - 2% or more but not more than 3% of bismuth, and of an apparent specific gravity of 0.2 or more but not exceeding 1.0	5			JP, US
3815199000	- - - Other	5			JP, US
381590	- Other:				
3815901000	- - Catalyst consisting of ethyltriphenylphosphonium acetate, in the form of a solution in methanol	5			JP, US
3815909000	- - Other	5			JP, US
3816000000	Refractory cements, mortars, concretes and similar compositions, other than products of heading 3801	14	6	2005	JP, US
381700	Mixed alkylbenzenes and mixed alkylnaphthalenes, other than those of heading 2707 or 2902:				
3817001000	-Dodecylbenzene	6			JP, US
3817005000	-Linear alkylbenzene	6			JP, US
3817009000	-Other	6			JP, US
381800	Chemical elements doped for use in electronics, in the form of discs, wafers or similar forms; chemical compounds doped for use in electronics:				
3818001000	- Doped silicon	0			JP, US
3818009000	- Other	0			JP, US
3819000000	Hydraulic brake fluids and other prepared liquids for hydraulic transmission, not containing or containing less than 70 % by weight of petroleum oils or oils obtained from bituminous minerals	0			JP, US
3820000000	Anti-freezing preparations and prepared de-icing fluids	25.2	6	2007	JP, US
3821000000	Prepared culture media for development of micro- organisms	0			JP, US

3822000000	Diagnostic or laboratory reagents on a backing, prepared diagnostic or laboratory reagents whether or not on a backing, other than those of heading 3002 or 3006; certified reference materials	0	JP, US	
3823	Industrial monocarboxylic fatty acids; acid oils from refining; idustrial fatty alcohols			
	- Industrial monocarboxylic fatty acids; acid oils from refining			
3823110000	- - Stearic acid	5	MY, US	0
3823120000	- - Oleic acid	5	MY, US	0
3823130000	- - Tall oil fatty acids	5	MY, US	0
382319	- - Other:			
3823191000	- - - Distilled fatty acids	5	MY, US	0
3823193000	- - - Fatty acid distillate	5	MY, US	0
3823199000	- - - Other	5	MY, US	0
3823700000	- Industrial fatty alcohols	5	MY, US	0
3824	Prepared binders for foundry moulds or cores; chemical products and preparations of the chemical or allied industries (including those consisting of mixtures of natural products), not elsewhere specified or included; residual products of the chemical or allied industries, not elsewhere specified or included			
3824100000	- Prepared binders for foundry moulds or cores	6	JP, US	0
3824200000	- Naphthenic acids, their water-insoluble salts and their esters	6	JP, US	0
3824300000	- Non-agglomerated metal carbides mixed together or with metallic binders	6	JP, US	0
3824400000	- Prepared additives for cements, mortars or concretes	6	JP, US	0
382450	- Non-refractory mortars and concretes			
3824501000	- - Concrete ready to pour	6	JP, US	0
3824509000	- - Other	6	JP, US	0
	- Mixtures containing perhalogenated derivatives of acyclic hydrocarbons containing two or more different halogens			
3824710000	- - Containing acyclic hydrocarbons perhalogenated only with fluorine and chlorine	6	JP, US	0
3824790000	- - Other	6	JP, US	0
382490	- Other:			
3824901000	- - Petroleum sulphonates, excluding petroleum sulphonates of alkali metals, of ammonium or of ethanolamines; thiophenated sulphonic acids of oils obtained from bituminous minerals, and their salts	0	JP, US	
3824901500	- - Ion exchangers	0	JP, US	
3824902000	- - Getters for vacuum tubes	0	JP, US	0
3824902500	- - Pyrolignites (for example, of calcium); crude calcium tartrate; crude calcium citrate	0	JP, US	
3824903000	- - Alkaline iron oxide for the purification of gas	0	JP, US	
3824903500	- - Anti-rust preparations containing amines as active constituents	0	JP, US	0
3824904000	- - Inorganic composite solvents and thinners for varnishes and similar products	0	JP, US	
	- - Other:			
3824904500	- - - Anti-scaling and similar compounds	0	JP, US	
3824905000	- - - Preparations for electroplating	0	JP, US	
3824905500	- - - Mixtures of mono-, di- and tri-, fatty acid esters of glycerol (emulsifiers for fats)	0	JP, US	
	- - - Products and preparations for pharmaceutical or surgical uses:			
3824906100	- - - - Intermediate products of the antibiotics manufacturing process, obtained from the fermentation of Streptomyces tenebrarius, whether or not dried, for use in the manufacture of human medicaments of heading 3004	0	JP, US	
3824906200	- - - - Intermediate products from the manufacture of monesin salts	0	JP, US	
3824906400	- - - - Other	0	JP, US	
3824906500	- - - Auxiliary products for foundries (other than those falling within subheading 3824 10 00 00)	0	JP, US	
3824907000	- - - Fire-proofing, water-proofing and similar protective preparations used in the building industry	0	JP, US	
	- - - Other:			
3824907500	- - - - Lithium niobate wafers, undoped	0	JP, US	
3824908000	- - - - Mixture of amines derived from dimerized fatty acids, of an average molecular weight of 520 or more but not exceeding 550	0	JP, US	
3824908500	- - - - 3-(1-Ethyl-1-methylpropyl)isoxazol-5-ylamine, in the form of a solution in toluene	0	JP, US	
3824909900	- - - - Other	0	JP, US	

3825	Residual products of the chemical or allied industries, not elsewhere specified or included; municipal waste; sewage sludge; other wastes specified in note 6 to this chapter		
3825100000	-Municipal waste	25	JP, US
3825200000	-Sewage sludge	25	JP, US

	PLASTICS AND ARTICLES THEREOF		
	I. PRIMARY FORMS:		
3901	Polymers of ethylene, in primary forms		
390110	- Polyethylene having a specific gravity of less than 0,94.		
3901101000	- - Linear polyethylene	0	CA, JP, US
3901109000	- - Other	0	CA, JP, US
390120	- Polyethylene having a specific gravity of 0,94 or more:		
3901201000	- - Polyethylene, in one of the forms mentioned in note 6 (b) to this Chapter, of a specific gravity of 0.958 or more at 23° C, containing : - 50 mg/kg or less of aluminium, - 2 mg/kg or less of calcium, - 2 mg/kg or less of chromium, - 2 mg/kg or less of iron, - 2 mg/kg or less of nickel, - 2 mg/kg or less of titanium, - 8 mg/kg or less of vanadium, for the manufacture of chlorosulphonated polyethylene	0	CA, JP, US
3901209000	- - Other	0	CA, JP, US
3901300000	- Ethylene-vinyl acetate copolymers	0	JP
390190	- Other:		
3901901000	- - Ionomer resin consisting of a salt of a terpolymer of ethylene with isobutyl acrylate, and methacrylic acid	0	JP, US
3901902000	- - A-B-A block copolymer of polystyrene, ethylene- butylene copolymer and polystyrene, containing by weight 35% or less of styrene, in one of the forms mentioned in note 6(b) to this chapter	0	JP, US
3901909000	- - Other	0	JP, US
3902	Polymers of propylene or of other olefins, in primary forms:		
3902100000	- Polypropylene	0	JP, US
3902200000	- Polyisobutylene	0	JP, US
3902300000	- Propylene copolymers	0	JP, US
390290	- Other:		
3902901000	- - A-B-A block copolymer of polystyrene, ethylene- butylene copolymer and polystyrene, containing by weight 35% or less of styrene, in one of the forms mentioned in note 6(b) to this chapter	0	JP, US
3902902000	- - Polybut-1-ene, a copolymer of but-1 ene with ethylene containing by weight 10 % or less of ethylene, or a blend of polybut-1-ene with polyethylene and/or polypropylene containing by weight 10 % or less of polyethylene and/or 25 % or less of polypropylene, in one of the terms mentioned in note 6(b) to this chapter	0	JP, US
3902909000	- - Other	0	JP, US
3903	Polymers of styrene, in primary forms		
	- Polystyrene:		
3903110000	- - Expansible	0	JP, US
3903190000	- - Other	0	JP, US
3903200000	- Styrene-acrylonitrile (SAN) copolymers	0	JP, US
3903300000	- Acrylonitrile-butadiene-styrene (ABS) copolymers	0	JP, US
390390	- Other:		
3903901000	- - Copolymers, solely of styrene with allyl alcohol , of an acetyl value of 175 or more	0	JP, US
3903902000	- - Brominated polystyrene, containing by weight 58% or more but not more than 71% of bromine, in one of the forms mentioned in note 6(b) to this chapter	0	JP, US
3903909000	- - Other	0	JP, US
3904	Polymers of vinyl chloride or of other halogenated olefins, in primary forms		
3904100000	- Poly(vinyl chloride), not mixed with any other substances	3	JP, US
	-Other poly(vinyl chloride):		

3904210000	- - Non-plasticised	3			JP, US	
3904220000	- - Plasticised	3			JP, US	
3904300000	- Vinyl chloride-vinyl acetate copolymers	3			JP, US	
3904400000	- Other vinyl chloride copolymers	3			JP, US	
390450	- Vinylidene chloride polymers:					
3904501000	- - Copolymer of vinylidene chloride with acrylonitrile, in the form of expansible beads of a diameter of 4 micrometres or more but not more than 20 micrometres	3			JP, US	
3904509000	- - Other	3			JP, US	
	- Fluoro-polymers:					
3904610000	- - Polytetrafluoroethylene	3			JP, US	
390469	- Other:					
3904691000	- - - Poly (vinyl fluoride) in one of the forms mentioned in Note 6 (b) to this chapter	3			JP, US	
3904699000	- - - Other	3			JP, US	
3904900000	- Other	3			JP, US	
3905	Polymers of vinyl acetate or of other vinyl esters, in primary forms; other vinyl polymers in primary forms:					
	-Poly(vinyl acetate):					
3905120000	- - In aqueous dispersion	23.2	6.5	2012	JP, US	
3905190000	- - Other	23.2	6.5	2012	JP, US	
	- Vinyl acetate copolymers:					
3905210000	- - In aqueous dispersion	21.2	6	2007	JP, MY, US	
3905290000	- - Other	21.2	6	2007	JP, MY, US	
3905300000	-Poly(vinyl alcohol), whether or not containing unhydrolysed acetate groups	0			JP, US	
	- Other:					
3905910000	- - Copolymers	0			JP, US	
390599	- - Other:					
3905991000	- - - Poly(vinyl formal), in one of the forms mentioned in note 6 (b) to this chapter, of a molecular weight of 10 000 or more but not exceeding 40 000 and containing by weight :	0			JP, US	
	- 9,5% or more but not more than 13% of acetyl groups, evaluated as vinyl acetate and					
	- 5% or more but not more than 6,5% of hydroxy groups evaluated as vynil alcohol					
3905999000	- - - Other	0			JP, US	
3906	Acrylic polymers in primary forms					
3906100000	-Poly(methyl methacrylate)	0			JP, US	
390690	- Other:					
3906901000	- - Poly[N-(3-hydroxyimino-1,1-dimethylbutyl)acrylamide]	0			JP, US	
3906902000	- - Copolymer of 2-diisopropylaminoethyl methacrylate with decyl methacrylate, in the form of a solution in N,N-dimethylacetamide containing by weight 55% or more of copolymer	0			JP, US	
3906903000	- - Copolymer of acrylic acid with 2-ethylhexyl acrylate, containing by weight 10% or more but not more than 11% of 2-ethylhexyl acrylate	0			JP, US	
3906904000	- - Copolymer of acrylonitrile and methylacrylate modified with polybutadiene- acrylonitrile (NBR)	0			JP, US	
3906905000	- - Polymerization product of acrylic acid, with alkyl methacrylate and small quantities of other monomers, for use as a thickeners in the manufacture of textile printing pastes	0			JP, US	
3906906000	- - Copolymer of methyl acrylate with ethylene and a monomer containing a non-terminal carboxy group as a substituent, containing by weight 50% or more of methyl acrylate, whether or not compounded with silica	0			JP, US	
3906909000	- - Other	0			JP, US	
3907	Polyacetals, other polyethers and epoxide resins, in primary forms; polycarbonates, alkyd resins, polyallyl esters and other polyesters, in primary forms:					
3907100000	- Polyacetals	5			JP, US	
390720	- Other polyethers:					
	- - Polyether alcohols:					
3907201100	- - - Polyethylene glycols	3			JP, US	
	- - - Other:					
3907202100	- - - - With a hydroxyl number not exceeding 100	3			JP, US	
3907202900	- - - - Other	3			JP, US	
	- - Other:					
3907209100	- - - Copolymer of 1-chloro-2,3-epoxypropane with ethylene oxide	3			JP, US	
3907209900	- - - Other	3			JP, US	
3907300000	- Epoxide resins	3			JP, US	
3907400000	- Polycarbonates	3			JP, US	
3907500000	- Alkyd resins	3			JP, US	

390760	-Poly(ethylene terephthalate)		
3907602000	- - Having viscosity number of 78 ml/g or higher	5	JP, US
3907608000	- - Other	5	JP, US
	- Other polyesters:		
390791	- - Unsaturated:		
3907911000	- - - Liquid	3	JP, US
3907919000	- - - Other	3	JP, US
390799	- - Other:		
	- - - With a hydroxyl number not exceeding 100:		
3907991100	- - - - Poly(ethylene naphthalene-2,6-dicarboxylate)	5	JP, US
3907991900	- - - - Other	5	JP, US
	- - - Other:		
3907999100	- - - - Poly(ethylene naphthalene-2,6-dicarboxylate)	5	JP, US
3907999900	- - - - Other	5	JP, US
3908	Polyamides in primary forms.		
3908100000	- Polyamide -6, -11, -12, -6,6, -6,9, -6,10 or -6,12	0	JP, US
3908900000	- Other	5	JP, US
3909	Amino-resins, phenolic resins and polyurethanes, in primary forms:		
3909100000	- Urea resins; thiourea resins	5	JP, US
3909200000	- Melamine resins	5	JP, US
3909300000	- Other amino-resins	5	JP, US
3909400000	- Phenolic resins	5	JP, US
390950	- Polyurethanes:		
3909501000	- - Polyurethane of 2,2'-(tert-butylimino)diethanol and 4,4'-methylenedicyclohexyl diisocyanate, in the form of a solution in N,N-diamethylacetamide, containing by weight 50 % or more of polymer	5	JP, US
3909509000	- - Other	5	JP, US
3910000000	Silicones in primary forms	0	JP, US
3911	Petroleum resins, coumarone-indene resins, polyterpenes, polysulphides, polysulphones and other products specified in note 3 to this chapter, not elsewhere specified or included, in primary forms:		
3911100000	- Petroleum resins, coumarone, indene or coumarone-indene resins and polyterpenes	3	JP, US
391190	- Other:		
	- - Condensation or rearrangement polymerisation products whether or not chemically modified:		
3911901100	- - - Poly(oxy-1,4-phenylenesulphonyl-1,4 phenyleneoxy-1,4-phenyleneiso propylidene-1,4- phenylene) in one of the forms mentioned in Note 6 (b) to this chapter	3	JP, US
3911901300	- - - Poly(thio-1,4-phenylene)	3	JP, US
3911901900	- - - Other	3	JP, US
	- - Other:		
3911909100	- - - Copolymer of p-cresol and divinylbenzene, in the form of a solution in N,N- dimethylacetamide, containing by weight 50% or more of polymer	3	JP, US
3911909300	- - - Hydrogenated copolymers of vinyltoluene and alpha-methylstyrene	3	JP, US
3911909900	- - - Other	3	JP, US
3912	Cellulose and its chemical derivatives, not elsewhere specified or included, in primary forms:		
	- Cellulose acetates:		
3912110000	- - Non-plasticised	5	JP, US
3912120000	- Plasticized	5	JP, US
391220	- Cellulose nitrates (including collodions)		
	- - Non-plasticised:		
3912201100	- - - Collodions and celloidin	5	JP, US
3912201900	- - - Other	5	JP, US
3912209000	- - Plasticised	5	JP, US
	- Cellulose ethers:		
3912310000	- - Carboxymethylcellulose and its salts	5	JP, US
391239	- Other:		
3912391000	- - - Ethylcellulose	5	JP, US
3912392000	- - - Hydroxypropylcellulose	5	JP, US
3912398000	- - - Other	5	JP, US
391290	- Other:		
3912901000	- - Cellulose esters	5	JP, US
3912909000	- - Other	5	JP, US
3913	Natural polymers (for example, alginic acid) and modified natural polymers (for example, hardened proteins, chemical derivatives of natural rubber), not elsewhere specified or included, in primary forms:		

3913100000	- Alginic acid, its salts and esters	5			JP, US	
391390	- Other:					
3913901000	- - Chemical derivatives of natural rubber	5			JP, US	
3913902000	- - Amylopectin	5			JP, US	
3913903000	- - Amylose	5			JP, US	
3913908000	- - Other	5			JP, US	
3914000000	Ion-exchangers based on polymers of headings 3901 to 3913, in primary forms	5			JP, US	
	II. WASTE, PARINGS AND SCRAP, SEMI-MANUFACTURES, ARTICLES					
3915	Waste, parings and scrap, of plastics					
3915100000	- Of polymers of ethylene	19.6	6	2007	JP, US	
3915200000	- Of polymers of styrene	19.6	6	2007	JP, US	
3915300000	- Of polymers of vinyl chloride	19.6	6	2007	JP, US	
391590	- Of other plastics:					
	- - Of addition polymerisation products					
3915901100	- - - Of polymers of propylene	13.2	6	2007	JP, US	
3915901300	- - - Of acrylic polymers	13.2	6	2007	JP, US	
3915901900	- - - Other	13.2	6	2007	JP, US	
	- - Other:					
3915909100	- - - Of epoxide resins	13.2	6	2007	JP, US	
3915909300	- - - Of cellulose and its chemical derivatives	13.2	6	2007	JP, US	
3915909900	- - - Other	13.2	6	2007	JP, US	
3916	Monofilament of which any cross-sectional dimension exceeds 1 mm, rods, sticks and profile shapes, whether or not surface worked but not otherwise worked, of plastics:					
3916100000	- Of polymers of ethylene	13.2	6	2007	JP, US	
391620	- Of polymers of vinyl chloride					
3916201000	- - Of poly (vinyl chloride)	13.2	6	2007	JP, US	
3916209000	- - Other	13.2	6	2007	JP, US	
391690	- Of other plastics:					
	- - Of condensation or rearrangement polymerisation products, whether or not chemically modified:					
3916901100	- - - Of polyesters	13.2	6	2007	JP, US	
3916901300	- - - Of polyamides	13.2	6	2007	JP, US	
3916901500	- - - Of epoxide resins	13.2	6	2007	JP, US	
3916901900	- - - Other	13.2	6	2007	JP, US	
	- - Of addition polymerisation products					
3916905100	- - - Of polymers of propylene	13.2	6	2007	JP, US	
3916905900	- - - Other	13.2	6	2007	JP, US	
3916909000	- - Other	13.2	6	2007	JP, US	
3917	Tubes, pipes and hoses, and fittings therefor (for example, joints, elbows, flanges), of plastics:					
391710	- Artificial guts (sausage casings) of hardened protein or of cellulosic materials:					
3917101000	- - Of hardened protein	6			JP, US	
3917109000	- - Of cellulosic materials	6			JP, US	
	- Tubes, pipes and hoses, rigid					
391721	- - Of polymers of ethylene					
3917211000	- - - Seamless and of a length exceeding the maximum cross-sectional dimension, whether or not surface worked, but not otherwise worked	17.3	6.5	2007	JP, US	
	- - - Other:					
3917219100	- - - - With fittings attached, for use in civil aircraft	0			JP, US	
3917219900	- - - - Other	17.3	6.5	2007	JP, US	
391722	- - Of polymers of propylene					
3917221000	- - - Seamless and of a length exceeding the maximum cross-sectional dimension, whether or not surface-worked, but not otherwise worked	17.3	6.5	2007	JP, US	
	- - - Other:					
3917229100	- - - - With fittings attached, for use in civil aircraft	0			JP, US	
3917229900	- - - - Other	17.3	6.5	2007	JP, US	
391723	- - Of polymers of vinyl chloride:					
3917231000	- - - Seamless and of a length exceeding the maximum cross-sectional dimension, whether or not surface-worked, but not otherwise worked	27.7	6.5	2012	JP, US	
	- - - Other:					
3917239100	- - - - With fittings attached, for use in civil aircraft	0			JP, US	
3917239900	- - - - Other	27.7	6.5	2012	JP, US	
391729	- - Of other plastics					
	- - - Seamless and of a length exceeding the maximum cross-sectional dimension whether or not surface-worked, but not otherwise worked					
3917291200	- - - - Of condensation or rearrangement polymerization products, whether or not chemically modified	6			JP, US	

3917291500	- - - Of addition polymerization products	6			JP, US	
3917291900	- - Other	6			JP, US	
	- Other					
3917299100	- - - With fittings attached, for use in civil aircraft	0			JP, US	
3917299900	- - - Other	6			JP, US	
	Other tubes, pipes and hoses.					
391711	- Flexible tubes, pipes and hoses, having a minimum burst pressure of 27,6 MPa:					
3917311000	- - - With fittings attached, for use in civil aircraft	0			JP, US	
3917319000	- - Other	13.2	6	2007	JP, US	
391732	- - Other, not reinforced or otherwise combined with other materials, without fittings:					
	- - - Seamless and of a length exceeding the maximum cross-sectional dimension, whether or not surface-worked, but not otherwise worked:					
3917321000	- - - - Of condensation or rearrangement polymerization products, whether or not chemically modified	12	6	2005	JP, US	0
	- - - - Of addition polymerization products:					
3917323100	- - - - - Of polymers of ethylene	12	6	2005	JP, US	
3917323500	- - - - - Of polymers of vinyl chloride	12	6	2005	JP, US	0
3917323900	- - - - - Other	12	6	2005	JP, US	0
3917325100	- - - - Other	12	6	2005	JP, US	0

3917399100	- - - With fittings attached, for use in civil aircraft	0			JP, US	
3917399900	- - - Other	15.3	6	2005	JP, US	
391740	- Fittings:					
3917401000	- - For use in civil aircraft	0			JP, US	
3917409000	- - Other	27.7	6.5	2012	JP, US	
3918	Floor coverings of plastics, whether or not self- adhesive, in rolls or in the form of tiles; wall or ceiling coverings of plastics, as defined in note 9 to this chapter:					
391810	- Of polymers of vinyl chloride:					
3918101000	- - Consisting of a support impregnated, coated or covered with poly (vinyl chloride)	27.7	6.5	2012	JP, US	
3918109000	- - Other	27.7	6.5	2012	JP, US	
3918900000	- Of other plastics	27.7	6.5	2012	JP, US	
3919	Self-adhesive plates, sheets, film, foil, tape, strip and other flat shapes, of plastics, whether or not in rolls:					
391910	- In rolls of a width not exceeding 20 cm:					
	- - Strips, the coating of which consists of unvulcanised natural or synthetic rubber:					
3919101100	- - - Of plasticized poly (vinyl chloride) or of polyethylene	27.7	6.5	2012	JP, US	
3919101300	- - - Of non-plasticised poly (vinyl chloride)	27.7	6.5	2012	JP, US	
3919101500	- Of polypropylene	27.7	6.5	2012	JP, US	
3919101900	- - - Other	27.7	6.5	2012	JP, US	
	- - Other:					
	- - - Of condensation or rearrangement polymerization products, whether or not chemically modified:					
3919103100	- - - - Of polyesters	5			JP, US	
3919103800	- - - - Other	27.7	6.5	2012	JP, US	
	- - - Of addition polymerization products:					
3919106100	- - - - Of plasticized poly (vinyl chloride) or of polyethylene	5			JP, US	
3919106900	- - - - Other	27.7	6.5	2012	JP, US	
3919109000	- - Other	27.7	6.5	2012	JP, US	
391990	- Other:					
3919901000	- - Further worked than surface-worked, or cut to shapes other than rectangular (including square)	27.7	6.5	2012	JP, US	
	- Other:					

	- - Of condensation or rearrangement polymerization products, whether or not chemically modified:				
3919903100	- - - - Of polycarbonates, alkyd resins, polyallyl esters or other polyesters	27.7	6.5	2012	JP, US
3919903800	- - - - Other	27.7	6.5	2012	JP, US
	- - Of addition polymerization products				
3919906100	- - - - Of plasticised poly (vinyl chloride) or of polyethylene	27.7	6.5	2012	JP, US
3919906900	- - - - Other	27.7	6.5	2012	JP, US
3919909000	- - - Other	27.7	6.5	2012	JP, US
3920	Other plates, sheets, film, foil and strip, of plastics, non-cellular and not reinforced laminated, supported or similarly combined with other materials:				
392010	- Of polymers of ethylene:				
	- - Of a thickness not exceeding 0,125 mm:				
	- - - Of polyethylene having a specific gravity of:				
	- - - - Less than 0,94:				
3920102300	- - - - - Polyethylene film, of a thickness of 20 micrometres or more but not exceeding 40 micrometres, for the production of photo-resist film used in the manufacture of semiconductors or printed circuits	0			JP, US
	- - - - - Other:				
	- - - - - - Not printed:

8469300000	- Other typewriters, non-electric	8	0	2007	JP	0
8470	Calculating machines and pocket-size data recording, reproducing and displaying machines with calculating functions; accounting machines, postage-franking machines, ticket-issuing machines and similar machines, incorporating a calculating device; cash registers:					
8470100000	- Electronic calculators capable of operation without an external source of electric power and pocket-size data recording, reproducing and displaying machines with calculating functions	6.7	0	2005	JP, US	0
	- Other electronic calculating machines:					
8470210000	- - Incorporating a printing device	6.7	0	2005	JP, US	0
8470290000	- - Other	6.7	0	2005	JP, US	0
8470300000	- Other calculating machines	6.7	0	2005	JP, US	0
8470400000	- Accounting machines	6.7	0	2005	JP, US	0
8470500000	- Cash registers	6.7	0	2005	JP, US	0
8470900000	- Other	6.7	0	2005	JP, US	0
8471	Automatic data processing machines and units thereof; magnetic or optical readers, machines for transcribing data onto data media in coded form and machines for processing such data, not elsewhere specified or included:					
847110	- Analogue or hybrid automatic data processing					
8471101000	- - For use in civil aircraft	0			JP, US	0
8471109000	- - Other	0			JP, US	0
8471300000	- Portable digital automatic data-processing machines, weighing not more than 10 kg, consisting of at least a central processing unit, a keyboard and a display	0			JP, US	0
	- Other digital automatic data-processing machines:					
847141	- - Comprising in the same housing at least a central processing unit and an input and output unit, whether or not combined:					
8471411000	- - - For use in civil aircraft	0			JP, US	0
8471419000	- - - Other	0			JP, US	0
847149	- - Other, presented in the form of systems:					
8471491000	- - - For use in civil aircraft	0			JP, US	0

8471705300	- - - - - Hard disk drives	0			JP, US	0
8471705900	- - - - - - Other	0			JP, US	0
8471706000	- - - Magnetic tape storage units	0			JP, US	0
8471709000	- - - Other	0			JP, US	0
8471800000	- Other units of automatic data-processing machines	0			JP, US	0
8471900000	- Other	0			JP, US	0
8472	Other office machines (for example hectograph or stencil duplicating machines, addressing machines, automatic banknote dispensers, coin-sorting machines, coin-counting or wrapping machines, pencil-sharpening machines, perforating or stapling machines):					
8472100000	- Duplicating machines	0			JP	0
8472200000	- Addressing machines and address plate embossing machines	0			JP	0
8472300000	- Machines for sorting or folding mail or for inserting mail in envelopes or bands, machines for opening, closing or sealing mail and machines for affixing or cancelling postage stamps	0			JP	0
847290	- Other:					
8472901000	- - Coin-sorting, coin-counting or coin wrapping	0			JP	0
8472903000	- - Automatic teller machines	0			JP, US	0
8472908000	- - Other	0			JP	0
8473	Parts and accessories (other than covers, carrying cases and the like) suitable for use solely or principally with machines of headings 8469 to 8472:					
847310	- Parts and accessories of the machines of heading 8469:					
	- - Electronic assemblies					
8473101100	- - - Of machines of subheading 8469.11.00	3.3	0	2005	JP, US	0
8473101900	- - - Other	5			JP	0
8473109000	- - Other	5			JP	0

8477809100	— Size reduction equipment	8			JP	0
8477809300	— Mixers, kneaders and agitators	8			JP	0
8477809500	— Cutting, splitting and peeling machines	8			JP	0
8477809900	—Other	8			JP	0
847790	- Parts:					
8477900500	- - For machines of subheadings 8477 10 10 and 8477 59 05	0			JP, US	0
	- - Other:					
8477901000	- - - Of cast iron or cast steel	0			JP, US	0
8477908000	- - Other	0			JP, US	0

8478	Machinery for preparing or making up tobacco, not specified or included elsewhere in this Chapter:			
8478100000	- Machinery	0	JP	0
8478900000	- Parts	0	JP	0
8479	Machines and mechanical appliances having individual functions, not specified or included elsewhere in this Chapter:			
8479100000	- Machinery for public works, building or the like	0	JP, US	0
8479200000	- Machinery for the extraction or preparation of animal or fixed vegetable fats or oils	0	JP	0
847930	- Presses for the manufacture of particle board or fibre building board of wood or other ligneous materials and other machinery for treating wood or cork:			
8479301000	- - Presses	0	JP	0
8479309000	- - Other	0	JP	0
8479400000	- Rope or cable-making machines	0	JP	0
8479500000	- Industrial robots, not elsewhere specified or included	0	JP, US	0
8479600000	- Evaporative air coolers	0	JP	0
	- Other machines and mechanical appliances:			
8479810000	- - For treating metal, including electric wire coil-winders	0	JP	0
8479820000	- - Mixing, kneading, crushing, grinding, screening, sifting, homogenising emulsifying or stirring machines	0	JP	0
847989	- - Other:			
8479891000	- - - The following goods, for use in civil aircraft : Hydropneumatic batteries; Mechanical actuators for thrust reversers; Toilet units specially designed; Air humidifiers and dehumidifiers; Servo-mechanisms, non- electric; Non-electric start motors; Pneumatic starters for turbo jets, turbo-jets,turbo-propellers and other gas turbines; Windscreen wipers, non-electric Propeller regulators,non-electric	0	CA, JP, US	0
	- - - Other:			
8479893000	- - - - Mobile hydraulic powered mine roof supports	0	CA, JP, US	0
8479896000	- - - - Central greasing systems	0	CA, JP, US	0
8479896500	- - - - Apparatus for growing or pulling monocrystal semiconductor boules	0	CA, JP, US	0
8479897000	- - - - Apparatus for epitaxial deposition on semiconductor wafers	0	CA, JP, US	0
8479897300	- - - - Apparatus for wet etching, developing, stripping or cleaning semiconductor wafers or cleaning flatpanel display substrates	0	CA, JP, US	0
8479897700	- - - - Die attach apparatus and tape automated bonders for assembly of semiconductor devices	0	CA, JP, US	0
8479897900	- - - - Encapsulation equipment for assembly of semiconductor devices	0	CA, JP, US	0
8479899100	- - - - Machines for glazing and decorating ceramic products	0	CA, JP, US	0
8479899600	- - - - Other	0	CA, JP, US	0
847990	- Parts:			
8479901000	- - For use in civil aircraft	0	CA, JP, US	0

8511900000	- Parts	8			JP	0
8512	Electrical lighting or signalling equipment (excluding articles of heading 8539), windscreen wipers, defrosters and demisters, of a kind used for cycles or motor vehicles.					
8512100000	- Lighting or visual signalling equipment of a kind used on bicycles	8			JP	0
8512200000	- Other lighting or visual signalling equipment	8			JP	0
8512300000	- Sound signalling equipment	8			JP	0
8512400000	- Windscreen wipers, defrosters and demisters	8			JP	0
8512900000	- Parts	8			JP	0
8513	Portable electric lamps designed to function by their own source of energy (for example, dry batteries, accumulators, magnetos), other than lighting equipment of heading 8512:					
8513100000	- Lamps	9	5	2007	JP, US	0
8513900000	- Parts	8			JP	0
8514	Industrial or laboratory electric furnaces and ovens (including those functioning by induction or dielectric loss); other industrial or laboratory equipment for the heat treatment of materials by induction or dielectric loss:					
851410	Resistance heated furnaces and ovens:					
8514100500	- - For the manufacture of semiconductor devices on semiconductor wafers	5.3	0	2005	JP, US	0
	- - Other:					
8514101000	- - - Bakery and biscuit ovens	5.3	0	2005	JP, US	0
8514108000	- - - Other	5.3	0	2005	JP, US	0
851420	Furnaces and ovens functioning by induction or dielectric loss:					
8514200500	- - For the manufacture of semiconductor devices on semiconductor wafers	5.3	0	2005	JP, US	0
	- - Other:					
8514201000	- - - Induction furnaces and ovens	5.3	0	2005	JP, US	0
8514208000	- - - Dielectric furnaces and ovens	5.3	0	2005	JP, US	0
851430	Other furnaces and ovens:					
	- - Infra-red radiation ovens:					
8514301100	- - - For the manufacture of semiconductor devices on semiconductor wafers	5.3	0	2005	JP, US	0
8514301900	- - - Other	5.3	0	2005	JP, US	0
	Other					
8514309100	- - - For the manufacture of semiconductor devices on semiconductor wafers	5.3	0	2005	JP, US	0

8514400000	- Other equipment for the heat treatment of materials by induction or dielectric loss	5.3	0	2005	JP	0
851490	- Parts:					
8514902000	- - Of machines of subheading 8514.10	0			JP, US	0

	05, 8514 20 05, 8514 30 11 or 8514 30 91					
8514908000	- - Other	0			JP, US	0
8515	Electric (including electrically heated gas), laser or other light or photon beam, ultrasonic, electron beam, magnetic pulse or plasma arc soldering, brazing or welding machines and apparatus, whether or not capable of cutting; electric machines and apparatus for hot spraying of metals or cermets:					
	- Brazing or soldering machines and apparatus:					
8515110000	- - Soldering irons and guns	13			JP	0
8515190000	- - Other	13			JP	0
	- Machines and apparatus for resistance welding of metal:					
8515210000	- - Fully or partly automatic	13			JP	0
851529	- - Other:					
8515291000	- - - For butt welding	13			JP	0
8515299000	- - - Other	13			JP	0
	- Machines and apparatus for arc (including plasma arc) welding of metals					
8515310000	- - Fully or partly automatic	13			JP	0
851539	- - Other:					
	- - - For manual welding with coated electrodes, complete with welding or cutting devices, and consigned with:					
8515391300	- - - - Transformers	15			JP, MY	0
8515391800	- - - - Generators or rotary converters or static converters, rectifiers or rectifying apparatus	15			JP, MY	0
8515399000	- - - Other	15			JP, MY	0
851580	Other machines and apparatus					
8515800500	- - Wire bonders of a kind used for the manufacture of semiconductor devices	12	0	2005	JP, MY, US	0
	- - Other:					
	- - - For treating metals					
8515801100	- - - - For welding	15			JP, MY	0

Photomicrographic microscopes fitted with equipment specifically designed for the handling and transport of semiconductor wafers or reticles	90112010
Parts and accessories of optical stereoscopic microscopes fitted with equipment specifically designed for the handling and transport of semiconductor wafers or reticles	90119010
Parts and accessories of photomicrographic microscopes fitted with equipment specifically designed for the handling and transport of semiconductor wafers of reticles	90119010
Electron beam microscopes fitted with equipment specifically designed for the handling and transport of semiconductor wafers or reticles	90121010
Parts and accessories of electron beam microscopes fitted with equipment specifically designed for the handling and transport of semiconductor wafers or reticles	90129010
Pattern generating apparatus of a kind used for producing masks or reticles from photoresist coated substrates	90061010,90172031
Parts and accessories from pattern generating apparatus of a kind used for producing masks or reticles from photoresist coated substrates	90069110,90179010
Parts of such pattern generating apparatus	90179010
Computers : automatic data processing machines capable of 1) storing the processing program or programs and at least the data immediately necessary for the execution of the program; 2) being freely programmed in accordance with the requirements of the user; 3) performing arithmetical computation specified by the user; and 4) executing, without human intervention, a processing program which requires them to modify their execution, by logical decision during the processing run. The agreement covers such automatic data processing machines whether or not they are able to receive and process with the assistance of central processing unit telephony signals, television signals, or other analogue or digitally processed audio or video signals. Machines performing a specific function other than data processing, or incorporating or working in conjunction with an automatic data processing machine, and not otherwise specified under Attachment A or B, are not covered by this agreement.	84711090,84713000,84714190,84714990,84714990,84715090,85281210,8528130010,8528130090,85438917
Electric amplifiers when used as repeaters in line telephony products falling within this agreement, and parts thereof	85175010,85178090
Flat panel display devices (including LCD, Electro Luminescence, Plasma, Vacuum-Fluorescence and other technologies) for products falling within this agreement, and parts thereof	84716090,84733010,84733090,85312030,85312050,85312080,85318030,85319020,90138020,90138030,90139010
Network equipment : Local Area Network (LAN) and Wide Area Network (WAN) apparatus, including those products dedicated for use solely or principally to permit the interconnection of automatic data processing machines and units thereof for a network that is used primarily for the sharing of resources such as central processor units, data storage devices and input or output units - including adapters, hubs, in-line repeaters, converters, concentrators, bridges and routers, and printed circuit assemblies for physical incorporation into automatic data processing machines and units thereof	84715090,84716090,85175090
Monitors : display units of automatic data processing machines with a cathode ray tube with a dot screen pitch smaller than 0.4 mm not capable of receiving and processing television signals or other analogue or digitally processed audio or video signals without assistance of a central processing unit of a computer as defined in this agreement. The agreement does not, therefore, cover televisions, including high definition televisions.	84716090
Optical disc storage units, for automatic data processing machines (including CD drives and DVD-drives), whether or not having the capability of writing/recording as well as reading, whether or not in their own housings.	84717051
Paging alert devices, and parts thereof.	85279092,85299040
Plotters whether input or output units of HS heading No 8471 or drawing or drafting machines of HS heading No 9017.	84716090,84718000,90171010,90172005
Printed Circuit Assemblies for products falling within this agreement, including such assemblies for external connections such as cards that conform to the PCMCIA standard. Such printed circuit assemblies consist of one or more printed circuits of heading 8534 with one or more active elements assembled thereon, with or without passive elements "Active elements" means diodes, transistors, and similar semiconductor devices, whether or not photosensitive, of heading 8541, and integrated circuit and micro assemblies of heading 8542.	84731011,84732110,84732910,84733010,84734011,84735010,85049005,85049091,85178090,85179011,85179082,85229051,85281290,85299040,85319020,85439020,85439030,85489010,90269090,90279050,90309020
Projection type flat panel display units used with automatic data processing machines which can display digital information generated by the central processing unit.	84716090,85283005,85318030
Proprietary format storage device including media therefor for automatic data processing machines, with or without removable media and whether magnetic, optical or other technology, including Bernoulli Box, Syquest, or Zipdrive cartridge storage units.	84717051,84717053,84717059,84717060,84717090,85232010,85232090,85239000,85243100,85243910,85244000,85249100,85249910
Multimedia upgrade kits for automatic data processing machines, and units thereof, put up for retail sale, consisting of, at least, speakers and/or microphones as well as a printed circuit assembly that enables the ADP machines and units thereof to process audio signals (sound cards)	85438979
Set top boxes which have a communication function : a microprocessor-based device incorporating a modem for gaining access to the Internet, and having a function of interactive information exchange.	85175090,85178090,85252099,85281291

CPC codes inscribed in this schedule are those contained in document: Statistical Papers Series M No. 77, Provisional Central Product Classification, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991.			
	Commercial Presence In order to supply services, foreign service provider is required to be registered in the Republic of Macedonia as a sole proprietor, a trading company[1], or as a branch. A representative office registered in the Republic of Macedonia cannot conduct business operations.		
	Temporary Entry and Stay of Natural Persons		
	(i) Intracorporate transferees Natural persons being temporarily transferred to supply services through commercial presence in the territory of the Republic of Macedonia. Intracorporate transferees are persons occupying senior managerial or executive positions. This category also includes specialists - natural persons possessing high or uncommon qualifications or knowledge essential for the functioning of the company, which are important to the services that the company supplies, and who posses knowledge of the organization's services, research equipment, techniques or management For temporary stay of intracorporate transferees a temporary residence clearance is valid up to three years and is renewable upon request up to two years.		
	(ii) Business visitors Natural persons who stay temporarily in the Republic of Macedonia in order to conclude the contract for the sale of a service on behalf of the enterprise they are employed or mandated for or participate in business meetings, fairs and other similar activities. Business visitors are persons not based in the Republic of Macedonia and receiving no remuneration from a source located in the Republic of Macedonia, who are engaged in activities related to representing a services supplier for the purpose of negotiating for the sale of the services of that supplier. Those representatives cannot be engaged in making direct sales to the general public or in supplying services themselves. The duration of temporary stay for business visitors is limited to 90 days with the possibility of renewal upon request.		
		Real Estate and Land Rights (1) Unbound (2) Unbound (3) None for ownership of buildings of foreign providers registered in the Republic of Macedonia as sole proprietor or trade company. (4) Unbound	
		Subsidies (1) (2) (3) (4) Eligibility for subsidies reserved for national services and service suppliers.	

[1] Pursuant to Article 16 from the Law on Trading Companies.

A trading company is an association of two or more natural or legal persons that make monetary or non-monetary contributions or contribute rights in property which are used for joint operations and who share the profit or losses from such operations.

A trading company shall be an independent and permanent legal person which undertakes activities for the purpose of realizing profit.

A trading company may be incorporated by one person (company incorporated by a single person) as provided by this Law.

The Law on Trading Companies, Article 18, offers the following forms of trading companies: 1) General Partnership; 2) Limited Partnership; 3) Limited Liability Company; 4) Joint-Stock Company; or 5) Limited Stock Partnership.

Modes of supply: (1) Cross border supply (2) Consumption abroad (3) Commercial presence (4) Presence of natural persons

REFERENCE PAPER

Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

Definitions

Users mean service consumers and service suppliers

Essential facilities mean facilities of a public telecommunications transport network or service that

(a) are exclusively or predominantly provided by a single or limited number of suppliers, and

(b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

(a) control over essential facilities; or

(b) use of its position in the market

1 Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

(a) engaging in anti-competitive cross-subsidization;

(b) using information obtained from competitors with anti-competitive results; and

(c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

2 Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided:

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;

(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and

(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either

(a) at any time or

(b) after a reasonable period of time which has been made publicly known to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3 Universal service

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

4 Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

(a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and

(b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5 Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6 Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

List of Article II (MFN) Exemptions of the Republic of Macedonia

Sector or subsector	Description of measure indicating its inconsistency with Article II	Countries to which the measure applies	Intended duration	Conditions creating the need for the exemption
Real estate and Land All Sectors	Foreign natural persons may by inheritance obtain a right to ownership of real estate and land on the territory of the Republic of Macedonia, under condition of reciprocity. Foreign legal persons may, under condition of reciprocity, obtain a right to ownership of real estate and land on the territory of the Republic of Macedonia through inheritance, on the basis of a testament. A foreign natural person may, under condition of reciprocity, obtain a right to ownership of a flat or a building in the Republic of Macedonia. A foreign natural person may, under condition of reciprocity, obtain a right to ownership and right to a long-term lease of business premises on the territory of the Republic of Macedonia. A foreign natural or legal person may, under conditions of reciprocity, obtain a right to a long-term lease of building land for construction of business buildings and premises and apartment buildings and apartments on the territory of the Republic of Macedonia. Building land can be owned by domestic natural and legal persons only. Foreign natural and legal persons are only permitted to acquire long-term leases of no more than 99 years. A foreign natural or legal person may, under conditions of reciprocity, obtain a right to long-term lease of agricultural land on the territory of the Republic of Macedonia.	All countries	Indefinite	Requirements of bilateral and regional commitments.
Legal Services (excluding consultancy on home country, foreign and international law)	Legal services of foreign suppliers may be provided on the basis of reciprocity	All countries	Indefinite	Reciprocal coordination of the legal profession within the overall regional development of judicial and administrative institutions.
Audiovisual Services -Production and distribution of cinematographic works and television programmes	Measures based upon government-to-government framework agreements, and plurilateral agreements, on co-production of audiovisual works, which confer national treatment to audiovisual works covered by these agreements, in particular in relation to distribution and access to funding.	All countries with whom cultural co-operation may be desirable.	Indefinite	The aim of these agreements is to promote cultural links between the countries concerned.
Audiovisual services - Production and distribution of audiovisual works through broadcasting or other forms of transmission to the public	Measures which define works of European origin in such a way as to extend national treatment to audiovisual works which meet certain linguistic and origin criteria regarding access to broadcasting or similar forms of transmission.	European countries	Indefinite	The measures aim, within the sector, to promote cultural values both within EC Member States, and with other countries in Europe, as well as achieving linguistic policy objectives.
Audiovisual Services - Production and distribution of television programmes and cinematographic works	Measures granting the benefit of any support programmes (such as Action Plan for Advanced Television Services, EURECA Audiovisuel, MEDIA or EURIMAGES) to audiovisual works, and suppliers of such works, meeting certain European origin criteria.	European countries	Indefinite. Exemption needed, for certain countries, only until an economic integration agreement is concluded or completed.	These programmes aim at preserving and promoting the regional identity of countries within Europe which have long standing cultural links.
Educational Services	Preferences may be extended in implementation of student exchange programs, for visits by educators, and for educational institutions in order to promote cooperation in cultural exchange.	All countries	Indefinite	The requirement for particular international participation in the development of general and specialized educational programs, including special regional or international programs.

Sector or subsector	Description of measure indicating its inconsistency with Article II	Countries to which the measure applies	Intended duration	Conditions creating the need for the exemption
CRS and sales and marketing of air transport services	The obligations of CRS system vendors or of parent and participating air carriers shall not apply where equivalent treatment is not accorded in the country of origin of the parent carrier or of the system vendor.	All countries where a CRS system vendor or a parent air carrier is located.	Indefinite	The need for the exemption results from the insufficient development of multilaterally agreed rules for the operation of CRS.
Road Transport Services	Measures applied under existing or future agreements with the governments of other countries offer favourable treatment.	All countries with which the Republic of Macedonia has agreements on road transport in force.	Indefinite	The need for exemption is linked to the region characteristics of the road transport services and to the necessity to regulate traffic rights in and across the territory of the Republic of Macedonia and between the Republic of Macedonia and the countries concerned.

REPORT OF THE WORKING PARTY ON THE ACCESSION OF THE REPUBLIC OF MACEDONIA

Introduction

1. The Government of the Republic of Macedonia applied for accession to the World Trade Organization in December 1994 (document PC/W/18). At its meeting on 21 December 1994, the Preparatory Committee for the World Trade Organization established a Working Party to examine the application of the Government of the Republic of Macedonia to accede to the World Trade Organization under Article XII of the Marrakesh Agreement Establishing the WTO. The terms of reference and the membership of the Working Party are reproduced in document WT/ACC/807/1/Rev.9

2. The Working Party met on 10 July 2000; 15 March and 7 December 2001; 23 May and 17 September 2002 under the Chairmanship of H.E. Mr. K. Bryn (Norway).

Documentation provided

3. The Working Party had before it, to serve as a basis for its discussions, a Memorandum on the Foreign Trade Regime of the Republic of Macedonia, the questions submitted by Members on the foreign trade regime of the Republic of Macedonia, together with the replies thereto, and other information provided by the authorities of the Republic of Macedonia (WT/ACC/807/2; WT/ACC/807/3; WT/ACC/807/5 and Addenda 1 (and Corrigendum 1), 2, 3 and 4; WT/ACC/807/8 and Addendum 1; WT/ACC/807/9; WT/ACC/807/10; WT/ACC/807/11; WT/ACC/807/12; WT/ACC/807/13 and Revisions 1 and 2; WT/ACC/807/17 and Revisions 1, 2, 3 and 4; WT/ACC/807/18; WT/ACC/807/23; WT/ACC/807/25, and WT/ACC/807/26), including the legislative texts and other documentation listed in Annex 1.

Introductory statements

4. The representative of the Republic of Macedonia said that the Republic of Macedonia had suffered continuously from political and economic disturbances, and conflicts taking place in the region, since 1991. The Republic of Macedonia had accordingly lost its traditional markets and experienced a fall-off in foreign direct investment. However, despite the difficult conditions and external setbacks, the Government of the Republic of Macedonia had persisted in its policy of rule of law and Parliamentary democracy while stabilizing the economy and implementing structural reforms.

5. Reforms were being implemented simultaneously in all segments of social and economic life, including in the legal, administrative, monetary, fiscal and foreign trade regime. Several new laws had been enacted and existing laws had been amended. The Law on Value Added Tax had entered into force on 1 April 2000, on the same date as the new Law on Customs. The process of privatization had progressed substantially, and the rate of privatized companies had reached 90 per cent in early 2000. The Republic of Macedonia was also reforming its State administration with a view to establishing a small, efficient, skilled and non-politicized administration. The Republic of Macedonia had been successful in promoting regional cooperation. Recently concluded free trade and preferential agreements with regional partners aimed at trade liberalization in compliance with the provisions of Article XXIV of the GATT 1994.

6. Accession to the WTO was of essential importance and one of the top priorities of the Government of the Republic of Macedonia. In adapting to international trading norms and predictable and transparent trade rules, the Republic of Macedonia would develop further its commercial relations with WTO Members and create a favourable environment for reciprocal trade, micro-economic efficiency and foreign investment. The Republic of Macedonia was firmly determined to become a Member of the world trading community. In the short term, implementation of WTO requirements would be challenging and difficult, but a small price to pay for the future long-term benefits of WTO membership.

7. Members of the WTO welcomed the application from the Republic of Macedonia to join the WTO and looked forward to a rapid and timely accession process. The accession of the Republic of Macedonia was important to stabilize and reconstruct a troubled region. Some Members stressed the importance of implementing WTO-consistent legislation to achieve a transparent and rules-based economic and trade regime, based on open and non-discriminatory market access. Their approach would be creative and pragmatic, and technical and other assistance would be provided to the Republic of Macedonia to expedite the process. While seeking commensurate and fair concessions and commitments from the Republic of Macedonia, some Members stated that the Republic of Macedonia should not be pushed to accept obligations in excess of those normally required of WTO Members.

8. The Working Party reviewed the economic policies and foreign trade regime of the Republic of Macedonia and the possible terms of a draft Protocol of Accession to the WTO. The views expressed by members of the Working Party on the various aspects of the Republic of Macedonia's foreign trade regime, and on the terms and conditions of the Republic of Macedonia's accession to the WTO are summarized below in paragraphs 9 to 254.

ECONOMIC POLICIES

Monetary and fiscal policy

9. The representative of the Republic of Macedonia said that the macroeconomic policy of his Government was based on coordinated monetary, fiscal and wage policies. Wage restraint, as an integral part of macroeconomic policy, had been applied to control private consumption and hold down inflation. The Law on Payment of Salaries (Official Gazette Nos. 70/94, 62/95 and 33/97) had "frozen" salaries in part-privatized companies. Annual inflation had been reduced to single-digit figures, and a low-inflation environment was considered a crucial condition for further structural reforms and economic growth.

10. The central bank - the National Bank of the Republic of Macedonia (NBRM) - was responsible for formulating and implementing the Republic of Macedonia's monetary policy. The main function of NBRM was to regulate the quantity of money in circulation, to maintain liquidity for banks and savings houses, to maintain liquidity for foreign payments, to issue securities and physical money, to perform activities on behalf of government bodies, and to supervise and inspect the financial sector. The Governor of the central bank was appointed by Parliament, upon a proposal by the President, for a term of seven years. The National Bank enjoyed a high degree of independence in the implementation of monetary and credit policy.

11. The primary objective of the Republic of Macedonia's monetary policy was to maintain a stable exchange rate, which required a tightly controlled money supply. The main policy instruments used by the National Bank for this purpose were mandatory reserve requirements and open market operations, such as auctions of treasury bills. Credit ceilings had been imposed on the domestic banking system, but these restrictions had been relaxed during 2000. Central bank financing of the State budget was restricted. Loans to the State could only be granted within the framework of the projected monetary policy. The loans were short-term and due by the end of the fiscal year, and could not exceed 5 per cent of the total State budget at any time.

12. Fiscal policy was oriented towards consolidation and steady reduction of budget deficits. Expenditures were restricted, while measures had been taken to improve revenues. Reforms of the fiscal system had been initiated in 1994. The tax system had been overhauled and made compatible with systems existing in developed countries. Measures had been taken to improve tax collection. The main taxes levied in the Republic of Macedonia were personal income tax, property tax, tax on inheritance and gifts, sales tax on real estate and rights, value added tax (replacing the former sales tax on 1 April 2000), excises, customs duties and administrative fees and charges. In 2001, the main components of government revenue had been VAT (35.9 per cent), excise taxes (22.6 per cent), personal income tax (15.1 per cent), customs duties (12.8 per cent), profit tax (6.3 per cent), tax on financial transactions, introduced on 1 July 2001 (6.6 per cent) and other taxes (0.6 per cent).

13. Personal income tax was levied on income from professional activities, salaries, pensions and disability allowances, agricultural income, revenue from property and property rights, and other types of income such as capital gains, revenue from intellectual property rights, etc. According to amendments to the Law on Personal Income Tax published in the Official Gazette Nos. 50/01 and 52/01, a rate of 15 per cent was levied on income equal to or less than 360,000 Denars, while annual income exceeding 360,000 Denars was taxed at 18 per cent. The Republic of Macedonia had concluded agreements for the avoidance of double taxation with several countries. A list of such agreements can be found in document WT/ACC/807/12, pages 54-55.

14. Property tax was levied on non-agricultural land, residential and recreational property, garages and other constructions, as well as on passenger motor vehicles (engines above 1.8 litre), buses, tractors, combine harvesters, transportation vehicles, vessels and aircrafts. Property tax was not paid on business premises, except administrative buildings, and movable property used in the course of business operations. All natural and legal persons were subject to property tax, which was levied at a proportional rate of 0.1 per cent. The tax on inheritance and gifts was levied on real estate at proportional rates differentiated by degree of kinship. No tax was paid on inheritance or gifts in first-line kinship, for second line kinship the tax was 3 per cent (of the market value less debts and expenses), and 5 per cent for third-line or non-related beneficiaries. The sales tax on real estate and rights was proportional and amounted to 3 per cent of the established market value. In case of property exchanges, the tax on the difference in market values would be paid by the party exchanging the property of greatest value.

15. Legal entities registered in the Republic of Macedonia paid taxes on profits earned in the country and abroad under the provisions of the Law on Profit Tax. This tax was also assessed on profits earned within the territory of the Republic of Macedonia by non-resident persons. The rate of profit tax was 15 per cent. Tax incentives were provided for foreign investments, profits invested in less developed regions, as well as for environmental projects.

Foreign exchange and payments

16. The representative of the Republic of Macedonia said that the Law on Foreign Exchange Operations, adopted on 14 May 1993, had introduced a new foreign exchange system. The system had been based on a floating exchange rate in which the value of the national currency – the Denar – had been determined freely according to supply and demand of foreign currencies in the exchange market. The Denar had been pegged to the German mark – now the Euro - since October 1995, which had contributed to economic stability and his Government was determined to continue this policy. The National Bank would intervene in the local currency market to maintain a stable Denar exchange rate. In addition to the National Bank, banks authorized to perform foreign transactions and enterprises and other legal entities, including exchange offices authorized by the Governor of the National Bank, could operate in the foreign exchange market.

17. He added that the Republic of Macedonia had succeeded, effective 14 December 1992, as one of five successor republics to the IMF membership of the former Socialist Federal Republic of Yugoslavia. Effective 19 June 1998, the Republic of Macedonia had accepted the obligations of Article VIII, Sections 2,3 and 4 of the IMF Articles of Agreement. Foreign payment operations had been brought gradually into the banking system. Enterprises could use their foreign exchange earnings to pay for imported equipment, material inputs and other current payments abroad, sell the proceeds to other enterprises or legal entities through authorized banks (spot or forward transactions) or maintain interest-earning foreign exchange accounts with the authorized banks. Domestic entities were obliged to collect their claims abroad no later than 90 days after the day on which the goods had been exported or their services had been supplied, and could make external payments no later than 180 days following importation. Monetary transactions performed within a longer timeframe were considered credit transactions subject to registration. Registration was required to keep track of financial commercial credits. For imported goods, the customs declaration should be accompanied by a certificate proving that foreign currency had been provided for payment. The certificate was issued by banks authorized to perform external payment operations.

18. Local and foreign residents were free to hold Denar or foreign currency accounts in local banks. Domestic natural persons could maintain accounts abroad during residence in foreign countries. Subject to approval by the National Bank, domestic legal entities could hold accounts abroad to finance investments, the operation of representative offices or business units, and to cover costs related to international transportation of goods and passengers, insurance, and scientific activities. Domestic legal entities were free to establish or invest in foreign companies abroad after prior registration of such activities with the Ministry of Economy. Pursuant to the Law on Foreign Credit Relations (Official Gazette No. 31/93), residents could obtain foreign loans for export-oriented investment projects, importation of equipment, fuel and electric power, and raw materials used in export-oriented production, importation of goods of vital importance for the population, and to purchase agricultural products for export. Domestic legal entities and banks could grant loans to foreign persons to promote exports of domestic products and to develop commercial relations with foreign countries. Foreign investors could transfer profits abroad in foreign currency without limitation.

19. Foreign accounts could be frozen by decision of a lower court in accordance with Article 190 of the Law on Enforcement Procedure. A remonstrance could be filed against the decision, and the judge having made the enforcement decision would rule on it. The judge's ruling could be appealed before the appellate court.

20. The representative of the Republic of Macedonia added that a new Law on Foreign Exchange Operations (Official Gazette No. 34/01) had been enacted in April 2001. The new Law would enter into force on 1 October 2002. The provisions of the new Law on Foreign Exchange Operations aimed primarily at harmonizing domestic legislation with EU guidelines and standards, in conformity with the initialled Agreement on Stabilization and Association. The new Law envisaged further liberalization of foreign exchange operations, and possibly full elimination of restrictions on current transactions as well as gradual liberalization of capital transactions. Foreign resident direct investment and direct investments by non-residents had been liberalized fully, guaranteeing full repatriation of profit in combination with a simplified registration procedure for foreign investment.

21. The new Law would lead to further liberalization of portfolio investment, thus providing liberal conditions for the issuance of domestic securities abroad and resident investment in securities abroad, as well as for the issuance and introduction of foreign securities in the Republic of Macedonia and non-resident investment in securities in the Republic of Macedonia. Following completion of the first phase of the Agreement with the EU, citizens and enterprises would be able to invest freely in securities and real estate abroad. He confirmed that liberalization resulting from the completion of the first phase of the Agreement on Stabilization and Association with the EU will become available on an MFN basis. Simultaneously, foreign persons would be able to trade freely in domestic securities in the Republic of Macedonia through authorized participants in the foreign exchange market.

22. The new Law would enable domestic enterprises to maintain foreign currency in foreign exchange accounts with local banks and retain funds in foreign exchange accounts indefinitely, and upon completion of the second phase of the Agreement with the EU, domestic enterprises and citizens would be free to open and maintain foreign exchange accounts in foreign banks. He confirmed that liberalization resulting from the completion of the second phase of the Agreement on Stabilization and Association with the EU will become available on an MFN basis. He expected the new Law on Foreign Exchange Operations would enable enterprises and local banks to seek loans from foreign banks or foreign companies without unduly complex administrative procedures. Moreover, the new Law would enable local banks to approve foreign exchange loans to domestic persons intended for payment related to importation of goods and services, payment of other current liabilities abroad, and the financing of investment activities abroad.

Investment regime

23. The representative of the Republic of Macedonia said that free market and entrepreneurship, and legal protection of property, was enshrined in the Constitution and these principles could only be limited by law for purposes of national security, environmental protection, or to safeguard human health (Article 55, paragraph 3 of the Constitution). Investment policies were designed to encourage and stimulate investment, particularly in economically underdeveloped areas. Foreign investment was regulated by the Law on Trade Companies (Official Gazette No. 28/96). The Law was founded on the basic principles of free transfer of profits and invested capital, as provided for in Article 59 of the Constitution. The rights of foreign investors were determined and protected under the Law on Trade Companies, and could not be limited by any other law or regulation.

24. The Investment Promotion Unit, operating under the Ministry of Economy, coordinated all activities related to foreign direct investment, including investment promotion, the development of industrial policy and the establishment of a one-stop-shop system for foreign investors. The Ministry of Development had prepared a Program for Stimulating Investments with a Special Emphasis on Attracting Foreign Investments in 1999. The programme had identified various restrictions and obstacles in the economy, the legal system and the political environment which hampered investments in general, and the inflow of foreign direct investment in particular. The programme also provided recommendations and guidance on how to remedy the situation and adjust the legal framework to international standards.

25. Incentives to attract foreign investment included tariff exemptions on imported capital equipment and spare parts retained by the investor for minimum five years, and a three-year tax holiday on the profits generated by foreign capital (as long as the exempted profits would not exceed the initial foreign equity contribution). Profits reinvested in fixed operational assets were not taxed, and no taxes were applied on profits invested in environmental protection projects. Companies employing disabled persons or engaging in professional rehabilitation were also tax exempt. The profit tax could be reduced by up to 100 per cent in regions designated as "underdeveloped" if the profits were reinvested in fixed assets.

26. The Republic of Macedonia generally provided national treatment for foreign investors, except in the ownership of real estate, according to the Law on Trade Companies (Official Gazette Nos. 28/96, 7/97, 21/98, 37/98, 63/98, 39/99, 81/99, 37/00 and 50/01). Thus, a foreign natural person or legal entity could incorporate a company or acquire stock in the same manner and under the same conditions as citizens of the Republic of Macedonia, unless otherwise stated by law, and a company with foreign shareholders would have the same rights and liabilities as a company without foreign shareholders, except when stated by law. The share of foreign ownership in a newly incorporated or an existing enterprise was normally unlimited, unless stated otherwise by another law. According to Article 634 of the Law on Trade Companies, foreign trade companies and foreign sole proprietors operating on the territory of the Republic of Macedonia had equal status as domestic natural and legal persons, unless otherwise determined by a government agreement or by a law.

27. Parliament had enacted a new Law on Construction Land in April 2001 (Official Gazette No. 53/01). Construction land - identified in accordance with spatial or urban development plans - and anything situated on or under its surface, or permanently related to it, could be owned by the State and domestic legal entities and natural persons (Article 6). The rights of foreign natural and legal persons were regulated in accordance with Articles 243 to 252 of the Law on Ownership and Other Real Rights (Official Gazette No. 18/2001). Foreigners were generally not entitled to own real estate in the Republic of Macedonia, but could be granted access - subject to reciprocity - under long-term (maximum 99 year) leases. Approval was granted by the Minister of Justice, having sought the opinions of the Minister of Urban Planning and Construction and the Minister of Finance. Long term lease rights were transferable and inheritable. The Law on Ownership and Other Real Rights allowed foreign natural persons to acquire the right of ownership of real estate through inheritance, under conditions of reciprocity. Legal entities with mixed (domestic/foreign) ownership could own real estate, including construction land, provided the legal entity was registered in the Republic of Macedonia. Land owned by the State could be made available to domestic or foreign natural and legal persons under concessions granted by public tender.

28. In general, the Republic of Macedonia did not prohibit or restrict foreign investment, except in the armaments industry, the distribution and trade in arms or narcotics, or when deemed necessary to protect historical monuments and cultural patrimony. Limitations on foreign ownership in ongoing business ventures and new companies existed in the lex specialis regulating individual areas. Thus, according to Article 10 of the Law on Broadcasting, foreign natural persons or legal entities could individually not own more than 25 per cent of a broadcasting company, and the collective share of foreign ownership could not exceed 49 per cent. Specific provisions also existed with respect to foreign ownership in banks and insurance companies (see the section on "Policies affecting trade in services").

29. The Republic of Macedonia's legislation guaranteed free repatriation of profits and full compensation in the event of expropriation. The Constitution prohibited expropriation of property, except in time of war, unforeseen situations or for the purpose of public interest, in which case expropriation and compensation would be carried out in accordance with the Law on Expropriation (Official Gazette Nos. 33/95, 20/98 and 40/99). The rights of foreign and domestic investors to legal protection and compensation were equal. The Republic of Macedonia had concluded bilateral agreements on investment protection with more than 20 countries (listed in document WT/ACC/807/5, Attachment 5).

State ownership and privatization

30. The representative of the Republic of Macedonia said that privatization had begun prior to independence with the passage of the Law on Social Capital (Official Gazette No. 84/89) by the former Federal Parliament. However, immediately after independence in 1991, the Government of the Republic of Macedonia had announced that the federal law was no longer in force and that a new law would be promulgated shortly thereafter. Parliament had accordingly enacted the Law on Transformation of Enterprises with Social Capital (Official Gazette Nos. 38/93, 48/93, 21/98, 25/99, 39/99, 81/99 and 49/00) in June 1993. Other laws relevant to the privatisation process were the Law on Transformation of Enterprises and Co-operatives in the Agricultural Sector (Official Gazette Nos. 19/96 and 25/99), the Law on Privatization of the State Capital in Companies (Official Gazette Nos. 37/96 and 25/99), the Foreign Investment Act (Official Gazette No. 31/93), the Law on Concessions (Official Gazette No. 25/02) and the Securities Law (Official Gazette No. 5/93). Privatization was entrusted to the Agency for Transformation of Enterprises with Social Capital, established in October 1993 (Official Gazette No. 38/93). His Government had taken a strategic decision not to embark on mass privatization, for example through the distribution of privatization vouchers, as it believed this would delay the primary objective of the transformation process - to make enterprises more efficient.

31. The Law on Transformation of Enterprises with Social Capital stipulated different privatization methods depending on whether an enterprise would be classified as small, medium sized or large. The criteria determining the size of an enterprise were based on the number of employees, annual turnover, and the book value of operating assets. Small enterprises could be privatized through employee buy-out or sale of an "ideal" part of the enterprise through a public call for bids (and subsequent auction) or, until 2000, by direct agreement with a prospective buyer. Medium sized enterprises could be privatised in the same manner through the sale of an "ideal" part, by leveraged management buy-out or management buy-in, debt/equity swaps, or shares sold through a public offering, which would be considered successful if resulting in the sale of at least 51 per cent of the value of the social capital. Medium sized enterprises could also be privatized through the subscription of fresh capital. If a new issue represented more than 30 per cent of the appraised value of the company, the privatization agency would offer the investor an opportunity to increase his stake to 51 per cent of the company within a period of maximum 5 years.

32. The privatization of large enterprises followed the same procedures as for medium sized enterprises, except that the minimum required down payment for management buy-out or buy-in was lower (10 per cent instead of 20 per cent), and the fresh capital requirement was minimum 15 per cent rather than 30 per cent required for medium sized enterprises. The privatization agency played a more active role in the privatization of large enterprises, as small and medium sized enterprises opted for the method of privatization themselves, while large enterprises selected their privatization method in consultation with the Agency.

33. Irrespective of size, publicly owned enterprises could also be transformed through leasing agreements, asset sale upon voluntary liquidation, or bankruptcy proceedings. The 25 largest loss-making enterprises had been restructured in accordance with a Special Restructuring Programme approved by the Government and verified by the World Bank.

34. Foreign investors were granted national treatment, and could thus participate in all transactions not specifically forbidden by law, including in the privatization programme. The Law on Transformation of Enterprises with Social Capital provided special discounts for employees taking a stake in their company. An employee could buy shares at a discount to the value of maximum DEM 25,000; employees as a group could not purchase discounted shares representing more than 30 per cent of the appraised value of the company. Payment could be made in five annual instalments without down payment and with a two-year grace period. In addition, prior to launching its privatization, each enterprise was required to transfer 15 per cent of its social capital (in the form of shares or stocks) to the Pension and Disability Fund free of charge.

35. According to statistics collected by the privatization agency, nearly 1,700 enterprises (1,262 non-agricultural and 426 agricultural) had been subject to privatization by the end of March 2002. These enterprises were estimated to represent equity totalling more than US$2.3 billion, and provided employment for approximately 230,000 people. A detailed status report is reproduced in Table 1(a).

36. He added that approximately 100 public companies were for the time being excluded from privatization in accordance with existing legislation. These were enterprises and organizations of special national interest, public utilities, enterprises and legal entities engaged in the preservation of water, forests, land and other public goods, and monopolies which were to be privatized under separate legislation. The companies excluded from privatization are listed in Table 1(b). He noted that the large majority of these entities were municipal public utilities. Information on the percentage of GDP and international trade accounted for by these enterprises was not available.

37 The representative of the Republic of Macedonia confirmed the readiness of the Republic of Macedonia to ensure the transparency of its ongoing privatization programme and to keep WTO Members informed of its progress in the reform of its transforming economic and trade regime. He stated that his Government would provide annual reports, along the lines of that provided to the Working Party, to WTO Members on developments in its programme of privatization as long as the privatization programme would be in existence. He also stated that his Government would provide annual reports on other issues related to economic reforms as relevant to its obligations under the WTO. The Working Party took note of these commitments.

Pricing policies

38 A Member asked whether the Government of the Republic of Macedonia maintained any price controls and, if so, the representative of the Republic of Macedonia should (a) list all goods (by HS96 number) and services subject to price or profit controls, (b) cite the legal authority for these requirements, (c) indicate the conditions under which such controls were normally applied, and (d) describe plans for maintaining these requirements or increasing their scope of application.

39 The representative of the Republic of Macedonia replied that the prices for most goods and services were determined freely by market forces, but maximum prices were set for a limited number of products and services important for the living standard of the population and characterized by monopolistic supply conditions. The legal basis for price controls was Article 24 of the Law on Trade (Official Gazette Nos. 31/93, 41/93, 78/93, 44/96-40/96, 59/96, 15/97, 13/98, 13/99 and 50/99). Price controls were temporary, and Article 24 required these measures to be reexamined every six months.

40 According to the Decision on the Highest Prices of Certain Products and Services, the goods and services subject to price control during April-September 2000 (Official Gazette No. 26/00) covered (i) production and marketing of flour type "500"(HS 1101 00 00 00) and bread (600 gr.) made from this type of flour (HS 1905 20 00 00); (ii) production and marketing of oil and oil derivatives; (iii) production, transfer and distribution of electric power; (iv) domestic PTT services and public mobile telephony services (only for users of the existing fixed-line network); (v) railway transport of passengers and goods; (vi) production and supply of raw water for household and industrial use; (vii) production and distribution of drinking water; (viii) treatment and disposal of waste water (collectors excluded); (ix) renovation services in towns, cities and settlements (collecting and depositing waste); (x) other communal services, i.e. mortuary services, including charges for grave sites and funerals; (xi) distribution of natural gas; and (xii) mandatory motor vehicle insurance.

41 Article 39 of the Law on Energy (Official Gazette No. 47/97) stipulated that prices for electricity, natural gas, heating, geothermal energy and oil derivatives should be set in accordance with the Methodology for Pricing of certain forms of energy (Official Gazette No. 43/98). The tariff structure was based on normalized costs (depreciation, equipment insurance, maintenance, cost of materials and energy, gross salaries, services inputs, concessions, etc.), taxes, contributions and profit. Decisions on the tariff structure were taken by the Government on the advice of an expert committee. Energy-prices could be changed if the monitored costs increased or decreased by at least 5 per cent during a three-month period, or within 15 days in case of extreme price fluctuations. Reference prices had been established for certain forms of imported energy.

42 A reporting requirement had been instituted for price changes on pasteurized milk, the production of medicines and pharmaceutical chemical products, housing rents, urban and suburban transport of passengers, schoolbooks for primary and secondary education, the registration fee for motor vehicles, and commissions on payment operations.

43 The representative of the Republic of Macedonia was unable to make a precise prediction which products or services would be subject to price controls in the future, but added that the number of products subject to such controls was on a declining trend. Price controls might eventually be phased out as a measure. Controls had, for example, been lifted recently on flour type 500 and bread (600 gr.) made from this type of flour. At present, maximum prices were only applicable to production and trade in petrol and petrol derivatives, and production and supply of raw water for household and industrial use, according to the Decision on Maximum Prices of Certain Products and Services (Official Gazette No. 25/01). The goods and services subject to price control measures at present are enumerated in Table 2. He confirmed that no link existed between domestic price controls and export licensing of products such as those listed in Table 7(a).

44 Responding to specific questions, the representative of the Republic of Macedonia confirmed that Table 2 was exhaustive and covered all products currently subject to price control. The price controls on natural gas and electric energy applied to both firms and households. In mid-2002, households were charged 2.523 Denar per kWh for electric energy, while enterprises using 110kV electricity paid 1.2155 Denar per kWh. Industrial users of natural gas paid 10.5 Denar per m^3; households were not connected to the distribution network.

45 The representative of the Republic of Macedonia stated that in the application of price controls now or in the future, the Republic of Macedonia would apply such measures in a WTO-consistent fashion, and take account of the interests of exporting WTO Members as provided for in Article III.9 of the GATT 1994, and in Article VIII of the General Agreement on Trade in Services (GATS). The Republic of Macedonia would publish the list of goods and services subject to State controls and any that are introduced or re-introduced in the future in its Official Gazette. The Working Party took note of these commitments.

Competition policy

46 The representative of the Republic of Macedonia said that the Law Against Limiting the Competition, enacted on 14 December 1999 (Official Gazette No. 80/99), had entered into force on 1 April 2000. The law provided for free competition and determined measures for the prevention of monopolistic behaviour and other limitations on competition. The Law Against Unfair Competition (Official Gazette No. 80/99) had been adopted on 14 December 1999 and had entered into force on 25 December 1999. Provisions of this law prohibited conduct contrary to good business practice or contrary to honest and diligent behaviour. The Law provided for the establishment of a Monopoly Commission and a Monopoly Authority as an administrative body within the Ministry of Economy. Parliament had also enacted a Law on Consumer Protection on 26 July 2000 (Official Gazette No. 63/00).

47 The main objective of the Monopoly Authority was to monitor, protect and develop competition in the domestic market. The authority had two organizational units - the Department for Enactment of Decisions, responsible for rulings on specific cases, and the Department for Research and Analysis, which monitored the market position of commercial entities, changes in the market, etc. The authority was preparing amendments to the Law Against Limiting the Competition to harmonize its provisions with the competition rules of the European Union.

FRAMEWORK FOR MAKING AND ENFORCING POLICIES

48 The representative of the Republic of Macedonia said that Parliamentary democracy in the Republic of Macedonia was based on the principle of separation of legislative (Assembly), executive (Government) and judicial (courts) powers. The President of the Republic, representing the State, was elected for a five-year term in general and direct elections. In addition to his constitutional powers, the President nominated a mandator to constitute the Government, proposed judges to the Constitutional Court, appointed and dismissed certain holders of State and public functions, signed promulgations declaring laws, etc.

49 The Assembly of the Republic was a supreme legislative body, composed of 120 members chosen by general and direct election every four years. Among its various functions, the Assembly passed laws and provided authentic interpretation of the laws, adopted the budget and the balance of payments, decided on the reserves of the State, ratified international agreements, elected, monitored and supervised the Government, decided on membership in international organisations (on the proposal of the President of the Republic), and appointed the Governor of the National Bank and the Director of the Customs Administration. Laws passed by the Assembly were declared by promulgation signed by the President of the Republic and the President of the Assembly. If the President of the Republic refused to sign a promulgation declaring law, the Assembly would be obliged to re-examine the bill.

50 Asked to clarify how the Assembly could provide authentic interpretation of laws while the Republic of Macedonia maintained an independent judiciary, the representative of the Republic of Macedonia added that this constitutional provision was implemented in Articles 391 to 393 of the Rules of Procedure of the Parliament of the Republic. A request for an authentic interpretation of a law was submitted to the President of the Parliament, who would convey it to the Legislative Committee. The Legislative Committee could seek the opinions of other Parliamentary committees and would elaborate a draft authentic interpretation to be presented to Parliament. If the Legislative Committee did not consider a request for an authentic interpretation justified, a report would be submitted to the Assembly, which would decide on the matter. The Assembly's decision would be communicated to the requesting party, i.e. a Member of Parliament, the Government, high government officials, the Constitutional Court, the Supreme Court, the Public Prosecutor, other State bodies, municipality councils, trading companies and enterprises, or other organs and institutions. An authentic interpretation of a law was binding.

51 WTO-related legislation enacted by Parliament would, in principle, be open to authentic interpretation according to Article 68 of the Constitution. However, international agreements ratified by the Republic became part of the internal legal system according to Article 118 of the Constitution, and could not be changed by law. Thus, any authentic interpretation of WTO related laws, enacted by Parliament, would have to take note of the respective WTO Agreements and observe the requirements of such Agreements.

52 Concerning the procedure for ratification of the Republic of Macedonia's Protocol of Accession, he added that the Ministry of Economy would prepare a Draft Law for Ratification of the Marrakesh Agreement Establishing the World Trade Organization (including Annexes 1, 2 and 3) in cooperation with the Ministry of Foreign Affairs and submit it to the Government. The Government would review the Draft Law and submit it to the Assembly for ratification. Upon adoption of the Law for Ratification, the President of the Republic would sign a Proclamation for the Law, which would be published in the Official Gazette. Following publication, the Ministry of Foreign Affairs would prepare an instrument on accession in compliance with Article XII (a) of the Agreement Establishing the World Trade Organization. The procedure for ratification of international agreements would normally take about two months.

53 The Government was elected by the Assembly by majority vote, at the proposal of the mandator and on the basis of its proposed programme. The Government was accountable before the Assembly in carrying out laws and other regulations passed by the Assembly. The present Government consisted of a President, four Vice-Presidents and 14 ministers. The Government proposed laws, the State budget and other regulations for adoption by the Assembly, adopted decrees and other regulations necessary for execution of laws, proposed decisions on the reserves of the Republic of Macedonia, etc. Ministries worked independently in their areas of jurisdiction within the framework provided by the Constitution and laws, and were accountable to the Government.

54 The principal government entity responsible for formulating and implementing policies relating to foreign trade was the Ministry of Economy. In carrying out its tasks, the Ministry of Economy cooperated with the Ministry of Foreign Affairs, the Ministry of Finance, the Ministry of Agriculture, Forestry and Water Economy, and other authorized Ministries. Foreign trade policy was formulated in close contact with the Ministry of Finance, which was also responsible for cooperation with international financial institutions and regulation of relations with foreign creditors, market intervention, and policies concerning banking and credit, foreign exchange and customs. The Customs Tariff Act was proposed by the Ministry of Finance through the Government to the Assembly. The Ministry of Agriculture, Forestry and Water Economy was in charge of measures related to exportation and importation of agricultural goods. Tourism and catering fell under the competence of the Ministry of Economy. Local governments had no direct role in foreign trade operations and foreign economic relations, nor with respect to taxation applicable to imports, subsidies or investments.

55 Judicial power was exercised by autonomous and independent courts, judging on the basis of the Constitution, laws, and international agreements ratified by the Republic. Articles 98-108 of the Constitution provided the basis for the judicial system, comprising 27 lower courts, three appellate courts and the Supreme Court. The Law on Courts (Official Gazette No. 36/95, 45/95, Constitutional Court Decision U. No.313/95 (Official Gazette No. 40/96), CCD U. No.20/96 (Official Gazette No. 60/96) had been enacted in 1995, and elaborated in detail on the constitutional provisions on the judiciary. The Supreme Court was the highest court in the Republic, providing uniformity in the implementation of laws by the courts. The present judicial system did not provide for specialized courts such as administrative or commercial courts. The appellate courts decided upon appeals against decisions of lower courts, collision of competencies between the lower courts, and other matters determined by law.

56 Article 15 of the Constitution guaranteed the right of appeal against individual legal acts brought in a court or an administrative procedure. This constitutional principle had been implemented in the Law on Criminal Procedure, the Law on Civil Procedure and in the Law on Administrative Procedure (Official Gazette of SFRJ No. 47/86). Administrative appeals of customs and other government decisions on issues covered by WTO Agreements were conducted under the general rules for appeal provided in the Law on Administrative Procedure. The second instance procedure was conducted by a Second Instance Government Committee. Article 58 of the Rules of Procedure of the Government provided for the establishment of ten different committees, depending on the subject-matter. The Law on Administrative Disputes (Official Gazette of SFRJ Nos. 4/77 and 36/77) allowed an administrative dispute to be brought before the Supreme Court as an independent tribunal by filing a complaint against a second degree decision in an administrative procedure. The decisions of the Supreme Court were final and binding. Domestic and foreign parties were subject to the same treatment in appeal procedures.

57 The Arbitral Court (arbitration) and the Court of Honour acted as independent bodies within the framework of the Chamber of Commerce for voluntary settlement of commercial disputes. The Arbitral Court (and the Court of Honour) consisted of a President, vice-president and arbiters (members) appointed by the Assembly of the Chamber.

POLICIES AFFECTING TRADE IN GOODS

Trading rights (the right to import and export)

58 The representative of the Republic of Macedonia said that registration was required to carry out business activity in the Republic of Macedonia. The Law on Foreign Trade (Official Gazette No. 31/93) set forth the requirements for engaging in foreign trade. Enterprises could register for trade only (import, export or import/export), foreign trade as one of their lines of business, or carry out import and export to cover own needs. Foreigners enjoyed full national treatment in the conduct of trade in the Republic of Macedonia. Article 684 of the Law on Trade Companies contained a

general provision designed to equate a foreign company registered in the Republic of Macedonia with a domestic company, requiring the foreign company to comply with the Republic of Macedonia law in the same manner as a domestic company

59. The Law on Trade Companies (Official Gazette Nos. 28/96, 7/97, 21/98, 37/98, 63/98, 39/99, 81/99, 37/00 and 50/01) allowed trading companies to be established in the form of general partnerships, limited partnerships, limited liability companies, joint stock companies and limited stock partnerships; as well as sole proprietorships. A trading company or sole proprietor applied for registration with the Trade Registry, established within three lower courts (according to territorial jurisdiction). A company could only undertake the activities for which it had been registered. However, a company initially registered for domestic commerce could easily change its registration to include foreign trade activities

60. Domestic sole proprietors had originally not been allowed to register for, or undertake, export and import activities. However, Articles 3 and 4 of the new Law on Foreign Trade (Official Gazette No. 45/02) enabled both natural persons and legal entities to conduct import and export activities without any restriction upon registration in the courts. Foreign companies, sole proprietors and natural persons could register companies or sole proprietorships, whether wholly foreign owned or with mixed capital structure. Foreign companies or sole proprietors registered in another country could also choose to register a branch office with the authorities of the Republic of Macedonia. He stressed that registration was required for activities carried out within the territory of the Republic of Macedonia, such as the distribution of goods and services to the public. Traditional cross-border import and export transactions between the Republic of Macedonia and other countries would not per se require registration or formal establishment of any form of commercial presence in the Republic of Macedonia.

61. The court registration procedure was identical for domestic and foreign owned companies, and applications could only be rejected if the legal requirements stipulated in the Law on Trade Companies had not been satisfied. An earlier requirement for companies with more than fifty per cent foreign capital to initiate registration with the Registry of Foreign Investments prior to the court procedure for company registration had been abolished (Official Gazette No. 37/00).

62. Due to lack of modern equipment at the courts, the registration procedure had been taking four weeks, but computerization of the courts was expected to reduce the registration time to two weeks. Once registered for import and export activities, the trading entity would then seek registration with the Customs Registry within the Customs Department to obtain a Unique Customs Number. This procedure would be accomplished within a few days, and involved paying a stamp tax of 50 Denar (less than US$1). The registration fees paid to the court and other administrative bodies (statistical office, customs, payment operations office) amounted to approximately US$150 in total.

63. He added that the Law on Trade Companies had been amended by Parliament in June 2001 to simplify the registration procedures for commercial entities, both in terms of the number of steps to be accomplished and the time required for registration.

64. The representative of the Republic of Macedonia confirmed that foreign trade was not subject to State monopoly and that no restrictions existed on the rights of individuals and enterprises to import and export goods into or from the Republic of Macedonia, except as provided for in WTO Agreements. He confirmed that individuals and firms could easily amend their registered scope of business to add the rights to import and export, the criteria for registration were generally applicable and published in the Official Gazette, and that these requirements were not applied in a non-discriminatory manner towards imports.

65. The representative of the Republic of Macedonia confirmed that from the date of accession the Republic of Macedonia would ensure that its laws and regulations relating to the right to trade in goods and all fees, charges or taxes levied on such rights would conform fully with the Republic of Macedonia's WTO obligations, including Articles VIII:1(a), XI:1, and III:2 and 4 of the GATT 1994, Article III of the General Agreement on Trade in Services, and Article 63 of the Agreement on Trade-Related Aspects of Intellectual Property Rights and that the Republic of Macedonia would implement such laws and regulations in full conformity with these obligations. The Working Party took note of this commitment.

1. Import Regulation

Customs tariff

66. The representative of the Republic of Macedonia said that the Republic of Macedonia had applied the Customs Tariffs Act inherited from the former Socialist Federal Republic of Yugoslavia until it had been replaced by the national Law on Customs Tariff (Official Gazette Nos. 38/96, 45/97, 54/97, 61/97, 26/98, 15/01 and 104/01), in force since 15 August 1996. The new Customs Tariff was fully compatible with the 1996 Harmonized System, and largely compatible with the EU Combined Nomenclature.

67. The 1996 Law on Customs Tariff had unified a previous system of multiple import charges into a single customs tariff paid upon importation of goods. The simple average import duty had subsequently been reduced from 15.06 per cent in 1996 to 14.59 per cent in 2001. Tariff rates were generally in the range of zero to 35 per cent, with peaks up to 60 per cent on certain agricultural products and foodstuff. All rates were ad valorem, but the Customs Tariff Act foresaw specific duties to be added to the ad valorem rates for agricultural products. All non-preferential trading partners were subject to MFN tariff treatment. He added that, as a result of the market access negotiations on goods in the context of accession to the WTO, the Republic of Macedonia was binding all of its tariffs. The simple average of all rates would drop from an estimated 12.62 per cent to 8.0 per cent with full implementation of the Republic of Macedonia's commitments. With the Republic of Macedonia's acceptance of the Information Technology Agreement, the Chemical Harmonization programme, and the Agreement on Trade in Civil Aircraft, among other sectoral tariff harmonization agreements, hundreds of tariff lines would eventually be bound at zero. The number of tariff lines bound at the peak rate of 60 per cent would drop from 142 tariff lines upon accession to only 6 tariff lines at the end of the Republic of Macedonia's implementation period.

Other duties and charges

68. The representative of the Republic of Macedonia said that price premiums ("prelevman") had been introduced for agricultural and food products, essentially as seasonal protection, under the Law for Paying the Specific Duty on the Importation of Agricultural and Food Products (Official Gazette No. 2/94). The premium constituted the difference between the imported price, inclusive of import duty and other import charges, and the average price for the same product in the domestic market. He added that a charge of 0.1 per cent was levied on all imports (and exports) to finance export promotion activities.

69. Some Members stated that the Law for Paying the Specific Duty on the Importation of Agricultural and Food Products provided for a variable levy, which was WTO-inconsistent, and the 0.1 per cent export promotion fee charged on imports and exports was clearly not related to the cost of any service rendered. The Republic of Macedonia was requested to modify its legislation to ensure consistency with WTO requirements.

70. The representative of the Republic of Macedonia replied that a new customs tariff had entered into force in February 2001, with further changes being made in December 2001. All "prelevman" applied to goods in Chapters 1 to 24 of the Customs Tariff had been converted into ad valorem or specific tariffs consistent with WTO requirements. His Government was requesting a transition period for the abolition of the 0.1 per cent fee for export promotion. Article 25 of the new Law on Foreign Trade, which had been enacted by the Assembly in June 2002, extended the application of Articles 57a, 57b and 57g governing the 0.1 per cent fee until 31 December 2005. He confirmed that the 0.1 per cent export promotion fee was applied to both preferential and MFN imports and to exports from the Republic of Macedonia to all destinations.

71. The representative of the Republic of Macedonia confirmed that the Republic of Macedonia did not apply duties and charges on imports other than ordinary customs duties, with the exception of the Export Promotion Fee of 0.1 per cent which will be applied through 31 December 2005, as recorded in the Republic of Macedonia's Schedule of Concessions and Commitments on Goods. Any other such charges applied to imports after accession would be in accordance with WTO provisions. He further confirmed that the Republic of Macedonia would not list any other charges in its goods schedule under Article II:1(b) of the GATT 1994, binding such charges at 0.1 per cent from the date of accession and at "zero" from 1 January 2006. The Working Party took note of this commitment.

Tariff rate quotas, tariff exemptions

72. The representative of the Republic of Macedonia said that Article 24a of the Customs Law (Official Gazette No. 25/00), implemented on 1 April 2000, had introduced a general provision authorizing the Government to open tariff quotas for certain goods not produced in the Republic, or produced in insufficient quantity. Such goods could be imported duty free or subject to lower tariffs than the rates published in the Customs Tariff. Importation under tariff quotas was subject to approval by the Minister of Economy.

73. Tariff quotas were used to regulate market access for certain agricultural products and foodstuff under bilateral free trade agreements with Slovenia, Croatia, the Federal Republic of Yugoslavia, Bulgaria, and Turkey. The quotas applicable in 1999 to imports from Croatia, Slovenia and the Federal Republic of Yugoslavia are listed in document WT/ACC/807/3, Annex II. The tariff rate quotas applied in 2002 to imports from these countries as well as Ukraine, EFTA (Switzerland and Norway) and the EU are listed in document WT/ACC/807/26, Attachment 1.

74. The tariff rate quotas for preferential imports from Bulgaria and the EU were allocated on a first come first served basis. The Government prepared a decision announcing the available quantities and the documentation required. The decision was published in the Official Gazette. Applications were submitted to the Ministry of Economy which would take a decision immediately upon receipt. The Ministry would distribute the quota proportionally to all applicants should the quantities requested within one day exceed the quantity available for allocation. The tariff rate quotas agreed with other FTA partners were allocated by a separate committee. Quota volumes were determined on an annual basis, and allocated twice a year. The procedure and documentation required, as well as the overall six-month quota amount, were spelled out in a government decision for each country and published in the Official Gazette. Following publication, the Ministry of Economy would run a public invitation in the daily newspapers. Applications were filed with the Ministry of Economy within seven days following the publication of the invitation. Applications were reviewed by a committee comprising two representatives from the Ministry of Economy, and one representative each from the Ministries of Agriculture, Finance and Foreign Affairs.

75. In response to a comment from a Member, which noted that the determination of the Republic of Macedonia's preferential tariff rate quotas appeared to be discretionary, the representative of the Republic of Macedonia said that agreed quantities were stipulated in each FTA and listed in the annexes or protocols provided therein. He added that his Government had undertaken a review of the tariff quota system pursuant to Article 24a of the Customs Law and its compliance with WTO requirements.

76. The representative of the Republic of Macedonia confirmed that the Assembly had approved the amended Article 24a on 4 July 2002. The amended text stipulated that "favourable tariff treatment", i.e. import duty reduction or suspension, including within the framework of a tariff quota, would be subject to conditions and criteria laid down by the Government upon proposal from the Minister of Economy and prior opinion of the Minister of Finance and the Minister of Agriculture, Forestry and Water Economy. He confirmed that all tariff rate quotas included in the Republic of Macedonia's Schedule of Concessions and Commitments on Goods would be distributed to MFN suppliers and allocated on a "first come, first served" basis.

Fees and charges for services rendered

77. Noting that the Republic of Macedonia levied a 1 per cent customs evidential fee on all imports, except on goods exempt from customs duty under current regulations, some Members stated that such an ad valorem charge could not, by its nature, reflect the actual cost of customs services and would therefore be inconsistent with Article VIII of the GATT 1994.

78. The representative of the Republic of Macedonia replied that the 1 per cent fee was intended as payment for customs services such as receipt and processing of documentation, examination of goods, mandatory presence of customs officers when goods were being placed in customs custody, controls related to temporary importation, etc. The fee was not charged on exported products. He confirmed that this was the only fee charged for customs services, and that any other fees and charges for services rendered for customs or other purposes applied in the future, other than customs tariffs and other import taxes, would be applied equally to imported and domestically-produced goods.

79. The representative of the Republic of Macedonia said that the 1 per cent ad valorem customs evidential fee had been abolished on 1 January 2002, pursuant to Article 8 of the Law on Amending and Revising the Law on Customs (Official Gazette No. 109/00). A new fixed fee of €19 per ten-digit tariff entry on each import declaration had been introduced according to the Regulation Governing the Amount of the Fee for Customs Services Rendered (Official Gazette No. 102/2001). The new fee was, in his view, equivalent to the cost of the services rendered by Customs for customs clearance.

80. Some members requested more detailed information from the Republic of Macedonia about the services rendered in connection with the €19 customs evidence fee. The Republic of Macedonia was also asked to confirm that the customs evidence fee was applied to all import and exports. Exemptions from the fee, if any, should be recorded in the report of the Working Party. A Member also noted that trucks crossing the border of the Republic of Macedonia at the Blace terminal had been charged a fee of €100 since 7 February 2002, and wondered whether this fee was additional to the customs evidence fee of €19 and, if so, what the justification in terms of services rendered could be for such an additional fee.

81. The representative of the Republic of Macedonia replied that the €19 customs evidence fee was applied only to imports at present. However, the scope and application of this fee would be revised in the light of comments from members of the Working Party regarding the compatibility of this current fee with the requirements of Article VIII of the GATT 1994. The Republic of Macedonia would issue an amended regulation, stipulating a fee of €19 per customs declaration and extending the application of the fee to all customs procedures without exemption. The regulation establishing the amended fee - the Regulation Governing the Fee for Customs Services, signed by the Minister of Finance on 20 August 2002 and published in the Official Gazette No. 69/02 - would become effective prior to the Republic of Macedonia's accession to the WTO.

82. Concerning the €100 truck fee, the representative of the Republic of Macedonia noted that the Blace terminal was the most frequently used border crossing for commercial shipments to Kosovo, serving also the NATO forces stationed there for all logistical purposes. The Republic of Macedonia

had recently opened a parallel by-pass to be used exclusively by the NATO forces to make the crossing more effective. However, in practice trucks carrying commercial shipments had also tended to use the NATO by-pass. His authorities had therefore decided that all trucks transiting through the Republic of Macedonia should be escorted to the appropriate exit at the Blace border crossing. The €100 fee covered the expenses of the escort, and trucks were not subject to any additional fee at the Blace border crossing.

83. Some Members remained concerned that the €100 truck fee was not in full compliance with WTO requirements, and suggested that the Republic of Macedonia should make a commitment to review this fee with a view to its elimination as soon as possible.

84. The representative of the Republic of Macedonia confirmed that from the date of accession the Republic of Macedonia would impose fees and charges for services rendered related to importation or exportation only in conformity with the relevant provisions of the WTO Agreements, in particular Articles VIII and X of the GATT 1994. The €100 fee applied to trucks at the Blace border crossing would be reviewed with a view to its elimination as soon as the international situation would permit its removal. Information regarding the application and level of any such fees, revenues collected and their use would be provided to WTO Members upon request. The Working Party took note of these commitments.

Application of internal taxes

85. The representative of the Republic of Macedonia said that excise taxes were levied on products specifically listed in the Law on Excise Taxes (Official Gazette Nos. 32/01 and 50/01), which had entered into force on 1 July 2001. The products are enumerated in Table 3(a). Pursuant to Article 64 of this Law, excise taxes on automobiles would still be subject to the provisions of the former Law on Excise Taxes (Official Gazette No. 78/93) until 31 December 2003.

86. Excise taxes were assessed and paid on a monthly basis. Taxpayers were obliged to submit their tax declarations within fifteen days after the end of each calendar month. Excise taxes on tobacco products, semi-products and ethyl-alcohol were paid by the use of stickers (banderoles). Diplomatic missions, consular offices, international organizations and NATO military forces were entitled to drawback of excise taxes. Excise taxes paid on unsold goods could be drawn back if the goods were returned to the excise warehouse, destroyed or fully denatured under the supervision of the tax authorities.

87. Excise tax rates were identical for imported and domestically produced goods, except for tobacco products. The domestic tobacco industry was fragile and based on cultivation of a unique tobacco leaf, for which the Republic of Macedonia was struggling to develop an export market. Asked how the Republic of Macedonia intended to bring its excise taxation regime into line with WTO requirements, in particular with Article III of the GATT 1994, he proposed that the Republic of Macedonia would equalize excise taxes on cigarettes and other tobacco products by 2007 and 2005, respectively, in accordance with the timetable presented in Table 3(b). Legislation gradually equalizing the excise tax rates for imported and domestic tobacco products as outlined in Table 3(b) was contained in the Amendments to the Law on Excise Taxes, enacted in June 2002 and published in the Official Gazette No. 45/02. By 1 January 2007, the Republic of Macedonia's excise taxes on tobacco products would be in conformity with WTO Agreements, as putlined in Table 3(b).

88. Some members noted that excise taxes applied by the Republic of Macedonia would also appear to discriminate in favor of certain types of wines and sparkling wines, as wine made of grapes were subject to a lower excise rate than wines made from other fruit. The Republic of Macedonia was also requested to clarify the nature of the beverages termed "semis" and explain why the excise tax on these beverages was assessed at the same level as for distilled spirit beverages. Any differences in excise tax application on brewed beverages should, in the view of these Members, be eliminated no later than upon accession.

89. The representative of the Republic of Macedonia replied that the classification and definitions of alcoholic beverages in the Law on Excise Taxes were based on EU directives relating to these products (EWG RL 92/83). Sparkling wines and wines were zero rated, while other sparkling and non-sparkling fermented drinks (such as cider, perry and mead) were taxed at 30 Denar per litre. Semi-products included all products falling within HS 2204, 2205 and 2206 with an alcohol content ranging between 1.2-22 per cent vol. not classified as "sparkling wine" or "wine". The excise tax on semi products amounted to 300 Denar per litre of pure alcohol. He stressed that the Law on Excise Taxes, applied since 1 July 2001, provided for identical tax rates for the same imported and domestically-produced alcoholic beverages and therefore, in his view, did not discriminate on the basis of origin.

90. Some members reiterated that the Republic of Macedonia applied different levels of excise tax on similar alcoholic beverages, i.e. on sparkling and non-sparkling fermented beverages, and that this differential was intended to exempt certain beverages produced domestically, e.g. grape wine, from excise taxes. Such treatment was, in their view, not consistent with Article III of the GATT 1994.

91. The representative of the Republic of Macedonia confirmed that the excise tax regime would be amended prior to accession to equalize the tax rates on wines and like beverages. In a session held on 27 August 2002, his Government had accepted amendments to the Law on Excise Taxes (Article 36, paragraphs 4 and 5) equalizing the excise tax on other sparkling and non-sparkling drinks at a rate of 0 Denar per litre (Excerpt No. 23-4505/1 forming an integral part of the Draft Amendments to the Law on Excise (wine) of 27 August 2002). The amendments would be presented to Parliament as soon as Parliament would reconvene after the general elections in September 2002, and the Republic of Macedonia would not accept the WTO Agreement until after this legislation had been enacted and implemented.

92. The representative of the Republic of Macedonia said that value added tax was imposed in accordance with the Law on Value Added Tax (Official Gazette Nos. 44/99, 59/99, 86/99, 11/00 and 8/01), which had replaced a previous sales tax on 1 April 2000. The general rate of VAT of 19 per cent was applied to all goods and services, except those subjected to a reduced tax rate of 5 per cent. The Decision on Determining Products and Services Subject to the Reduced VAT Rate (Official Gazette Nos. 16/01 and 21/01) established the goods and services subject to the reduced rate, and the items are listed in Table 4(a) (goods) and 4(b) (services).

93. VAT liability occurred at the moment of supply of a good or complete delivery of a service. In case of advance payment for goods or services, VAT liability for the amount received occurred upon receipt of the payment. Taxpayers submitted VAT tax returns within 15 days after the expiration of the assessment period (either the end of each quarter or end of each calendar month). The tax was calculated on the basis of total turnover during the respective accounting period, less all input taxes entitled to credit deduction. Tax credit was admitted for VAT on supplies provided by other taxpayers, VAT on advance payments when such payments were still outstanding, and VAT paid for imports. The customs authorities collected VAT on imported goods together with customs duties. The right to claim deduction for paid VAT could be exercised only for inputs used by the taxpayer in his business activity, on the basis of invoices or customs declarations stating the tax separately.

94. Value added tax was applied equally to imported and domestically produced items. He confirmed that exemptions from VAT applied to both domestic and imported goods and services. VAT was assessed on the total price, inclusive of excise tax where applicable. The assessment of VAT did not exempt products from excise tax. Exporters were entitled to drawback of VAT on products sold abroad.

95. Appeal procedures for value added and excise tax decisions were identical and governed by the Law on Personal Income Tax. An appeal was filed with the Ministry of Finance through the tax authorities within fifteen days from the date of delivery of the initial decision. In the event of denial, the dissatisfied party had the right to initiate an administrative dispute by filing a complaint with the Supreme Court.

96. The representative of the Republic of Macedonia confirmed that excise tax and VAT rates in the Republic of Macedonia were identical for all imported goods regardless of origin, and that the Republic of Macedonia applied its excise taxes and VAT in full conformity with the MFN principle provided in Article I.1 of the GATT 1994.

97. The representative of the Republic of Macedonia stated that, from the date of accession, the Republic of Macedonia would, with one exception, apply its domestic taxes on products, including those listed in paragraphs 85 to 96 and Tables 3(a), 4(a) and 4(b) in strict compliance with Article III of the GATT 1994, in a non-discriminatory manner to imports regardless of country of origin and to domestically-produced goods. The Republic of Macedonia's excise taxes applied to imported and domestic tobacco products would be equalized or otherwise brought into conformity with Article III of the GATT in accordance with the timetable contained in Table 3(b) and the Amendments to the Law on Excise Taxes of June 2002. The Working Party took note of these commitments.

Quantitative import restrictions, including prohibitions, quotas and licensing systems

98. The representative of the Republic of Macedonia said that all quantitative import restrictions had been eliminated with the abolition of the "quantitative contingent – KK regime" on 31 December 1996. At present, the Republic of Macedonia maintained non-automatic import licenses to protect domestic industries and agricultural production under the provisions of the Law on Foreign Trade (Official Gazette Nos. 31/93, 41/93, 78/93, 15/97, 13/98, 13/99, 50/99, 82/99 and 4/01); to control trade in arms, ammunition and military equipment, as well as gold and silver in accordance with Articles XX and XXI of the GATT 1994; and to allocate tariff rate quotas granted bilaterally under free trade agreements. Information on import licensing procedures was provided in document WT/ACC/807/5/Add.1, Annex 3. Lists of products subject to quantitative import restrictions or licensing were also made available in documents WT/ACC/807/2, WT/ACC/807/5/Add.4 and WT/ACC/807/12, Attachments 3 and 4, and subsequently updated in documents WT/ACC/807/18 and WT/ACC/807/23.

99. The Ministry of Economy and the Ministry of Agriculture, Forestry and Water Economy administered the non-automatic licensing regime for the protection of domestic industries and agricultural production. The products subject to this regime are enumerated in Table 5(a). In considering applications for import licences, Ministry officials would pay attention to the existing supply situation in the domestic market, the volume of domestic production, and the price. A licence was valid for six months for the stated quantity, and issued against a fee of 600 Denar (about US$9). Complete licence applications would be processed within two days. The decision to grant a licence was taken by the Minister of Economy, and could not be appealed. In response to a specific question, he confirmed that the criteria applied by the Minister of Economy in issuing non-automatic licences for oil derivatives were not published.

100. The representative of the Republic of Macedonia said that the purpose of this licensing regime was to assist major industrial and agricultural enterprises as they were being privatized, restructured and adjusted to market economy principles, and the regime was under consideration in the light of current and future international commitments. He added that licensing requirements had been lifted for many products at the end of 2001, and that import licensing would be eliminated for other products on 30 June 2002 or 31 December 2003 as reflected in the timetable included in Table 5(a). The Republic of Macedonia had abolished all quantitative restrictions on imports from the European Union as of 1 June 2001, and his Government intended to extend the same treatment to all WTO Members on an MFN basis prior to accession to the WTO.

101. Non automatic import licences for nuclear materials, arms and ammunition, explosives, banknotes, and precious metals were issued by the Ministry of Economy upon prior approval by the Ministry of Internal Affairs, the Ministry of Defense or the National Bank. The products concerned are listed in Table 6. He considered these restrictions justifiable under Articles XX and XXI of the GATT. The applicant would seek the opinion of the respective agency, and provided their requirements were satisfied, the Ministry of Economy would issue the import licence within one day. There was no appeals process for these licensing decisions.

102. Licences for the allocation of tariff rate quotas under certain preferential trade agreements were administered by a committee comprising representatives from the Ministry of Economy, the Ministry of Agriculture, the Ministry of Finance and the Ministry of Foreign Affairs. Generally, the agreements' stipulated annual quotas, while import licences normally were valid for six months. The quantities, conditions and documentation required for an application were fixed by special government decisions (one for each trading partner), published in the Official Gazette and in the daily newspapers. Applications were filed with one of the Ministries concerned within two weeks from the date of publication. The committee would consider all applications simultaneously, and reach a decision within five to ten days.

103. The Republic of Macedonia also applied licensing in the administration of its TBT and SPS regime. The Bureau for Standardization and Metrology issued licences for some four hundred electric appliances (Table 5(b)) for the safety of consumers. Licenses of indefinite validity and for unlimited quantities were issued automatically upon submission of sample copies of manufacturers' certificates, guarantees, and instruction manuals. Licence fees ranged from US$50 to US$195 depending on the product unit price (Official Gazette No. 38/90) and were, in his view, consistent with Article VIII of the GATT 1994. The Ministry of Agriculture, Forestry and Water Economy issued licences for pesticides and fertilizer (Table 5(c)), seeds and seed materials (Table 5(d)), forest trees and seeds (Table 5(e)), and live animals and products of animal origin (Table 5(f)). The Ministry of Environment issued licences for asbestos and products containing asbestos, secondhand television, radio and video sets and monitors, used refrigerators and freezers, used and repaired tyres and chemical substances regulated by international agreements such as the Vienna Convention and the Montreal Protocol (Table 5(g)). The Ministry of Health administered licences for pharmaceutical chemicals, narcotic substances, vitamins and medicines, and radioactive isotopes and products (Table 5(h)).

104. The representative of the Republic of Macedonia said that licensing procedures were conducted in conformity with the general provisions set forth in the Law on Administrative Procedure (Official Gazette of the Socialist Federal Republic of Yugoslavia No. 47/86). Licence fees amounted to 600 Denars (about US$9) and covered only the costs of the services rendered. Information about licenses was published in the Official Gazette and in the daily newspapers. Furthermore, information about licensing requirements and procedures were available at the respective agencies. The period of time allowed for submission of licence applications was two weeks.

105. Some Members stated that the import licensing system currently in place was only partially compatible with the relevant GATT rules. The Republic of Macedonia was requested to provide an action plan with a detailed timetable for the elimination of present inconsistencies together with appropriate WTO justifications for any remaining licensing requirements.

106. The representative of the Republic of Macedonia replied that the import licensing system would be thoroughly appraised in the light of overall economic commitments and developments in the Republic of Macedonia. He stressed that certification, required for importation of some four hundred products (mainly electrical appliances) was granted automatically upon submission of standard documentation such as manufacturers' manuals, guarantees and information concerning repairs. Sanitary and phytosanitary requirements were based entirely on standards and procedures developed by international organizations. Domestic products were subject to the same sanitary, phytosanitary and safety requirements as imported goods.

107. The representative of the Republic of Macedonia confirmed that, from the date of accession or as otherwise provided for in the timetable outlined in Table 5(a), no later than 31 December 2003, the Republic of Macedonia would eliminate and would not introduce, re-introduce or apply quantitative restrictions on imports, or other non-tariff measures such as licensing, quotas, bans, permits, prior authorization requirements, licensing requirements, and other restrictions having equivalent effect, that cannot be justified under the provisions of the WTO Agreement. He further confirmed that the legal authority of the Government of the Republic of Macedonia to suspend imports and exports or to apply licensing requirements that could be used to suspend, ban, or otherwise restrict the quantity of trade will be applied from the date of accession in conformity with the requirements of the WTO, in particular Articles XI, XII, XIII, XIX, XX and XXI of the GATT 1994, and the Multilateral Trade Agreements on Agriculture, Application of Sanitary and Phytosanitary Measures, Import Licensing Procedures, Safeguards and Technical Barriers to Trade. The Working Party took note of these commitments.

Customs valuation

108. The representative of the Republic of Macedonia said that the determination of customs value was carried out in accordance with Articles 28 to 39 of the Law on Customs (Official Gazette Nos. 21/98, 26/98, 63/98 and 25/00), which had entered into force on 1 April 2000, and the Regulation on Customs Valuation (Official Gazette No. 17/00). The Republic of Macedonia's legislation stipulated the transaction value as the principal method of customs valuation, and incorporated the hierarchy of alternative methods of valuation laid down in the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994 (the Customs Valuation Agreement). Article 31, paragraph 2 of the Law on Customs explicitly prohibited the use of minimum import values. Detailed information on implementation and administration of the Customs Valuation Agreement was provided in document WT/ACC/807/5, Add.1, Annex 4, and subsequently updated in document WT/ACC/807/26, Attachment 2.

109. In response to specific questions, the representative of the Republic of Macedonia added that the Regulation on Customs Valuation incorporated provisions concerning the treatment of related parties (Article 13), the prohibition on the use of a valuation system providing for the acceptance of the higher of two alternative values (Article 14, paragraph 5), and maintaining the confidentiality of data supplied in the process of customs valuation (Article 38). The first portion of Article 6.2 of the Customs Valuation Agreement, which states that "no party may require or compel another person not resident in its own territory to produce for examination, or to allow access to any account or other record for the purposes of determining a computed value", had not yet been incorporated in the Republic of Macedonia's customs valuation legislation, but the issue would be addressed in an amendment to the Regulation on Customs Valuation.

110. The representative of the Republic of Macedonia said that as the Law on Customs already largely ensured implementation of the WTO Customs Valuation Agreement, the Republic of Macedonia intended to adhere to the Customs Valuation Agreement from the date of accession to the WTO without recourse to any transitional period. The Republic of Macedonia was amending its Customs Law to ensure full compliance with the Agreement on the Implementation of Article VII of the GATT 1994. Amendments to the Customs Law and a revised Regulation on Implementation of the Provisions of the Customs Code Concerning Valuation of Goods for Customs Purposes, once published in the Official Gazette, would supersede the provisions for customs valuation established in the Regulation on the Rules and Procedures for Customs Valuation (Official Gazette No. 17/2000). In particular, both the Interpretative Notes of the Agreement and the Decision of 24 September 1984 on the Valuation of Carrier Media Bearing Software for Data Processing Equipment, were fully incorporated in the Amendments to the Customs Law. The content of Decision 6.1 of the Customs Valuation Committee had been incorporated fully into Article 28 of the Regulation on Implementation of the Provisions of the Customs Code Concerning Valuation of Goods for Customs Purposes (Official Gazette No. 60/02), thus ensuring that customs authorities would provide importers with advance notice that rejection of the importer's declared value was contemplated, and, if requested, a written explanation of the grounds for doubting the accuracy of the information supporting the importer's declared value. A reasonable opportunity for response would also be given prior to making a final determination regarding the appraisement of the merchandise. The right of importers and other interested parties to appeal customs rulings to the judicial authorities, and without penalty, was regulated by Article 15 of the Constitution, Articles 223 and 224 of the Law on General Administrative Procedure and Article 15 of the Customs Law. In addition, the Republic of Macedonia had implemented legal provisions to bring Articles 30, 31, 33 and 35 of the Law on Customs into compliance with the "related party" provisions of the Agreement. The process of amending the Republic of Macedonia's customs valuation legislation had been completed on 4 July 2002 with the passage of amendments to the Customs Law by Parliament (Official Gazette No. 55/02).

111. The representative of the Republic of Macedonia confirmed that, from the date of accession, the Republic of Macedonia would apply fully the WTO provisions concerning customs valuation, including the Agreement on the Implementation of Article VII of the GATT 1994 and Annex I (Interpretative Note) and the provisions for the Valuation of Carrier Media Bearing Software for Data Processing Equipment (Decision 4.1), providing that valuation of the software was based on the value of the media. He stated that the Republic of Macedonia would not use any form of reference price or fixed valuation schedule for the valuation of imports or to apply duties and taxes, and that all methods of valuation used were in strict conformity with those provided for in the WTO Agreement on the Implementation of Article VII of the GATT 1994. The Working Party took note of these commitments.

Rules of origin

112. The representative of the Republic of Macedonia said that country of origin of goods was determined in accordance with the Law on Customs, Articles 25, 26, 27 and 27a (Official Gazette Nos. 21/98, 26/98, 63/98 and 25/00), the Decision on the Manner of Determining Origin (Official Gazette No. 26/00), and the Protocols on the Rules of Origin pertaining to the free trade agreements signed by the Republic of Macedonia. Proof of origin was only required for goods imported under preferential schemes, and consisted of a Certificate of Movement EUR 1 issued by the customs authorities in the exporting country upon written request of the exporter, or an invoice declaration.

113. A Member noted that the most recent amendments to Customs Law appeared to have removed preferential rules of origin from the provisions of that Law, allowing for preferential origin to determined by the rules of origin in each specific preferential trade agreement. This Member requested information on how the Republic of Macedonia intended to incorporate the provisions of the WTO Agreement on Rules of Origin in its legal regime, specifically the provisions of Article 2(h) and Annex II, paragraph 3(d) of the Agreement, reminding the Republic of Macedonia that these provisions were applicable to both preferential and non-preferential trade.

114. The representative of the Republic of Macedonia replied that the Republic of Macedonia had incorporated the provisions of Article 2 (h) and Annex II, paragraph 3 (d) of the WTO Agreement on Rules of Origin in its legislation. Parliament had approved the necessary amendments to the Customs Law on 4 July 2002. Prior to that importers had been able to request information on the rules of origin under the general provision of Article 16 of the Law on Customs.

115. The representative of the Republic of Macedonia confirmed that from the date of accession the Republic of Macedonia's preferential and non-preferential rules of origin would comply fully with the WTO Agreement on Rules of Origin, and that the requirements of Article 2(h) and Annex II, paragraph 3(d) of the Agreement, which require provision upon request of an assessment of the origin of the import and outline the terms under which it will be provided, would be established in the Republic of Macedonia's legal framework prior to accession. The Working Party took note of this commitment.

Other customs formalities

116. Asked to explain the requirements for importation of second-hand cars into the Republic of Macedonia, the representative of the Republic of Macedonia said that the Law on Foreign Trade had been amended (Official Gazette No. 82/99) to allow importation of second-hand cars fitted with catalyzer engine and not older than six years from the date of production. Customs clearance of second-hand motor vehicles could only be effected at the customs offices in Skopje, Bitola and Gevgelija.

117. The representative of the Republic of Macedonia confirmed that the Republic of Macedonia did not require certification or authentication of commercial documents by its consulates or Chambers of Commerce abroad. No consular fees had accordingly been established for services relating to importation or exportation.

Preshipment inspection

118. The representative of the Republic of Macedonia said that the Republic of Macedonia had no legislation relevant to pre-shipment inspection. The Republic of Macedonia was not using pre-shipment inspection services, and had no plans to use any private PSI company to provide customs or other services covered by the Agreement on Preshipment Inspection.

Anti-dumping, countervailing duties, safeguard regimes

119. The representative of the Republic of Macedonia said that provisions concerning the imposition of anti-dumping measures existed in Article 34 of the Law on Trade (Official Gazette No. 23/95) and in the Law on Foreign Trade (Official Gazette No. 31/93), Article 54, paragraphs 1-5. However, no anti-dumping procedures had been initiated so far. His Government had the authority to levy countervailing duties according to a general provision in Article 54, paragraph 6 of the Law on Foreign Trade, but had issued no regulations for the procedure to be followed in the application of such measures. Safeguard measures were dealt with in Articles 52 and 53 of the Law on Foreign Trade, and Constitutional Court Decisions (Official Gazette Nos. 40/96 and 44/96). However, safeguard measures had not been introduced so far, and no regulation had been issued stipulating the procedure and conditions under which safeguard measures would be introduced and applied. His Government had initiated a review of the entire Foreign Trade Law, and would in this connection consider the feasibility of and need for more detailed legislation on antidumping, countervailing and safeguard measures.

120. Some Members stated that the legal provisions in place in the Republic of Macedonia to apply antidumping, countervailing and safeguard measures did not appear to meet the standards required in the relevant WTO Agreements. These Members sought a commitment from the Republic of Macedonia not to apply any antidumping, countervailing or safeguard measure to imports from WTO Members until the Republic of Macedonia would have notified and implemented appropriate laws in conformity with the provisions of the WTO Agreements on the implementation of Article VI of the GATT 1994, on Subsidies and Countervailing Measures, and on Safeguards.

121. The presentative of the Republic of Macedonia replied that the Republic of Macedonia had always intended to comply with the respective WTO requirements in relation to antidumping, countervailing or safeguard measures, and current legislation expressly required such compliance. The Republic of Macedonia was currently drafting new legislation which, in his view, would be fully consistent with the Agreement on the Implementation of Article VI of the GATT 1994, the Agreement on Safeguards and the Agreement on Subsidies and Countervailing Measures. This legislation had been enacted on 20 June 2002. Some members of the Working Party indicated that, based on their review of the legislation, further work would be necessary for it to be meeting the requirements of the WTO Agreements. They encouraged the Republic of Macedonia's efforts to develop WTO-consistent laws in the areas of safeguards, antidumping and countervailing duties, and offered their assistance in this regard.

122. The representative of the Republic of Macedonia said that any legislation in place at the time of accession or implemented in the future providing for the application of measures taken for safeguard, anti-dumping or countervailing duty purposes would be brought into conformity with the provisions of the WTO Agreements on Safeguards, on Anti-dumping and on Subsidies and Countervailing Measures. In the absence of such conforming legislative authority in place at the time of accession, the Republic of Macedonia would not apply measures for safeguard, anti-dumping or countervailing duty purposes until legislation in conformity with the provisions of these WTO Agreements had been implemented. The Working Party took note of this commitment.

2. Export regulation

Customs tariffs, fees and charges for services rendered, application of internal taxes to exports

123. The representative of the Republic of Macedonia said that any economic operator wishing to engage in foreign trade would have to register simultaneously for exportation and importation. Whether the operator would engage in importation or exportation was entirely his/her own decision. The conditions governing individuals and enterprises engaged in exportation and importation of goods and services were the same as for importation according to the Law on Foreign Trade.

124. He added that the Republic of Macedonia did not apply any export duties. A charge of 0.1 per cent was levied on all exports to finance export promotion activities. The Republic of Macedonia would maintain this charge until the end of 2005, as noted in paragraph 71. As for fees and charges for services rendered, the 1 per cent ad valorem customs evidential fee had not applied to exports, but the amended €19 customs evidential fee per customs declaration would be extended to export transactions prior to accession.

Export restrictions

125. The representative of the Republic of Macedonia said that exportation of goods was in principle free from restrictions. All export quotas had been eliminated at the end of 1996 according to the Decision for Amending the Decision for Classification of Goods for Imports and Exports (Official Gazette No. 64/96), which had abolished the "quantitative contingent - KK regime" for exports. The Republic of Macedonia continued to require "L" licences for exportation of commercial explosives, ammunition, arms, narcotic drugs, artistic works and certain precious metals in conformity with international conventions.

126. In addition, exports of some products were for strategic reasons subject to approval, issued under Article 12 of the Law on Foreign Trade and the Decision on Classification of Goods for Imports

and Exports. The products subject to licensing or approval are enumerated in Tables 7(a) and (b). According to the representative of the Republic of Macedonia, the purpose of these permits was to avoid temporary food shortages, ensure inputs needed in the domestic processing industry, or for reasons of environmental protection. These restrictions were, in his view, permitted according to Article XX of the GATT 1994. Article 46 of the Law on Forests (Official Gazette No. 47/97) prohibited the logging of rare and environmentally endangered types of trees. The Minister of Agriculture could, exceptionally, permit the cutting of such trees for environmental or silvicultural reasons. Export licences for some agricultural products had been removed at the end of 2001, and export licences for crude oil and oil derivatives would be eliminated by the end of 2003 according to the timetable provided in Table 7(a).

127. A Member requested the Republic of Macedonia to provide a table listing the products subject to export approval for strategic reasons and, in adjacent columns, detailing (i) the specific objective of export control in relation to the product concerned; (ii) the WTO justification; and (iii) references to the relevant legal instruments. In reply, the representative of the Republic of Macedonia referred to the products listed in Table 7(c), which were restrictions maintained in accordance with Article 10, paragraph 2 of the Law on Foreign Trade (Official Gazette Nos. 31/93, 41/93, 78/93, 44/96-40/96, 59/96, 15/97, 13/98, 13/99, 50/99 and 82/99), and which he considered could be justified under Article XXI of the GATT 1994.

Export subsidies

128. The representative of the Republic of Macedonia said that, apart from import duty drawback, the Republic of Macedonia applied no other direct export promotion measures at present. However, his Government incurred expenses relating to the promotion of the country and its products in general, e.g. through the participation in international trade fairs and exhibitions, publication of promotional materials, attendance at international conferences, etc. Measures and incentives relating to the establishment of free economic zones are discussed in the section "Free zones, special economic areas".

129. Drawback of import duties was regulated by Articles 97 to 107 of the Customs Law (Official Gazette Nos. 21/98, 26/98, 63/98, 86/00, 25/00, 109/00 and 31/01), Articles 43 to 81 of the Regulation on the Determination of Closer Criteria and the Manner of Conducting the Procedure with Economic Effect, and Instruction No. 3 of the Customs Administration on the Customs Procedure on Imports Aimed for Exports with the Duty Drawback Scheme (published in the Customs Administration Manual of March 2000). A request for drawback was submitted by the person carrying out the production activity or making arrangements for it. Drawback could be requested upon submission of evidence that the imported products had been used in the production of final products, provided the imported product could be recognized in the final product.

130. The import duty drawback system was centralized and administered by regional Customs houses, each with a specialized unit dealing exclusively with drawbacks. The duty drawback system was applied strictly, and the specialized units ensured that the claimed import duty on inputs would not exceed the value refundable upon exportation of the finished product. Drawback was directly connected with the import declaration, and the exporter was required to present all export and import declarations and documentation concerning the value of inputs. The specialized drawback unit would then inspect the producer's premises, verify the production and value of the imported inputs in the finished products, and issue an administrative decision. Drawback could only be claimed once per import declaration. He added that the Republic of Macedonia legislation established objective criteria for the application of the duty drawback scheme, as well as mechanisms for additional verification, and therefore operated in a manner fully consistent with the provisions of Annex II of the WTO Agreement on Subsidies and Countervailing Measures.

131. Raw materials and semi-manufactures used in the production of final products intended for export could be imported on a temporary basis. Temporary importation for the purpose of refining, finishing, processing or repair could be allowed for a period ranging from 6 to 12 months depending on the production process.

132. The representative of the Republic of Macedonia said that the Republic of Macedonia would not maintain, and from the date of accession would not introduce, subsidies which met the definition of a prohibited subsidy within the meaning of Article 3 of the Agreement on Subsidies and Countervailing Measures and would therefore not seek a transitional period for the elimination of such measures. The Working Party took note of this commitment.

3. Internal policies affecting foreign trade in goods

Industrial policy, including subsidies

133. The representative of the Republic of Macedonia said that the Republic of Macedonia was relying on the experience of other countries in designing an industrial policy based on the Republic of Macedonia 's current level of development and the existing economic structure. Some industrial sectors, such as the textiles, metal processing and non-ferrous metallurgic industries were already producing efficiently, and existing facilities would be further expanded in combination with restructuring and privatisation.

134. At the same time, the Republic of Macedonia intended to develop further its agricultural and livestock production, as well as industrial sectors based on raw materials. Existing policies also aimed at the development of small and medium sized enterprises in all economic sectors and activities, including in services, handicrafts, tourism and trade.

135. The representative of the Republic of Macedonia confirmed that the Republic of Macedonia did not maintain subsidies, including export subsidies, which met the definition of a prohibited subsidy within the meaning of Article 3 of the Agreement on Subsidies and Countervailing Measures, and that it would not introduce such prohibited subsidies in the future. The representative of the Republic of Macedonia confirmed that any subsidy programs would be administered in line with the Agreement on Subsidies and Countervailing Measures and that all necessary information on programs to be notified, if such exist, would be provided to the Committee on Subsidies and Countervailing Measures in accordance with Article 25 of the Agreement upon entry into force of the Republic of Macedonia's Protocol of Accession. The Working Party took note of this commitment.

Technical barriers to trade, sanitary and phytosanitary measures

(a) Standards and certification

136. The representative of the Republic of Macedonia provided information on technical barriers to trade in document WT/ACC/807/5/Add.1, Annex 5 and information on the Implementation of the WTO Agreement on Technical Barriers to Trade (TBT) in document WT/ACC/807/11. He added that socially-owned enterprises – all of the Republic of Macedonia's manufacturing industry, and most of the agricultural sector – had followed norms referred to in Yugoslav legislation as "sectoral" and "internal" standards prior to independence in 1991. These were industry-generated standards, mostly dealing with production and service methods. When the Republic of Macedonia had enacted its own Law on Standardization in 1995, a provision had been included in Article 93 concerning the continuing use of former Yugoslav standards until their replacement by appropriate national standards as a matter of precaution. It was in this context that some 12,000 standards had been inherited from the former Socialist Federal Republic of Yugoslavia, although most of these standards were no longer relevant or applicable due to their limited scope and specialized nature.

137. The Republic of Macedonia's standardization system consisted of the Law on Standardization, the Law on Measure Units and Measures, and the Law on Control of Goods Made Out of Precious Metals (all published in Official Gazette No. 23/95). The Law on Standardization provided a framework for the introduction of standards in the Republic of Macedonia, but did not directly establish any technical regulations or voluntary standards. The Law (Article 8, etc.) established a largely voluntary system of standards with emphasis on internationally developed criteria (Article 13) and on science and technology (Article 14). The Republic of Macedonia was a member of most international and regional standards organizations. The Bureau for Standardization and Metrology had been a member of the International Organization of Legal Metrology (OIML) since 1994, and a member of the International Standardization Organization (ISO) since 1 January 1995.

138. Much attention was paid to the establishment and application of competent and reliable conformity assessment procedures to prevent deceptive and fraudulent practices. No new regulations had been introduced so far, but the procedures inherited from the Socialist Federal Republic of Yugoslavia continued to be applied to the extent practicable. The Republic of Macedonia recognized the conformity assessment results of other WTO Members. The testing of products and production methods, and industry production standards, were still practically non-existent in the Republic of Macedonia. He confirmed that the Republic of Macedonia's conformity assessment procedures conformed with the requirements of Article 5.2.3 of the Agreement on Technical Barriers to Trade in the sense that information requirements were limited to what is necessary to assess conformity and determine fees, and the confidentiality of information was respected in the manner required in Article 5.2.4 of the Agreement.

139. The government agency responsible for the development and implementation of standards and technical regulations - the Bureau for Standardization and Metrology within the Ministry of Economy – issued a publication (the Herald) to the public free of charge. The Bureau for Standardization and Metrology would serve as the Republic of Macedonia's enquiry point and be responsible for the preparation and submission of notifications in accordance with the procedures prescribed in the Agreement on Technical Barriers to Trade.

140. Upon an initiative of interested persons, the Bureau would establish a technical committee to develop specific technical regulations and/or standards. The committee would comprise experts representing the industry, business and the public. Based on information from its members and the Chamber of Commerce, the committee would draw up a list of all companies potentially interested in or affected by the regulations and/or standards, and distribute the working documents to them. The committee would prepare the final version of the regulations and/or standards following receipt and due consideration of comments from those interested. Once adopted by the Minister of Economy, the regulations or standards would be published in the Official Gazette.

141. The Republic of Macedonia relied almost entirely on the international standards used by foreign manufacturers and producers exporting their products to the Republic of Macedonia. In the few instances where the Republic of Macedonia had introduced technical regulations (salt and passenger motor vehicles), these had been based on international specifications developed or approved by international organizations, and to the extent that domestic manufacturers applied standards, these would be international standards. Technical regulations for salt consisted of proper content labeling requirements and were administered by the Ministry of Health in conjunction with its own product safety requirements. Automobiles were required to comply with ECE safety regulations, documented by product type certificates of compliance at the time of vehicle registration. The Republic of Macedonia recognized certificates issued in any country in line with the procedures prescribed by ECE. Automobiles without such certificates required special application and possibly testing. Requests were processed without delay against a fee equivalent to DM 250 for document processing and DM 2,500 for inspection and testing of the automobile. The Bureau issued (import) licences for some 400 different electrical appliances (Table 5(b)). A licence issued for a particular product would be valid for an unlimited number of shipments for an unlimited period of time.

142. The Bureau of Standardization and Metrology had drafted four new laws to replace current legislation in the areas of standardization, accreditation, technical requirements for products and conformity assessments, and on metrology, in consultation with experts of international and regional standards organizations. On 4 July 2002, Parliament had passed the Law on Standardization and the Law on Accreditation (Official Gazette No. 54/02), as well as the Law on Metrology and the Law on Prescribing Technical Requirements for Products and Conformity Assessment (Official Gazette No. 55/02).

143. The representative of the Republic of Macedonia confirmed that the new legislation, circulated in draft and final text to the Working Party in documents WT/ACC/807/22 and WT/ACC/807/24/Add.3, updated the Republic of Macedonia's standardization regime and promoted fuller harmonization with WTO requirements. In particular, the Law on Standardization and the Law on Prescribing Technical Requirements for Products and Conformity Assessment provided for, *inter alia*, conformity assessment procedures that reflected options for achieving confidence in the technical competence of bodies located in the territory of other WTO Members to perform conformity assessment and for having their results accepted in ways other than through agreements with conformity assessment bodies in other countries. The new laws also established the acceptance and non-discriminatory consideration of applications for accreditation from conformity assessment bodies located in other WTO Members and the acceptance of conformity assessment results from qualifying bodies, as provided for in Article 6 of the Agreement on Technical Barriers to Trade.

144. The representative of the Republic of Macedonia said that the Republic of Macedonia intended to adhere to the Agreement on Technical Barriers to Trade from the date of accession without recourse to a transitional period. He added that the mandatory quality requirements in the Law on Quality Control of Agriculture and Food Products in the Foreign Trade Circulation (Official Gazette Nos. 5/98 and 13/99) for the products listed in the Decision No. 23-2619/1 on Determining Agricultural and Food Products and Their Processings That Are Subject to Quality Control in the Foreign Trade (Official Gazette No. 53/98), had been eliminated in accordance with Article 62 of the Law on Safety of Foodstuffs and Products and Materials Coming into Contact with Foodstuffs (Official Gazette No. 54/02) of 4 July 2002. He also stated that Article 27 of the new Law on Standardization declares all previously mandatory standards to be voluntary. Henceforth, as provided for by WTO rules, all of the Republic of Macedonia's standards will be considered to be voluntary unless reviewed and confirmed as technical regulations as provided for in the new legislation enacted in July 2002. The Republic of Macedonia would seek technical assistance to ensure the smooth implementation of its new TBT legislation.

145. The representative of the Republic of Macedonia stated that, upon accession to the WTO, the Republic of Macedonia would comply with all the provisions of the Agreement on Technical Barriers to Trade without recourse to any transitional arrangements. The Working Party took note of this commitment.

(b) Sanitary and phytosanitary measures

146. The representative of the Republic of Macedonia said that the Law on Veterinary Health (Official Gazette No. 28/98), the Law on Plant Protection (Official Gazette Nos. 25/98 and 6/00), the Law on Seeds and Seedling Materials, Recognition, Approval and Protection of Species (Official Gazette No. 41/00), the Law on Health Safety of Food Products and Articles for Common Use (Official Gazette Nos. 53/91 and 15/95) and the Law on Health Control of Foodstuffs and Products for Common Use (Official Gazette Nos. 29/73, 37/86 and 15/95), together with pertinent regulations, constituted the basic legal framework for the Republic of Macedonia's sanitary and phytosanitary measures. A new Law on Food Safety was in preparation. Additional regulations on agricultural and food product quality, and regulations pertaining to health safety of food, were listed in attachments 3 and 4 to document WT/ACC/807/5. Information on the implementation of the WTO Agreement on

the Application of Sanitary and Phytosanitary Measures (the SPS Agreement) was circulated in document WT/ACC/807/10. The principal government agencies involved in the administration of the Republic of Macedonia's SPS measures were the Ministry of Agriculture, Forestry and Water Economy, and the Ministry of Health.

147. The Republic of Macedonia was a member of the Codex Alimentarius Commission, and had been a member of the International Office of Epizootics (OIE) since 1993. The Republic of Macedonia was not yet a member of the International Plant Protection Convention (IPPC), but he expected the ratification procedure to be completed by December 2002. The Republic of Macedonia was a member of the European Convention on Protection of Animals Bred on Farms and the European Convention on Protection of Animals to be Slaughtered, and intended to join the Convention of Pets, the Convention on Protection of Animals During Transportation, and the Convention on the Protection of Animals Used for Experiments. The Republic of Macedonia had signed several bilateral cooperation agreements based on standards issued by the OIE and the EU in the area of veterinary practice.

148. The Republic of Macedonia applied the same sanitary and phytosanitary measures to imported and domestically produced goods. For sanitary measures, the procedure included inspection at the border upon request of the importer, involving checking of the documentation, packaging and labeling related to food safety, organoleptic examination on site, and sampling for testing and control by authorized laboratories. National regulations applied also to hygienic practices. Risk assessment methods were not prescribed by law. Veterinary approval for importation of live animals, animal products, raw materials and offal from slaughtered animals was based on the Animal Health Code (OIE) and the Codex Alimentarius. Export certificates for live animals, products, raw materials and offal from slaughtered animals were based on certificates of compliance of EU countries. Certificates for products imported from non-EU countries were subject to bilateral agreements and conventions providing detailed provisions on the information to be included in such certificates. Agricultural and forest plants and products could only be imported through designated border crossings. Visual inspection was carried out by authorized experts, and samples might be taken to determine the presence of quarantine pests. Imported plants or plant products containing quarantine pests would be returned or destroyed in agreement with the importer. The Republic of Macedonia did not accept automatically the pest list of the European and Mediterranean Plant Protection Organization, and had issued national A and B lists of quarantine pests and a list of two hundred pests which were commercially important (Official Gazette No. 9/96). Certified seeds and seedling material were subject to phytosanitary examinations during the vegetation period by institutions authorized by the Minister for Agriculture, Forestry and Water Economy, and by laboratories testing to confirm that seeds or planting materials were free of pests. He confirmed that the Republic of Macedonia does not require additional certification or sanitary registration for products which have been certified as safe for human use and consumption by recognized foreign or international bodies. The Law on Veterinary Health (Official Gazette No. 28/98) regulated the issue of veterinary certification. Article 43 of the Law stipulated that all shipments containing products of animal origin should be accompanied by an international veterinary certificate issued by the veterinary service of the exporting country. The certificate should contain information determined by the Minister of Agriculture in compliance with OIE guidelines, in general providing information on the origin of the goods, their identity, destination, the registration number of the transportation vehicle, and the health conditions of the shipment. The Law on Food Safety (Official Gazette No. 54/02) was generally silent on certification, but its Article 27 stipulated that every shipment of imported food should be examined at designated border crossings. Officials from the Ministry of Health had confirmed that - although not required - international certificates were taken into consideration during the examination. He added that detailed procedures for border control would be developed by regulation. The regulations would be prepared within one year from the date of entry into force of the Law on Food Safety pursuant to its Article 61, paragraph 1, and would comply with the requirements of the SPS Agreement, in particular its Annex C.

149. The Republic of Macedonia intended to amend existing legislation to comply with the SPS Agreement in the area of veterinary and phytosanitary measures. Work to reach and ensure full compliance with the SPS Agreement was ongoing, and included new regulations on animal protection based on OIE recommendations and standards; new regulations on plant protection in conformity with IPPC standards; examination and harmonization of national legislation with Codex Alimentarius standards; elaboration of guidelines and recommendations relating to food additives, veterinary drugs and pesticide residues; introduction of a Global Monitoring System on food contamination and Assessment Program (GEMS/Food); reorganization of a national reference laboratory in compliance with ISO/IEC standards; and preparation of a national food safety programme. These activities would allow the Republic of Macedonia to accept the principle of equivalence, to perform control, inspection and approval procedures consistent with WTO rules, and to take account of risk assessment techniques developed by the relevant international organizations. A list of future legislation activities of the Administration for Plant Protection, Ministry of Agriculture, was presented in Attachment 10 to document WT/ACC/807/23. According to the current timetable, the Law on Safety of Foodstuffs and Other Products and Materials in Contact with Foodstuff was scheduled for enactment by Parliament in July 2002, and the Law on Veterinary Health would be amended by December 2002 and the Law on Plant Protection by December 2003.

150. The representative of the Republic of Macedonia did not foresee any major impediments in implementing the SPS Agreement, although he noted that compliance was a complex and long-lasting process which would require technical assistance, notably assistance to incorporate Codex Alimentarius standards in national legislation, and training to ensure implementation of the revised legislation. As required by Article 7 and Annex B to the SPS Agreement, the Republic of Macedonia had established an enquiry point within the Ministry of Health providing information on food safety, and another enquiry point within the Ministry of Agriculture providing information relating to the protection of plants and plant products and veterinary protection.

151. Some Members questioned the usefulness of the Republic of Macedonia having two enquiry points in the SPS area, creating scope for confusion and potential delays. The representative of the Republic of Macedonia replied that the Republic of Macedonia intended to observe the transparency obligations stipulated in the SPS Agreement. Taking into consideration the comments from members of the Working Party, the Republic of Macedonia had decided to consolidate the SPS enquiry points into a single enquiry point located at the Codex Alimentarius Office in Skopje. Full details had been circulated in document WT/ACC/807/25. He added that, as noted in paragraph 246, existing legislation provided for mandatory publication of all laws and regulations, including those dealing with sanitary and phytosanitary measures, in the Official Gazette. In his view, the minimum eight days required between the publication and entry into force of laws and regulations in the Republic of Macedonia would constitute a reasonable interval, as stipulated in Annex B of the SPS Agreement.

152. A member observed that imports, even of food products, could be in transit for 2 to 3 weeks and eight days would, in such circumstances, therefore not constitute a reasonable interval. In reply, the representative of the Republic of Macedonia stressed that minimum eight days stipulated in Article 52 of the Constitution allowed for longer vacatio legis whenever needed. He confirmed that the Republic of Macedonia would take into consideration the interests of importers in determining the appropriate timeframe for the entry into force of laws and regulations.

153. The representative of the Republic of Macedonia stated that, upon accession to the WTO, the Republic of Macedonia would apply all its sanitary and phytosanitary requirements consistently with the requirements of the WTO, including the Agreements on the Application of Sanitary and Phytosanitary Measures and Import Licensing Procedures, without recourse to any transitional arrangements. In particular, he stated that if a decision was taken to require notification of diseases other than those listed in OIE Classes A and B, any such decision would be taken in conformity with the requirements of the Agreement on the Application of Sanitary and Phytosanitary Measures. He added that the Republic of Macedonia would not require additional certification or sanitary registration for products which have been certified as safe for human use and consumption by recognized foreign and international bodies, and the Republic of Macedonia would ensure that from the date of accession its criteria for granting prior authorization or securing the required certification for imported products would be published and available to traders. He confirmed that sanitary and other certification requirements in the Republic of Macedonia were administered in a transparent and expeditious manner, and that his Government would be willing to consult with WTO members concerning the effect of these requirements on their trade with a view to resolving specific problems. The Working Party took note of this commitment.

Trade-related investment measures (TRIMs)

154. The representative of the Republic of Macedonia said that the Republic of Macedonia did not maintain any measures contrary to the provisions of the Agreement on Trade-Related Investment Measures (TRIMs). Specifically, he noted that the eligibility of benefits for companies locating in a free zone was not contingent upon the use of domestic over imported goods.

155. The representative of the Republic of Macedonia said that his Government would not maintain any measures inconsistent with the TRIMs Agreement and would apply the TRIMs Agreement from the date of accession without recourse to any transitional period. The Working Party took note of this commitment.

State trading entities

156. The representative of the Republic of Macedonia provided information on State-trading enterprises in document WT/ACC/807/5, Add.1, Annex 6. In his view, one governmental agency - the Directorate for Stock Reserves - was the only enterprise in the Republic of Macedonia which would be covered by the provisions of Article XVII of the GATT 1994. Responding to a specific question, he said that an agreement with a foreign oil-trading company did not contain any elements falling within the scope of Article XVII of the GATT 1994. He confirmed that upon the expiration of the licensing requirements listed in Tables 5(b) and 7(a), the importation and exportation of petroleum and fuel products will be open to all and will not be restricted by governmental agreements with foreign oil-trading companies.

157. The Directorate for Stock Reserves had been established to ensure stability in the provision of certain essential commodities and industrial products in times of emergency. The agency maintained strategic reserves of wheat, maize, unhusked rice, sugar, edible oils, medicines, petroleum derivatives and artificial fertilizer, and intervened in the domestic market through lending of goods or purchases and sales by public tender. The agency was not directly engaged in importation or exportation, such transactions would also be carried out by public tender. Foreign companies were eligible to compete for import contracts on the same conditions as domestic companies in accordance with Article 3 of the Law on Public Procurement. The enterprise offering the most favorable conditions would be selected in these cases.

158. The strategic reserves were governed by the Law on Stock Reserves (Official Gazette Nos. 47/87 and 13/93). For agricultural produce subject to "protective prices", the agency would make intervention purchases to stabilize the domestic market prices at the level of the "protective price" (Article 20), but only when domestic agricultural production had not been absorbed by commercial entities and the surplus would threaten to cause serious market disturbance. In 1999 and 2000, "protective prices" had been set for wheat (HS 1001 90 00 50) and small leafed oriental tobacco (HS 2401). In response to a specific question, he added that wheat was subject to import licensing, while importation of tobacco was under the "liberal regime".

159. Decisions regarding quantities to be purchased at "protective prices" were taken by the Government, which also decided on the disposal or renewal of surplus stocks upon a proposal from the agency. The Government set the initial minimum price at which surplus stocks could be sold allowing the agency to cover its costs but not to make a profit from the sales. Surplus stocks were as a general rule not to be exported, but sold in the domestic market. Exceptionally, a tender had been organized for tobacco as the agency had bought large quantities of tobacco from local producers. He confirmed that with the expiration of the licensing requirements for wheat on 31 December 2001 (Table 5(a)), importation of wheat was open to all and not subject to any discretionary restriction.

160. The representative of the Republic of Macedonia confirmed that his Government would apply its laws and regulations governing the trading activities of State-owned enterprises and other enterprises with special or exclusive privileges in full conformity with the provisions of the WTO Agreement, in particular Article XVII of the GATT 1994 and the Understanding on that Article and Article VIII of the GATS. He further confirmed that the Republic of Macedonia would notify any enterprise falling within the scope of Article XVII, including those noted in paragraph 156. The Working Party took note of these commitments.

Free zones, special economic areas

161. The representative of the Republic of Macedonia said that the Law on Free Economic Zones had been enacted and published in the Official Gazette No. 56/99. The Law provided for equal treatment of natural and legal persons, whether domestic and foreign, in the free zones. The founder of a free zone was required to adopt a Foundation Act. The founder and users of the free zone should employ citizens of the Republic of Macedonia and procure goods and services from local suppliers and sub-suppliers whenever commercially justified. Goods produced or imported into free economic zones would be subject to normal customs formalities, taxes and tariffs upon entering the rest of the Republic of Macedonia. However, the Republic of Macedonia legislation governing price controls did not apply to products and services in the free economic zones, and the Republic of Macedonia standards and technical regulations would not apply unless goods were entering the regular domestic market. No free economic zone had been established so far, but the Ministry of Economy had begun constructing infrastructure in the Bunardzik area near Skopje in April 2000.

162. According to Article 3 of the Law on Free Economic Zones, the percentage of goods and services exported from a free zone should not be less than the percentage determined by Article 25 of the Law, except in cases of force majeure. Articles 3, 15, 16, 25, and 26 of the Law on Free Economic Zones stipulated that establishment in a zone and access to the tax exemptions and incentives provided was conditioned on exporting a minimum of 51 per cent of the value of the goods manufactured and the services provided in the free zone during the first year of operation, rising to 70 per cent by the third year and afterwards. Tax exemptions and incentives included exemption from tariffs and sales (VAT) taxes, from profit and property taxes for 10 years, and from normal utility charges.

163. Some Members noted that the Republic of Macedonia appeared to require firms locating in a Free Economic Zone to export a certain percentage of their output, and given the duty and tax-free benefits available to firms in the export zone, this would appear to constitute a prohibited subsidy within the terms of Article 3.1(a) of the WTO Agreement on Subsidies and Countervailing Measures (SCM). These Members sought elimination of this programme or amendment of its provisions to eliminate the subsidy element as soon as possible, and prior to the Republic of Macedonia's accession to the WTO.

164. The representative of the Republic of Macedonia replied that Parliament had repealed paragraph 1 of Article 25, as well as paragraph 1(2) of Article 3, of the Law on Free Economic Zones on 23 January 2002. Article 1 of the Law Amending the Law on Free Economic Zones had repealed

the general export performance requirement provided in Article 3, paragraph 1, item 2 of the Law on Free Economic Zones, and Article 7 of the Law Amending the Law on Free Economic Zones had repealed Article 25, paragraph 1, item 1 of the Law which provided for specific percentages that users of the zone would need to export in order to use the benefits of locating in the zone. The amendments had been published in the Official Gazette No. 6/02. He considered the amendment sufficient to ensure compliance with the provisions of the Agreement on Subsidies and Countervailing Measures. Article 3, paragraph 3 of the Law on Free Economic Zones had been retained, but should be seen as a recommendation, rather than an obligation, to use domestic products. The provision had no binding character and the availability of benefits was not contingent on it. Articles 15, 16 and 26 of the Law referred to the conditions spelled out in Articles 3 and 25, and as the latter had been amended, the aforementioned Articles were now in compliance with WTO requirements. In order to ensure that these changes were fully transparent and understood, and to confirm that the Law on Free Economic Zones is fully consistent with Article 3.1(b) of the WTO Agreement on Subsidies and Countervailing Measures, the Minister of Economy, who administers the Law on Free Economic Zones, had issued an Interpretation of Article 3, paragraph 3 of the Law on 4 September 2002 confirming that the recommendation language in Article 3 is not mandatory, is not a condition for any tax benefits or exemptions, and did not contain any mechanisms to require or enforce the use of local content or export performance by firms locating in the zones.

165. The representative of the Republic of Macedonia confirmed that from the date of accession the Government of the Republic of Macedonia would ensure enforcement of its WTO obligations in its free zones and free economic zones. In this regard, he confirmed that the Law on the Free Economic Zones had been amended to eliminate any requirements for establishment in the zones or receipt of benefits provided to firms within the zones conditioned on use of local goods or export performance. In addition, goods produced in these zones under tax and tariff provisions that exempt imports and imported inputs from tariffs and certain taxes would be subject to normal customs formalities when entering the rest of the Republic of Macedonia, including the application of tariffs and taxes. The Working Party took note of these commitments.

Government-mandated countertrade and barter

166. The representative of the Republic of Macedonia said that the Republic of Macedonia did not have mandated counter-trade or barter agreements with other countries. However, enterprises were allowed to engage in barter trade, and legal provisions for such trade had been provided in Article 18 of the old Law on Foreign Trade. The new Law on Foreign Trade did not regulate this issue. More specific conditions and terms had been established in the Decision on the Conditions, Manner and Time Limits for Barters. Barter deals concluded by domestic enterprises were subject to approval by the Ministry of Economy for administrative and statistical purposes. The Ministry was obliged to decide whether to approve a barter deal within 15 days of receipt of an application.

167. Generally, a barter deal would be approved if the value of the exported goods and services exceeded imports by at least 30 per cent. However, one-to-one transactions could also be approved if the barter deal involved exports of goods and services to countries with balance-of-payment problems or exports of products which would otherwise be difficult to sell in foreign markets, or if the deals provided coverage for imports of electric power, raw materials and semi-manufactures, commodities of vital importance, or machinery and leased equipment. Imports and exports under barter trade arrangements were subject to the same tariffs, fees, taxes, licensing and certification requirements, and other measures applied to normal trade.

168. The Republic of Macedonia imported mainly raw materials under barter deals, while the major export items were tobacco, spare parts and equipment for motor vehicles, cigarettes, transformers, mineral and chemical fertilizers, detergents, and artificial and synthetic fibers. In 1999, barter trade had accounted for 3.1 per cent of total imports and 4.4 per cent of total the Republic of Macedonia exports. The main barter-trade partners were the Federal Republic of Yugoslavia, Croatia and Slovenia, but deals had also been concluded with enterprises in Greece, Italy, Albania, the Russian Federation and Egypt.

169. The representative of the Republic of Macedonia added that long-term co-operation contracts had been regulated by Articles 16 and 17 of the old Law on Foreign Trade. The new Law on Foreign Trade did not regulate this issue. All such contracts required approval by the Ministry of Economy, and approval would not be granted unless the contract was in written form and had already been effective for at least three years; the exchange included raw materials, intermediate products, spare parts and ready-made products of the same type, for production specialization purposes; and the value of exports was at least equal to the value of imports. An enterprise having concluded a long-term cooperation contract would not be subject to the goods import regime as long as the co-operation contract would be in force.

Government procurement

170. The representative of the Republic of Macedonia said that Parliament had adopted the Law on Public Procurements on 4 June 1998. The Law regulated the manner and procedure to be applied in public procurements financed by the State Budget, the budgets of local self-government units, State and municipal non-budgetary funds, or funded by agencies and other public institutions, organs and organisations set up by the State. The Law also regulated procurement of public enterprises and State-owned companies.

171. The provisions of the Law provided full transparency and access to procurements, i.e. complete information to prospective bidders about the intentions of the State or other agencies to make certain procurements. The Law ensured equality and identical status to all domestic and foreign legal and natural persons participating in procurement procedures.

172. Procurement was carried out by either (i) public tendering, (ii) restricted tendering, (iii) soliciting tenders or (iv) direct negotiation by a procurement commission, consisting of a chairman and at least two members. The most advantageous offer would be chosen, provided the public authority ordering the procurement had been satisfied of the bidder's economic and financial standing, his/her technical capabilities and having ascertained that the bidder would be in a position to effectuate the proposed offer. The bidder was obliged to attach to the offer an appropriate document proving his/her solvency. Foreign natural and legal persons would file a solvency certificate issued by the competent authority or representation body.

173. Depending on the type of procurement, the most advantageous bidder would be selected solely on the basis of lowest price or evaluated on the basis of price, delivery period, payment mode, operational costs, efficiency, quality, aesthetic and functional characteristics, technical qualities, post-sale services and technical assistance. The public opening of tenders was attended by all the members of the commission of the public authority ordering the procurement and by representatives of the bidders. The public authority was obliged to inform the winning bidder of its decision in writing no later than seven days after completion of the tendering procedure, and all other participants were informed accordingly. A dissatisfied bidder could file a complaint with the Procurement Complaint Commission within 8 days upon receipt of the notification of award.

174. The Procurement Complaint Commission, appointed and dismissed by the Government, consisted of a chairman and 4 members and their alternates chosen among affirmed and renowned experts (lawyers, notaries, commercial auditors, engineers etc.). Appointments were held for two years with a right to be re-elected for another two year term. The Commission was autonomous in its proceedings. A procurement contract would be signed within 7 days upon expiration of the complaint period, i.e. upon final decision in respect of the complaint.

175. Some Members noted that the Republic of Macedonia's procurement policies were already open, and that in joining the Agreement on Government Procurement the Republic of Macedonia would enhance its market access with other members. These Members therefore sought a commitment from the Republic of Macedonia to initiate negotiations for membership in the Agreement on Government Procurement by tabling an entity offer upon accession to the WTO.

176. The representative of the Republic of Macedonia replied that his Government was giving serious consideration to the invitation to initiate negotiations for membership in the Agreement on Government Procurement.

177. The representative of the Republic of Macedonia confirmed that, upon accession to the WTO, the Government of the Republic of Macedonia would initiate negotiations for membership in the Agreement on Government Procurement by tabling an entity offer. He also confirmed that, if the results of the negotiations were satisfactory to the interests of the Republic of Macedonia and the other members of the Agreement, the Republic of Macedonia would complete negotiations for membership in the Agreement within two years of accession. The Working Party took note of these commitments.

Trade in Civil Aircraft

178. A Member sought a commitment from the Republic of Macedonia to join the Agreement on Trade in Civil Aircraft upon accession to the WTO, and to establish a zero rate of tariff duty on the importation of aircraft and aircraft parts.

179. The representative of the Republic of Macedonia replied that the Republic of Macedonia had incorporated fully all tariff requirements of the Agreement on Trade in Civil Aircraft in its initial offer on market access in goods.

180. The representative of the Republic of Macedonia confirmed that the Republic of Macedonia would become a signatory to the Agreement on Trade in Civil Aircraft upon accession to the WTO. The Working Party took note of this commitment.

Transit

181. The representative of the Republic of Macedonia said that transit of goods through the territory of the Republic of Macedonia was regulated by the Customs Act. Transit licences were normally issued automatically by the customs authorities at the border crossing of entry. Transit of goods harmful to the environment or human and animal health was carried out in compliance with the procedures provided by the Basel Convention on the Control of Transboundary Movements of Hazard Waste and Their Disposal, ratified by the Republic of Macedonia in 1997 (Official Gazette No. 49/97). Goods in transit were sealed and the entity organizing the transit was responsible for transportation to the exit border crossing. The customs authorities at the border-crossing of exit would check the documentation issued upon entry, as well as other accompanying documents, before authorizing the transited goods to leave the territory of the Republic of Macedonia.

Agricultural policies

(a) Imports

182. The representative of the Republic of Macedonia said that quantitative import restrictions on agricultural products had been abolished in 1996. Protection was essentially provided in the form of customs duties. The system of price premiums (P-prelevman), introduced for agricultural and food products essentially as seasonal protection, had been enforced under the Law for Paying the Specific Duty on the Importation of Agricultural and Food Products (Official Gazette No. 2/94). As this measure could be considered a variable levy contrary to Article 4 of the Agreement on Agriculture, the price premiums had been replaced by ad valorem or specific customs duties in the latest revision of the Law on Customs Tariff (Official Gazette No. 15/01).

(b) Exports

183. The representative of the Republic of Macedonia said that the Republic of Macedonia imposed no taxes on the export of agricultural products, but export quotas and other restrictions had been applied in the past to secure the supply of certain agricultural products. At present, the only measures applicable to agricultural exports were the licensing requirements enumerated in Tables 7(a) and (b).

(c) Internal policies

184. The representative of the Republic of Macedonia said that funds were allocated to agriculture under the Program for Agriculture Development Incentives (244 million Denar in 2000). A Program for Investments in Agriculture, part of the 2000 Macroeconomic Policy, had earmarked 94 million Denar for rehabilitation of hydro-systems, rural development in regions in the south and south-east, and support to individual farmers. Farmers in underdeveloped regions, determined by the Government, were granted tax exemptions.

185. He provided information on domestic support and export subsidies in agriculture for the period 1998-2000 in document WT/ACC/SPEC/807/5 of 10 June 2002. In addition to "green box measures", domestic support was mainly provided in the form of support prices ("protective prices") for specific agricultural products in accordance with Article 24 of the Law on Trade. The Republic of Macedonia also provided some non-product-specific support in the form of fertilizer and pesticides subsidies, and funds to expand arable land.

186. The coverage of the system of "protective prices" had been reduced gradually. In 1992, support prices had been established for wheat, maize, sugar beat, sunflower seeds, rice, wool, veal, sheep, lamb and small leafed oriental tobacco. The system had applied only to wheat and small leafed oriental tobacco since 1998. His Government was generally not involved in buying out products subject to "protective prices". In exceptional cases the Government would authorize the Directorate for Stock Reserves (see section "State trading entities" above) to organize the buy-in of determined quantities, in which case enterprises and individuals would purchase the commodities and store them on behalf of the Directorate as emergency food supplies.

187. Some Members noted that the Republic of Macedonia had not applied export subsidies in the agricultural sector. Therefore, in their view, the Republic of Macedonia would have no option to introduce export subsidies at a later stage, and they expected a zero commitment from the Republic of Macedonia. The representative of the Republic of Macedonia replied that the Republic of Macedonia had provided subsidies to exports of sheep meat in 1998, but would agree not to provide agricultural export subsidies in the future.

188. The representative of the Republic of Macedonia confirmed that the Republic of Macedonia will eliminate its agricultural export subsidies as reflected in the schedule of commitments annexed to the Republic of Macedonia's Protocol of Accession.

Textiles Regime

189. The representative of the Republic of Macedonia said that the textile industry, including fibers, fabrics and finished products, was a major employer and contributor to industrial social product (over 15 per cent). The leather and leather-processing industry was also significant, and pig,

calf, cow, bull, lamb and sheep skins were processed for local manufacture of furniture, clothing and footwear.

190. Textile products were not subject to any import restrictions, including quantitative restrictions. The simple average import tariff on textiles and textile products was 21.02 per cent ad valorem. In 1998, imports of textiles and clothing, including semi-finished and finished products, had amounted to US$ 64 million or 3.3 per cent of total imports. Raw hides and skins were under the LB (liberal) trade regime, and neither imports nor exports of these items were taxed or restricted.

191. Trade in textile products with the European Union had been governed by an Agreement on Trade with Textile Products since 1 January 1997. This Agreement did not provide for VERs. Quantitative export restrictions were being applied under a Bilateral Agreement on Textile Products with the United States. The agreement had recently been renegotiated and extended until the end of 2004. Apart from the bilateral textile agreements with the United States and the EU, the Republic of Macedonia did not maintain similar arrangements with any other country.

192. The representative of the Republic of Macedonia confirmed that the quantitative restrictions on imports maintained by WTO members on textiles and clothing products originating in the Republic of Macedonia that were in force on the date prior to the date of accession of the Republic of Macedonia to the WTO should be notified to the Textiles Monitoring Body (TMB) by the Members maintaining such restrictions and would be applied for the purposes of Article 2 of the Agreement on Textiles and Clothing. Thus, for the purposes of the Republic of Macedonia's accession to the WTO, the phrase "day prior to the date of entry into force of the Agreement on Textiles and Clothing" shall be deemed to refer to the day prior to the date of accession of the Republic of Macedonia to the WTO. To this base level the increase in growth rates provided for in Articles 2.14 of the Agreement on Textiles and Clothing shall be applied, as appropriate, in the Agreement on Textiles and Clothing from the date of the Republic of Macedonia's accession. The Working Party took note of this commitment.

Trade-Related Intellectual Property Rights (TRIPS)

1. General

(a) Industrial property protection

193. The representative of the Republic of Macedonia said that the Republic of Macedonia had devoted considerable attention to the protection of intellectual property rights since the early days of independence. The rights arising from scientific, artistic and other type of intellectual works were guaranteed by Article 47 of the Constitution. Detailed information on the implementation of the TRIPS Agreement was provided in document WT/ACC/807/9.

(b) Responsible agencies for policy formulation and implementation

194. The representative of the Republic of Macedonia said that the Ministry of Economy was responsible for the protection of industrial property rights. The Industrial Property Protection Office had been established within the Ministry on 1 December 1993. The Office maintained the Industrial Property Representatives' Registry Book and issued a quarterly Official Gazette (Glasnik) in which acquired rights, and changes in and termination of industrial property rights, were published.

195. The Ministry of Culture was responsible for the protection of copyright and related rights. A Copyright and Related Rights Inspection Office had been established within the Ministry of Culture in November 1996. Certain types of rights were enforced collectively through authors' organizations. So far, one authors' agency had been established for the collective enforcement of musical non-stage works.

(c) Participation in international intellectual property agreements

196. The representative of the Republic of Macedonia said that the Republic of Macedonia had become a member of the World Intellectual Property Organization on 23 July 1993 and, as a successor of the former Socialist Federal Republic of Yugoslavia, the Republic of Macedonia had accepted the Convention Establishing the World Intellectual Property Organization, the Paris Convention for the Protection of Industrial Property, the Madrid Agreement Concerning the International Registration of Marks, the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks, the Locarno Agreement Establishing an International Classification for Industrial Designs, and the Bern Convention for the Protection of Literary and Artistic Works. His Government had passed Decision No. 23-694/1 concerning accession to the Permanent Committee for Industrial Property Information of the WIPO on 21 March 1994, and Decision No. 23-3440/1 on accession to the Patent Co-operation Treaty on 19 October 1994.

197. Since 16 July 1996 the Republic of Macedonia had ratified the Universal Copyright Convention and the Convention Relating to Distribution of Program-Carrying Signals Transmitted by Satellite on a succession basis; the Convention for the Protection of the Producers of Phonograms Against Unauthorised Duplication of their Phonograms (Official Gazette No. 47/97); the Rome Convention for the Protection of the Performers, Producers of Phonograms and Broadcasting Organisations (Official Gazette No. 50/97) with a reservation on non-application of criteria for publishing contained in Article 5, Paragraph 1, subparagraph 1(c), in conformity with Article 5 Paragraph 3 of the Convention and on non-application of provisions of Article 12, in conformity with Article 16, Paragraph 1 (a) (i) of the Convention; the Hague Agreement Concerning International Deposit of Industrial Design; the Patent Cooperation Treaty (PCT); the Treaty for Collaboration with the European Patent Organization; the Strasbourg Agreement Concerning the International Patent Classification (Official Gazette No. 12/02); the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure (Official Gazette No. 13/02); and the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (Official Gazette No. 12/02). He added that the Republic of Macedonia planned to accede to the WIPO Copyright Treaty and the WIPO Performances and Phonograms Treaty during 2003 (Government Decision No. 23-4449/1 of 27 August 2002, Official Gazette No. 70/02). A reservation on the application of Article 8 of the Bern Convention had been cancelled. In accordance with Article 1.3 of the TRIPS Agreement, the Republic of Macedonia shall notify upon accession to the TRIPS Council that it will maintain the reserve for non-application of the criteria for publishing with regard to phonogram producers pursuant to Article 5, paragraph 1, subparagraph 1(c) of the Rome Convention.

198. In response to a specific question, the representative of the Republic of Macedonia confirmed that pursuant to the Law on Industrial Property, Article 32, Paragraph 1, any legal or natural person having filed a proper patent application in any State Member of the Paris Union or of the World Trade Organization would be granted priority right in the Republic of Macedonia.

199. The Republic of Macedonia had not concluded regional agreements regulating copyright and related rights, and was not a member of such regional organisations. Reciprocal protection of copyright and related rights was provided for in bilateral agreements with Poland, the Russian Federation, Switzerland and some other countries.

(d) Application of national and MFN treatment to foreign nationals

200. The representative of the Republic of Macedonia said that national treatment was available to foreign nationals on the basis of international agreements and conventions, and the principle of reciprocity. As a member of the Paris Convention, the Republic of Macedonia provided the same treatment to foreigners as to domestic legal or natural persons without discrimination under Article 9 of the Industrial Property Law.

201. The Republic of Macedonia legislation also complied with the national treatment provisions of the Berne Convention. Pursuant to the Law on Copyright and Related Rights (Article 171, paragraph 2 and Article 176), foreign authors and holders of related rights enjoyed the same protection as national authors and holders of related rights. The Republic of Macedonia legislation on industrial property rights and copyright and related rights did not provide superior treatment for foreign nationals to that provided to the Republic of Macedonia nationals.

202. A Member requested clarification on the specific criteria for eligibility for protection. The representative of the Republic of Macedonia replied that the new Law on Copyright and Related Rights would include all relevant points of attachment for foreign authors and related rights holders as provided for under the TRIPS Agreement and the Berne Convention.

203. A Member suggested that due to the considerable time required to locate translators skilled in translating IPR technical and legal documents and verifying the translation once done, the Republic of Macedonia should consider a longer period for submission in local language – at least two months - to avoid de facto discrimination against nationals of other WTO countries. The representative of the Republic of Macedonia replied that the new Law on Industrial Property, enacted in June 2002, provided a 90-day period for submission of documentation in local language.

(e) Fees and taxes

204. The representative of the Republic of Macedonia said that taxes and fees for the protection of industrial property rights (patent, industrial design, trademarks, appellation of origin, licence, etc.), i.e. for the services of the Industrial Property Protection Office, were regulated by the Law of Administrative Taxes (Tariff numbers 86 to 102) and by the Decision for the Amount for the Special Fees for the Procedure and the Fees for Giving Informative Services of the IPPO.

205. The Law of Administrative Taxes stipulated taxes for the filing of applications, maintenance of rights, requests for the renewal of rights, certificates, requests for the termination of rights, opposition, decisions on entering and cancellation of acquired rights, changes of data in the Registry, additional applications for patents, etc. The amounts ranged from 100 to 3,000 Denars. Special fees for the publication of data of acquired industrial property rights, printing of patent documents, retrieval of information from data bases, extracts from the registry books, etc. ranged from 270 to 10,800 Denars. He noted that the Law on Administrative Taxes permitted the payment of a fee within three months after the required deadline, in which case the fee would be increased by 25 per cent. Payment could also be made within six months; in the case of such late payment the fee would be increased by 100 per cent.

2. Substantive standards of protection, including procedures for the acquisition and maintenance of intellectual property rights

(a) Copyright protection

206. The representative of the Republic of Macedonia said that the Law on Copyright and Related Rights (Official Gazette Nos. 47/96 and 3/98), had been enacted on 12 September 1996 and was the only law regulating the area of copyright. Copyright could be extended to works in the area of literature, science and art regardless of the type, manner and form of expression, in particular to written works (literary works, articles, essays, manuals, brochures, scientific studies, treatise, etc.); computer programmes as literary work; spoken works (addresses, sermons, lectures; etc); musical works with or without words; dramatic, dramatic-musical works and work of puppetry; choreographic works and pantomime fixed on a material medium; photographic works and works produced in a manner analogous to photography; works of fine art; architectural works, works of applied art and design; cartographic works, plans, sketches, technical drawings, project tables, plastic works and other works of identical or similar character in the domain of geography, topography, architecture or other scientific, educational, technical or artistic nature (Article 3).

207. Collections of copyrighted works, works of folk literature and folk art, and other works or materials such as encyclopaedia, anthologies, databases, the collection of documents and other collections which constituted individual and intellectual creations were considered independent copyright work. The inclusion of an original work in a collection could not infringe the author's rights in such work. The inclusion of other works or other materials in a collection would not make such work or other material a copyright work (Article 7).

208. The terms of protection were regulated by Articles 43 to 52 of the Law. Copyright was provided for the lifetime of the author and 70 years after his/her death, calculated from the death of the last surviving co-author in the case of co-authored works. Audiovisual and collective works were protected for 70 years after the legal disclosure of the work. The rights of a phonogram producer subsisted for 50 years from the date of fixation and, if legally published during this period, the rights subsisted for 50 years from the first publication of the phonogram. The rights of performers were maintained for 50 years from the date of the performance, or 50 years from the date of first disclosure of the performance fixation. In the case of broadcast recordings of radio and television companies, the protection was valid for 50 years following the first broadcasting, while prolonged protection applied to radio and television programmes recorded and published in 1976 and later.

209. Asked specifically about the restoration of rights in works, as required by Article 18 of the Berne Convention, and sound recordings and performances (Article 14.6 of the TRIPS Agreement), the representative of the Republic of Macedonia said that pursuant to Article 184, paragraph 1 of the Law on Copyright and Related Rights, the Law applied to all works and performances enjoying protection at the time of entry into force of the law, i.e. 20 September 1996, in conformity with the previous Law on Copyrights (Official Gazette of the Socialist Federal Republic of Yugoslavia Nos. 19/78, 34/78, 24/86, 757/89 and 21/90).

210. He added that the Law on Copyright and Related Rights would be amended, bearing in mind that the restoration of the protection of a performers' copyright in performances recorded on phonograms, as well as of the rights of phonogram producers, were not in compliance with Article 14.5 of the TRIPS Agreement.

211. The representative of the Republic of Macedonia said that his Government will comply fully with all WTO rules. As a result of unanticipated political events the necessary legislation had not been enacted as foreseen in June 2002, but this would be done as soon as possible. He confirmed that the Republic of Macedonia shall enact all necessary amendments to the Law on Copyright and Related Rights by 31 January 2003. The amendments will comply with the TRIPS Agreement and all other relevant conventions in the area of intellectual property ratified by the Republic of Macedonia. The amendments will take due account of the requirements and commentaries made by WTO Members with regard to the compliance of the Republic of Macedonia's legislation with the TRIPS Agreement. In particular, this Law will include the provisions dealing with the following issues; (i) national treatment and protection of foreign authors and holders of related rights; (ii) limitations on economic rights; (iii) protection for pre-existing works, sound recordings and performances; (iv) duration of protection for works; (v) duration of protection for performances, phonograms and broadcasts; (vi) rights of film and scenic producers; and (vii) enforcement. In the interim, his Government had adopted a Government Conclusion on TRIPS Compliance on 20 August 2002 (Official Gazette No. 70/02) recognizing compliance with the requirements contained in the TRIPS Agreement by virtue of the Republic of Macedonia's existing participation as a Member of the Berne Convention and of other conventions on copyright and related rights. In the same Conclusion, his

Government would ensure the implementation and enforcement of all such requirements. He noted that international conventions and agreements ratified by the Republic of Macedonia had the power of Law. He confirmed that all provisions would be in full compliance with both the letter and the spirit of the TRIPS Agreement. In this regard, comments by WTO Members had been extremely useful and would be included in the final version of the intellectual property rights legislation in the Republic of Macedonia. The Working Party took note of these commitments.

(b) Trademarks, including service marks

212. The representative of the Republic of Macedonia said that mark right had been regulated by the Act of Industrial Property and the Regulations for Procedure of Recognition of Marknight and - since June 2002 - according to the new Law on Industrial Property. Applications were submitted to the Industrial Property Protection Office, and the date of receipt would be the date of priority for the applicant against any other person filing an application for the same trademark. A trademark was protected for 10 years and could be renewed indefinitely for successive periods of 10 years. Recognized rights were registered in the Registry Book maintained by the Industrial Property Protection Office. Failure to use a registered mark for more than 5 years for non-justified reasons could lead to cancellation of the registration. A reference to "continuous" non-use had been included in the amended draft Law on Industrial Property. Trademark rights could be licensed or transferred by written contract, to be included in the Registry Book at the request of one of the parties to the contract. Such registration had a declaratory effect towards third parties.

213. Previous legislation had not provided protection of well-known marks, but provisions to this effect had been included in the new Law on Industrial Property. The exclusive right of an owner of a registered trademark to prevent third parties from using identical or similar signs for the same or similar goods or services, where such use would result in a likelihood of confusion (Article 16.1 of the TRIPS Agreement), was regulated pursuant to Article 149, paragraph 3 and Article 151 of the new Law on Industrial Property.

(c) Geographical indications, including appellations of origin

214. The representative of the Republic of Macedonia said that his Government had decided to regulate the protection of geographical indications in the new Law on Industrial Property. Previously, appellation of origin had been protected under the Act on Industrial Property (Article 28). Appellation of origin was a collective right, and protected by entering the name of the product and accompanying sign in the Registry Book of appellation of origin. The right to use a protected appellation of origin could not be transferred. Registration of the right to use a geographical name was valid for five years, but such registration could subsequently be renewed an unlimited number of times. The definition of a "geographical name" was contained in Article 3 of the Law on Industrial Property. Certification marks, collective marks, labelling recognition, court decisions and other means of protection identified by WTO Members in response to the "checklist" under Article 24.2 of the TRIPS Agreement would be incorporated in regulations following the enactment of the new Law on Industrial Property.

215. Some Members noted that the Republic of Macedonia's legislation had provided no additional protection to wines and spirits, and asked how the new Law would be compatible with Article 23 of the TRIPS Agreement, which requires a higher level of protection for geographical indications for wines and spirits than for other goods. In reply, the representative of the Republic of Macedonia referred to the provisions laid down in Article 195, paragraph 1, Article 126, paragraph 1 and Article 172 of the new Law on Industrial Property.

(d) Industrial designs

216. The representative of the Republic of Macedonia said that the new Law on Industrial Property, enacted in June 2002, regulated the protection of industrial designs. Industrial designs and models had previously been protected under Article 18 of the Act on Industrial Property. The term of protection was 10 years from the date of application for protection. In response to a specific question, he confirmed that in case of opposition of an application, the industrial design applicant would be invited to make a declaration and submit his comments within 60 days.

(e) Patents

217. The representative of the Republic of Macedonia said that inventions representing new technical solutions, involving an inventive step, and industrially applicable were eligible for patent protection under the Act on Industrial Property. The term of protection was 20 years from the date of filing of the application.

218. Some Members noted that the Republic of Macedonia relied on the jure conventions rule to fulfill its obligations under the Paris Convention, and considered this inadequate as such reliance meant that compliance with the obligations was determined by judges on a case-by-case basis. This procedure was time-consuming and costly as it required right holders to present evidence and argument regarding the meaning of international agreements and the application of the provisions of those agreements to the particular facts of a case. These members were also concerned about provisions in existing legislation for the granting of compulsory licences.

219. The representative of the Republic of Macedonia replied that the new Law on Industrial Property, enacted in June 2002, now regulated the protection of patents. Concerning compulsory licensing, the Law addressed this issue in Articles 52-57 and these provisions were, in his view, in full compliance with the TRIPS Agreement. A compulsory licence was non-assignable. The new Law had abolished a requirement that inventions be "technically viable" to qualify for patent protection.

220. Micro-organisms, non-essentially biological processes and microbiological processes could be protected by patent. Computer programs meeting the requirements of patentability could also be protected by means of a patent. Exceptions to patentability were listed in Article 19, paragraph 3 of the new Law on Industrial Property. The Law addressed patent product protection of pharmaceutical and agricultural chemical products in Article 56, paragraph 2, allowing the validity of a patent to be extended for an additional five years for such products. First instance decisions of the Industrial Property Office, including decisions to revoke or forfeit a patent, could be appealed to the Commission of the Government pursuant to Article 14, paragraph 1 of the Law on Industrial Property.

(f) Plant variety protection

221. The representative of the Republic of Macedonia said that plant varieties were protected by patents. The provisions of the Act of Industrial Property and the Regulations for Procedure for Recognition for the Patent also referred to new plant varieties and hybrids. The duration of the protection, the procedure for recognition, termination of validity and transfer of patent were identical to other patentable subject matter.

(g) Layout designs of integrated circuits

222. The representative of the Republic of Macedonia said that this subject matter was protected under the Law on Protection of Topographies of Integrated Circuits (Official Gazette No. 5/98). Article 9 of the Law granted right holders the exclusive right of commercial exploitation of topographies including integrated circuits and other articles incorporating a topography. The derogation specified in Article 37 of the TRIPS Agreement was addressed in Article 16 of the Law. The term of protection of a topography was 10 years (end of calendar year), counting from the year of filing of the application, or from the year of first commercial exploitation anywhere in the world.

(h) Requirements on undisclosed information, including trade secrets and test data

223. The representative of the Republic of Macedonia said that the Republic of Macedonia had no special law for the protection of undisclosed information, including trade secrets and test data. Protection of undisclosed information was essentially afforded through the provisions on unfair competition in the Law of Enterprises (Articles 176-178b) and the Law on Trade (Articles 31-37). The protection of know-how was regulated by the Law on Foreign Trade Operations. Disclosure or non-authorized acquisition of business secrets were criminal offences according to Article 281 of the Criminal Code. Government officials were required to maintain secrecy pursuant to Article 20 of the Law on Government Officials. Secrets or confidential information divulged in the course of public hearings or judicial proceedings were protected according to the Law on General Administrative Proceedings (Article 150), the Law on Trial Proceedings (Article 292), the Law on Criminal Proceedings (Article 280), and the Law on Misdemeanours.

224. In response to a specific question concerning the protection of undisclosed test and other data submitted in the procedure for marketing approval of pharmaceutical and agricultural chemical products (Article 39.3 of the TRIPS Agreement), he added that such protection was ensured through the unfair competition provisions (Articles 31, 34 and 37) in the Law on Trade (Official Gazette Nos. 23/95, 30/96, 43/95, 23/99 and 43/99), the Law on Unfair Competition (Official Gazette No. 80/99) and Articles 23-24 of the Law Against Limiting the Competition (Official Gazette No. 80/99). These laws complied with Article 10bis of the Paris Convention. In addition, protection of undisclosed information and records for pharmaceutical products was provided by the Law on Medications, Remedial Medicines and Medical Devices (Official Gazette No. 21/98).

3. Measures to control abuse of intellectual property rights

225. The representative of the Republic of Macedonia said that action against abuse of intellectual property rights could be taken in accordance with the Republic of Macedonia's legislation, including its legislation on competition.

4. Enforcement

(a) Civil judicial procedures and remedies

226. The representative of the Republic of Macedonia said that existing intellectual property legislation as well as the Law on Civil Procedure included provisions on civil judicial procedures and remedies. Any person whose intellectual property rights had been infringed through non-authorized use, handling or imitation could bring the matter before the courts. The right holder could testify before the court in his/her capacity as party to the case; only third party experts authorized by the court could appear before it. A court could compel production of evidence in civil cases. The right holder, authorized user or licensee could claim damages and seek court injunctions to prevent further violation. In case of infringement of moral rights without material damage, the court could order indemnity to be paid for the damage done to his/her person, honour and reputation.

227. He added that the general rules for compensation of material and non-material damage, provided by the Law on Obligations (Official Gazette Nos. 18/01 and 4/02) applied in cases of infringement of industrial property rights. For rights acquired under the Law of Industrial Property the right holder could seek payment of normal compensation increased by 200 per cent in case of premeditated infringement or infringement resulting from gross negligence, irrespective of whether the infringement had resulted in pecuniary damage of the same magnitude. In deciding the amount of the fine in response to claims for damages, the court would take into account all circumstances surrounding the case, in particular the degree of guilt of the defendant, the level of normal compensation, and the preventive function of the penalty.

228. The person whose rights had been infringed could demand that the court order the person infringing his/her rights to refrain from further violation, seizure or destruction of the infringing goods produced or placed in the market, or that the court order the person infringing his/her rights to provide records and data. The sentence establishing the infringement could be published by the court in the public media at the expense of the defendant. Specific provisions to this effect were contained in Article 159 of the Law on Copyright and Related Rights, as well as in its Article 162, paragraph 1 (provisional measures).

(b) Provisional measures

229. The representative of the Republic of Macedonia said that Articles 263 to 276 of the Law on Enforcement Procedure and provisions of the Law on Civil Procedure authorized judges to grant temporary restraining orders and provisional relief to prevent infringement and to preserve evidence. The Law on Copyright and Related Rights (Articles 159, 162 and 168), the Criminal Code (Article 157) and the Law on Industrial Property (Article 249) also provided for provisional measures to be introduced by the decision of a court. Provisional measures could be ordered inaudita altera parte in cases involving copyright pursuant to Article 162, paragraph 2 of the Law on Copyright and Related Rights. Provisional measures in cases involving industrial property rights were available according to Articles 26 and 263 to 275 of the Law on Enforcement Proceedings and Articles 257 and 260 of the Law on Trial Proceedings. According to these provisions, provisional measures could be ordered inaudita altera parte.

(c) Administrative procedures and remedies

230. The representative of the Republic of Macedonia said that the Law on General Administrative Procedure contained provisions on the protection of citizens and public interest (Article 5), efficient enforcement of the rights (Article 6), opportunity for the parties to express their opinion about the facts and circumstances (Article 8), the least costly procedure (Article 13), and the provision of assistance to ignorant parties to protect his/her legal rights (Article 14). All final administrative decisions could be submitted to the Supreme Court for review in a procedure known as "administrative dispute" pursuant to the Law on General Administrative Proceedings and the Law on Administrative Dispute.

231. Asked to describe the circumstances under which intellectual property rights might be enforced through administrative rather than civil judicial procedures and remedies, the representative of the Republic of Macedonia said that, for industrial property rights, administrative proceedings carried out by special units of the Supreme Court might be considered advantageous due to the specialization of the tribunals, the small number of cases, and expedite procedures. He did not see similar advantages for cases involving enforcement of copyright and related rights.

(d) Special border measures

232. The representative of the Republic of Macedonia said that the new Law on Industrial Property included measures in full compliance with TRIPS Agreement and the Paris Convention on border controls and seizure of goods involving infringement of industrial property rights. The right holder should submit to the customs authorities a detailed description of the goods, and substantiate his/her rights and the alleged violation. The right holder or his/her representative would have the right to inspect the goods, which would be confiscated, banned from trade, and stored in a safe place. The customs authorities were obliged to inform the importer and the consignee about any ruling, including

the suspension of the release of goods (Article 215, paragraph 3 of the Law on Industrial Property (Official Gazette No. 47/02)). At the request of the importer, customs officials could order the holder of the right to provide security (guarantee) for possible damages caused by the border measures pursuant to Article 215, Paragraph 2. Article 165 of the Law on Copyright and Related Rights contained similar provisions on border control and seizure of pirated goods. The customs authorities would cancel the measures if the right holder failed to bring the matter before a court within 8 days.

233. Neither the Law on Copyright and Related Rights nor the new Law on Industrial Property provided for the application of ex officio measures at the border. Customs was not empowered to take action relating to the exportation or transit movement of counterfeit or pirated goods.

234. The suspension of release of goods was initiated by filing a complaint, subject to a fee based on the value of the infringed good and determined according to the Law on Court Fees (Official Gazette No. 46/90). The relevant customs authority would also calculate the amount of the deposit, sufficient to cover storage of the goods, on the basis of the Law on Industrial Property and the Law on Copyright and Related Rights and pursuant to customs regulations. The amount of time allowed for the right holder to provide collateral would be determined in forthcoming regulations based on existing legislation. Pursuant to Article 203 of the Law on Industrial Property, the plaintiff could institute action within three years from learning about the infringement or within five years from the day of the infringement.

(e) Criminal procedures

235. The representative of the Republic of Macedonia said that infringement of industrial property was liable to criminal prosecution pursuant to Articles 285, 286 and 272 of the Criminal Code (Official Gazette No. 37/96). The Criminal Code recognized unauthorized use of someone else's company name or invention, and falsification of goods, measures and indicators of weight as criminal acts. Criminal acts relating to patent, trademark or copyright infringement were dealt with in Article 157 of the Criminal Code, providing for a fine or imprisonment. Non-authorized use of someone else's company name, mark, trademark or special mark, invention or model was liable to a fine and imprisonment up to three years. Falsification of marks or the designation of goods, measures and weight, was punishable with prison sentences ranging from three months to five years.

236. Any unauthorized use of a copyrighted work or works subject to related rights was punishable by fine or imprisonment of up to one year. Infringement resulting in considerable illegal economic gain was punishable with a fine or imprisonment up to three years. The perpetrators of infringements resulting in significant illegal economic gain could be punished by imprisonment ranging from three months to five years. Attempts to perform such act were also punishable. Copies of copyrighted works and works subject to related rights and the means for their reproduction would be seized. Courts routinely ordered the destruction of infringing goods, materials and implements in criminal cases.

237. Infringement of moral rights was prosecuted upon a private complaint. Infringement of copyright and related rights could also be treated as a misdemeanour under Articles 168 and 169 of the Law on Copyrights and Related Rights. In cases of copyright-related misdemeanours, these provisions provided for a fine accompanied by provisional measures, i.e. a prohibition on performing the specific activity or seizure of goods.

238. The representative of the Republic of Macedonia confirmed that his Government would apply fully all the provisions of the Agreement on Trade-Related Aspects of Intellectual Property Rights from the date of accession to the WTO, without recourse to any transitional period. The Working Party took note of this commitment.

Policies affecting trade in services

239. The representative of the Republic of Macedonia provided the services sectoral classification list in document WT/ACC/807/5/Add.2, Annex 7, and information on policy measures affecting trade in services in the format of document WT/ACC/5 in document WT/ACC/807/8. He added that certain types of services, commercially important in other countries, were not yet fully developed and therefore not regulated fully or at all in the Republic of Macedonia. Such regulation would become necessary in the future. The new services economy was expanding rapidly and frequently left the legislative process behind. Services requiring special attention were health services, which required a careful balance between the availability of adequate medical services and the development of a sound economic base, and electronic commerce, which could have important impact on small economies such as that of the Republic of Macedonia. Electronic commerce would have to be studied carefully to determine the appropriate regulatory needs.

240. The banking sector was regulated by the Law on Banks (Official Gazette Nos. 63/00 and 103/00), which applied to banks only, and the Law on Banks and Saving Institutions (Official Gazette Nos. 31/93, 78/93, 17/96 and 37/98), which continued to regulate the activities of savings houses. A foreign bank could provide banking services in the Republic of Macedonia by establishing a bank or a subsidiary of a bank. Starting no later than 1 January 2008, or such earlier date that the Republic of Macedonia allows it, banking services may be provided through branches of foreign banks. Under the provisions of the Law on Banks the minimum equity capital necessary for the establishment of a bank or foreign bank subsidiary was € 3.5 million in local currency. The minimum equity capital needed would be € 9 million if the bank was to perform external payment operations, crediting, securities and guarantees. A requirement limiting individual ownership to one third of the stocks with management rights in a bank would be eliminated on 1 January 2003, providing for the possibility of 100 per cent domestic or foreign owned banks from that date. Savings houses accepted deposits from natural persons, and 18 such institutions had been established so far. At present, foreign natural persons or legal entities were not allowed to establish savings houses.

241. The insurance sector was regulated by the Law on Insurance (Official Gazette Nos. 49/97, 79/99, 13/01, 26/01 and 4/02). The Insurance Law had been amended to abolish restrictions such as economic needs tests, foreign equity limitations, and reinsurance retrocession requirements. Parliament had enacted a new Law on Insurance Supervision on 11 April 2002 (Official Gazette No. 27/02). The Law governed the conditions for the conduct of life and non-life insurance and reinsurance, insurance brokerage, and the incorporation, operation, supervision and termination of activities relating to insurance and reinsurance business and insurance brokerage. The Law on Insurance Supervision contained provisions regulating the methodology for calculating the required solvency margin for insurance companies depending on their type of insurance business. The guarantee fund amounted to one third of the required solvency margin. Notwithstanding this provision, the guarantee fund for an insurance company could not be less than €350,000-2.5 million for non-life insurance (depending on the type of activity); €750,000 for life insurance; and €1.5 million for reinsurance. The guarantee fund requirements were identical for foreign and domestic natural and legal persons.

242. Insurance companies were not allowed to provide banking services, but could establish and own banks, and vice versa. Foreign insurance companies could not provide insurance services through branches. Branching would be allowed from 1 January 2008, or such earlier date that the Republic of Macedonia allows it. A foreign or domestic legal entity or natural person, other than a foreign insurance company or a bank, could not hold more than 25 per cent of the stock management rights in an insurance company, and this requirement would be valid until 1 January 2008 or until such earlier date that the Republic of Macedonia allows higher levels of stock management rights. A Central Depository of Securities was under establishment.

243. In the telecommunications sector, the new legal regime provided conditions for non-discriminatory, transparent and objective privatization. The Law on Telecommunications (Official Gazette Nos. 33/96, 17/98, 22/98 and 28/00) granted exclusive rights to Macedonian Telecom. The monopoly rights for local, long-distance and international voice telephony, telegraph, telex, and public telephone and leased line services were set to expire on 31 December 2004. If the Republic of Macedonia should issue additional licences for fixed public telecommunications networks before 1 January 2005, foreign firms will be permitted to compete for the licences on an equal and transparent basis with domestic firms, the exclusivity period will be terminated, and the commitments scheduled from 1 January 2005 will be immediately effective. Other government monopolies existed in the supply of postal services, railway transport; forestry; primary education; support services for air transport, highway, bridge and tunnel operation services, and the maintenance of public roads and road facilities.

244. Accountancy services were regulated by the Law on Accountancy and the Law on Trade Companies, as amended (Official Gazette Nos. 70/01 and 50/01, respectively). The amended provisions regulated the conditions for becoming an authorized accountant, stipulated permanent education of accountants to maintain high-quality services, the protection of accountants and their liability, etc. Provision of foreign legal consultancy services was subject to reciprocity. The laws of the Republic of Macedonia did not restrict foreign firms from establishing or operating hotels, restaurants, travel agencies or other tourist operations in the Republic of Macedonia.

Transparency

Publication of information on trade

245. The representative of the Republic of Macedonia said that Parliament had enacted the Law on Publishing Laws and Other Regulations and Acts in the Official Gazette of the Republic of Macedonia, published in the Official Gazette No. 56/99. The acts requiring publication in the Official Gazette were enumerated in Article 3 of the Law and included laws and authentic interpretations of laws; updated texts of laws determined by the Legislative Commission of the Parliament; the budget and the final account of the budget; international agreements; and bylaws, decisions and instructions of the Government; and regulations, orders, instructions and other documents determined by law to be passed by Ministers and officials in charge of other administrative bodies. Draft laws were not published in the Official Gazette.

246. Specifically concerning the transparency requirements stipulated in Article X of the GATT 1994, Article 3 of the GATS, and the WTO Agreements on Import Licensing Procedures, Customs Valuation, TBT, SPS, etc., he added that laws and other regulations were published before entry into force pursuant to Article 52 of the Constitution. Laws and other regulations were published in the Official Gazette not later than seven days following enactment, and would enter into force at the earliest on the eighth day following publication, or exceptionally - as determined by Parliament - on the day of publication. The procedures for publication and notification of sanitary and phytosanitary regulations had been reviewed to ensure full conformity with the requirements of the SPS Agreement, Annex B, i.e. to allow a reasonable interval between the publication of such regulations and their entry into force. Laws and regulations could not be applied retroactively, except when this would be more favorable to citizens.

Notifications

247. The representative of the Republic of Macedonia said that, at the latest upon entry into force of the Protocol of Accession, the Republic of Macedonia would submit all initial notifications required by any Agreement constituting part of the WTO Agreement. Any regulations subsequently enacted by the Republic of Macedonia which gave effect to the laws enacted to implement any Agreement constituting part of the WTO Agreement would also conform to the requirements of that Agreement. The Working Party took note of this commitment.

Trade agreements

248. The representative of the Republic of Macedonia said that the Republic of Macedonia had concluded agreements on trade and economic cooperation with Albania, China, Hungary, Poland, Romania, the Russian Federation, Switzerland and Ukraine, agreements on trade with the Czech Republic and Egypt, an Agreement on Trade Cooperation with Malaysia, an Agreement on Economic Development Cooperation with Chinese Taipei, and an Agreement on Economic, Agricultural, Industrial, Technical and Technological Cooperation with Austria. These agreements did not contain any provisions relating to preferential market access for goods, and no provisions on market access for services.

249. The Republic of Macedonia accorded preferential market access in accordance with free trade agreements concluded with the Federal Republic of Yugoslavia (in force since 31 January 1997), Croatia (30 October 1997), Slovenia (1 December 1999, but implemented on a temporary basis since 1 July 1996), Bulgaria (1 January 2000), and Turkey (1 September 2000). Free trade agreements with Ukraine and the EFTA countries – establishing free-trade areas within 10 years - had entered into force on 10 September 2001 and 1 May 2002, respectively. The European Union and the Republic of Macedonia had signed a Stabilization and Association Agreement on 9 April 2001. The Republic of Macedonia had ratified this Agreement on 12 April 2001, while the Agreement was still awaiting ratification by EU Member States. Negotiations on a free trade agreement with Romania had commenced in May 2000, but only consultative meetings had been held so far. The Republic of Macedonia applied tariff preferences on all products imported from Bosnia and Herzegovina, although no free trade agreement had been signed yet. Negotiations had been initiated in 1999, and the parties had agreed all articles of the basic text of the Agreement, except articles on the dynamic liberalization of trade in industrial products. The Republic of Macedonia 's free trade agreements did not cover services. In 2000, the Republic of Macedonia's preferential trading partners had accounted for approximately 75 per cent of imports into the Republic of Macedonia, and 80 per cent of its exports.

250. The Stabilization and Association Agreement with the EU aimed at the gradual establishment of a free trade area over a period of 10 years. The Agreement contained provisions on the free movement of goods as well as the movement of workers, finance and capital, and the establishment and supply of services. Concerning trade in industrial products, except for goods listed in Annex 1 of the Agreement, for which the Republic of Macedonia would phase out all customs duties over a period of ten years, with a three-year grace period applied to some products (Annex 2), customs duties on all other industrial products would be phased out on the date of the entering into force of the Agreement. Special arrangements existed for trade in textile products and steel products (Protocols 1 and 2). All other duties and restrictions on imports and exports of industrial products would be abolished with immediate effect. Article 26 of the Agreement stipulated abolition of all quantitative restrictions on agricultural and fish products. Annex 4a listed agricultural products on which the Republic of Macedonia would eliminate tariffs, while zero duty tariff quotas and progressive reduction of above-quota tariff rates would be provided for goods listed in Annex 4b. The Republic of Macedonia would also provide tariff concessions within tariff quotas for agricultural goods listed in Annex 4c. Trade in processed agricultural products was governed by Protocol 3, which stipulated detailed customs duties reduction tables for each type of product. Trade in wine and spirits would be governed by a separate agreement (initialed by both parties on 17 July 2001). Concerning fish and fish products, Article 28 of the Agreement stipulated that the Republic of Macedonia would abolish all charges having an equivalent effect to a custom duty, and reduce customs duties on fish and fisheries products originating in the European Community by 50 per cent of the MFN duty. The residual duties would be reduced over a period of six years and eliminated at the end of this period.

These rules did not apply to products listed in Annex 5b, which were subject to tariff reductions laid down in that annex. Pending the ratification of the Stabilization and Association Agreement by EU Members States, the provisions necessary for the gradual establishment of the free trade area had entered into force on 1 June 2001 under an Interim Agreement.

251. The representative of the Republic of Macedonia provided short summaries of the free trade agreements with Croatia, Slovenia, the Federal Republic of Yugoslavia, Bulgaria, Turkey, Ukraine and EFTA countries in documents WT/ACC/807/5/Add.1 (Annex 8), WT/ACC/807/18 and WT/ACC/807/23. He added that trade in agricultural products under the free trade agreements with Croatia, Slovenia and the Federal Republic of Yugoslavia was subject to mutual concessions granted in the form of tariff quotas. Detailed information on the tariff rate quotas applicable in 1999 and 2002 was provided in documents WT/ACC/807/3, Annex II and WT/ACC/807/26, Attachment I. Only the free trade agreement with the Federal Republic of Yugoslavia contained a provision on "gradual abolition" of tariff rate quotas. However, the free trade agreements were being renegotiated to include provisions on the procedure for allocation of tariff quotas on agricultural and food products (first come, first served principle), the quantity of trade under tariff quota, levels of customs duty on agricultural and food products, and rules of origin. He confirmed that any tariff quotas resulting from the accession of the Republic of Macedonia to the WTO would be additional to the tariff quotas under its free trade agreements.

252. Some Members stated that the Republic of Macedonia's free trade agreements with Croatia, Slovenia and the Federal Republic of Yugoslavia did not result in free trade between the parties and did not appear consistent with GATT Article XXIV. These arrangements did not eliminate substantially all barriers to trade between the parties, especially in agriculture, and the Republic of Macedonia was asked about future plans to address the deficiencies and bring these arrangements into conformity with GATT Article XXIV.

253. The representative of the Republic of Macedonia replied that bilateral trade relations were undergoing substantial changes in the Balkan region. The results of all of these changes were not yet fully known, but the Republic of Macedonia was striving towards the establishment of bilateral trade relations fully compatible with the GATT. The Republic of Macedonia had made commitments under the Memorandum of Understanding on Trade Liberalization and Facilitation, signed recently by the countries forming the Stability Pact for South Eastern Europe. In his view, the free trade agreements with Croatia, Slovenia and the Federal Republic of Yugoslavia were already consistent with GATT Article XXIV as approximately 90 per cent of the bilateral trade was free of trade barriers. Concerning agriculture, mixed committees and subcommittees on quotas met regularly to negotiate the annual lists of products subject to concessions and to discuss further liberalization of trade in products falling within HS Chapters 1-24.

254. The representative of the Republic of Macedonia confirmed that his Government would observe the provisions of the WTO including Article XXIV of the GATT 1994 and Article V of the GATS in its participation in trade agreements, and would ensure that the provisions of these WTO Agreements for notification, consultation and other requirements concerning free trade areas and customs unions of which the Republic of Macedonia is a member were met from the date of accession. He confirmed that the Republic of Macedonia would, upon accession, submit notifications and copies of its Free Trade Area Agreements, including those established in the context of the Stability Pact Memorandum of Understanding, to the appropriate WTO Councils and the Committee on Regional Trade Agreements (CRTA). The Working Party took note of these commitments.

Conclusions

255. The Working Party took note of the explanations and statements of the Republic of Macedonia concerning its foreign trade regime, as reflected in this Report. The Working Party took note of the assurances and commitments given by the Republic of Macedonia in relation to certain specific matters which are reproduced in paragraphs 37, 45, 65, 71, 84, 97, 107, 111, 115, 122, 132, 135, 145, 153, 155, 160, 165, 177, 180, 192, 211, 238, 247 and 254 of this Report. The Working Party took note that these commitments had been incorporated in paragraph 2 of the Protocol of Accession of the Republic of Macedonia to the WTO.

256. Having carried out the examination of the foreign trade regime of the Republic of Macedonia and in the light of the explanations, commitments and concessions made by the representative of the Republic of Macedonia, the Working Party reached the conclusion that the Republic of Macedonia be invited to accede to the Marrakesh Agreement Establishing the WTO under the provisions of Article XII. For this purpose, the Working Party has prepared the draft Decision and Protocol of Accession reproduced in the Appendix to this Report, and takes note of the Republic of Macedonia's Schedule of Concessions and Commitments on Goods (document WT/ACC/807/27/Add.1) and its Schedule of Specific Commitments on Services (document WT/ACC/807/27/Add.2) that are annexed to the draft Protocol. It is proposed that these texts be adopted by the General Council when it adopts the Report. When the Decision is adopted, the Protocol of Accession would be open for acceptance by the Republic of Macedonia which would become a Member thirty days after it accepts the said Protocol. The Working Party agreed, therefore, that it had completed its work concerning the negotiations for the accession of the Republic of Macedonia to the Marrakesh Agreement Establishing the WTO.

ПРОТОКОЛ
ЗА ПРИСТАПУВАЊЕ НА РЕПУБЛИКА МАКЕДОНИЈА

Преамбула

Светската трговска организација (во понатамошниот текст - "СТО") согласно одобрението од Генералниот совет на СТО, согласно член XII од Маракешката спогодба со која беше основана Светската трговска организација (во понатамошниот текст - "Спогодба за СТО"), и Република Македонија,

Земајќи го предвид Извештајот на Работната група за пристапување на Република Македонија кон Спогодбата за СТО, кој е вклучен во документот WT/ACC/807/27, од 26 септември 2002 година (во понатамошниот текст - "Извештај на Работната група"),

Имајќи ги предвид резултатите од преговорите за пристапување на Република Македонија кон Спогодбата за СТО,

Постигнаа согласност за следново:

ДЕЛ I
ОПШТ ДЕЛ

1. По стапувањето во сила на овој Протокол согласно став 8, Република Македонија ќе пристапи кон Спогодбата за СТО согласно член XII од оваа Спогодба и со тоа ќе стане членка на СТО.

2. Спогодбата за СТО кон која ќе пристапи Република Македонија е Спогодбата за СТО, вклучително и Објаснувањата кон истата спогодба, како што се исправени, дополнети или на поинаков начин изменети со такви правни инструменти кои можеби ќе стапат на сила пред датумот на стапувањето во сила на овој Протокол. Овој Протокол, кој ги вклучува и обврските наведени во став 255 од Извештајот на Работната група, ќе биде составен дел од Спогодбата за СТО.

3. Обврските од Мултилатералните трговски спогодби приложени кон Спогодбата за СТО што треба да се извршат во текот на определен период, почнувајќи од датумот на стапување во сила на истата Спогодба, ќе бидат применети од страна на Република Македонија исто како таа да ја прифатила Спогодбата на датумот на нејзиното стапување во сила, освен ако не е поинаку наведено во став 255 од Извештајот на Работната група

4. Република Македонија може да задржи мерка која не е во согласност со став 1 од член II од ГАТС, под услов таквата мерка да е наведена во Листата на исклучоци од член II, приложена кон овој Протокол и ги исполнува условите од Анексот кон ГАТС во врска со исклучоците од член II.

ДЕЛ II
ЛИСТИ НА ОБВРСКИ

5. Листите дадени во Анекс I од овој Протокол ќе станат Листа на отстапки и обврски приложени кон Општата спогодба за царини и трговија од 1994 (во понатамошниот текст - "ГАТТ 1994") и Листа на специфични

обврски приложени кон Општата спогодба за трговија со услуги (во понатамошниот текст - "ГАТС") кои се однесуваат на Република Македонија. Постепеното спроведување на отстапките и обврските наведени во листите ќе се имплементира на начин кој е наведен во релевантните делови од соодветните Листи.

6. За потребите на спомнатото во став 6(а) од член II од ГАТТ 1994 во однос на датумот на Спогодбата, за датум на примена на Листите на отстапки и обврски приложени кон овој Протокол ќе се смета датумот на кој овој Протокол ќе стапи во сила.

ДЕЛ III
ЗАВРШНИ ОДРЕДБИ

7. Овој Протокол ќе биде отворен за прифаќање, со потпис или на друг начин, од страна на Република Македонија, до 31 март 2003 година.

8. Овој Протокол ќе стапи во сила триесет дена по датумот на кој ќе биде прифатен од страна на Република Македонија.

9. Овој Протокол ќе биде депониран кај Генералниот директор на СТО. Генералниот директор на СТО навремено ќе достави заверени копии од овој Протокол и од нотификацијата за прифаќање од страна на Република Македонија на истиот, согласно став 9, на секоја членка на СТО и на Република Македонија.

Овој Протокол ќе биде регистриран согласно одредбите од член 102 од Повелбата на Обединетите нации.

Подготвено во Женева на петнаесетти октомври 2002 година во единствен примерок на англиски, француски и шпански јазик, при што секој од овие текстови е автентичен, со исклучок на Листата на обврски приложена кон овој документ, за која може да се прецизира дека ќе биде автентична само на еден од овие јазици.

ДЕЛ I - ЦАРИНСКИ СТАПКИ ЗА НАЈПОВЛАСТЕНА НАЦИЈА
ОДДЕЛ I - Земјоделски производи
ОДДЕЛ I - А Царински стапки

Забелешка 1 -- Онаму каде што е внесена царинска стапка во колоната "Конечна обврзувачка стапка" , намалувањето на царината за тој тарифен број ќе се спроведува во еднакви годишни делови почнувајќи од датата на пристапувањето на Република Македонија кон СТО. Годишните намалувања ќе се имплементираат на 1 јануари секоја година се до годината на постигнувањето на конечната обврзувачка стапка внесена во колоната "Имплементација". Намалените стапки секогаш ќе се заокружуваат на првата децимала

Забелешка 2 -- Република Македонија ќе ја задржи применуваната царинска стапка, како и другите давачки и такси:
а) за ХС 1205 (семе од маслодајна репка, вклучувајќи кршено или дробено) на ниво не повисоко од она за ХС 1201 (соја во зрно, вклучувајќи кршено или дробено),
б) за ХС 1208 90 (брашно и гриз од маслодајни семиња) и за грашок од ХС 0713 10 90 90 (друго) на ниво не повисоко од она за ХС 1208 10 (брашно и гриз од соја);
в) за ХС 1514 (масло од репка и негови фракции, пречистени или непречистени, но хемиски немодификувани) на ниво не повисоко од она за ХС 1507 (соино масло и негови фракции, пречистени или непречистени, но хемиски немодификувани); и
г) за ХС 2306 41 и 2306 49 (маслени погачи и други цврсти остатоци, немелени, мелени или пелетизирани од семиња од масло добиени со екстракција на масло од маслодајна репка) и за грашок од ХС 0713 10 90 90 (друго) на ниво не повисоко од она за ХС 2304 (маслени погачи и други цврсти остатоци, немелени, мелени или пелетизирани од семиња од масло добиени со екстракција на соино масло).

Забелешка 3 -- Други давачки и такси - Република Македонија ќе ја применува давачката од 0.1% за промоција на извозот се до 31 декември 2005 година согласно член 25 од новиот Закон за надворешно-трговско работење, усвоен од страна на Собранието во јуни 2002 година (Службен весник 45/02) кој ја продолжува примената на членовите 57а, 57б и 57г од претходниот Закон за надворешно-трговско работење кои ја регулираат давачката од 0.1% до 31 декември 2005 година.
Република Македонија се обврзува да ја ограничи примената на другите давачки и такси до 31 декември 2005 година на 0.1%, а од 1 јануари 2006 година да ги ограничи на "нула".

ДЕЛ I ПАРИСКИ СТАПКИ ЗА НАЦИОНАЛНО ВЛАСТЕНА НАЦИЈА

ОДДЕЛ II Други производи

Забелешка 1: Општо: Конечната обврзувачка стапка намалувањето на царината за тој тарифен број ќе се спроведува на годишни основи почнувајќи од датата на пристапувањето на Република Македонија кон СТО. Годишните намалувања ќе се имплементираат секоја година се до годината на пристапувањето на конечната обврзувачка стапка внесена во колоната "Имплементација". Намалените стапки секогаш ќе се применуваат на увозот на трети земји.

Забелешка 2: Други давачки и такси: Република Македонија ќе ја применува давачката од 0.1% за промоција на извозот се до 31 декември 2005 година согласно членот 25 од Законот за надворешно трговско работење, усвоен од страна на Собранието во јуни 2002 година (Службен весник 45/02) кој ја продолжува примената на членовите 52а, 52б и 57г од претходниот Закон за надворешно трговско работење кои ја регулираат давачката од 0.1% до 31 декември 2005 година. Република Македонија се обврзува да ја ограничи примената на другите давачки и такси до 31 декември 2005 година на 0.1% а од 1 јануари 2006 година да ги отстрани на "нула".

Компутери: машини за автоматска обработка на податоци со можности на 1) чување или обработка на програми или само податоци кои се потребни за работење на програмот; 2) програмирање во зависност со барањата на корисникот ; 3) користење на аритметички функции кои ги специфицира корисникот; 4) извршување, без човечка интервенција, поради обработка на програм во кој се бара измена на извршување со логична одлука во текот на извршувањето на обработката Договорот ги покрива таквите машини за автоматска обработка на податоци без оглед дали се тие во можност да примаат и обработуваат, со помош на централна единица, телефонски сигнали, телевизиски сигнали или други аналогни или дигитални обработени аудио и видео сигнали Машините кои извршуваат специфични функции различни од обработка на податоци, или кои содржат или работат заедно со некоја машина за автоматска обработка на податоци и не се поинаку специфицирани во Податокот А или Б не се покриени со овој договор	84711090,84713000,84714190,84714990,84714990,84715090,85281210,85281300,85281800,85438917
Електрични засилувачи кога се користат како репетитори во производи за жичната телефонија кои припаѓаат на овој договор и нивни делови	85175010,85178090
Дисплеи со рамна плоча (вклучувајќи ЛЦД, електро луминисцентни, плазма, вакум флуоросцентни и др технологии) за производи кои припаѓаат на овој договор и нивни делови	84716090,84733010,84733090,85312030,85312050,85312080,85318030,85319020,90138020,90138030,90139010
Мрежна опрема апарати за локална и глобална мрежа, вклучувајќи производи кои служат воглавно или само за поврзување на машини за автоматска обработка на податоци и нивни единици за мрежа која се користи воглавно за делење на единици како што се главна процесорска единица, апарати за подготвување на податоци и влезни или излезни единици вклучувајќи адаптери,хубови, ин линие репеатори, конвертори, концентратори, мостови и рутери, како и печатени кола за вградување во машини за автоматска обработка на податоци	84715090,84716090,85175090
Монитори-дисплеј единици на машините за автоматска обработка на податоци со катодна цевка со раздалеченост на точките на екранот помала од 0.4 мм, кои не можат да примаат и обработуваат телевизиски сигнал или други аналогни или дигитални аудио или видео сигнал без помош на централна процесорска единица на сметачката машина како што е дефинирано со овој договор Со овој договор не е опфатена телевизијата вклучувајќи и телевизија со висока дефиниција	84716090
Оптички единици за чување на податоци, за машини за автоматска обработка на податоци (вклучувајќи ЦД и ДВД уреди), без оглед дали имаат или не можност за пишување /снимање и читање, без оглед дали се наоѓаат во сопствено куќиште	84717051
Портабл приемници за повикување на луѓе и делови за истите	85279092,85299040
Плотери, влезни или излезни единици од тарифен број 8471 или машини за цртање или скицирање од тарифен број 9017	84716090,84718000,90171010,90172005
Печатени кола за производи кои припаѓаат во овој договор, вклучувајќи и такви делови за надворешна врска, како што е картички кои одговараат на ПЦМЦИА стандардите Таквите делови прават еден или повеќе втиснати кругови од тарифниот бр 8534 со еден или повеќе активни елементи составени на нив со или без пасивни елементи. " Активни елементи" се диоди, транзистори или слични полупроводнички апараури, фотоосетливи или не, од тари број 8541 и интегрални кола и микро делови од тар број 8542	84731011,84732110,84732910,84733010,84734011,84735010,85049005,85049091,85178090,85179011,85179082,85229051,85281290,85299040,85319020,85439020,85439030,85489010,90269090,90279050,90309020
Дисплеи со равни плочи за проекција кои се користат со машини за автоматска обработка на податоци кои можат да покажат дигитална информација произведена во централна процесорска единица	84716090,85283005,85318030
Апарати за мемориско чување на вообичаени формати кои содржат основи за машини за автоматска обработка на податоци, со или без преносен медиум, магнетски, оптички или некои други технологии, вклучувајќи ги Бернулиева кутија, Сиквест или Зипдрајв мемориски единици	84717051,84717053,84717059,84717060,84717090,85232010,85232090,85239000,85243100,85243910,85244000,85249100,85249910
Мултимедиска дополнителна опрема за машини за автоматска обработка на податоци и нивни единици, приготвени за продажба на мало, кои се состојат, барем од звучници и/ или микрофон, и електронски склоп, кој овозможува машината за автоматска обработка на податоци и нејзините единици да даваат звучни сигнали (звучни картички)	85438979
Комплети затворени кутии кои имаат комуникациска функција: апарати со микропроцесори кои содржат модем со цел да се овозможи пристап на Инернет, и имаат функција на инерактивна размена на информации	85175090,85178090,85252099,85281291

	Комерцијално присуство Вршење на определен вид на услуги на странски лица во Република Македонија, се остварува преку основање на трговско друштво[1] или трговец поединец или со основање на подружница. Претставништвото регистрирано во Република Македонија не може да врши трговска дејност.		
	Привремен влез и престој на физички лица		
	Без обврски, освен. За влез и привремен престој на физички лица кои потпаѓаат под една од следните категории	Без обврски, освен за категориите наведени во Колоната за пристап на пазарот.	
	(i) Интракорпоративни трансфери Физички лица кои се привремено трансферирани за да даваат услуги преку комерцијално присуство на територијата на Република Македонија. Оваа категорија вклучува лица кои се на водечките менаџерски или извршни позиции. Оваа категорија опфаќа и специјалисти - физички лица кои поседуваат високи или невообичаени квалификации или образование неопходно за функционирањето на компанијата, кои се важни за услугите кои ги дава таа компанија, и кои поседуваат познавање на организацијата на услугите, опремата за истражување или менаџмент. За привремен престој на интракорпоративните трансфери дозволата за привремен престој важи за период од три години и по барање може да се продолжи за уште најмногу две години. (ii) Бизнис посетители Физички лица кои престојуваат привремено во Република Македонија со цел да склучат договори за вршење на услуги во име на		
	компанијата во која се вработени или овластени или да учествуваат на деловни состаноци, саеми и слични активности. Бизнис посетители се лица кои не се со седиште во Република Македонија и не примаат надокнада од извор од Република Македонија кои се вклучени во активности на застапување на давателот на услугата со цел да вршат преговори за вршење на услуги од страна на тој давател. Овие застапници не можат да бидат инволвирани во директно давање на услуги на јавноста или пак да даваат самостојно услуги Должината на привремениот престој на бизнис посетителите е ограничен на 90 дена со можност за продолжување по поднесено барање.		

[1] Според Член 16 од Законот за трговските друштва:
Трговско друштво е здружување на две или повеќе физички и правни лица кои вложуваат пари, предмети и права во имот што го користат за заеднички работење и заеднички ја делат добивката и загубата од работењето.
Друштвото е правно лице кое самостојно трајно врши дејност заради остварување на добивка.
Во случаи определени со овој закон друштвото може да биде основано и од едно лице (друштво основано од едно лице).
Членот 18 од Законот за трговските друштва ги предвидува следните видови на трговско друштво: 1) Јавно трговско друштво, 2) Командитно друштво, 3) Друштво со ограничена одговорност, 4) Акционерско друштво и 5) Командитно друштво со акции.

Досег

Долу наведените дефиниции и принципи се дел од рамковната регулација за базичните телекомуникациски услуги

Дефиниции

Под **корисници** се подразбираат корисниците на услуги и давателите на услуги

Под **основни можности** се мисли на можностите за пренос на јавните телекомуникациски мрежи или услуги кои

а) се ексклузивно или во најголем обем овозможени од еден или од ограничен број на даватели на услуги;
б) не постои можност економски или технички да бидат супституирани, со цел да овозможат услуга

Главен снабдувач е оној кој има способност материјално да влијае на главните текови (оса се однесува на цените и снабдувањето) на пазарот за основни телекомуникациски услуги, и тоа како резултат на:

а) контролата која ја има врз основните можности;
б) својата позиција која ја има на пазарот

1. Заштита на конкурентноста

1.1 Превенција од неконкурентно дејствување во телекомуникациите

Ќе постојат соодветни мерки чија цел ќе биде, поединци или правни лица кои се јавуваат како најголеми даватели на услуги да се спречат од вклучување или продолжување на неконкурентно делување

1.2 Заштита
Горе наведеното нелојално конкурентно делување ќе вклучува

а) инвестирање во неконкурентно меѓусебно субвенционирање,
б) користење на информации обезбедени од конкурентите преку неконкурентен метод, заради остварување на резултати,
в) да се оневозможува на останатите даватели на услуги благовремено информирање за основните можности и комерцијално битни информации кои се неопходни при давањето на услуги

2. Меѓусебна поврзаност

2.1 Овој дел се однесува на поврзувањето на понудувачите кои вршат пренос на јавните телекомуникациски мрежи или услуги, со цел да им се овозможи на корисниците на еден понудувач да комуницираат со корисниците на друг понудувач како и да ги користат услугите од друг понудувач. Во овој дел специфични обврски веќе се превземени

2.2 Обезбедување на меѓусебна поврзаност

Меѓусебната поврзаност со главниот давател на услуги ќе биде овозможен на секоја технички соодветна точка од мрежата. Ваква поврзаност е овозможена

а) под недискриминаторни услови(вклучувајќи технички стандарди и спецификации)и со ист квалитет на своите услуги, услугите на подружниците на останатите даватели на слични услуги како и на оние со кои е веќе поврзан,
б) на определен начин, под услови(вклучувајќи технички стандарди и спецификации) и паричните стапки кои се транспарентни и разумни, во соодиос со економските потреби и доволно упростено така да давателот на услугите не мора да плаќа за деловите од мрежата или можностите кои не се потребни за услугата да биде овозможена;и
в) по барање, на местата како дополнителни на оние на мрежните места понудени од повеќето од корисници, предмет на давачки кои ќе ја рефлектираат цената на изградба на дополнителни неопходни средства

2.3 Јавност на процедурата од разговорите за меѓусебна поврзаност

Процедурата која се користи за поврзување со поголем давател на услуги ќе биде јавна

2.4 Транспарентност на договорите за меѓусебно поврзување

Потребно е главниот давател на услуги да ги направи достапни на јавноста или договорот за меѓусебно поврзување или понудата за истото

2.5 Решавање на споровите кои ќе се јават

Давателот на услуги кој бара поврзување со поголем давател на услуги, ќе има можност да се обрати или,

а) во секое време или
б) по истекот на определен временски период, кој е јавно познат

до независно домашно тело, кое може да биде регулативно тело како што е дефинирано во параграф 5 подолу,кое ќе ги решава споровите во врска со одредени термини, услови или степенот на меѓусебна поврзаност, во најкус можен рок , се додека тие не биле предходно востановени

3. Универзални услуги

Секој член има право да дефинира определен вид на обврски за универзални услуги кои сака да ги дава. Овие обврски нема да се сметаат како неконкурентни сами по себе, доколку се извршуваат на транспарентен, недискриминаторски и неутрално конкурентен начин и не се комплицирани повеќе отколку што е потребно за тој вид на универзални услуги дефинирани од членовите

4. Јавност на критериумите за лиценцирање

Таму каде што е потребна лиценца, јавно ќе бидат објавени

а) сите критериуми за давање лиценца и периодот неопходен да се донесе одлука за давање на лиценцата;
б) условите за секоја индивидуална лиценца.

Причините поради кои барателот на лиценцата бил одбиен ќе му бидат писмено доставени на негово барање.

5. Независни регулатори

Телото за регулирање е самостојно и не е дел од понудувачите на базични телекомуникациски услуги. Одлуките и процедурата кои се користат во овие тела ќе бидат подеднакви за сите учесници на пазарот

6.Алокација и користење на ограничените ресурси

Секоја процедура за алокација и користење на ограничените ресурси, вклучувајќи ја должината, бројот и правата , начинот на користење, ќе бидат изнесени на објективен благовремен и недискриминаторски начин. Сегашната состојба на доделените фреквенции ќе биде достапна на јавноста, но детална идентификација на должината на алокација за специфични потреби на владата на е потребна.

ИЗВЕШТАЈ НА РАБОТНАТА ГРУПА ЗА ПРИСТАПУВАЊЕ НА РЕПУБЛИКА МАКЕДОНИЈА

Вовед

1 Владата на Република Македонија поднесе барање за пристапување кон Светската трговска организација во декември 1994 (документ PC/W/18). На состанокот што се одржа на 21 декември 1994, Подготвителната комисија на Светската трговска организација основа Работна група чија цел беше да го провери барањето на Владата на Република Македонија за пристапување кон Светската трговска организација согласно членот XII од Спогодбата од Маракеш за основање на СТО. Надлежностите и условите за членство во Работната група се дадени во документот WT/ACC/807/1/Rev 9

2 Работната група се состана на 10 јули 2000; 15 март и 7 декември 2001; 23 мај и 17 септември 2002, а со неа претседаваше Неговата Екселенција Г-дин К. Брин (K. Bryn) (Норвешка)

Доставена документација

3 Работната група пред себе го имаше Меморандумот за надворешно трговскиот режим на Република Македонија, кој послужи како основа за дискусиите, прашањата поднесени од Членките во врска со надворешно трговскиот режим на Република Македонија, заедно со одговорите на истите, и други информации доставени од страна на властите на Република Македонија (WT/ACC/807/2; WT/ACC/807/3; WT/ACC/807/5 и Addenda 1 (и Corrigendum 1), 2, 3 и 4; WT/ACC/807/12; WT/ACC/807/13 и Ревизии 1 и 2; WT/ACC/807/17 и Ревизии 1, 2 и 3; WT/ACC/807/18; WT/ACC/807/23; WT/ACC/807/25; и WT/ACAC/807/26), вклучувајќи и законски текстови и друга документација наведени во Анекс I.

Воведни изјави

4. Претставникот на Република Македонија изјави дека Република Македонија трпеше постојани штети заради политичката и економската нестабилност, и конфликитите кои се случуваа во регионот уште од 1991 година. Како последица на тоа Република Македонија ги загуби нејзините традиционални пазари и се соочи со големо опаѓање на странските директни инвестиции. Меѓутоа, и покрај тешките услови и проблемите однадвор, Владата на Република Македонија покажа истрајност во нејзината политика на владеење на правото и парламентарната демократија при стабилизирањето на економијата и спроведувањето на структурните реформи.

5 Реформите се спроведуваа истовремено во сите сегменти од социјалниот и економски живот, вклучувајќи ги тука и правниот, административниот, монетарниот, фискалниот и надворешно-трговскиот режим. Беа усвоени повеќе нови закони и изменети постоечките. Законот за данок на додадена вредност стапи во сила на 1 април 2000, на ист датум како и Царинскиот закон. Процесот на приватизација значително напредуваше, па така стапката на приватизирани компании достигна 90 проценти во почетокот на 2000. Република Македонија исто така започна да ја реформира и државната администрација со цел воспоставување на мала, ефикасна, професионална и неполитизирана администрација. Република Македонија покажа успех и во промовирање на регионалната соработка. Неодамна склучи договори за слободна трговија и преференцијални спогодби со регионални партнери чија цел е либерализација на трговијата согласно одредбите од членот XXIV од ГАТТ 1994.

6. Пристапувањето кон СТО е од огромно значење и еден од врвните приоритети на Владата на Република Македонија. Во текот на прилагодувањето кон меѓународните трговски принципи и предвидливи и транспарентни трговски правила, Република Македонија треба и понатаму да ги развива и продлабочува нејзините трговски односи со Членките на СТО и да создава поволни услови за реципроцитет во трговијата, микроекономска ефикасност и странски инвестиции. Република Македонија е цврста во својата одлука да стане членка на светската трговска заедница. На кратко кажано, имплементацијата на барањата на СТО ќе претставува голем предизвик и тежок процес, но тоа е мала цена која треба да се плати во споредба со долгорочните бенефиции како членка на СТО.

7 Членките на СТО го поздравија барањето на Република Македонија да стане членка на СТО и се надеваат на брзо и навремено завршување на процесот на пристапување. Пристапувањето на Република Македонија е важно и заради стабилизирање и реконструкција на нестабилниот регион. Некои Членки ја потенцираа важноста од имплементирање на легислативата, која е усогласена со СТО, пред сѐ заради воспоставување на економски и трговски режим кои се транспарентни и се базираат врз правила, како и недискриминаторски пристап на пазарот. Нивниот пристап би бил креативен и прагматичен, а ќе ѝ биде дадена и техничка и друга помош на Република Македонија за да го забрза процесот. И покрај тоа што од Република Македонија се бараат пропорционални и праведни отстапки и обврски, некои Членки изјавија дека Република Македонија не треба да биде форсирана да прифати поголеми обврски од оние кои нормално се бараат од Членките на СТО.

8. Работната група ја прегледа економската политика и надворешно трговскиот режим на Република Македонија и можните услови од нацрт Протоколот за пристапување кон СТО. Мислењето искажано од страна на членките на Работната група за различни аспекти на надворешно трговскиот режим на Република Македонија, како и за условите за пристапување на Република Македонија кон СТО, се сумирани во ставовите подолу, од 9 до 254.

ЕКОНОМСКА ПОЛИТИКА

Монетарна и фискална политика

9. Претставникот на Република Македонија изјави дека макроекономската политика на Владата на РМ се темели врз координирана монетарна и фискална политика и политика на плати. Ограничувањето на платите, како составен дел на макроекономската политика се применува со цел да се контролира приватната потрошувачка и инфлацијата. Законот за исплата на плати (Службен весник 70/94, 62/95 и 33/97) ги "замрзна" платите на фирмите кои не се приватизирани. Годишната стапка на инфлација беше намалена на едноцифрен број, а ваквата ниска инфлација се смета како основен предуслов за натамошни структурни реформи и економски пораст.

10. Централната банка - Народна банка на Република Македонија (НБРМ) е одговорна за формулирање и имплементирање на монетарната политика на Република Македонија. Основна функција на НБРМ е да го регулира количеството пари пуштени во оптек, да ја одржува ликвидноста на банките и штедилниците, да ја одржува ликвидноста за странските плаќања, да издава хартии од вредност и физички пари, да извршува активности во име на владини тела, и да врши супервизија и инспекција на финансискиот сектор. Гувернерот на централната банка го назначува Собранието, на предлог на Претседателот, за период од седум години. Народната банка ужива високо ниво на независност при имплементирање на монетарната и кредитна политика.

11. Примарна цел на монетарната политика на Република Македонија е да го одржи стабилен девизниот курс, за што е потребно строго контролиран прилив на пари. Главниот инструмент што Народната банка го користи за оваа цел се барањата за задолжителни резерви и операции на отворен пазар, како што се аукции на благајнички записи. Беа воведени кредитни плафони во домашниот банкарски систем, но овие ограничувања беа намалени во текот на 2000-та. Финансирањето на буџетот од страна на централната банка исто така беше намалено. На државата можеа да ѝ бидат доделени заеми само во рамките на проектираната монетарна политика. Заемите беа краткорочни и достасуваа до крајот на фискалната година, и во ниту еден момент не изнесуваа повеќе од 5 отсто од вкупниот Буџет.

12. Фискалната политика беше ориентирана кон консолидирање и стабилно намалување на буџетските дефицити. Трошоците беа намалени, а беа преземени мерки за зголемување на приходот. Реформите на фискалниот систем беа иницирани во 1994. Даночниот систем беше ревидиран и направен да биде компатибилен со системите на развиените земји. Беа преземени мерки и за подобрување на системот за наплаќање на данок. Главни даноци што постојат во Република Македонија се персонален данок, данок на имот, данок на наследство и подароци, данок на промет на недвижен имот и права, данок на додадена вредност (кој на 1 април 2000 го замени претходниот данок на промет), акцизи, царини и административни давачки. Во 2001, главни компоненти на буџетскиот приход беа: ДДВ (35,9 %), акцизите (22,6 %), персоналниот данок (15,1 %), царините (12,8 %), данокот на добивка (6,3 %), данокот на финансиски трансакции, воведен на 1 јули 2001 (6,6 %) и други давачки (0,6 %).

13. Персоналниот данок беше воведен на приход стекнат од професионални активности, плати, пензии и инвалидски примања, земјоделски приход, приход од имот и имотни права и други видови на доход како што се капитален профит, приход од права од интелектуална сопственост, итн. Согласно измените на Законот за персонален данок на доход објавен во Службен весник 50/01 и 52/01, беше воведена стапка од 15 проценти за приход еднаков или помал од 360,000 денари, додека за годишен приход над 360,000 денари беше воведен стапка од 18 проценти. Република Македонија склучи договори со неколку земји заради избегнување на двојно оданочување. Листа на такви договори може да се најде во WT/ACC/807/12, страна 54-55.

14. Данокот на имот се наплаќа за земјиште кое не е земјоделско, резиденцијално земјиште и земјиште за рекреација, гаражи и други градежни објекти, како и за моторни возила (мотори на 1,8 литри) автобуси, трактори, комбајни, транспортни средства, бродови и воздухоплови. Данок на имот не се наплаќа за деловни простори, освен за административни згради и подвижен имот кој се користи во деловното работење. Сите правни и физички лица подлежат на данок на имот кој изнесува 0.1 процент како пропорционална стапка. Данок на наследство и подароци се плаќа за недвижен имот според пропорционална стапка која се одредува според степенот на сродство. Не се плаќа данок на наследство или подароци за сродство од прво колено, додека пак за сродство од второ колено данокот

изнесува 3 проценти (од пазарната вредност минус долговите и трошоците), и 5проценти за сродство од трето колено, или кога не постои сродство. Данокот на промет на недвижен имот и права е пропорционален и изнесува 3 проценти од воспоставената пазарна цена. Во случај на размена на имот, данокот на разликата на пазарните вредности го плаќа страната која разменува имот со поголема вредност.

15. Правни лица регистрирани во Република Македонија плаќаат данок на добивка заработена во земјата или странство, согласно одредбите од Законот за данок на добивка. Овој данок се пресметува и за добивка заработена на територијата на Република Македонија од страна на лица кои не се нејзини граѓани. Стапката на данок на добивка изнесува 15 проценти. Даночни олеснувања се даваат за странски инвестиции, добивка инвестирана во неразвиени региони, како и за еколошки проекти.

Девизно работење и плаќања

16. Претставникот на Република Македонија изјави дека со Законот за девизно работење, усвоен на 14 мај 1993, се воведе нов девизен систем. Системот се базира врз променлив курс, што значи дека вредноста на националната валута – денарот – се определува слободно, според приливот и побарувачката на странски валути на девизниот пазар. Претставникот информираше дека Денарот е врзан за Германската марка – сега Евро – од октомври 1995, што придонесе за економска стабилност и исто така истакна дека Владата на РМ беше цврста во својата одлука да ја продолжи таа политика. Народната банка би интервенирала на пазарот на домашната валута за да го одржи стабилен курсот на Денарот. Покрај Народната банка, банки кои се овластени од страна на Гувернерот на Народната банка да вршат трансакции со странство, како и претпријатија и други правни лица, вклучувајќи и менувачници, можат да работат на девизниот пазар.

17. Тој додаде дека, на 14 декември 1992, Република Македонија го наследи членството во ММФ како една од петте републики наследнички на поранешна Социјалистичка Федеративна Република Југославија. Од 19 јуни 1998 година, Република Македонија ги прифати обврските од членот VIII. Дел 2, 3 и 4 од членовите на Спогодбата на ММФ. Плаќањата кон странство беа постепено воведени во банкарскиот систем. Претпријатијата можат да ги користат нивните девизни заработувачки при плаќање на увезена опрема, суровини и други тековни плаќања кон странство, да продаваат приноси на други претпријатија или правни лица преку овластени банки (готовински или терминski трансакции) или да поседуваат каматоносни девизни сметки во овластени банки. Домашните лица се обврзани да ги наплаќаат своите побарувања од странство најдоцна 90 дена по датумот на кој стоката била извезена или на кој биле дадени нивните услуги, и можат да плаќаат во странство најдоцна 180 дена по увозот. Монетарните трансакции кои се одвиваа во текот на подолг временски период се сметаат за кредитни трансакции кои се предмет на регистрација. Регистрацијата е потребна за да се има увид во финансиските комерцијални кредити. За увезени стоки, царинските декларации треба да содржат и сертификат со кој се докажува дека е обезбедена странска валута за да се изврши плаќањето. Сертификатот го издаваат банки кои се овластени за работење со странство.

18. Домашни и странски жители можат слободно да имаат денарски или девизни сметки во локалните банки. Домашните физички лица можат да имаат сметки во странство за време на нивниот престој таму. Со одобрување на Народната банка, домашни правни лица можат да поседуваат сметки во странство заради финансирање на ивестиции, работење на претставништва или деловни единици и заради покривање на трошоци поврзани со меѓународен транспорт на стоки и патници, осигурување и научни активности. Домашните правни лица можат слободно да основаат или да инвестираат во странски компании во странство, по претходна регистрација на таквите активности во Министерството за економија. Согласно Законот за кредитни односи со странство (Службен весник 31/93), жителите можат да добијат странски заеми за извозно-ориентирани инвестициони проекти, увоз на опрема, гориво и електрична енергија, и сировини кои се користат во извозно-ориентираното производство, за увоз на стоки кои се од витално значење за населението и за купување на земјоделски производи за извоз. Домашните правни лица и банките можат да им доделат заеми на странски лица за промовирање на извозот на домашни производи и за развивање на економски односи со странски земји. Странските инвеститори можат да го трансферираат профитот во странство во странска валута, без ограничување.

19. Странските сметки можат да бидат замрзнати со одлука на основен суд согласно членот 190 од Законот за извршна постапка. Приговор може да се поднесе против одлуката, а судијата кој ја донел извршната одлука ќе постапи по истиот. Постапката на судијата може да се обжали во апелациониот суд.

20. Претставникот на Република Македонија додаде дека во април 2001 Собранието на Република Македонија усвои нов Закон за девизно работење (Службен весник 34/01). Новиот Закон треба да стапи во сила на 1 октомври 2002. Одредбите од новиот Закон за девизно работење имаат примарна цел да ја хармонизираат легислативата со упатствата и стандардите на ЕУ, согласно Спогодбата за стабилизација и асоцијација. Новиот Закон предвидува понатамошна либерализација на девизното работење и најверојатно целосно елиминирање на ограничувањата кај тековните трансакции, како и постепено либерализирање на капиталните трансакции. Директните инвестиции на странски државјани кои живеат во Република Македонија и директните инвестиции на лица кои не живеат во Република Македонија се целосно либерализирани, гарантирајќи целосно враќање на профитот во земјата на потекло (репатријација) во комбинација со поедноставена процедура за регистрација за странски инвестиции.

21. Новиот Закон води кон натамошна либерализација на портфолио инвестициите, обезбедувајќи либерални услови за издавање на домашни хартии од вредност во странство и инвестиции на резиденти – лица кои живеат во Република Македонија, во хартии од вредност во странство, како и за издавање и воведување на странски хартии од вредност во Република Македонија и инвестиции во хартии од вредност во Република Македонија на лица кои не живеат во Република Македонија. По завршување на првата фаза од Спогодбата со ЕУ, граѓаните и претпријатијата ќе бидат во можност слободно да инвестираат во хартии од вредност и недвижен имот во странство. Тој потврди дека либерализацијата која резултира од комплетирањето на првата фаза од Спогодбата за стабилизација и асоцијација со ЕУ ќе се применува врз основа на принципот за најповластена нација - МФН. Истовремено, странски лица ќе бидат во можност да тргуваат слободно со домашни хартии од вредност во Република Македонија преку овластени учесници на девизниот пазар.

22. Со новиот Закон ќе се овозможи домашните претпријатија да поседуваат девизи на девизни сметки во домашни банки, и да држат средства на девизните сметки за неограничен временски период, и по завршувањето на втората фаза од Спогодбата со ЕУ, домашните претпријатија и граѓани ќе можат слободно да отвараат и поседуваат девизни сметки во странски банки. Претставникот потврди дека либерализацијата која резултира од комплетирањето на втората фаза од Спогодбата за стабилизација и социјација со ЕУ ќе се применува врз основа на принципот за најповластена нација - МФН. Тој очекува новиот Закон за девизно работење да им овозможи на претпријатијата и домашните банки да бараат заеми од странски банки или странски компании без сложени административни процедури. Покрај тоа, новиот Закон ќе овозможи домашните банки да одобруваат девизни заеми на домашни лица кои се наменети за плаќања во врска со увоз на стоки и услуги, плаќања на други тековни обврски во странство и финансирање на инвестициони активности во странство.

Режим инвестиции

23. Претставникот на Република Македонија изјави дека слободниот пазар и претприемништвото и правната заштита на имотот се загарантирани со Уставот и овие приниципи можат да бидат ограничени само со закон заради национална безбедност, заштита на животната средина и заштита на човековото здравје (член 55, став 3 од Уставот). Инвестиционата политика е насочена кон поттикнување и стимулирање на инвестициите, особено во економски неразвиените подрачја. Странските инвестиции се регулирани со Законот за трговски друштва (Службен весник 28/96). Законот се засновува врз основните принципи за слободен трансфер на добивка и инвестиран капитал, како што е наведено во членот 59 од Уставот. Правата на странските инвеститори се определени и заштитени според Законот за трговски друштва и не можат да бидат ограничени со ниту еден друг закон или пропис.

24. Одделот за промоција на инвестиции, при Министерството за економија ги координира сите активности поврзани со странски директни инвестиции, вклучувајќи и промоција на инвестиции, развој на индустриска политика и воспоставување на one-stop-shop систем (систем на еден шалтер) за странски инвеститори. Министерството за развој подготви Програма за стимулирање на инвестиции со посебен осврт на привлекување на странски инвестиции во 1999. Програмата ги идентификуваше различните ограничувања и препреки во економијата, правниот систем и политичката средина која ги попречува инвестициите во глобална смисла, а особено приливот на странски директни инвестиции. Програмата дава и препораки и упатства за тоа како да се подобри ситуацијата и да се усогласи правната рамка со меѓународните стандарди.

25 Стимулациите за привлекување на странски инвестиции вклучуваат царински олеснувања на увезена основна опрема и резервни делови кои ги задржува инвеститорот минимум 5 години и тригодишно ослободување од данок на добивка стекната од странски капитал (се додека изземената добивка не го надмине првичниот странски капитал). Добивката која е повторно инвестирана во основни работни средства не се оданочува а, исто така, не се плаќа ни данок на добивката која е инвестирана во еколошки проекти. Компаниите кои вработуваат инвалидизирани лица или чие поле на дејствување е рехабилитација, исто така се ослободени од плаќање данок. Во регионите што се сметаат за неразвиени, данокот на добивка може да се намали и до 100 отсто, доколку добивката е реинвестирана во основни средства.

26. Република Македонија генерално обезбедува национален третман за странски инвеститори, освен за сопственост на недвижен имот, согласно Законот за трговски друштва (Службен весник, 28/96, 7/97, 21/98, 37/98, 63/98, 39/99, 81/99, 37/00 и 50/01). Тоа значи дека странско физичко или правно лице може да формира компанија или да стекне акции на ист начин и според исти услови како и државјаните на Република Македонија, освен ако не е поинаку пропишано со закон, а исто така и компаниите со странски акционери ги имаат истите права и обврски како и компаниите во кои не постои странски капитал, освен ако не е поинаку наведено со закон. Уделот на странска сопственост во новоформирана компанија или веќе постоечка обично не е ограничен, освен ако не е поинаку наведено во друг закон. Согласно членот 684 од Законот за трговски друштва, странските трговски друштва и странски трговци поединци коишто работат на територијата на Република Македонија имаат еднаков статус како и домашните физички и правни лица, освен ако не е поинаку одредено со некој договор на Владата или со закон.

27. Собранието усвои нов Закон за градежно земјиште во април 2001 (Службен весник 53/01). Градежно земјиште – дефинирано согласно просторните и урбанистички планови за развој – и сè што е сместено на или под неговата површина, или е трајно врзано за неа може да биде поседувано од страна на државата и домашни правни и физички лица (член 6). Правата на странски физички и правни лица се регулирани согласно членовите 243 до 252 од Законот за сопственост и други стварни права (Службен весник 18/2001). Странците генерално немаат право да поседуваат недвижен имот во Република Македонија, но може да им биде даден пристап - предмет на реципроцитет според долгорочни договори за закуп (максимум 99 години). Одобрението го дава Министерот за финансии. Правата на долгорочен закуп се преносливи и можат да се наследуваат. Законот за сопственост и други стварни права им дозволува на странски физички лица да стекнат право на сопственост на недвижен имот преку наследство, согласно условот за реципроцитет. Правни лица со мешовита сопственост (домашни/странски) можат да поседуваат недвижен имот, вклучувајќи и градежно земјиште, под услов правното лице да е регистрирано во Република Македонија. Земјата која е сопственост на државата може да им биде дадена на располагање на домашни или странски физички и правни лица како концесија доделена преку јавен тендер.

28 Општо гледано, Република Македонија не ги забранува или ограничува странските инвестиции, освен во индустријата за оружје, дистрибуцијата и трговијата со оружје и наркотици, или кога смета дека е неопходна заштита на историските споменици и културното наследство. Ограничувањата на странската сопственост во тековните деловни потфати и во новите друштва се регулирани со посебни закони за одделни области. На тој начин, согласно членот 10 од Законот за радиодифузија, странско физичко лице или правно лице може како единка да поседува не повеќе од 25 отсто од една радиодифузна куќа, а заедничкиот удел на странска сопственост да не надминува 49 отсто. Постојат, исто така, и специфични одредби кои ја регулираат странската сопственост во банките и осигурителните компании (види дел "Политика која влијае врз трговијата со услуги").

29. Законската регулатива на Република Македонија гарантира репатријација на добивката и целосна компензација во случај на експропријација. Уставот забранува експропријација на имот, освен во случај на војна, непредвидени ситуации или заради јавен интерес, при што експропријацијата и компензацијата би се спроведувале согласно Законот за експропријација (Службен весник 33/95, 20/98, 40/99). Правата на странски и домашни инвеститори за правна заштита и надомест се еднакви. Република Македонија заклучи билатерални договори за заштита на инвестиции со повеќе од 20 земји (наведени во документот WT/ACC/807/5, Прилог 5).

Државна сопственост и приватизација

30 Претставникот на Република Македонија изјави дека приватизацијата како процес е започната уште пред осамостојувањето, со усвојување на Законот за општествен капитал (Службен весник 84/89)

од страна на поранешниот федерален парламент. Меѓутоа, веднаш по осамостојувањето во 1991 година, Владата на Република Македонија објави дека федералниот закон веќе не е во сила и дека ќе се прогласи нов закон набрзо. Собранието го усвои Законот за трансформација на претпријатија со општествен капитал (Службен весник 38/93, 48/93, 21/98, 25/99, 39/99, 81/99 и 49/00) во јуни 1993. Други закони кои се однесуваат на приватизацијата се Законот за трансформација на претпријатијата и задругите со општествен капитал кои стопанисуваат со земјоделското земјиште (Службен весник 19/96 и 25/99), Законот за приватизација на државниот капитал во претпријатијата (Службен весник 37/96 и 25/99), Законот за странски инвестиции (Службен весник 31/93), Законот за концесии (Службен весник 25/02), и Законот за хартии од вредност (Службен весник 5/93). Приватизацијата ѝ беше доверена на Агенцијата за трансформација на претпријатија со општествен капитал, основана во октомври 1993 година (Службен весник 38/93). Владата на Република Македонија презеде стратешка одлука да не пристали кон масовна приватизација, на пример преку дистрибуција на ваучери за приватизација, затоа што се веруваше дека тоа би ја одложило примарната цел на процесот на трансформација – претпријатијата да станат колку што е можно поефикасни.

31. Законот за трансформација на претпријатија со општествен капитал пропишува различни методи на приватизација, во зависност од тоа дали претпријатието е класифицирано како мало, средно или големо. Критериумите за определување на големината на претпријатието се базираат врз бројот на вработени, годишниот обрт, и книговодствената вредност на оперативните средства. Малите претпријатија можат да се приватизираат преку откуп на акции од страна на вработените или продажба на "идеален" дел од претпријатието преку јавен тендер за наддавање (и аукција), или до 2000, преку директен договор со можниот купувач. Средните претпријатија можат да се приватизираат на ист начин преку продажба на "идеален" дел, со откуп од страна на менаџерскиот тим во самото претпријатие или од страна на надворешен менаџерски тим, или со долг/капитал свопови, или преку акции кои се продаваат со јавна понуда, при што истото ќе се смета за успешно ако се продаде најмалку 51 процент од општествениот капитал. Средните претпријатија исто така можат да се приватизираат преку запишување на свеж капитал. Ако новото издание претставува повеќе од 30 проценти од проценетата вредност на претпријатието, Агенцијата за приватизација ќе му понуди на инвеститорот можност да 'го зголеми својот удел до 51 процент во претпријатието за период од максимум 5 години.

32. Приватизацијата на големите претпријатија се одвива според истите постапки како и приватизацијата на средните претпријатија, освен што минималното готовинско учество за откуп од страна на менаџерски тим од или надвор од претпријатието е пониско (10 проценти наместо 20 проценти) и барањето за свеж капитал изнесува 15 проценти наместо 30 проценти како што е за средните претпријатија. Агенцијата за приватизација има поактивна улога при приватизација на големите претпријатија, затоа што малите и средни претпријатија бараа самите да се приватизираат, додека пак големите претпријатија избраа нивната приватизација да се одвива во консултации со Агенцијата.

33. Независно од големината, јавните претпријатија можат, исто така, да се трансформираат преку договори за откуп, продажба на средства по доброволна ликвидација или стечајна постапка. Најголемите 25 загубари беа преструктуирани согласно посебната Програма за преструктуирање, одобрена од страна на Владата и заверена од страна на Светската банка.

34. Странските инвеститори имаат национален третман и можат да учествуваат во сите трансакции кои не се забранети со закон, вклучувајќи ја тука и програмата за приватизација. Законот за трансформација на претпријатија со општествен капитал овозможува посебен попуст за вработените, кои сакаат да имаат удел во нивното претпријатие. Еден вработен може да откупи акции по пониска цена од вредноста најмногу до 25,000 ДМ; вработени како група не можат да откупат акции по пониска цена ако претставуваат повеќе од 30 проценти од проценетата вредност на претпријатието. Плаќањето може да се изврши на пет годишни рати без готовинско учество и со двегодишен грејс период. Освен тоа, пред да се започне со приватизација, секое претпријатие треба да префрли 15 проценти од својот општествен капитал (во форма на удел или акции) во Фондот за пензиско и инвалидско осигурување без надомест.

35. Согласно статистичките податоци кои ги има агенцијата за приватизација, околу 1,700 претпријатија (1,262 неземјоделски и 426 земјоделски) беа предмет на приватизација до крајот на март 2002. Овие претпријатија беа проценети со вкупна вредност од УСД 2.3 милијарди, и вработуваа 230,000 луѓе. Детаљниот извештај е даден во Табелата 1(а).

36. Тој додаде дека околу 100 јавни претпријатија беа изземени од процесот на приватизација согласно постоечката законска регулатива. Овие претпријатија и организации од посебен национален интерес, јавни комунални претпријатија и правни лица се вклучени во заштита на водите, шумите и други јавни добра и монополи кои треба да се приватизираат според засебна законска регулатива. Претпријатијата кои се изземени од процесот на приватизација се наведени во Табелата 1(б). Тој додаде дека голем број од овие претпријатија се општински јавни комунални претпријатија. Информации за процентуалното учество на овие претпријатија во БДП и меѓународната трговија не се на располагање.

37. Претставникот на Република Македонија ја потврди спремноста на Република Македонија за обезбедување на транспарентност во тековната програма за приватизација и навремено информирање на Членките на СТО за прогресот во реформата на економскиот и трговски режим. Тој изјави дека Владата на РМ ќе обезбеди годишни извештаи, заедно со оние кои досега се доставени до Членките на Работната група, за одвивањето на програмата за приватизација сé додека истата е во сила. Тој исто така изјави дека Владата на РМ ќе обезбеди и годишни извештаи за други прашања кои се поврзани со економските реформи што се релевантни за обврските кон СТО. Работната група ја забележа оваа обврска.

Политика на цени

38. Членка на СТО постави прашање дали Владата на Република Македонија практикува контрола на цени, и доколку одговорот е позитивен, истата бара претставникот на Република Македонија (а) да ги наведе стоките (според ХС 96) и услугите кои се предмет на контрола на цени или добивка, (б) да ја цитира законската основа за ваквите барања, (ц) да ги наведе условите според кои ваквите контроли нормално се применуваат, и (д) да ги опише плановите за задржување на ваквите барања или зголемување на обемот на нивната примена.

39. Претставникот на Република Македонија одговори дека цените за поголемиот број на стоки и услуги се определуваат слободно, согласно условите на пазарот, но највисоките цени се определуваат само за ограничен број на производи и услуги кои се важни за животниот стандард на населението и се карактеризираат со монополски услови на набавка. Правната основа за контрола на цените е наведена во членот 24 од Законот за трговија (Службен весник 31/93, 41/93, 78/93, 44/96, 40/96, 59/96, 15/97, 13/99 и 50/00). Контролата на цените е привремена и со членот 24 се пропишува овие мерки да се проверуваат на секои 6 месеци.

40. Согласно Одлуката за највисоки цени за определени производи и услуги, сите стоки и услуги, предмет на контрола на цените во текот на периодот април-септември 2000 (Службен весник 26/00) покриваат (i) производство и маркетинг на брашно тип "500" (ХС 1101 00 00 00) и леб (600 гр.) направен од истиот тип на брашно (ХС 1905 20 00 00); (ii) производство и маркетинг на нафта и нафтени деривати; (iii) производство, трансфер и дистрибуција на електрична енергија; (iv) домашни ПТТ услуги и јавни мобилни телефонски услуги (само за корисници на постоечката фиксна мрежа); (v) железнички транспорт на патници и стоки; (vi) производство и набавка на сурова вода за домаќинства и за индустриски цели; (vii) производство и дистрибуција на вода за пиење; (viii) третирање и отстранување на отпадни води (не вклучувајќи ги колекторите); (ix) услуги за реновирање на градови и населби (собирање и фрлање на отпад); (x) други комунални услуги, т.е. погребални услуги, вклучувајќи давачки за гробови и погребални церемонии; (xi) дистрибуција на природен гас; и (xii) задолжителни услуги за осигурување на моторни возила.

41. Член 39 од Законот за енергија (Службен весник 47/97) пропишува дека цените за електрична енергија, природен гас, топлинска енергија, термални води и нафтени деривати се утврдуваат во согласност со Методологијата за определување на цените на определени форми на енергија (Службен весник 43/98). Тарифната структура се базира врз нормалните трошоци (намалување, осигурување на опрема, одржување, трошоци за материјали и енергија, бруто плати, влезни услуги, концесии, итн.) даноци, пензиско и здравствено осигурување и добивка. Одлуките за тарифната структура беа прифатени од страна на Владата по совет на експертска комисија. Цените на енергијата можат да се менуваат доколку трошоците кои се следат се зголемуваат или намалуваат за најмалку 5 проценти во текот на период од три месеци, или во текот на 15 дена во случаи на екстремни флуктуации на цените. Беа воспоставени референтни цени за определени форми на увезена енергија.

42. Постои барање за известување при промени на цените на пастеризирано млеко, производство на лекови и фармацевтски хемиски производи, издавање на станови, урбан и регионален транспорт на

патници, учебници за основно и средно образование, давачка за регистрација на моторни возила и провизија во платниот промет

43. Претставникот на Република Македонија не беше во можност точно да предвиди кои производи или услуги би биле предмет на контрола на цените во иднина, но додаде дека бројот на производи кои се предмет на таква контрола има тенденција на намалување. Контролата на цени може наќрај и да се укине како мерка. Од неодамна, контрола на цената на пример за брашно тип "500" е укината, а исто така и за леб (600 гр.) направен од истиот тип на брашно. Во моментов, максималните цени се применуваат кај производството и трговијата со нафта и нафтени деривати, и производство и набавка на сурова вода за домаќинства и индустриски цели, согласно Одлуката за највисоки цени на определени производи и услуги, (Службен весник 25/01). Стоките и услугите кои подлежат на мерките за контрола на цените во моментов, се претставени во Табелата 2. Тој потврди дека не постои поврзаност помеѓу домашните контроли на цените и извозните дозволи за производи како оние наведени во Табелата 7(а).

44. Одговарајќи на специфичните прашања, претставникот на Република Македонија потврди дека Табелата 7(а) е исцрпна и дека ги покрива сите производи кои во моментов се предмет на контрола на цени. Контролата на цени на природен гас и електрична енергија се применува како кај фирмите така и кај домаќинствата. Во средината на 2002, домаќинствата плаќаа 2.523 денари по kWh за електрична енергија, додека пак претпријатијата кои користат 110kV електрична енергија плаќаа 1.2155 денари за 1 kWh. Индустриските корисници на природен гас плаќаа 10.5 денари m^3; домаќинствата сé уште не се приклучени на мрежата за дистрибуција на гас.

45. Претставникот на Република Македонија изјави дека при спроведување на контрола на цените, сега или во иднина, Република Македонија ќе применува мерки кои се усогласени со СТО и ќе ги земе предвид интересите на извозничките земји кои се Членки на СТО, како што е наведено во членот III.9 од ГАТТ 1994 и членот VIII од Општата спогодба за трговија со услуги (ГАТС). Република Македонија ќе ја објавува во Службен весник листата на стоки и услуги кои подлежат на државни контроли и на сите други кои допрва ќе се воведат или повторно ќе се воведат во иднина. Работната група ја забележа оваа обврска.

Политика на конкуренција

46. Претставникот на Република Македонија изјави дека Законот против ограничување на конкуренцијата, донесен на 14 декември 1999 (Службен весник 80/99) стапи во сила на 1 април 2000. Законот обезбедува слободна конкуренција и определува мерки за спречување на монополистичко однесување и други ограничувања на конкуренцијата. Законот против нелојална конкуренција (Службен весник 80/99) беше усвоен на 14 декември 1999, а стапи во сила на 25 декември 1999. Одредбите од овој закон забрануваат однесување кое е спротивно на практиката на добро деловно работење и спротивно на чесното и вредно работење. Законот овозможува основање на Комисија за монополи и Монополска управа, како административни тела во состав на Министерството за економија. Собранието исто така го усвои и Законот за заштита на потрошувачите на 26 јули 2000 (Службен весник 63/00).

47. Главна задача на Монополската управа е да врши надзор, заштита и развој на конкуренцијата на домашниот пазар. Управата има две организациони единици – Оддел за донесување на одлуки, одговорен за одлуки за специфични случаи, и Оддел за истражување и анализа, кој врши надзор на позициите на пазарот кои ги имаат деловните субјекти, промените на пазарот, итн. Управата подготвува амандмани на Законот против ограничување на конкуренцијата со цел хармонизирање на одредбите на овој закон со правилата за конкуренција на Европската Унија.

РАМКА ЗА КРЕИРАЊЕ И СПРОВЕДУВАЊЕ НА ПОЛИТИКА

48. Претставникот на Република Македонија изјави дека парламентарната демократија во Република Македонија се базира врз принципот на поделба на законодавна (Собрание), извршна (Влада) и судска (судови) власт. Претседателот на Републиката, кој ја претставува државата се избира на општи и непосредни избори и има петгодишен мандат. Претседателот, покрај другите уставни овластувања, номинира мандатор за конституирање на Влада, предлага судии во Уставниот суд, назначува и разрешува одредени носители на државни и јавни функции, потпишува укази за донесување на закони, итн.

49. Собранието на Република Македонија е највисоко законодавно тело, составено од 120 члена кои се избираат на општи и директни избори, секои четири години. Во состав на низата разновидни функции, Собранието донесува закони, одлучува за резервите на државата, ратификува меѓународни договори, избира, номинира и врши супервизија на работата на Владата, одлучува за членство во меѓународни организации (на предлог на Претседателот на Републиката), и го назначува Гувернерот на Народна банка и Директорот на Царинската управа. Законите усвоени од страна на Собранието се прогласуваат со указ потпишан од страна на Претседателот на Републиката и Претседателот на Собранието. Доколку Претседателот на Републиката одбие да потпише указ за прогласување на закон, Собранието има обврска повторно да го разгледа донесувањето на истиот.

50. На барањето за појаснување за тоа, на кој начин Собранието може да обезбеди автентично толкување на законите, со оглед на фактот што Република Македонија има независно судство, претставникот на Република Македонија додаде дека оваа уставна одредба е имплементирана во членовите 391 и 393 од Деловникот на Собранието на Републиката. Барање на автентична интерпретација на закон се доставува до Претседателот на Собранието, кој истото го доставува до Законодавната комисија. Доколку Законодавната комисија смета дека барањето за толкување на закон не е оправдано, таа му поднесува извештај на Собранието, за тоа да одлучи. Одлуката на Собранието треба да се достави и до страната која го поднела барањето, т.е. до конкретниот член на Собранието, Владата, високи владини службеници, општински совети, трговски друштва и претпријатија или други органи и институции. Автентичното толкување на закон е обврзувачко.

51. Легислативата која е поврзана со СТО, а ја донесува Собранието, во принцип ќе биде отворена за автентично толкување согласно членот 68 од Уставот. Меѓутоа, меѓународните спогодби ратификувани од страна на Републиката стануваат интегрален дел на правниот систем, согласно членот 118 од Уставот и не можат да се изменат со закон. На тој начин, секое автентично толкување на законите поврзани со СТО, а донесени од страна на Собранието ќе мора да ги земат предвид односните Спогодби на СТО и да се придржуваат кон барањата на тие Спогодби.

52. Во врска со процедурата за ратификување на Протоколот за пристапување на Република Македонија, тој додаде дека Министерството за економија ќе подготви Нацрт закон за ратификација на Спогодбата од Маракеш со која се основа Светската трговска организација (вклучувајќи ги Анексите 1, 2 и 3) во соработка со Министерството за надворешни работи и истиот ќе го достави до Владата. Владата ќе го прегледа Нацрт законот и ќе го достави до Собранието, за ратификација. По усвојување на Законот за ратификација, Претседателот на Републиката ќе потпише Указ за усвојување на Законот, кој ќе биде објавен во Службен весник. По објавувањето, Министерот за надворешни работи ќе подготви инструмент за пристапување согласно членот XII (а) од Спогодбата за основање на Светската трговска организација. Постапката за ратификација на меѓународни спогодби вообичаено трае два месеца.

53. Владата ја избира Собранието со мнозинство гласови, на предлог на мандаторот, врз основа на предложена програма. Владата одговара пред Собранието за спроведување на закони и други прописи усвоени од Собранието. Сегашната Влада ја сочинуваат претседател, четири потпретседатели и 14 министри. Владата предложува закони, државниот буџет и други прописи за усвојување од страна на Собранието, усвојува уредби и други прописи потребни за спроведување на закони, предложува одлуки за резервите на Република Македонија, итн. Министрите работат независно во нивните области на делување, во рамките на Уставот и законите и се одговорни пред Владата.

54. Главно владино тело кое е одговорно за креирање и имплементирање на политиката поврзана со надворешната трговија е Министерството за економија. При извршување на своите задачи, Министерството за економија соработува со Министерството за надворешни работи, Министерството за финансии, Министерството за развој, Министерството за земјоделство, шумарство и водостопанство и други релевантни министерства. Надворешната трговска политика се креира во тесна соработка со Министерството за финансии, кое е исто така одговорно за соработка со меѓународни финансиски институции како и за регулирање на односите со странски доверители, интервенции на пазарот и политика во областа на банкарството и кредитирањето, девизното работење и царината. Законот за царинска тарифа го предлага Министерството за финансии преку Владата до Собранието. Министерството за земјоделство, шумарство и водостопанство е одговорно за мерките поврзани со извозот и увозот на земјоделски производи. За туризмот и угостителството е одговорно Министерството за економија. Локалната самоуправа нема директна улога во надворешното трговско работење и надворешните економски односи, ниту пак со даноците кои се применуваат врз увозот, субвенциите или инвестициите

55 Судската власт ја извршуваат автономни и независни судови, судејќи врз основа на Уставот, законите и меѓународните спогодби ратификувани од страна на Републиката. Членовите 98 – 108 од Уставот ја обезбедуваат основата на судскиот систем кој се состои од 27 основни судови, три апелациони судови и еден Врховен суд. Законот за судови (Службен весник 36/95, 45/95, Одлуката на Уставниот суд У бр.313/95 – (Службен весник 40/96), ЦЦД У. бр. 20/96 (Службен весник 60/96)) беше усвоен во 1995 година и истиот ги има разработено детално сите уставни одредби кои се однесуваат на судството. Врховниот суд е највисок суд во Републиката, и истиот обезбедува еднаквост при спроведување на законите од страна на судовите. Сегашниот судски систем не овозможува постоење на специјализирани судови како што се на пример управни или стопански судови. Апелационите судови одлучуваат за жалби против одлуки кои се донесени од страна на основните судови, при судир на надлежности помеѓу основните судови, и други работи утврдени со закон.

56. Со членот 15 од Уставот се гарантира право на жалба против поединечни правни акти донесени во судска или во административна постапка. Овој уставен принцип е имплементиран во Законот за кривична постапка, Законот за парнична постапка и Законот за управна постапка (Службен весник на СФРЈ 47/86). Во однос на административните жалби и други владини одлуки за прашања кои се покриени со Спогодбите на СТО, се постапува согласно општите правила за обжалување содржани во Законот за управна постапка. Второстепените постапки ги спроведува Второстепена владина комисија. Со членот 58 од Деловникот на Владата се овозможува основање на десет различни комисии, во зависност од областите. Законот за управни спорови (Службен весник на СФРЈ 4/77 и 36/77) овозможува управен спор да се поведе пред Врховен суд, кој е независен трибунал, со поднесување на тужба против второстепена одлука донесена во управна постапка. Одлуките на Врховниот суд се конечни и обврзувачки. Во апелационите постапки се обезбедува еднаков третман за домашните и странските лица што се страни во такви постапки.

57. Арбитражниот суд (арбитража) и Судот на честа работат како независни тела во рамки на Стопанската комора, со цел доброволно решавање на стопански спорови. Арбитражниот суд (и Судот на честа) се составени од претседател, потпретседатели и арбитри (членови) назначени од страна на Собранието на Комората.

ПОЛИТИКА КОЈА ВЛИЈАЕ ВРЗ ТРГОВИЈАТА СО СТОКИ

Трговски права (право на увоз и извоз)

58. Претставникот на Република Македонија изјави дека за извршување на деловни активности во Република Македонија е потребна регистрација. Законот за надворешно-трговско работење (Службен весник 31/93) ги наведува барањата за вклучување во надворешна трговија. Претпријатијата можат да се регистрираат само за вршење трговија (увоз, извоз или увоз/извоз), за надворешна трговија како една од поголем број дејности, или да вршат увоз и извоз за покривање на сопствени потреби. При вршење трговија во Република Македонија, странците имаат национален третман. Членот 684 од Законот за трговски друштва содржи општа одредба со која странско правно лице регистрирано во Република Македонија се изедначува со домашните, при што странското правно лице треба да работи во согласност со законите на Република Македонија, на ист начин како и домашните.

59. Законот за трговски друштва (Службен весник 28/96, 7/97, 21/98, 63/98, 39/99, 81/99, 37/00 и 50/00) овозможува да се основаат трговски друштва во форма на јавни трговски друштва, командитни друштва, друштва со ограничена одговорност, акционерски друштва и командитни друштва со акции како и трговци поединци. Трговско друштво или трговец поединец поднесува барање за регистрација во Трговскиот регистар, кој се води во три основни судови (согласно територијалната надлежност). Дадено трговско друштво може да ги врши само оние активности за кои е регистрирано. Меѓутоа, друштвото кое првично било регистрирано за домашна трговија може лесно да ја промени регистрацијата и во истата да се вклучи и трговија со странство.

60. Домашните трговци поединци првично не можеа да се регистрираат и да вршат активности на извоз и увоз. Меѓутоа, со членовите 3 и 4 од новиот Закон за надворешно трговско работење (Службен весник 45/02) се овозможува и физички и правни лица да вршат увозни и извозни активности без какви било ограничувања, по извршена регистрација во суд. Странските друштва, трговци поединци и физички лица можат да регистрираат друштва или трговци поединци, без оглед дали се целосно во странска сопственост или во мешовита сопственост. Странските друштва или трговци поединци регистрирани во друга земја можат, исто така, да одберат да регистрираат подружници во Република

Македонија. Тој истакна дека регистрација е потребна и за дејности што се вршат на територијата на Република Македонија, каква што е дистрибуцијата на стоки и услуги до потрошувачите. За вообичаените прекугранични увозни и извозни трансакции помеѓу Република Македонија и други земји не е потребна задолжителна регистрација или основање на каква било форма на комерцијално присуство во Република Македонија.

61. Постапката на регистрација во суд е иста како за домашните така и за странските друштва и пријавите за регистрација можат да бидат одбиени само ако не се исполнети правните барања наведени во Законот за трговски друштва. Поранешната одредба со која се бараше друштвата кои имаат повеќе од 50 проценти странски капитал прво да се регистрираат во Регистарот за странски инвестиции, пред да се регистрираат во суд како трговско друштво веќе е укината (Службен весник 37/00).

62. Поради недостиг на модерна опрема во судовите, постапката на регистрација траеше четири недели, но со комјутеризацијата спроведена во судовите се очекува оваа постапка да се скрати на две недели. Откако ќе се регистрира за увозни и извозни активности, трговскиот субјект треба да се пријави за регистрација во Царинскиот регистар во состав на Царинската управа, каде што ќе добие единствен царински број. Оваа постапка обично трае неколку дена и вклучува плаќање на таксена марка од 50 денари (помалку од УС Д 1). Давачката за регистрација која се плаќа во судот и во другите административни тела (статистика, царина, завод за платен промет) изнесува околку УСД 150).

63. Тој додаде дека во јуни 2001 Собранието го измени Законот за трговски друштва, со цел да им се поедностават постапките за регистрација на трговските субјекти, како во поглед на бројот на чекори потребни за да се заврши постапката, така и во поглед на времето потребно за регистрација

64. Претставникот на Република Македонија потврди дека надворешната трговија не е предмет на државен монопол и дека не постојат ограничувања на правата на поединците и друштвата за увоз и извоз на стоки во и од Република Македонија, освен како што е наведено во Спогодбите на СТО. Тој потврди дека поединците и друштвата лесно можат да ја изменат регистрацијата и обемот на деловни активности и да додадат права за увоз и извоз. Критериумите за регистрација се општо применливи и се објавуваат во Службен весник, а овие барања не се дискриминаторски кон увозот.

65. Претставникот на Република Македонија потврди дека од датумот на пристапување, Република Македонија ќе обезбеди законите и прописите кои се однесуваат на правата за трговија со стоки и сите давачки, такси и даноци кои се плаќаат за овие права целосно да се усогласат со обврските на Република Македонија кон СТО, вклучувајќи ги тука и членовите VIII:1(a), XI:1; и III:2 и 4 од ГАТТ 1994, членот III од Општата спогодба за трговија со услуги, и членот 63 од Спогодбата за трговските аспекти на правата од интелектуална сопственост (ТРИПС) и дека Република Македонија ќе ги имплементира овие закони и прописи во целосна согласност со тие обврски. Работната група ја забележа оваа преземена обврска.

1. Увозна регулатива

Царини

66. Претставникот на Република Македонија изјави дека Македонија го применувала Законот за царинската тарифа наследен од поранешната Социјалистичка Федеративна Република Југославија сé додека истиот не бил заменет со националниот Закон за царинската тарифа (Службен весник бр. 38/96, 5/97, 54/97, 61/97, 26/98, 15/01 и 104/01), кој стапи во сила на 15 август 1996. Новата царинска тарифа е наполно компатибилна со Хармонизираниот систем од 1996 и, во голем дел, со Комбинираната номенклатура на ЕУ.

67. Законот за царинската тарифа од 1996 го унифицира претходниот систем на различни увозни давачки во единствена царинска тарифа која се плаќа при увоз на стоки. Во 2001, непондерираниот просек на увозната царина бил намален од 15,06 проценти во 1996 на 14,59 проценти. Генерално, царинските стапки се движат од нула до 35 проценти, со највисоки стапки до 60 проценти за одредени земјоделски и прехранбени производи. Сите стапки се *ad valorem*, но Законот за царинската тарифа предвидува и специфични давачки кои се додаваат на *ad valorem* стапките за земјоделски производи. За сите непреференцијални трговски партнери важи приципот на МФН третман (третман на

најповластена нација). Тој додаде дека, како резултат на преговорите за пристап на пазарот за стоки во контекст на пристапувањето кон СТО, Република Македонија ги врза сите царински стапки. Со целосната имплементација на обврските на Република Македонија, обичниот просек на сите стапки ќе падне од проценетите 12.62 проценти на 8.0 проценти. Со прифаќањето од страна на Република Македонија на Спогодбата за информатичка технологија, Програмата за хемиска хармонизација и Спогодбата за трговија во цивилното воздухопловство, меѓу другите секторски спогодби за тарифна хармонизација, стотици тарифни линии на крајот се врзаа на царинска стапка нула. Бројот на тарифни линии кои се врзани на највисока стапка од 60 проценти, по пристапувањето ќе опадне од 142 тарифни линии на 6 тарифни линии на крајот на периодот за имплементација.

Други царини и давачки

68. Претставникот на Република Македонија изјави дека прелевманите биле воведени како сезонска заштита за земјоделските и прехранбените производи, согласно Законот за утврдување на посебна увозна давачка за земјоделски и прехранбени производи (Службен весник бр. 2/94). Прелевманот претставува разлика помеѓу увозната цена, вклучувајќи ја увозната царина и другите увозни давачки, и просечната цена за истиот производ на домашниот пазар. Тој, исто така, додаде дека за секој увоз (и извоз) се наплаќа давачка од 0,1 процент за промоција на извозот.

69. Некои Членки се изјаснија дека Законот за утврдување на посебната давачка при увоз на земјоделски и прехранбени производи предвидува променлива давачка, која не е во согласност со правилата на СТО, и давачка од 0,1 процент за промоција на извозот која се наплаќа на секој увоз и извоз, и е очигледно дека не е во сооднос со ниту една од дадените услуги. Од Република Македонија се бара да ја измени својата законска регулатива и да ја усогласи со барањата на СТО.

70. Претставникот на Република Македонија одговори дека новата царинска тарифа стапи во сила во февруари 2001, а дополнително беше изменета во декември 2001. Сите "прелевмани" што се применуваа на стоките во Глава 1 до 24 од Царинската тарифа се претворени во *ad valorem* или специфични царини кои се во согласност со барањата на СТО. Македонската влада побара транзиционен период за укинување на давачката за промоција на извозот од 0,1 процент. Членот 25 од новиот Закон за надворешно трговско работење кој го усвои Собранието во јуни 2002, го продолжи применувањето на членовите 57а, 57б и 57г кои ја уредуваат давачката од 0,1 процент до 31 декември 2005. Тој потврди дека давачката за промоција на извозот се применува и на преференцијалниот и на МФН увозот и извозот во Република Македонија до сите дестинации.

71. Претставникот на Република Македонија потврди дека Република Македонија не применува други увозни царини и давачки освен вообичаените царини, со исклучок на давачката за промоција на извозот од 0,1 процент што ќе се применува до 31 декември 2005, како што е внесено во Листата на отстапки и обврски за стоки на Република Македонија. Сите други такви давачки што ќе се применуваат на увозот по пристапувањето ќе бидат во согласност со одредбите на СТО. Тој, исто така, потврди дека Република Македонија нема да наведе други давачки во Листата за стоки согласно членот II: 1(б) од ГАТТ од 1994, врзувајќи ги таквите давачки на ниво од 0,1 процент од датумот на пристапување и на "нула", од 1 јануари 2006. Работната група ја забележа оваа преземена обврска.

Тарифни квоти, ослободувања од царини

72. Претставникот на Република Македонија изјави дека Член 24а од Царинскиот закон (Службен весник бр. 25/200) кој стапи на сила на 1 Април 2000, воведе општа одредба со која се овластува Владата да воведе царински контингенти за одредени производи кои не се произведуваат во Македонија, или се произведуваат во недоволни количества. Таквите стоки може да се увезуваат без плаќање на царина или со помали царински стапки од оние наведени во Царинската тарифа. Увозот во рамките на царинските контингенти подлежеше на одобрение од страна на Министерот за економија.

73. Тарифните квоти се користат за регулирање на пристапот на пазарот за одредени земјоделски и прехранбени производи согласно билатералните спогодби за слободна трговија со Словенија, Хрватска, Сојузна Република Југославија, Бугарија и Турција. Квотите што во 1999 година се применуваа на увозот од Хрватска, Словенија и Сојузна Република Југославија се наведени во документот WT/ACC/807/3, Анекс II. Тарифните квоти што се применуваат на увозот во 2002, од овие земји, како и од Украина, ЕФТА (Швајцарија и Норвешка) и ЕУ се наведени во документот WT/ACC/807/26, Прилог 1.

74. Тарифните квоти за преференцијален увоз од Бугарија и ЕУ се доделуваат врз основа на принципот "прв дојден - прв услужен" Владата донесува одлука за објавување на достапните количини и документацијата која е потребна. Одлуката се објавува во Службен весник Барањата се поднесуваат во Министерството за економија, кое донесува одлука веднаш по нивниот прием. Министерството им ги доделува квотите врз пропорционална основа на сите подносители, доколку количествата кои се бараат во рок од еден ден го надминат количеството кое е на располагање за доделување Тарифните квоти кои се договорени со другите партнери за слободна трговија ги доделува посебна комисија. Волуменот на квотите се определува врз годишна основа, а се доделуваат два пати годишно Постапката и документацијата која е потребна, како и глобалната сума на квотата за 6 месеци се наведуваат во владина одлука за секоја одделна земја и истите се објавуваат во Службен весник По објавувањето на квотите, Министерството за економија, во рок од седум дена објавува јавен повик во сите дневни весници Барањата се поднесуваат во Министерството за економија во рок од седум дена по објавувањето на јавниот повик. Барањата се разгледуваат од страна на комисија составена од двајца претставници од Министерството за економија и по еден претставник од Министерството за земјоделство, за финансии и од Министерството за надворешни работи

75. Во одговорот на коментарот на една Членка, во кој беше забележано дека определувањето на преференцијални тарифни квоти во Република Македонија се врши дискреционо, претставникот изјави дека договорените количини се пропишани во секој договор за слободна трговија и наведени во анексите или протоколите кои се составен дел од нив. Претставникот додаде дека македонската влада започна да го ревидира системот на тарифни квоти од член 24а од Царинскиот закон и неговата усогласеност со барањата на СТО.

76. Претставникот на Република Македонија потврди дека Собранието го одобри изменувањето на Член 24а на 4 Јули 2002. Изменетиот текст предвидува "повлекот тарифен третман", односно намалувањето или изземањето од царина на увоз, вклучително во рамките на тарифната квота, ќе биде предмет на условите и критериумите коишто ги утврдува Владата, на предлог на Министерот за економија и по претходно дадено мислење од страна на Министерот за финансии и од Министерот за земјоделство, шумарство и водостопанство. Тој потврди дека сите тарифни квоти вклучени во Листата на отстапки и обврски за стоки на Република Македонија ќе бидат дистрибуирани до МФН добавувачите и доделени врз принципот "прв дојден - прв услужен"

Давачки за царинска евиденција

77. Забележувајќи дека Република Македонија наплаќа давачка од 1 процент за царинска евиденција за секој увоз, освен за оние стоки што се ослободени од плаќање царина согласно важечките прописи, некои Членки изјавија дека ваква *ad valorem* давачка не може, по својата природа, да ги одрази вистинските трошоци за царинската услуга и затоа не е во согласност со членот VIII од ГАТТ од 1994.

78. Претставникот на Република Македонија одговори дека давачката од 1 процент е наменета за плаќање на царинските услуги во кои влегуваат: примање и обработка на документи, испитување на стоки, задолжително присуство на царински службеници при ставање на стоки под царински надзор, контроли во врска со привремен извоз, итн. Оваа давачка не се наплаќа при извоз на производи Тој потврди дека ова е единствена давачка што се наплаќа за царинска евиденција, и дека сите други давачки и плаќања за царинска евиденција или други цели, освен цариниte и другите увозни давачки, еднакво ќе се применуваат на увезените и домашно произведените производи.

79. Претставникот на Република Македонија рече дека *ad valorem* давачката од 1 процент за царинска евиденција била укината на 1 јануари 2002 година, согласно членот 8 од Законот за изменување и дополнување на Царинскиот закон (Сл. весник бр. 109/00). Согласно Правилникот за утврдување на износот на давачката за царинска евиденција (Сл. весник 102/2001) воведена е нова фиксна давачка од 19€ за секоја десетцифрена тарифна линија во увозната декларација. Според неговото мислење, новата давачка е еквивалентна на чинењето на услугата за царинска евиденција при царинењето.

80. Некои членки побараа подетални информации од Република Македонија во врска со давачката за царинска евиденција од 19€. Од Република Македонија исто така е побарано да потврди дека давачката за царинска евиденција се применува за целокупниот увоз и извоз. Изземањата од оваа

давачка, доколку постојат такви, треба да бидат наведени во извештајот на Работната група. Една Членка забележа дека, од 7 февруари 2002, камионите кои ја преминуваат границата на Република Македонија кај терминалот Блаце плаќаат давачка од 100€, и праша дали оваа давачка е дополнување на давачката за царинска евиденција од 19€, и доколку е така, кое е оправдувањето за ваква дополнителна давачка за царинска евиденција.

81. Претставникот на Република Македонија одговори дека давачката од 19€ за царинска евиденција моментално се применува само на увозот. Меѓутоа, обемот и примената на оваа давачка ќе се ревидира, земајќи ги предвид коментарите од членките на Работната група во врска со компатибилноста на оваа моментална давачка со обврските согласно Член VIII од ГАТТ 1994. Република Македонија ќе донесе изменета регулатива со која давачката од 19€ ќе се наплаќа по царинска декларација и ќе се прошири нејзината примена на сите царински процедури без исклучок. Регулативата која ја воспоставува изменетата давачка -Правилник за висината на надоместокот за царински услуги, потпишан од Министерот за финансии, на 20 август 2002 и објавен во Службен весник 69/02 - ќе стапи во сила пред пристапувањето на Република Македонија кон СТО.

82. Во врска со давачката од 100€ која се наплаќа од камиони, претставникот на Република Македонија забележа дека преминот Блаце е најфреквентен граничен премин, поради трговскиот транспорт кон Косово и поради логистичката поддршка на НАТО силите стационирани на Косово, која се одвива преку овој премин. Заради побрзо преминување на границата, Република Македонија неодамна отвори паралелен заобиколен премин кој го користат исклучиво силите на НАТО. Меѓутоа, во практика, камионите кои транспортираат трговски пратки низ Република Македонија, треба да бидат придружувани до соодветниот излез на граничниот премин Блаце. Давачката од 100 € е заради покривање на трошоците на придружбата, а камионите не подлежат на никакви други дополнителни давачки на граничниот премин Блаце.

83. Некои Членки ги загрижи фактот дека давачката од €100, за камиони, не е целосно во согласност со барањата според СТО, и предложија Република Македонија да преземе обврска да ја разгледа оваа давачка со цел таа колку што е можно поскоро да се укине.

84. Претставникот на Република Македонија потврди дека, од датумот на пристапување, Република Македонија ќе воведува давачки за царинските услуги во врска со увозот и извозот само доколку е тоа во согласност со релевантните одредби од Спогодбите на СТО, особено со членовите VIII и X од ГАТТ 1994. Давачката од €100 која се наплаќа од камиони на граничниот премин Блаце ќе биде повторно разгледана за да се утврдат можностите за нејзино укинување, штом меѓународната ситуација ќе го дозволи тоа. Информациите во врска со примената и нивото на кои било такви давачки, приходи од наплатата и нивната примена, ќе бидат доставени до Членките на нивно барање. Работната група ги забележа овие обврски.

<u>Примена на домашни даноци</u>

85. Претставникот на Република Македонија рече дека акцизи се наплаќаат само за производите што се наведени во Законот за акцизи (Сл. весник бр. 32/01 и 50/01), кој стапи во сила на 1 јули 2001. Производите се наведени по број во табела 3(а). Согласно Член 64 од овој Закон, акцизата што се наплаќа за автомобили сé уште се регулира со одредбите од претходниот Закон за акцизи (Сл. весник бр. 78/93) и истата ќе важи до 31 декември 2003.

86. Акцизите се проценуваат и се плаќаат месечно. Даночните обврзници се должни да ги поднесат даночните пријави во рок од петнаесет дена по истекувањето на секој календарски месец. Акцизите за тутунските производи, полупроизводите и етилалкохолот се плаќаат со употреба на бандероли. Дипломатските мисии, конзуларните канцеларии, меѓународните организации и воените сили на НАТО имаат право на повраток на акцизите. Акцизите што се платени за непродадени производи можат да се повратат ако производите се вратат во акцизниот склад, уништени или целосно обезвредени, под надзор на даночните органи.

87. Акцизите се исти за увезени и домашни производи, освен за тутунските производи. Домашната тутунска индустрија е ранлива и се заснова врз култивирањето на уникатен тутунски лист, за кој Република Македонија се бори да развие извозен пазар. На прашањето како Република Македонија планира да го усогласи својот даночен режим со барањата на СТО, особено со членот III од ГАТТ од 1994, претставникот предложи Република Македонија да ги изедначи акцизите за цигари и друг тутун

до 2007, во првиот случај, и до 2005, во вториот случај, согласно временскиот распоред претставен во Табелата 3(б). Легислативата со која постепено ќе се изедначуваат акцизите за увезени и домашни тутунски производи, како што е наведено во Табела 3 (б), е содржана во амандманите кон Законот за акцизи, донесен во јуни 2002, и објавен во Службен весник 45/02. До 1 јануари 2007, акцизите на Република Македонија за тутунски производи ќе бидат доведени во согласност со Спогодбите на СТО, како што е наведено во Табела 3(б).

88. Некои членки забележаа дека со акцизите кои ги применува Република Македонија најверојатно се врши дискриминација на одредени видови на вина и пенливи вина, затоа што винata од грозје се предмет на пониски акцизи отколку винata добиени од друго овошје. Од Република Македонија, исто така, беше побарано да ја појасни природата на пијалаците наречени "полупроизводи" ("semis"), и да објасни зошто ацизата за овие пијалаци се утврдува на исто ниво како и за дестилираните алкохолни пијалаци. Секоја разлика во примената на акцизите на дестилирани пијалаци, според овие Членки, би требало да се елиминира најдоцна по пристапувањето.

89. Претставникот на Република Македонија одговори дека класификацијата и дефинициите на алкохолните пијалаци во Законот за акцизи се засноваат врз насоките на ЕУ во врска со овие производи (EWG RL. 92/83). Пенливи вина и вина се со нула стапка, додека други пенливи и непенливи ферментирани пијалаци (како ракија од јаболки, крушова ракија и медовина) се оданочуваат со 30 денари по литар. Меѓупроизводите ги вклучуваат сите производи што спаѓаат во ХС 2204, 2205 и 2206 со содржина на алкохол помеѓу 1.2 – 22 проценти вол, што не спаѓаат во категориите на пенливи вина или вина. Акцизната стапка за меѓупроизводите е 300 денари по литар чист алкохол. Тој подвлече дека, според него, Законот за акцизи применуван од 1 јули 2001 обезбедува идентични даночни стапки за исти увезени и домашни алкохолни пијалаци, и дека со него не се врши дискриминација врз основа на потеклото.

90. Некои Членки уште еднаш укажаа дека Република Македонија применува различни акцизи за слични алкохолни пијалаци, односно, за пенливи и непенливи ферементирани пијалаци, и дека оваа разлика е направена со намера определени пијалаци кои се од домашно производство, на пример, виното од грозје, да се изземат од акциза. Ваквиот третман, според нив, не е во согласност со членот III од ГАТТ 1994.

91. Претставникот на Република Македонија потврди дека акцизниот даночен режим ќе биде изменет пред пристапувањето, со цел да се изедначат даночните стапки на винata и сличните пијалаци. На седница на Влада на Република Македонија што се одржа на 27 август 2002, Владата ги одобри измените на Законот за акцизи (член 36, ставови 4 и 5), со кои се изедначуваат акцизите за други пенливи и непенливи пијалаци по стапка од 0 денари за литар (Извадок бр.23-4505/1 кој е составен дел од Нацрт измените на Законот за акцизи (вино) од 27 август 2002). Измените ќе бидат презентирани пред Собранието веднаш штом истото ќе биде повторно свикано, по општите парламентарни избори во септември 2002, и Република Македонија нема да ја прифати Спогодбата за СТО сè додека оваа легислатива не се усвои и имплементира.

92. Претставникот на Република Македонија рече дека данокот на додадена вредност е воведен со Законот за данок на додадена вредност (Службен весник 44/99, 59/99, 86/99, 11/00 и 8/01), кој го замени претходниот данок на промет, на 1 април 2000. Општата стапка на ДДВ од 19 проценти се применува на сите стоки и услуги, освен оние што подлежат на повластена даночна стапка од 5 проценти. Со Одлуката за утврдување на производите и услугите за кои се плаќа повластена стапка на ДДВ (Службен весник 16/01 и 21/01), се утврдуваат стоките и услугите за кои се плаќа повластената стапка, а тие се наведени во Табела 4(а) (стоки) и 4(б) (услуги).

93. Обврската за плаќање на ДДВ се јавува во моментот на добавување на стоката или целосното давање на услугата. Во случај на авансно плаќање на ДДВ за стоки или за услуги, обврската за примената сума настанува со примањето на исплатата. Даночните обврзници ги поднесуваат пријавите за повратот на ДДВ во рок од 15 дена по истекот на проценителниот период (или на крајот од секој квартал или на крајот од секој календарски месец). Данокот се пресметува врз основа на вкупниот промет во текот на предметниот сметководствен период, намален за сите влезни даноци за кои е дозволен повраток. Повраток на ДДВ е дозволен за набавки што ги направиле други даночни обврзници, ДДВ за авансни плаќања што се уште не се направени, и ДДВ платен за увоз. Царинските органи наплаќаат ДДВ за увезените стоки заедно со царината. Правото на повраток на платен ДДВ

може да се оствари само за плаќања (инпути) што даночниот обврзник ги направил во текот на своето деловно работење врз основа на фактури или царински декларации во кои данокот е наведен одделно

94. Данокот на додадена вредност еднакво се применува на увезени и домашни производи. Претставникот потврди дека изземањето од плаќање ДДВ се однесува и на домашни и на увезени производи и услуги. ДДВ се пресметува на вкупната цена, вклучувајќи ја и акцизата. Пресметувањето на ДДВ не ги ослободува производите од акциза. Извозниците имаат право на повраток на ДДВ за производите продадени во странство.

95. Жалбените постапки по основ на одлуки за ДДВ и акциза се идентични и се уредени со Законот за персоналниот данок на доход. Жалбата се поднесува до Министерството за финансии преку даночните органи во рок од петнаесет дена од денот на донесувањето на првичната одлука. Во случај жалбата да биде одбиена, незадоволната страна може да започне управен спор со поднесување на тужба до Врховниот суд.

96. Претставникот на Република Македонија потврди дека во Република Македонија стапките на акцизите и ДДВ се еднакви за сите увезени производи без разлика на потеклото, и дека РМ ги применува акцизите и ДДВ во потполна согласност со МФН принципот предвиден со член 1:1 од ГАТТ од 1994.

97. Претставникот на Република Македонија изјави дека од денот на пристапувањето, РМ ќе ги применува, со еден исклучок, домашните даноци на производи, вклучувајќи ги и оние наведени во ставовите 85 до 96 и Табелите 3(а), 4(а) и 4(б) во строга согласност со членот III од ГАТТ од 1994, на начин кој не дискриминира помеѓу увозот, без оглед на земјата на потекло, и стоките од домашно производство. Акцизите што РМ ги применува на увезените и домашните тутунски производи ќе бидат изедначени или на друг начин усогласени со членот III од ГАТТ, во согласност со временскиот распоред содржан во Табелата 3(б) и измените на Законот за акцизи, од јуни 2002. Работната група ги забележа овие преземени обврски.

Квантитативни увозни ограничувања, вклучувајќи забрани, квоти и издавање дозволи

98. Претставникот на Република Македонија рече дека сите квантитативни увозни ограничувања биле елиминирани со укинувањето на "количинските контингенти – КК режим" на 31 декември 1996. Сега Република Македонија применува неавтоматски увозни дозволи заради заштита на домашната индустрија и земјоделското производство согласно одредбите на Законот за надворешно трговско работење (Сл. весник бр. 31/93, 41/93, 78/93, 15/97, 13/98, 13/99, 50/99, 82/99 и 40/1); заради контрола на трговијата со оружје, муниција и воена опрема, како и со злато и сребро, согласно членот XX и XXI од ГАТТ од 1994; и заради распределување на тарифните квоти на билатерална основа, согласно договорите за слободна трговија. Информации за постапките за издавање на увозни дозволи беа доставени во документот WT/ACC/807/5/Add. 1, Анекс 3. Листите на производи што подлежат на квантитативни увозни ограничувања или на издавање дозволи можат да се најдат во документите WT/ACC/807/2, WT/ACC/807/5/Add.4 и WT/ACC/807/12, Прилози 3 и 4, и ажурирани верзии во документите WT/ACC/807/18 и WT/ACC/807/23.

99. Министерството за економија и Министерството за земјоделство, шумарство и водостопанство издаваат неавтоматски дозволи заради заштита на домашната индустрија и земјоделското производство. Производите за кои важи овој режим се наведени во Табела 5(а). При разгледувањето на барањата за увозни дозволи, службениците во министерството посветуваат внимание на тековната понуда на пазарот, обемот на домашното производство и цената. Дозволата се издава за период од шест месеци, а трошокот за издавање на истата изнесува 600 денари ($9). Комплетните барања за издавање дозволи се обработуваат во рок од два дена. За доделувањето на дозволите одлучува Министерот за економија и неговата одлука не може да се обжали. На конкретно прашање, претставникот одговори дека критериумите што ги применува Министерот за економија при издавање на не-автоматски дозволи за увоз на нафтени деривати не се објавуваат.

100. Претставникот на Република Македонија рече дека целта на овој режим на дозволи е да им се помогне на поважните индустриски и земјоделски претпријатија во процесот на приватизација, преструктурирање и прилагодување кон принципите на пазарна економија, и дека режимот се преиспитува во светлината на тековните и идните меѓународни обврски. Тој додаде дека кон крајот на 2001 година биле укинати барањата за дозволи за голем број производи, и дека постапките за издавање

увозни дозволи ќе се укинат за другите производи на 30 јуни или на 31 декември 2003, како што е прикажано во временскиот распоред вклучен во Табелата 5(а). Со важност од 1 јуни 2001, Република Македонија ги има укинато сите квантитативни ограничувања за увоз од Европската унија, а владата има намера истиот третман да го прошири на сите Членки на СТО, врз МФН основа пред пристапувањето во СТО.

101. Неавтоматските дозволи за нуклеарен материјал, оружје и муниција, експлозиви, банкноти и скапоцени метали ги издава Министерството за економија, по претходно одобрение од Министерството за внатрешни работи, Министерството за одбрана или Народната банка. Производите за кои станува збор се наведени во Табелата 6. Претставникот изјави дека овие ограничувања се оправдани врз основа на членовите XX и XXI од ГАТТ. Подносителот на барањето треба да побара мислење од соодветниот орган, и доколку се задоволени барањата, Министерството за економија ќе ја издаде увозната дозвола во рок од еден ден. За овие одлуки за издавање дозволи нема жалбена постапка.

102. Дозволите за доделување тарифни квоти според договорите за слободна трговија ги администрира комисија составена од претставници од Министерството за економија, Министерството за земјоделство, Министерството за финансии и Министерството за надворешни работи. Општо земено, со спогодбите се определени годишните квоти, додека увозните дозволи вообичаено имаат важност 6 месеци. Количествата, условите и потребната документација за поднесување барање се утврдени со посебни одлуки на владата (по една за секој трговски партнер), и се објавени во Службен весник и во дневните весници. Барањата се поднесуваат до соодветните министерства во рок од две недели од датумот на објавувањето. Комисијата ќе ги разгледува сите барања истовремено, и ќе донесе одлука во рок од пет до десет дена.

103. Република Македонија применува и постапки за издавање на увозни дозволи при спроведувањето на нејзиниот ТБТ и СПС режим. Службата за стандардизација и метрологија издава дозволи за околу четири стотини електрични апарати (Табела 5(б)) заради безбедноста на потрошувачите. Дозволите со неограничена важност и за неограничени количества се издаваат автоматски по поднесувањето на факсимили од сертификатите на производителот, гаранциите и прирачниците со упатства за употреба. Таксите за дозвола се движат меѓу УСД 50 и УСД 195, во зависност од единечната цена на производ (Службен весник 8/90) и се, според него, во сообразност со членот VII од ГАТТ од 1994. Министерството за земјоделство, шумарство и водостопанство издава дозволи за пестициди и ѓубрива (Табела 5(ц)), семенски и саден материјал (Табела 5(д)), шумски дрвја и семиња (Табела 5(е)) и живи животни и производи од животинско потекло (Табела 5(ф)). Министерството за животна средина издава дозволи за азбест и производи што содржат азбест, користени телевизиски, радио и видео апарати и монитори, користени фрижидери и замрзнувачи, користени и поправени гуми и хемиски субстанци кои се уредуваат со меѓународни конвенции како што се Виенската конвенција и Протоколот од Монтреал (Табела 5(г)). Министерството за здравство издава дозволи за фармацевтски хемикалии, наркотични субстанци, витамини и лекови, и радиоактивни изотопи и производи (Табела 5(х)).

104. Претставникот на Република Македонија рече дека постапките за издавање дозволи се извршуваат во согласност со општите одредби изложени во Законот за управна постапка (Службен весник на СФРЈ 47/86). Таксите за дозвола изнесуваат 600 денари (околу $9) и со нив се покриваат само трошоците за дадената услуга. Информации за услугите се објавуваат во Службен весник и во дневните весници. Покрај тоа, информации за барањата и постапките во врска со дозволите можат да се добијат и во соодветните органи на државната управа. Рокот за доставување барање е две недели.

105. Некои Членки рекоа дека тековниот систем за издавање на увозни дозволи е само делумно компатибилен со односните правила на ГАТТ. Беше побарано Република Македонија да достави план со детален временски распоред за укинувањето на сегашните недоследности, заедно со соодветни образложенија втемелени во правилата на СТО за сите евентуални задржани барања за дозвола.

106. Претставникот на Република Македонија одговори дека системот за издавање увозни дозволи ќе биде темелно преиспитан во однос на целокупните економски обврски и нови состојби на Република Македонија. Тој нагласи дека сертификатите, што се бараат за увозот на околу четири стотини производи (главно електрични апарати) се издаваат автоматски, по поднесување на стандардните документи какви што се упатства за работа од производителот, гаранции и информации во врска со сервисирање. Барањата во врска со санитарната и фитосанитарната заштита целосно се

засновуваат врз стандардите и постапките изготвени од меѓународните организации. Домашните производи се подложни на истите санитарни, фитосанитарни и безбедносни барања како и увезените стоки.

107. Претставникот на Република Македонија потврди дека од датумот на пристапување или како што е наведено во временскиот распоред даден во Табела 5(а), најдоцна на 31 декември 2003, Република Македонија ќе ги отстрани и нема да воведе, повторно да воведе, ниту да применува квантитативни ограничувања на увозот, или други нетарифни мерки какви што се дозволи, квоти, забрани, одобрувања, барања за претходно одобрување, барања за дозволи и други ограничувања кои имаат еднакво силен ефект, што не можат да се оправдаат согласно одредбите на СТО. Понатаму тој потврди дека законското овластување на Владата на Република Македонија да суспендира увоз или извоз или да постави барања за дозволи што можат да се искористат за да се суспендира, забрани или на друг начин да се ограничи количеството на трговијата, по датумот на пристапувањето ќе се користи во согласност со барањата на СТО, особено во согласност со членовите XI, XII, XIII, XIX, XX, и XXI од ГАТТ од 1994, и мултилатералните трговски спогодби за земјоделство, примена на санитарни и фитосанитарни мерки, постапки за издавање на увозни дозволи, заштитни мерки и технички бариери за трговијата. Работната група ги забележа овие преземени обврски.

Утврдување на царинската вредност

108. Претставникот на Република Македонија рече дека утврдувањето на царинската вредност се врши во согласност со членовите 28 до 39 од Царинскиот закон (Службен весник 21/98, 26/98, 63/98 и 25/00), кои стапиле во сила на 1 април 2000, и Правилникот за посебни правила и начинот на определување на царинската вредност (Службен весник 17/00). Легислативата на Република Македонија ја одредува трансакциската вредност како главен метод за утврдување на царинската вредност, и ја вклучува хиерархијата на алтернативни методи за утврдување на вредноста изложени во Спогодбата за спроведување на членот VII од Општата спогодба за тарифи и трговија од 1994 (Спогодба за утврдување на царинската вредност). Членот 31, став 2 од Царинскиот закон експлицитно ја забранува примената на минимални вредности на увоз. Детални информации за спроведувањето и администрирањето на Спогодбата за утврдување на царинската вредност се дадени во документот WT/ACC/807/5, Add. 1, Анекс 4, а последователно се ажурирани во документот WT/ACC/ 807/26, Прилог 2

109. Во одговорот на конкретни прашања, претставникот на Република Македонија додаде дека Правилникот за посебни правила и начинот на определување на царинската вредност ги вклучува одредбите во врска со третманот на поврзаните страни (член 13), забраната на примена на систем за утврдување на вредноста што овозможува прифаќање на повисоката од две алтернативни вредности (член 14, став 5), и одржување на доверливоста на податоците доставени во процесот на утврдувањето на царинската вредност (член 38). Првиот дел од членот 6.2 од Спогодбата за утврдување на царинската вредност, во кој се вели дека "ниедна страна не може да бара или да присилува друго лице, кое не живее на неговата територија, да поднесе на испитување или да дозволи увид во сметки или во каков било друг документ за потребите на утврдување на пресметаната вредност", сé уште не е вклучен во легислативата на Република Македонија за утврдување на царинската вредност, но ова прашање ќе биде опфатено во амандман кон Правилникот за посебни правила и начинот на определување на царинската вредност.

110. Претставникот на Република Македонија рече дека, бидејќи Царинскиот закон веќе во голема мера осигурува спроведување на Спогодбата на СТО за утврдување на царинската вредност, Република Македонија има намера да се придржува кон Спогодбата за утврдување на царинската вредност од датумот на пристапување кон СТО без право на повикување на каков било преоден период. Република Македонија го менува својот Царински закон за да обезбеди целосна сообразеност со Спогодбата за спроведување на членот VII од ГАТТ од 1994. Амандманите Царинскиот закон и ревидираната Уредба за примена на одредбите од Царинскиот закон за вредноста на стоката за царински потреби, откако ќе бидат објавени во Службен весник, ќе ги заменат одредбите за утврдување на царинската вредност воспоставени во Уредбата за правилата и постапките за утврдување на царинската вредност (Службен весник 17/2000). Особено, дека и Толковните забелешки на Спогодбата и Одлуката од 24 септември од 1984 за утврдување на вредноста на носители на софтвер за опрема за обработка на податоци, се целосно вклопени во амандманите на Царинскиот закон. Содржината на Одлуката 6.1 донесена од Комисијата за утврдување на царинската вредност е целосно внесена во членот 28 од Уредба за примена на одредбите од Царинскиот закон за вредноста на стоката

за царински потреби (Службен весник 60/02), со што се осигурува дека царинските органи однапред ќе ги известуваат увозниците дека се размислува за отфрлување на вредноста што ја декларирал увозникот и, на барање ќе достават и писмено објаснување за причините за сомневање во точноста на податоците, изнесени во поддршка на вредноста што ја декларира увозникот. Исто така, ќе се даде и разумна можност за одговор пред донесувањето на конечната одлука во врска со утврдувањето на вредноста на стоката. Правото на увозниците и на другите заинтересирани страни да ги обжалат одлуките на Царината пред судските власти, и без казна, е обезбедено во членот 15 од Уставот членовите 223 и 224 од Законот за општа управна постапка и членот 15 од Царинскиот закон. Покрај тоа, Република Македонија донесе правни одредби за да ги сообрази членовите 30, 31, 33 и 35 од Царинскиот закон со одредбите на Спогодбата што се однесуваат на "поврзаните страни". Процесот на изменување и дополнување на легислативата за утврдување на царинската вредност на Република Македонија заврши на 4 јули 2002 со усвојување на измените на Царинскиот закон од страна на Собранието (Службен весник 55/02).

111. Претставникот на Република Македонија потврди дека од датумот на пристапување, Република Македонија целосно ќе ги применува одредбите на СТО во врска со утврдувањето на царинската вредност, вклучително Спогодбата за спроведување на членот VII од ГАТТ од 1994 и Анексот I (Толковна белешка) и одредбите за Утврдување на вредноста на носителите на софтвер за опрема за обработка на податоци (Одлука 4.1), под услов утврдувањето на вредноста на софтверот да се засновува врз вредноста на носителот. Тој рече дека Република Македонија нема да користи ниту еден облик на референтна цена или фиксен распоред на вреднување за утврдување на вредноста на увозот или да примени царини и даноци, и дека сите методи на утврдување на вредноста што се користат се во строга согласност со оние пропишани во Спогодбата на СТО за спроведување на членот VII од ГАТТ од 1994. Работната група ги забележа овие преземени обврски.

Правила за потекло на стоките

112. Претставникот на Република Македонија рече дека земјата на потекло на стоките се утврдува во согласност со Царинскиот закон, Членови 25, 26, 27 и 27а (Службен весник 21/98, 26/98, 63/98 и 25/00), Одлуката за начинот на утврдување на потеклото (Службен весник 26/00) и Протоколите за правила за потекло на стоките што се однесуваат на спогодбите за слободна трговија потпишани од Република Македонија. Доказ за потекло се бара само за стоки увезени според преференцијални шеми, и се состои од Сертификат за движење ЕУР 1 кој го издаваат царинските органи во земјата на извоз, на писмено барање од извозникот, или од изјава во фактурна декларација.

113. Една Членка забележа дека со најновите измени во Царинскиот закон биле отстранети преференцијалните правила за потекло на стоките од одредбите на тој закон, со што се овозможува преференцијалното потекло да се утврдува со правилата за потекло во секоја одделна спогодба за преференцијална трговија. Оваа Членка побара информации за тоа на кој начин Република Македонија има намера да ги вклопи одредбите од Спогодбата на СТО за правила за потекло на стоките во својот законски режим, особено одредбите од членот 2(х) и од Анексот II, став 3(д) од Спогодбата, потсетувајќи ја Република Македонија дека овие одредби се однесуваат и на преференцијалната и на непреференцијалната трговија.

114. Претставникот на Република Македонија одговори дека Република Македонија ќе ги вклопи во својата легислатива одредбите од членот 2(х) и од Анексот II, став 3(д) од Спогодбата на СТО за правилата за потекло на стоките. Собранието ги одобри потребните измени во Царинскиот закон на 4 јули 2002. Пред тоа, увозниците можеа да бараат информации за правилата за потекло врз основа на членот 16 од Царинскиот закон.

115. Претставникот на Република Македонија потврди дека од датумот на пристапување, преференцијалните и непреференцијалните правила за потекло на стоките на Република Македонија целосно ќе се усогласат со Спогодбата на СТО за правилата на потекло на стоките, и дека барањата од членот 2(х) и од Анексот II, став 3(д) од Спогодбата, со кои се пропишува дека, на барање, треба да се обезбеди проценка на потеклото на увозот и да се посочат условите под кои тоа треба да се направи, ќе бидат вклопени во правната рамка на Република Македонија пред пристапувањето. Работната група ја забележа оваа преземена обврска.

Други царински формалности

116. На барањето да ги објасни условите за увоз на користени автомобили во Република Македонија, претставникот на Република Македонија рече дека Законот за надворешно-трговско работење бил изменет (Службен весник 82/99) со цел да се овозможи увоз на користени автомобили опремени со катализатор и кои не се постари од шест години од датумот на производството. Царинењето на користените автомобили може да се врши само во царинските служби во Скопје, Битола и Гевгелија.

117. Претставникот на Република Македонија потврди дека Република Македонија не бара сертификација или докажување на автентичност на трговските документи од страна на своите конзулати или трговски комори во странство. Оттаму, не се определени ни конзуларни давачки за услуги во врска со увоз или извоз.

Инспекција пред испорака

118. Претставникот на Република Македонија рече дека Република Македонија нема легислатива што се однесува на инспекција пред испорака. Република Македонија не користи услуги за инспекција пред испорака, и нема планови да користи приватна компанија за инспекција пред испорака да ги врши царинските и други услуги што се опфатени во Спогодбата за инспекција пред испорака.

Антидампинг, компензаторни царини, режими на заштитни мерки

119. Претставникот на Република Македонија рече дека одредбите што се однесуваат на воведувањето на антидампинг мерки постојат во членот 34 од Законот за трговија (Службен весник 23/95) и во Законот за надворешно трговско работење (Службен весник 31/93) член 54, ставови 1-5. Меѓутоа, досега не е поведена ниту една антидампинг постапка. Владата на РМ има овластување да воведе компензаторни царини согласно општата одредба во членот 54, став 6 од Законот за надворешно трговско работење, но не донела прописи за постапката што треба да се следи при примената на тие мерки. Заштитните мерки се обработени во членовите 52 и 53 од Законот за надворешно трговско работење, и во Одлуките на Уставниот суд (Службен весник 40/96 и 44/96). Меѓутоа, досега не се воведени заштитни мерки, и не бил донесен пропис во кој се утврдува постапката и условите според кои би се воведе и применувале заштитните мерки. Владата на РМ започнала ревизија на целокупниот Закон за надворешно трговско работење, и во врска со ова ќе ја преиспита изводливоста и потребата од подетална легислатива за антидампинг, компензаторни или заштитни мерки.

120. Некои Членки изјавија дека тековните законски одредби во Република Македонија според кои треба да се применуваат антидампинг, компензаторни или заштитни мерки не ги задоволуваат стандардите што се бараат во односните Спогодби на СТО. Овие Членки побараа од Република Македонија да преземе обврска дека нема да применува никакви антидампинг, компензаторни или заштитни мерки на извозот од Членките на СТО, сé додека Република Македонија ги нотифицира и применува соодветните закони во согласност со одредбите на Спогодбите на СТО за спроведување на членот VI од ГАТТ од 1994, за субвенции и компензаторни мерки, и за заштитни мерки.

121. Претставникот на Република Македонија одговори дека Република Македонија отсекогаш имала намера да се сообрази со односните барања на СТО во врска со антидампинг, компензаторните или заштитните мерки, а тековната легислатива изрично бара таква сообразеност. Република Македонија во моментов подготвува нова легислатива која, според претставникот, ќе биде целосно сообразена со Спогодбата за Спроведување на членот VI од ГАТТ од 1994, Спогодбата за заштитните мерки и Спогодбата за субвенции и компензаторни мерки. Оваа регулатива е усвоена на 20 јуни 2002. Врз основа на прегледот на оваа регулатива, некои членови на Работната група наведоа дека истата треба да се дорабоги за да ги исполни барањата од Спогодбите на СТО. Тие ги поздравија напорите што ги вложува Република Македонија за да подготви и воведе закони кои се конзистентни со СТО во областа на заштитните мерки, антидампинг мерките и компензаторните царини и понудија помош за тој процес.

122. Претставникот на Република Македонија рече дека целокупната легислатива која ќе биде во сила во моментот на пристапување или ќе се имплементира во иднина, заради обезбедување на примена на мерки преземени за целите на заштита, антидампинг и компензаторни царини ќе биде донесена во целосна согласност со Спогодбите на СТО за антидампинг, компензаторни или заштитни

мерки. Досегу во моментот на пристапување не постои таква легислатива, Република Македонија нема да применува мерки за целите на заштита, антидампинг и компензаторни царини, се додека не се имплементира легислативата сообразена со барањата од овие Спогодби на СТО. Работната група ја забележа оваа преземена обврска.

2. Извозна регулатива

Царински тарифи, плаќања и давачки за извршени услуги, примена на внатрешни даноци на извоз

123 Претставникот на Република Македонија рече дека секој деловен субјект што сака да се вклучи во надворешната трговија ќе мора истовремено да се регистрира и за извоз и за увоз. Дали деловниот субјект ќе работи на увоз или на извоз зависи исклучиво од неговата сопствена одлука. Условите според кои се раководат поединците и претпријатијата што работат во извоз и увоз на стоки и услуги се исти како за увоз согласно Законот за надворешно-трговско работење.

124 Тој додаде дека Република Македонија не применува извозни давачки. На целокупниот извоз се наплатува 0,1 процент за финансирање на активностите за поттикнување на извозот. Република Македонија ќе ја задржи оваа давачка до крајот на 2005, како што е набележано во ставот 71. Во врска со услугите за царинска евиденција, давачката од 1 процент ад валорем не се применува врз извозот, но примената на изменетата давачка за царинска евиденција од €19 за секоја царинска декларација ќе се прошири и на извозот, пред пристапувањето.

Ограничувања на извозот

125 Претставникот на Република Македонија рече дека во принцип нема ограничувања на извозот на стоки. Сите извозни квоти беа укинати кон крајот на 1996, согласно Одлуката за менување на Одлуката за распределување на стоките по форма на увоз и извоз (Службен весник 64/96), со кои беше укинат КК режимот (режим на квантитативни контингенти) за извозот. Република Македонија и натаму бара "Д" дозволи за извоз на комерцијални експлозиви, муниција, оружје, наркотици, уметнички дела и за некои скапоцени метали, согласно меѓународните конвенции.

126 Покрај тоа, за извозот на некои производи, поради стратешки причини, мора да се добие одобрение, што се издава согласно членот 12 од Законот за надворешно-трговско работење и Одлуката за распределување на стоките по форма на увоз и извоз. Производите за кои треба да се издаде дозвола или одобрение се набројени во табелите 7(а) и (б). Според претставникот на Република Македонија, намената на овие дозволи е да се избегне создавање привремен недостиг на прехранбени производи, да се обезбедат доволни количества суровини неопходни за домашната преработувачка индустрија, или да се обезбеди заштита на животната средина. Според него, овие рестрикции се дозволени согласно членот XX од ГАТТ од 1994. Членот 46 од Законот за шуми (Службен весник 47/97) забранува сечење на ретки и загрозени видови на дрвја. Министерот за земјоделство може, во исклучителни случаи, да дозволи сечење на вакви дрвја заради целите на шумарството и заштита на животната средина. Извозните дозволи за некои земјоделски производи беа укинати кон крајот на 2001, а извозните дозволи за нафта и нафтени деривати ќе бидат укинати до крајот на 2003, согласно временскиот распоред даден во Табелата 7(а).

127 Една Членка побара од Република Македонија да достави табела во која ќе бидат наведени производите за кои треба да се добие одобрение за извоз од стратешки причини и, во придружни колони, ќе бидат детално наведени (i) специфичната цел на контролата на извозот во поглед на производот за кој станува збор; (ii) оправдување според СТО; и (iii) заснованоста во односни правни инструменти. Во одговор на ова, претставникот на Република Македонија ги спомна производите наведени во Табелата 7(ц) за кои рестрикциите се задржани согласно членот 10, став 2 од Законот за надворешно-трговско работење (Службен весник 31/93, 41/93, 78/93, 44/96-40/96, 59/96, 15/97, 13/98, 13/99, 50/99 и 82/99), а за кои смета дека се оправдани врз основа на членот XXI од ГАТТ од 1994.

Извозни субвенции

128 Претставникот на Република Македонија рече дека, освен механизмот за повраток на царина на увозот, Република Македонија во моментов не применува други директни мерки за промоција на извозот. Меѓутоа, Владата на Република Македонија предвидува трошоци кои се поврзани со промотивните активности на земјата и нејзините производи во глобала, односно, преку учество на меѓународни саеми и изложби, публикација на промотивни материјали, присуство на меѓународни

конференции, итн. Мерките и бенефициите коишто се однесуваат на воспоставувањето на слободни економски зони се предмет на дискусија во делот "Слободни зони, посебни економски подрачја".

129. Повратокот на царинските давачки се уредува со членовите 97 до 107 од Царинскиот закон (Службен весник 21/98, 26/98, 63/98, 86/2000, 25/2000, 109/2000 и 31/2001), членовите 43 - 81 од Уредбата за утврдување на поблиските критериуми и начинот на спроведување на постапката со економски ефект и со Упатството бр. 3 на Царинската управа на Република Македонија – Царинска постапка на увоз заради извоз со систем на повраток на царината (објавено во Прирачникот на Царинската управа од март 2000). Барањето за повраток го поднесува лицето што ја врши производната дејност или кое истата ја договорило. Повратокот на царина може да се побара по поднесување на докази дека увезените производи биле употребени за производство на конкретни крајни производи и дека увезената стока може да се препознае во крајниот производ.

130. Механизмот за поврат на царинските давачки на увозот е централизиран и со него раководат регионалните царински управи, секоја со специјализирано одделение кое се занимава исклучиво со овие повраток. Системот за повраток на платената царина се применува стриктно, а специјализираните одделенија обезбедуваат бараната царина на увоз на суровини да не ја надминува вредноста што може да се поврати по извозот на готовите производи. Враќањето е во директна врска со декларацијата за увозот, а извозникот треба да ги прикаже сите извозни или увозни декларации и документи што се однесуваат на вредноста на суровините. Специјализираното одделение за повраток на царината потоа врши инспекција на просториите на производителот, го верификува производството и вредноста на увезените суровини во готовите производи, и издава административна одлука. Повраток на царина може да се побара само еднаш за една увозна декларација. Тој додаде дека македонската легислатива утврдува објективни критериуми за примена на системот за повраток на царината, како и механизми за дополнителна верификација, и оттаму, истиот функционира во целосна сообразност со одредбите на Анексот II од Спогодбата на СТО за субвенции и компензаторни мерки.

131. Суровините и полупроизводите што се користат во производството на готови производи наменети за извоз може да се увезуваат врз времена основа. Времениот увоз за потребите на рафинирање, доработување, обработување или поправање може да се дозволат за период од 6 до 12 месеци во зависност од производниот процес.

132. Претставникот на Република Македонија рече дека Република Македонија нема да ги задржи, и од денот на пристапувањето нема да воведува субвенции кои спаѓаат во дефиницијата на забранети субвенции во рамките на значењето на членот 3 од Спогодбата за субвенции и компензаторни мерки и затоа нема да бара транзиционен период за укинување на таквите мерки. Работната група ја забележа оваа преземена обврска.

3. Домашни мерки што ја погодуваат надворешната трговија со стоки

<u>Мерки во индустријата, вклучувајќи субвенции</u>

133. Претставникот на Република Македонија рече дека Република Македонија се потпира врз искуството на другите земји при изготвувањето на своите мерки во индустријата, засновани врз тековното ниво на развој на Република Македонија и постојната економска структура. Некои индустриски сектори, какви што се текстилната, метало-преработувачката индустрија и индустријата на неметали, веќе имаат ефикасно производство, а постојните капацитети дополнително ќе се прошируваат во комбинација со нивно реструктуирање и приватизација.

134. Истовремено, Република Македонија има намера да го унапреди своето земјоделско и сточно производство, како и индустриските сектори засновани врз суровини. Постојните мерки исто така имаат за цел развивање на малите и средни претпријатија во сите економски сектори и активности, вклучително во секторите на услугите, занаетчиството, туризмот и трговијата.

135. Претставникот на Република Македонија потврди дека Република Македонија не користи субвенции, вклучувајќи ги тука и извозните субвенции, кои спаѓаат во дефиницијата за забранети субвенции во рамките на значењето на членот 3 од Спогодбата за субвенции и компензаторни мерки, и дека ни во иднина нема да воведува такви забранети субвенции. Претставникот на Република Македонија потврди дека секоја можна програма за субвенции ќе биде администрирана во согласност со Спогодбата за субвенции и компензаторни мерки и дека сите потребни информации за програмите

за кои треба да се поднесе известување, ако постојат такви, ќе му бидат доставени на Комитетот за субвенции и компензаторни мерки согласно членот 25 од Спогодбата, по стапувањето во сила на Протоколот за пристапување на Република Македонија. Работната група ја забележа оваа преземена обврска

Технички бариери во трговијата, санитарни и фитосанитарни мерки

Стандарди и сертификација

136. Претставникот на Република Македонија даде информации за техничките бариери во трговијата во документот WT/ACC/807/5/Add.1, Анекс 5 како и информации за Спроведувањето на Спогодбата за СТО за технички бариери во трговијата (ТБТ) во документот WT/ACC/807/11. Тој додаде дека претпријатијата во општествена сопственост - целокупната производствена индустрија на Република Македонија, и поголемиот дел од земјоделскиот сектор - пред стекнувањето на независноста во 1991 ги следеле нормите кои во југословенската легислатива се нарекуваа "секторски" и "внатрешни" стандарди. Тоа биле стандарди произлезени од индустријата, и главно се однесувале на методите на производството и услугите. Во 1995 година, кога Република Македонија го донела својот сопствен Закон за стандардизација, во членот 93 била вклучена една одредба што се однесува на продолжувањето на примената на некогашните југословенски стандарди, сé до нивното заменување со соодветни национални стандарди, како мерка на предострожност. Токму во оваа смисла, околу 12.000 стандарди се наследени од поранешна СФРЈ, иако повеќето од овие стандарди веќе не се релевантни, или веќе не се применливи, поради нивниот ограничен опфат и тесно специјализирана природа.

137. Системот на стандардизација на Република Македонија се состои од Закон за стандардизација, Закон за мерни единици и мерки, и Закон за контрола на предметите од скапоцени метали (сите се објавени во Службен весник 23/95). Законот за стандардизација обезбедува рамка за воведување на стандарди во Република Македонија, но директно нема воспоставено никакви технички прописи или незадолжителни стандарди. Законот (член 8 итн.,) воспоставува еден главно незадолжителен систем на стандарди со акцент врз меѓународно изградените критериуми (член 13) и врз науката и технологијата (член 14). Република Македонија е членка на поголемиот дел од меѓународните и регионалните организации за стандарди. Службата за стандардизација и метрологија е членка на Меѓународната организација за легална метрологија (OIML) уште од 1994, а од 1 јануари 1995 е членка и на Меѓународната организација за стандардизација (ISO).

138. Големо внимание се посветува на воспоставувањето и примената на компетентни и сигурни постапки за проценување на сообразноста чија цел е да се спречат нечесни и корумпирани постапки. Досега не се воведени никакви нови прописи, но постапките наследени од СФРЈ продолжуваат да се применуваат колку што е практично можно. Република Македонија ги прифаќа резултатите од проценките на сообразноста од другите Членки на СТО. Во Република Македонија практично сé уште не постојат постапки за тестирање на производите и производствените методи, како ни стандарди за индустриското производство. Тој потврди дека постапките за проценување на сообразноста што ги користи Република Македонија се сообразени со барањата наведени во членот 5.2.3 од Спогодбата за технички бариери во трговијата, во смисла дека барањата за информации се ограничени на она што е неопходно за да се процени сообразноста и да се утврдат давачките, а доверливоста на информациите се почитува на начинот што се бара со членот 5.2.4 од Спогодбата.

139 Органот на државната управа одговорен за изготвувањето и спроведувањето на стандардите и техничките прописи - Бирото за стандардизација и метрологија при Министерството за економија - бесплатно издава списание за јавноста (*Гласник*). Бирото за стандардизација и метрологија ќе ја врши функцијата на информативно тело на Република Македонија и ќе биде одговорно за подготвувањето и доставувањето на известувањата во согласност со постапките пропишани во Спогодбата за технички бариери во трговијата.

140. На иницијатива на заинтересирани лица, Бирото формира техничка комисија која изготвува специфични технички прописи и/или стандарди. Комисијата се состои од експерти-претставници од индустријата, деловниот сектор и јавноста. Врз основа на информациите од нејзините членови и од Стопанската комора, комисијата составува список на сите компании што се потенцијално заинтересирани за или погодени од прописите и/или стандардите, и на истите им ја доставува работната верзија на документите. Комисијата ја подготвува конечната верзија на прописите и/или стандардите откако ќе ги добие и разгледа забелешките од засегнатите страни. Откако ќе бидат усвоени од Министерот за економија, прописите или стандардите се објавуваат во Службен весник.

141. Република Македонија речиси целосно се потпира врз меѓународните стандарди што ги користат странските производители коишто ги извезуваат своите производи во Република Македонија. Во неколкуте примери каде што Република Македонија вовела технички прописи (сол и патнички возила), тие се засновуваат врз меѓународните спецификации што се изготвени или одобрени од меѓународни организации, а кога домашните производители применуваат стандарди, тоа се меѓународните стандарди. Техничките прописи за солта се состојат од барања за соодветно означување со етикета на која е наведена содржината, и ги администрира Министерството за здравство заедно со неговите сопствени барања за безбедност на прехранбените производи. Се бара автомобилите да ги задоволуваат прописите за безбедност на ЕСЕ, што при регистрацијата на возилото треба да се документира со сертификати за усогласеност на типот на производот. Република Македонија ги признава сертификатите издадени во која било земја што се усогласени со постапките пропишани од ЕСЕ. За автомобилите без такви сертификати треба да се достави посебно барање кое најверојатно ќе треба и да се тестираат. Барањата се разгледуваат без одлагање, за надомест што е еднаков на 250 ДМ за обработка на документ и 2.500 ДМ за преглед и тестирање на автомобилот. Бирото издава (увозни) дозволи за околу 400 различни видови електрични апарати (Табела 5(б)). Дозволата издадена за определен производ важи за неограничен број пратки во неограничен временски период

142. Бирото за стандардизација и метрологија подготви нацрти за четири нови закони што треба да ја заменат тековната легислатива во областите на стандардизацијата, акредитацијата, техничките барања за производи и проценувањето на сообразноста, и метрологијата, во консултација со експерти од меѓународни и регионални организации за стандарди. На 4 јули 2002, Собранието ги усвои Законот за стандардизација и Законот за акредитација (Службен весник 54/02), како и Законот за метрологија и Законот за пропишување на техничките барања и оценка на сообразноста на производите (Службен весник 55/02)

143. Претставникот на Република Македонија потврди дека новата законска регулатива, која е доставена во нацрт и конечна верзија до Работната група, во документите WT/ACC/807/22 и WT/ACC/807/24/Add.3, го развива режимот на стандардизација на Република Македонија и обезбедува поцелосна хармонизација со барањата на СТО. Особено Законот за стандардизација и Законот за техничките барања за производи и оценка на сообразноста обезбедуваат, *inter alia*, постапки за оценка на сообразноста кои даваат можности за постигнување на доверба во кометентноста на техничките тела кои се наоѓаат на територијата на други Членки на СТО и вршат оценка на сообразноста и прифаќање на нивните резултати на други начини покрај признавањето преку спогодби со тела за оценка на сообразноста во други земји. Новите закони, исто така, овозможуваат прифаќање и недискриминирачко разгледување на барањата за акредитација од телата за оценка на сообразноста кои се наоѓаат на територијата на други Членки на СТО и прифаќање на резултатите за оценка на сообразноста од квалификувани тела, како што е наведено во член 6 од Спогодбата за технички бариери во трговијата.

144. Претставникот на Република Македонија изјави дека Република Македонија има намера да пристапи кон Спогодбата за технички бариери во трговијата од датумот на пристапување, без барање на транзиционен период. Тој додаде дека задолжителните барања на квалитет содржани во Законот за контрола на квалитет на земјоделски и прехранбени производи во надворешно-трговскиот промет (Службен весник 5/98 и 13/99) за производи наведени во Одлука бр.23-2619/1 за определување на земјоделски и прехранбени производи и нивните преработки кои подлежат на контрола на квалитет во надворешната трговија (Службен весник 53/98) се укинати согласно член 62 од Законот за безбедност на храната и предметите и материјалите што доаѓаат во контакт со храната (Службен весник 54/02) од 4 јули 2002. Тој исто така изјави дека со членот 27 од новиот Закон за стандардизација, сите задолжителни стандарди се прогласуваат за доброволни. Од тој момент, како што е предвидено и со правилата на СТО, сите стандарди на Република Македонија ќе се сметаат за доброволни, доколку не се ревидираат и потврдат како технички прописи согласно новата легислатива усвоена во јули 2002. Република Македонија ќе бара техничка помош за да обезбеди непречена имплементација на новата ТБТ законска регулатива.

145. Претставникот на Република Македонија изјави дека, по пристапувањето кон СТО, Република Македонија ќе ги усогласи сите одредби со Спогодбата за технички бариери во трговијата без прибегнување кон какви било преодни аранжмани. Работната група ја забележа оваа преземена обврска.

(б) Санитарни и фитосанитарни мерки

146. Претставникот на Република Македонија рече дека Законот за ветеринарно здравство (Службен весник 28/98), Законот за заштита на растенијата (Службен весник 25/98 и 6/00), Законот за

семенски материјал, саден материјал и материјал за размножување, признавање, одобрување и заштита на сорта (Службен весник 41.00), Законот за здравствена исправност на животните намирници и предмети за општа употреба (Службен весник 15/95) и Законот за здравствен надзор над прехранбените производи и над предметите за општа употреба (Службен весник 29/73, 37/86 и 15/95), заедно со соодветните прописи, претставува основна правна рамка за санитарните и фитосанитарните мерки на Република Македонија. Во подготовка е нов Закон за исправност на храната. Дополнителни прописи за квалитетот на земјоделските и прехранбените производи и прописи во врска со безбедноста на храната се наведени во прилозите 3 и 4 кон документот WT/ACC/807/5. Информациите за спроведувањето на Спогодбата на СТО за Примена на санитарните и фитосанитарните мерки (Спогодба за СПС) се дистрибуирани во документот WT/ACC/807/10 Главните органи на државна управа во чија надлежност е администрирањето на СПС мерките на Република Македонија се Министерството за земјоделство, шумарство и водостопанство и Министерството за здравство.

147. Република Македонија е членка на Комисијата за Кодекс Алиментариус (Codex Alimentarius), а од 1993 е членка и на Меѓународната канцеларија за епизоотици (ОИЕ) Република Македонија сé уште не е потписник на Меѓународната конвенција за заштита на растенијата (IPPC), но претставникот рече дека очекува постапката за ратификација да биде завршена до декември 2002 година. Република Македонија е членка на Европската конвенција за заштита на животните што се одгледуваат на фарми и на Европската конвенција за заштита на животните за колење, и со намера е да ги потпише и Конвенцијата за домашни миленици, Конвенцијата за заштита на животните при транспорт и Конвенцијата за заштита на животните што се користат за експерименти. Република Македонија има потпишано неколку спогодби за билатерална соработка што се засновуваат врз стандардите издадени од ОИЕ и од Европската унија во сферата на ветеринарната практика.

148. Република Македонија ги применува истите санитарни и фитосанитарни мерки и за увезената и за домашно произведената стока. За санитарните мерки, постапката вклучува гранична инспекција на барање на увозникот, при што се проверува документацијата, пакувањето и означувањето што се во врска со безбедноста на храната, органолептичко испитување на лице место и земање мостри за испитување и контрола од страна на овластени лаборатории. Националните прописи се применуваат и во хигиенската практика. Методите за проценување на ризикот не се пропишани со закон. Ветеринарното одобрение за увоз на животни и на производи, суровини и отпадоци од животинско потекло се засновува врз Кодексот за здравјето на животните (OIE) и Кодекс Алиментариус. Извозните сертификати за животни и производи, суровини и отпадоци од животинско потекло се засновуваат врз сертификати за усогласеност на земјите од Европската унија. Сертификатите за производи увезени од земји што не се членки на ЕУ подлежат на билатерални спогодби и конвенции во кои се даваат детални одредби за податоците што треба да бидат вклучени во тие сертификати. Земјоделски и шумски растенија и производи можат да се увезат само преку посебно назначени гранични премини за такви активности. Визуелната инспекција ја вршат овластени експерти, кои можат да земаат мостри за утврдување на евентуално присуство на карантински штетници. Увезените растенија или растителни производи што содржат карантински штетници се враќаат или се уништуваат во договор со увозникот. Република Македонија не ја прифати автоматски листата на штетници на Организацијата за заштита на европските и средоземните растенија и има издадено национални А и Б листи на карантински штетници и список од двесте штетници што се комерцијално важни (Службен весник 9/96). Сертифицираните семиња и садни материјали се подложуваат на фитосанитарни испитувања во текот на периодот на вегетација, кои ги вршат институции овластени од министерот за земјоделство, шумарство и водостопанство, како и од лаборатори во кои се изведуваат тестирања за да се потврди дека семињата или садниот материјал немаат штетници. Тој потврди дека Република Македонија не бара дополнителни сертификати или санитарни регистрации за производи за кои е потврдено од страна на признати странски и меѓународни тела дека се безбедни за употреба од страна на луѓето. Законот за ветеринарно здравство (Службен весник 28/98) го регулира прашањето за ветеринарни сертификати. Членот 43 од Законот наведува дека кон сите пратки кои содржат производи од животинско потекло треба да бидат приложени ветеринарни сертификати издадени од ветеринарната служба на земјата извозник. Сертификатот треба да содржи информации кои ги определува Министерот за земјоделство согласно препораките на ОИЕ, односно, треба да обезбеди информации за потеклото на стоката, видот на стоката, дестинацијата, регистарскиот број на превозното средство и здравствената состојба на пратката. Законот за безбедност на храната и предметите и материјалите што доаѓаат во контакт со храната (Службен весник 54/02), глобално гледано, не содржи одредби за ова прашање, но членот 27 од овој закон наведува дека секоја пратка на увезена храна треба да биде проверена на назначените гранични премини. Службениците при Министерството за здравство потврдија дека – иако не е задолжително – меѓународните сертификати се земаат предвид при вршењето на проверката. Претставникот исто така додаде дека деталните

постапки за гранична контрола ќе се воведуваат и развиваат со законска регулатива. Прописите ќе се подготват во рок од една година од датумот на стапувањето во сила на Законот за безбедност на храната и предметите и материјалите што доаѓаат во контакт со храната, согласно став 1, член 61 од истиот, и истите ќе бидат во согласност со барањата кои произлегуваат од Спогодбата за СПС, особено со Анексот Ц.

149. Република Македонија има намера да внесе измени во постојната легислатива за да се усогласи со Спогодбата за санитарни и фитосанитарни мерки во сферата на ветеринарни и фитосанитарни мерки. Во моментов се работи на постигнување и обезбедување целосна сообразност со Спогодбата за санитарни и фитосанитарни мерки, а тука спаѓаат и нови прописи за заштита на животните врз основа на препораките и стандардите на ОИЕ, нови прописи за заштита на растенијата во согласност со стандардите на ИППС; испитување и хармонизација на националната легислатива со стандардите на Кодекс Алиментариус; изготвување на насоки и препораки во врска со прехранбените адитиви, ветеринарните лекови и пестицидните остатоци; воведување на Глобален мониторинг систем за загаденост на храната и Програма за оценување (GEMS/Food); реорганизација на државната референтна лабораторија во согласност со стандардите на ISO/IEC; и изработка на национална програма за безбедност на храната. Овие активности ќе ѝ овозможат на Република Македонија да го прифати принципот на еднаквост, да врши постапки за контрола, инспекција и одобрување во согласност со правилата на СТО, и да ги зема предвид техниките за проценување на ризиците што се изградени од страна на релевантните меѓународни организации. Листа на идните законодавни активности на Управата за заштита на растенија, при Министерството за земјоделство, е дадена во Прилогот 10 кон документот WT/ACC/807/23. Според тековниот временски распоред, Законот за безбедност на храната и предметите и материјалите што доаѓаат во контакт со храната се планира да се донесе од Собранието во јули 2002, а Законот за ветеринарно здравство се планира да се измени до декември 2002, додека Законот за заштита на растенијата се планира да се измени до декември 2003.

150. Претставникот на Република Македонија не предвидува никакви поголеми пречки при спроведувањето на Спогодбата за санитарни и фитосанитарни мерки, иако забележа дека усогласувањето е сложен и долготраен процес за кој ќе биде неопходна техничка помош, особено помош при инкорпорирањето на стандардите на Кодекс Алиментариус во националната легислатива, како и за обуката со која ќе се обезбеди спроведување на ревидираната легислатива. Како што се бара во членот 7 и во Анексот Б кон Спогодбата за санитарни и фитосанитарни мерки, Република Македонија има воспоставено информативно тело при Министерството за здравство, кој обезбедува информации за безбедноста на храната, како и уште еден информативно тело, при Министерството за земјоделство, во кој се обезбедуваат податоци во врска со заштита на растенијата и растителните производи и ветеринарна заштита.

151. Некои Членки ја ставија под сомневање корисноста во Македонија да има две информативни тела во сферата на СПС, со што се создава простор за забуна и можни непотребни задржувања. Претставникот на Република Македонија одговори дека Република Македонија има намера да ги почитува обврските за транспарентност исложени во Спогодбата за СПС. Земајќи ги превид забелешките од членовите на Работната група, Република Македонија реши да ги спои постојните информативни тела за СПС во единствено тело сместено во Канцеларијата на Кодекс Алиментариус во Скопје. Деталите се дадени во документот WT/ACC/807/25. Тој додаде дека, како што е забележано во став 246, постојната легислатива предвидува задолжително објавување на сите закони и прописи во Службениот весник, вклучително оние што се однесуваат на санитарните и фитосанитарните мерки. Според него, рокот од најмалку осум дена што се бара меѓу објавувањето и сталувањето во сила на законите и прописите во Република Македонија претставува разумен рок, согласно Анексот Б кон Спогодбата за СПС.

152. Една Членка забележа дека извозот, дури и на прехранбени производи, би можел да транзитира 2 до 3 недели, и дека, во вакви услови, осум дена не претставуваат разумен временски рок. Во одговорот, претставникот потенцираше дека минимумот од 8 дена, пропишан во членот 52 од Уставот, дозволува подолг *vacatio legis* секогаш кога е потребен. Тој потврди дека Република Македонија ги зела предвид интересите на увозниците при определување на соодветна временска рамка за стапувањето во сила на закони и прописи.

153. Претставникот на Република Македонија рече дека по пристапувањето во СТО, Република Македонија ќе ги применува сите санитарни и фитосанитарни барања во сообразност со барањата на СТО, вклучувајќи ги и Спогодбите за примена на санитарни и фитосанитарни мерки и постапки за

издавање на дозволи, без барање на какви било транзициони аранжмани. Тој особено потенцираше дека доколку се донесе одлука за која е потребно да се изврши нотификација, а која се однесува на заболувања кои не се вклучени во листата на ОИЕ класите А и Б, таквата одлука ќе се донесе во согласност со барањата на Спогодбата за примена на санитарни и фитосанитарни мерки. Тој додаде дека Република Македонија нема да бара дополнителни сертификати или санитарна регистрација за производи за кои веќе е потврдено од признати странски и меѓународни тела дека се безбедни за употреба од страна на луѓето и дека Република Македонија ќе обезбеди дека од датумот на пристапување, нејзините критериуми за давање на предвремени овластувања или обезбедување на бараните сертификати за увезени производи ќе се објавуваат и ќе бидат достапни за трговците. Тој потврди дека санитарните и другите сертификатни барања во Република Македонија се издаваат на транспарентен и ефикасен начин, и дека Владата на Република Македонија е спремна да се консултира со Членките на СТО во врска со ефектите на овие барања врз нивната трговија, во смисла на разрешување на специфичните проблеми. Работната група ја забележа оваа преземена обврска.

Странски вложувања со влијание врз трговијата (ТРИМс)

154. Претставникот на Република Македонија рече дека Република Македонија не задржува никакви мерки спротивни на одредбите од Спогодбата за странски вложувања со влијание врз трговијата (ТРИМс). Поконкретно, тој рече дека правото на бенефиции за компаниите што се сместуваат во слободните зони не зависи од користењето домашни стоки наместо увозни.

155. Претставникот на Република Македонија изјави дека Владата на РМ нема да задржи никакви мерки што не се во сообразност со Спогодбата за странски вложувања со влијание врз трговијата (ТРИМс) и дека ќе ја применува Спогодбата за странски вложувања со влијание врз трговијата (ТРИМс) од датумот на пристапувањето без повикување на каков било транзиционен период. Работната група ја забележа оваа преземена обврска.

Претпријатија кои се занимаваат со државна трговија

156. Претставникот на Република Македонија обезбеди информации за трговските претпријатија кои се занимаваат со државна трговија во документот WT/ACC/807/5, Add.1, Анекс 6. Според него, владината агенција - Дирекција за стокови резерви - е единственото претпријатие во Република Македонија што е опфатено со одредбите од членот XVII од ГАТТ од 1994. Одговарајќи на конкретно прашање, тој рече дека договорот со една странска компанија што тргува со нафта не содржи елементи што спаѓаат во доменот на членот XVII од ГАТТ од 1994. Тој потврди дека по истекувањето на барањата за дозволи наведени во Табела 5(б) и 7(а), увозот и извозот на нафта и нафтени производи ќе биде отворен за сите и нема да биде ограничен од владините договори склучени со странски компании кои тргуваат со нафта.

157. Дирекцијата за стокови резерви е формирана за да се овозможи стабилност во обезбедувањето на извесни суштествени стоки и индустриски производи во ситуации на вонредна состојба. Оваа служба одржува стратешки резерви на пченица, пченка, оризова арпа, шеќер, масла за готвење, лекови, нафтени деривати и вештачки ѓубрива, и интервенира на домашниот пазар со зајмување на стоките или со откупи или продажби по пат на јавен тендер. Службата не е директно вклучена во увоз или извоз; и таквите трансакции исто така ќе се вршат со јавен тендер. Странските фирми имаат право да конкурираат за увозни договори под истите услови како и домашните фирми, согласно членот 3 од Законот за јавни набавки. Во такви случаи ќе биде избрана фирмата што ќе понуди најповолни услови.

158. Стратешките резерви се уредуваат со Законот за стокови резерви (Службен весник 47/87 и 13/93). За земјоделските производи што подлежат на "заштитни цени", службата ќе врши интервентни откупи за да се стабилизират цените на домашниот пазар на ниво на "заштитената цена" (член 20), но само кога домашното земјоделско производство не е апсорбирано од комерцијални лица и вишокот се заканува да предизвика сериозни пазарни нарушувања. Во 1999 и 2000 година, "заштитни цени" биле одредени за пченицата (ХС 1001 90 00 50) и ситнолисниот ориентален тутун (ХС 2401). Во одговор на конкретно прашање, тој додаде дека за пченицата се бара увозна дозвола, додека увозот на тутунот е под "либерален режим".

159. Одлуките во врска со количествата што треба да се откупат по "заштитни цени" ги донесува Владата која, на предлог на Дирекцијата, решава и за располагањето со или обновувањето на вишокот резерви. Владата ја определува почетната најниска цена по која може да се продава вишокот резерви, допуштајќи ѝ на Дирекцијата да ги покрие своите трошоци, но да не оствари заработувачка од

продажбата. Вишокот резерви, по правило, не се извезува, туку се продава на домашниот пазар. Во еден исклучителен случај, беше распишан тендер за тутун бидејќи Дирекцијата имаше откупено големи количества тутун од локалните производители. Тој потврди дека со истекувањето на барањата за дозволи за пченица, на 31 декември 2001 (Табела 5(а)), увозот на пченица е отворен за сите и не е предмет на дискрециони ограничувања.

160. Претставникот на Република Македонија потврди дека Владата на РМ ќе ги применува своите закони и прописи со кои се уредуваат трговските активности на претпријатијата во државна сопственост и другите претпријатија со посебни или ексклузивни привилегии, во целосна согласност со одредбите на Спогодбата на СТО, особено со членот XVII од ГАТТ од 1994 и Договорот за тој член и за членот VIII од ГАТТ. Понатаму тој потврди дека Република Македонија ќе нотифицира за секое претпријатие што потпаѓа под членот XVII, вклучувајќи ги и оние забележани во ставот 156. Работната група ги забележа овие преземени обврски.

Слободни зони, посебни економски подрачја

161. Претставникот на Република Македонија рече дека Законот за слободни економски зони бил донесен и објавен во Службен весник 56/99. Законот обезбедува еднаков третман на физичките и правните лица во слободните зони, без оглед дали се домашни или странски. Од основачот на слободната зона се бара да усвои Основачки акт. Основачот и корисниците на слободната зона треба да вработуваат граѓани на Република Македонија и да обезбедуваат стоки и услуги од домашните добавувачи и под-добавувачи секогаш кога е тоа комерцијално оправдано. Стоките произведени или увезени во слободните економски зони ќе бидат подложни на вообичаените царински формалности, даноци и тарифни давачки, при влезот на останатиот дел од територијата на Република Македонија. Меѓутоа, законите на Република Македонија со кои се уредуваат контролите на цените не се применуваат на производите и услугите во слободните економски зони, и нема да се применуваат стандардите и техничките прописи на Република Македонија освен кога стоките влегуваат на редовниот домашен пазар. Досега не е востановена ниту една слободна економска зона, но во април 2000 година Министерството за економија започна со изградба на инфраструктурата во месноста Бунарџик во близината на Скопје.

162. Согласно членот 3 од Законот за слободни економски зони, процентот на стоки и услуги што се извезуваат од слободна зона не треба да биде помал од процентот утврден со членот 25 од тој Закон, освен во случаи на виша сила. Членовите 3, 15, 16, 25 и 26 од Законот за слободни економски зони пропишуваат дека воспоставувањето на даночни ослободувања и олеснувања во некоја зона, и пристапот до нив, е условено со извоз на минимум 51 процент од вредноста на стоките што се произведени и услугите што се дадени во слободната зона во текот на првата година од работењето, процент што во третата година и понатаму ќе изнесува 70 проценти. Даночните ослободувања и олеснувања вклучуваат изземање од царински давачки и данок на додадена вредност (ДДВ), од даноци на заработувачка и сопственост во тек на 10 години, и од вообичаените комунални давачки.

163. Некои Членки забележаа дека дека Република Македонија бара од фирмите што ќе се сместат во Слободна економска зона да извезуваат извесен процент од своето производство, а со погодностите од царинското и даночното ослободување што им е достапно на фирмите во извозната зона, се чини дека се создава забранета субвенција во смисла на членот 3.1 (а) од Спогодбата на СТО за субвенции и компензаторни мерки (SCM). Овие Членки бараа да се укине оваа програма или да се изменат нејзините одредби, за што поскоро да се отстрани елементот на субвенционирање, и тоа пред пристапувањето на Република Македонија во СТО.

164. Претставникот на Република Македонија одговори дека на 23 јануари 2002 година Собранието го поништило ставот 1 од членот 25, како и ставот 1(2) од членот 3 од Законот за слободни економски зони. Членот 1 од Законот за изменување на Законот за слободни економски зони го укинува барањето за извршување на извоз содржано во членот 3, став 1, точка 2 од Законот за слободни економски зони, а членот 7 од Законот за измени на Законот за слободни економски зони го отповикува членот 25, став 1, точка 1 од Законот, со кој се пропишуваа конкретни проценти извоз што корисниците на зоната треба да ги реализираат за да можат да ги користат бенифициите од сместеноста во зоната. Измените се објавени во Службен весник 6/02. Тој смета дека таа измена е доволна за да обезбеди сообразеност со одредбите од Спогодбата за субвенции и компензаторни мерки. Одредбата за користење на домашни производи во членот 3, став 3 од Законот за слободни економски зони е задржана, но треба да се сфаќа како препорака, а не како обврска. Оваа обврска

нема обврзувачки карактер и користењето на бенефициите од сместеноста во слободна економска зона не зависат од нея. Членовите 15, 16 и 26 од Законот се однесуваат на обврските изложени во членовите 3 и 25, а бидејќи вториов е изменет, понапред споменатите членови сега се усогласени со барањата на СТО. Со цел да обезбеди сигурност дека овие промени се целосно транспарентни и сфатени и за да потврди дека Законот за слободни економски зони е целосно усогласен со членот 3.1(б) од Спогодбата за СТО за субвенции и компензаторни мерки, Министерот за економија кој го спроведува Законот за слободни економски зони издаде Толкување на членот 3, став 3 од Законот, на 4 септември 2002, потврдувајќи дека предложениот јазик во членот 3 не е обврзувачки, не претставува услов за какви било даночни олеснувања или изземања, и не содржи механизми кои бараат или воведуваат употреба да домашни производи или извозни перформанси од страна на фирмите кои се лоцирани во зоната.

165. Претставникот на Република Македонија потврди дека од датумот на пристапување, Владата на Република Македонија ќе го осигури спроведувањето на своите обврски согласно СТО во нејзините слободни зони и слободни економски зони. Во таа смисла, тој потврди дека Законот за слободни економски зони бил изменет за да се укинат барањата за сместување во зоните или условите за примање на бенефиции што им се даваат на фирми во зоните што се условени со користење на домашни производи или остварување на извоз. Покрај тоа, стоките произведени во овие зони, според одредбите за даноци и тарифи, со кои увозот и увезените производи се изземаат од плаќање на тарифи и одредени даноци ќе бидат подложени на вообичаените царински формалности при влезот на останатиот дел од Република Македонија, вклучително и примената на тарифи и даноци. Работната група ги забележа овие преземени обврски.

Компензации на ниво на Влада

166. Претставникот на Република Македонија изјави дека Република Македонија нема склучено договори за компензација со други земји. Меѓутоа, на претпријатијата им беше дозволено да вршат компензациски работи/бартер трговија, а правни рамки за таквата трговија обезбедуваше Членот 18 од стариот Законот за надворешно трговско работење. Новиот Закон за надворешно трговско работење не го регулира ова прашање. Поконкретни услови се утврдени во Одлуката за условите, начинот и роковите за бартер. Бартер зделките што се склучени од страна на домашни претпријатија треба да добијат одобрение од Министерството за економија, за административни и статистички потреби. Министерството е должно да реши дали одобрува определена бартер зделка во рок од 15 дена по приемот на барањето.

167. Општо земено, бартер зделката ќе биде одобрена ако вредноста на извезените стоки и услуги е поголема од увозот за барем 30 отсто. Меѓутоа, трансакциите еден-за-еден можат да бидат одобрени и ако во бартер зделката станува збор за извоз на стоки и услуги во земји со платно-билансни проблеми или за извоз на производи кои инаку тешко би се продале на странските пазари, или ако зделките обезбедуваат покривање на увозот на електрична енергија, суровини и полупроизводи, производи од животна важност, или машини и изнајмена опрема. Увозот и извозот според бартер аранжмани подлежат на истите царини, давачки, даноци, барања за дозволи и поседување на сертификати, како и на другите мерки кои се применуваат во вообичаената трговија.

168. Република Македонија, со бартер зделки, увезува главно суровини, додека главниот извоз се тутунот, резервните делови и опремата за моторни возила, цигарите, трансформаторите, минералните и хемиските ѓубрива, детергентите и вештачките и синтетските влакна. Во 1999, уделот на бартер трговијата во целокупниот увоз изнесуваше 3.1 проценти, а 4.4 проценти во целокупниот извоз на Република Македонија. Главните партнери во бартер трговијата се СР Југославија, Хрватска и Словенија, но склучени се зделки и со претпријатија од Грција, Италија, Албанија, Руската Федерација и Египет.

169. Претставникот на Република Македонија додаде дека договорите за долгорочна соработка се уредуваат со Членовите 16 и 17 од Законот за надворешно трговско работење. Новиот Закон за надворешно трговско работење не го регулира ова прашање. Сите такви договори треба да се одобрат од Министерството за економија, а одобрението нема да се даде доколку договорот не е во писмена форма и доколку не е ефективен веќе барем три години; размената вклучува суровини, меѓупроизводи, резервни делови и финални производи од ист вид, за потребите на усовршување на производството; а вредноста на извозот е барем еднаква на вредноста на увозот. Претпријатие што има склучено договор за долгорочна соработка нема да потпаѓа под режимот за увоз на стока сé додека е во сила договорот за соработка.

Јавни набавки

170. Претставникот на Република Македонија рече дека на 4 јуни 1998 Собранието на Република Македонија усвоило Закон за јавни набавки. Со овој Закон се уредува начинот и постапката што треба да се применуваат при јавните набавки кои се финансираат од државниот буџет, од буџетите на единиците на локалната самоуправа, од државните и општинските небуџетски фондови, или за кои средства се обезбедуваат од органи на државна управа и други јавни институции, органи и организации основани од државата. Со Законот се уредуваат и набавките на јавните претпријатија и на фирмите во државна сопственост.

171. Одредбите на овој Закон обезбедуваат целосна транспарентност и пристап до набавките, т.е. комплетни информации за можните наддавачи во врска со намерите на државата или други органи на државна управа кои вршат определени набавки. Законот обезбедува еднаквост и рамноправен статус за сите домашни и странски правни и физички лица што учествуваат во постапките на набавка.

172. Набавките се вршат по пат на (i) јавен тендер, (ii) ограничен тендер, (iii) тендер со покана или (iv) со директни преговарања што ги прави комисијата за набавки, која се состои од претседавач и најмалку два члена. Се одбира најповолната понуда, под услов органот на државна управа што ја порачува набавката да се увери во економската и финансиска состојба на наддавачот, неговите технички можности и да се увери дека наддавачот ќе биде во состојба да ја изврши предложената понуда. Наддавачите се обврзани кон понудата да приложат соодветен документ со кој се потврдува нивната солвентност. Странските физички и правни лица ќе поднесат потврда за солвентност издадена од надлежен орган или од претставничко тело.

173. Во зависност од типот на набавката, најповолниот наддавач ќе биде избран исклучиво врз основа на најниска цена, или оценет врз основа на цената, рокот на испорака, начинот на плаќање, оперативните трошоци, ефикасноста, квалитетот, естетските и функционалните карактеристики, техничките особини, сервисот по продажба, и техничката помош. На јавното отворање на тендерите присуствуваат сите членови на комисијата на органот на државната управа што ја нарачува набавката и претставници на наддавачите. Државниот орган е должен својата одлука да му ја соопшти на најуспешниот наддавач, во писмена форма, најдоцна седум дена по завршувањето на постапката на тендерот, а сите други учесници исто така соодветно се известуваат. Незадоволниот наддавач може да поднесе приговор до Комисијата за приговори во врска со набавките, во рок од осум дена по приемот за известувањето за одлуката по тендерот.

174. Комисијата за приговори во врска со набавките, што ја назначува и распушта Владата, се состои од претседавач и 4 членови и нивни заменици, избрани од редовите на потврдени и познати стручњаци (правници, нотари, трговски ревизори, инженери итн.). Мандатот на овие лица трае две години со право на реизбор за уште две години. Комисијата е самостојна во своето работење. Договор за набавка се потпишува во рок од седум дена по истекот на периодот за приговори, т.е. по донесувањето на конечната одлука по приговорот.

175. Некои Членки забележаа дека политиката за јавни набавки на Република Македонија веќе е отворена, и дека со пристапувањето кон Спогодбата за јавни набавки, Република Македонија ќе го подобри пристапот до својот пазар, во однос на другите членки. Затоа, овие Членки побараа Република Македонија да се обврзе дека по пристапувањето во СТО ќе поведе преговори за потпишување на Спогодбата за јавни набавки со поднесување на понуда на субјекти.

176. Претставникот на Република Македонија одговори дека Владата на РМ сериозно размислува за поканата за поведување преговори за потпишување на Спогодбата за јавни набавки.

177. Претставникот на Република Македонија потврди дека, по пристапувањето во СТО, Владата на Република Македонија ќе започне преговори за потпишување на Спогодбата за јавни набавки со поднесување на понуда на субјекти. Тој, исто така, потврди дека ако резултатите од преговорите се задоволувачки за интересите на Република Македонија и за другите потписници на Спогодбата, Република Македонија ќе ги заврши преговорите за потпишување на Спогодбата во рок од две години по пристапувањето. Работната група ги забележа овие преземени обврски.

Трговија во цивилното воздухопловство

178. Една Членка побара Република Македонија по пристапувањето кон СТО да се обврзе да пристапи кон Спогодбата за трговија во цивилното воздухопловство, и да воспостави нула тарифна стапка за увоз на авиони или авионски делови.

179 Претставникот на Република Македонија одговори дека Република Македонија целосно ги има инкорпорирано сите тарифни барања од Спогодбата за трговија во цивилното воздухопловство во својата првична понуда за пристап на пазарот со стоки.

180. Претставникот на Република Македонија потврди дека Република Македонија ќе стане потписник на Спогодбата за трговија во цивилното воздухопловство по пристапувањето кон СТО. Работната група ја забележа оваа обврска.

Транзит

181. Претставникот на Република Македонија рече дека транзитот на стоки низ територијата на Република Македонија се уредува со Царинскиот закон. Царинските органи обично автоматски ги издаваат дозволите за транзит на влезниот граничен премин. Транзитот на стока што е штетна за животната средина или за здравјето на луѓето или животните се врши согласно постапките утврдени со Базелската конвенција за контрола на прекугранично движење на опасен отпад и негово складирање, што Република Македонија ја има ратификувано во 1997 (Службен весник 49/97). Стоката во транзит е запечатена и лицето што го организира транзитот е одговорно за транспортот до излезниот граничен премин. Царинските органи на излезниот граничен премин ќе ја проверат документацијата издадена при влезот, како и другите придружни документи, пред да одобрат транзитираната стока да ја напушти територијата на Република Македонија.

Земјоделска политика

(а) Увоз

182. Претставникот на Република Македонија рече дека квантитативните ограничувања на увоз на земјоделски производи се укинати во 1996 година. Заштитата во суштина се обезбедува во облик на царини. Системот на прелевмани, воведен за земјоделски и прехранбени производи главно како сезонска заштита, се спроведува согласно Законот за плаќање посебна царина за увоз на земјоделски и прехранбени производи (Службен весник 2/94). Бидејќи оваа мерка може да се смета за променлива давачка, што е во спротивност со членот 4 од Спогодбата за земјоделство, при последната ревизија на Царинскиот закон (Службен весник 15/01), прелевманите се заменети со *ad valorem* или со специфични царини.

(б) Извоз

183. Претставникот на Република Македонија изјави дека Република Македонија не наметнува никакви даноци на извозот на земјоделски производи, но во минатото се применувале извозни квоти и други ограничувања за да се обезбеди доволно количество на определени земјоделски производи. Во моментов, единствените мерки што се применуваат на извозот на земјоделски производи се барањата за дозволи, наброени во Табелите 7(а) и (б).

(ц) Домашни политики

184. Претставникот на Република Македонија изјави дека на земјоделскиот сектор му се доделуваат средства врз основа на Програмата за стимулирање на развојот на земјоделството (244 милиони денари во 2000). Програмата за инвестиции во земјоделството, што е дел од Макроекономската политика за 2000, намени 94 милиони денари за обнова на хидро-системите, развој на руралните подрачја во јужните и југоисточните региони, и за поддршка на индивидуалните земјоделци. На земјоделците во неразвиените региони, што ги определува Владата, им се доделува даночно изземање.

185. Тој презентираше информации за домашната поддршка и извозните субвенции во земјоделството, за периодот 1998-2000, во документот WT/ACC/SPEC/S07/ 5 од 10 јуни 2002. Покрај "зелените мерки", домашна поддршка главно се обезбедува во облик на цени за поддршка ("заштитни цени") за одделни земјоделски производи во согласност со Членот 24 од Законот за трговија. Република Македонија обезбедува и извесна поддршка што не се определува според производ, во облик на субвенции за ѓубрива и пестициди, како и средства за проширување на површините на обработлива земја.

186. Опфатот на системот на "заштитни цени" постепено се намалува. Во 1992, заштитни цени беа определени за пченицата, пченката, шеќерната репка, сончогледовото семе, оризот, волната, телешкото месо, овците, јагнињата и ситнолисниот ориентален тутун. Од 1998 системот се применува

само на пченицата и ситнолисниот ориентален тутун. Владата на Република Македонија, општо гледано, не е вклучена во откуп на производи што се под "заштитни цени". Во исклучителни случаи, Владата може да ја овласти Дирекцијата за стокови резерви (види понапред, дел "Претпријатија кои се занимаваат со државна трговија") да организира откуп на определени количества, и во таков случај претпријатијата и поединците ќе ги купат стоките и ќе ги складираат, во име на Дирекцијата, како прехранбени залихи за вонредни околности.

187. Некои Членки забележаа дека Република Македонија не применувала извозни субвенции во земјоделскиот сектор. Оттаму, според нив, Република Македонија нема да има опција да воведе извозни субвенции во подоцнежна фаза, и тие очекуваат од Република Македонија да преземе обврска да не применува извозни субвенции. Претставникот на Република Македонија одговори дека Република Македонија обезбедила субвенции за извоз на јагнешко месо во 1998, но се согласува во иднина да не воведува субвенции за извоз на земјоделски производи.

188. Претставникот од Република Македонија потврди дека Република Македонија ќе ги укине своите извозни субвенции во земјоделството, како што е прикажано во листата на обврски, приложена кон Протоколот за пристапување на Република Македонија.

Трговски режим за текстил

189. Претставникот на Република Македонија рече дека текстилната индустрија, вклучително и индустријата за производство на влакна, ткаенини и готови производи, е главниот работодавач и има најголем удел во вкупниот производ во индустрискиот сектор (над 15 проценти). Кожната и кожарско-преработувачката индустријата е исто така значајна, а свинската, телешката, кравјата, биволската, јагнешката и овчата кожа се преработуваат за локалното производство на мебел, облека и обувки.

190. Текстилните производи не се подложени на никакви увозни ограничувања, вклучително квантитативни ограничувања. Просечната увозна тарифа за текстил и текстилни производи изнесува 21.2 проценти *ad valorem*. Во 1998, увозот на текстил и облека, вклучително полуготови и готови производи, изнесувал УСД 64 милиони, или 3,3 проценти од вкупниот увоз. Суровата кожа и разните видови кожа потпаѓаат под ЛБ(либерален) режим, а ниту увозот, ниту извозот на овие производи не се оданочува, ниту се ограничува.

191. Од 1 јануари 1997, трговијата со текстилни производи со Европската унија се уредува со Спогодбата за трговија со текстилни производи. Оваа Спогодба не обезбедува незадолжителни извозни ограничувања (VER's). Квантитативните извозни ограничувања се применуваат врз основа на Билатерална спогодба за текстилни производи со САД. Спогодбата неодамна беше предоговорена и продолжена до крајот на 2004. Освен билатералните трговски спогодби со САД и ЕУ, Република Македонија нема слични спогодби со која било друга земја.

192. Претставникот на Република Македонија потврди дека за квантитативните ограничувања на увозот што Членките на СТО ги задржуваат за текстилот и облеката со потекло од Република Македонија, што биле во сила на денот пред датумот на пристапување на Република Македонија кон СТО, треба да се достави известување до Надзорниот орган за текстил (ТМВ) од страна на сите оние Членки коишто ги задржуваат таквите ограничувања и би се применувале за потребите на членот 2 од Спогодбата за текстил и облека. Така, за потребите на пристапувањето на Република Македонија кон СТО, фразата "денот пред датумот на влегувањето во сила на Спогодбата за текстил и облека" ќе се смета дека се однесува на денот пред датумот на пристапувањето на Република Македонија кон СТО. Од ова базично ниво ќе се започне со примена на зголемување на стапките, каде што е соодветно, како што е обезбедено со членовите 2.14 од Спогодбата за текстил и облека, од датумот на пристапувањето на Република Македонија. Работната група ја забележа оваа преземена обврска.

Трговски аспекти на правата од интелектуална сопственост (ТРИПС)

1. Општо

(а) Заштита на индустриска сопственост

193. Претставникот на Република Македонија изјави дека Република Македонија уште од самото стекнување на својата независност големо внимание ѝ посветува на заштитата на правата на интелектуална сопственост. Правата што произлегуваат од научните, уметничките и друг вид

интелектуални творби се гарантираат со членот 74 од Уставот. Детални информации за спроведувањето на Спогодбата за ТРИПС се дадени во документот WT/ACC/807/9.

(б) Надлежни агенции за формулирање и спроведување на политиката

194. Претставникот на Република Македонија изјави дека Министерството за економија е надлежно за заштитата на правата од индустриска сопственост. На 1 декември 1993 при Министерството е формирано Биро за заштита на индустриската сопственост,. Ова Биро води Регистар на застапници на индустриска сопственост и издава квартално службено гласило (*Гласник*) во кој се објавуваат стекнатите права и промените во правата од индустриска сопственост, како и престанокот на правата од индустриска сопственост.

195. Министерството за култура е надлежно за заштитата на авторските права и сродните права. Во ноември 1996 е основана инспекторска служба за авторски права и за сродни права при Министерството за култура. Некои видови права се остваруваат колективно, преку авторски агенции. Досега е основана само една авторска агенција за колективно остварување на правата за не-сценски музички дела.

(ц) Учество во меѓународни спогодби за интелектуалната сопственост

196 Претставникот на Република Македонија изјави дека Република Македонија стана Членка на Светската организација за интелектуална сопственост на 23 јули 1993 а, како наследничка на поранешна СФРЈ, Република Македонија ги има прифатено Конвенцијата со која се основа Светската организација за интелектуална сопственост, Париската конвенција за заштита на индустриската сопственост, Мадридската Спогодба за меѓународно регистрирање на марките, Спогодбата од Ница за меѓународна класификација на стоките и услугите за целите на регистрирање на марки, Спогодбата од Локарно со која се основа меѓународна класификација за индустриски дизајни, и Бернската конвенција за заштита на книжевни и уметнички дела. На 21 март 1994 Владата на Република Македонија ја донела Одлуката Бр. 23-694/1 за пристапување кон Трајниот комитет за информации за индустриска сопственост на WIPO, а на 19 октомври 1994 Одлуката бр. 23/3440/1 за пристапување кон Пактот за соработка за патенти.

197. Од 16 јули 1996, Република Македонија ја има ратификувано Универзалната конвенција за авторско право, како и Конвенцијата во врска со дистрибуцијата на сигнали за пренос на програми пренесувани со сателит, врз основа на сукцесија; Конвенцијата за заштита на фонограмските продуценти против неовластено преснимување на нивните фонограми (Службен весник 47/97); Римската конвенција за заштита на изведувачите, фонограмските продуценти и радиодифузните организации (Службен весник 50/97), со резерва во однос на неприменета на критериумите за објавување содржани во членот 5, став 1, потстав 1(б), во согласност со членот 5 став 3 од Конвенцијата, како и во однос на неприменета на одредбите од членот 12, во согласност со членот 16, став 1 (а) (i) од Конвенцијата; Хашката Спогодба за меѓународен депозит на индустриски дизајни; Пактот за соработка за патенти (PCT); и Договорот за соработка со Европската организација за патенти. Спогодбата од Стразбур во врска со меѓународната класификација на патенти (Службен весник 12/02); Пактот од Будимпешта за меѓународно признавање на депонирање на микроорганизми за целите на постапката на патентирање (Службен весник 13/02); и Протоколот во врска со Мадридската спогодба за меѓународна регистрација на марки (Службен весник 12/02). Тој додаде дека Република Македонија планира да пристапи кон Спогодбата на WIPO за авторски права и Спогодбата на WIPO за изведби и фонограми во текот на 2003 година (Одлука на Владата бр.23-4449/1 од 27 август 2002, Службен весник 70/02). Резервата во однос на примената на членот 8 од Бернската конвенција била повлечена. Согласно членот 1.3 од Спогодбата за ТРИПС, Република Македонија по пристапувањето ќе достави известување до Советот за ТРИПС дека ќе ја задржи резервата за неприменa на критериумите за издавање во однос на продуцентите на фонограми, согласно членот 5, став 1, потстав 1(ц) од Римската Конзенција.

198. Во одговор на конкретно прашање, претставникот на Република Македонија потврди дека согласно Законот за индустриска сопственост, член 32, став 1, секое правно или физичко лице што поднело соодветна пријава за патент во која било држава-членка на Париската унија или на Светската трговска организација, ќе добие право на приоритет во Република Македонија.

199 Република Македонија не склучила регионални спогодби со кои се уредуваат авторските и сродните права, и не е член на такви регионални организации. Реципроцитетна заштита на авторските

и сродни права е обезбедена со билатерални спогодби со Полска, Руската федерација, Швајцарија и некои други земји

(г) Примена на принципите на национален третман и третман на најповластена нација (MFN) за странски лица

200. Претставникот на Република Македонија рече дека националниот третман им е достапен на странски лица врз основа на меѓународни спогодби и конвенции, како и врз основа на начелото на заемност. Како членка на Парискатa конвенција, Република Македонија обезбедува ист третман за странски лица и домашни правни и физички лица, без дискриминација, согласно членот 9 од Законот за индустриска сопственост.

201. Легислативата на Република Македонија е усогласена и со одредбите за национален третман од Бернската конвенција. Согласно Законот за авторското право и сродните права (член 171, став 2 и член 176), странските автори и носители на сродни права уживаат иста заштита како и националните автори и носители на сродни права. Легислативата на Република Македонија за правата од индустриска сопственост и авторските и сродни права не им обезбедува на странски државјани супериорен третман во однос на третманот што се обезбедува за државјаните на Република Македонија.

202. Една Членка бараше појаснување на специфичните критериуми за правото на заштита. Претставникот на Република Македонија одговори дека новиот Закон за авторски права и сродни права ќе ги содржи сите релевантни ставки за странските автори и сродните носители на права, на начин како што се наведени во Спогодбата за ТРИПС и Бернската конвенција.

203. Со оглед на фактот дека е потребно доста долгото време, за да се најде лице што е обучено за превод на технички и правни документи за правата од индустриска сопственост (IPR), како и за да се овери направениот превод, една Членка предложи Република Македонија да размисли за воведување на подолг период за поднесување на такво барање на македонски јазик – најмалку два месеца – за да се избегне de facto дискриминацијата во однос на државјаните на други земји членки на СТО. Претставникот на Република Македонија одговори дека новиот Закон за индустриска сопственост, донесен во јуни 2002, предвидува период од 90 дена за поднесување на документите на македонски јазик.

(е) **Такси и давачки**

204. Претставникот на Република Македонија рече дека давачките и даноците за заштита на правата на индустриска сопственост (патент, индустриски дизајн, трговска марка, ознака на потекло, лиценци итн.), т.е. за услугите на Бирото за заштита на индустриска сопственост, се уредени со Законот за административни такси (Тарифни броеви 86 до 102) и со Одлуката за висината на посебните трошоци за постапката и на трошоците за давање информативни услуги на Бирото за заштита на индустриска сопственост.

205. Законот за административни такси предвидува такси за поднесување на барања за одржување на правата, барања за обновување на правата, потврди, барања за престанок на правата, оспорувања, одлуки за склучување и откажување на стекнати права, промени на податоци во Регистарот, дополнителни пријавувања на патенти итн. Износите се движат меѓу 100 и 3.000 денари. Посебните давачки за објавување на податоци за стекнати права на индустриска сопственост, за печатење на документи за патент, повлекување на информации од базата на податоци, извадоци од регистарските книги и слично, се движат меѓу 270 и 10.800 денари. Претставникот на Република Македонија напомна дека Законот за административни такси дозволува давачката да се плати во рок од три месеци по бараниот краен рок, и во тој случај давачката ќе биде зголемена за 25 проценти. Плаќањето може да се изврши и во рок од шест месеци, но во таков случај на подоцнежно плаќање, давачката ќе биде зголемена за 100 проценти.

2. **Основни стандарди за заштита, вклучително постапки за стекнување и одржување на правата од интелектуална сопственост**

(а) Заштита на авторското право

206. Претставникот на Република Македонија изјави дека Законот за авторски права и сродни права (Службен весник 47/96 и 3/98) е донесен на 12 септември 1996 и е единствениот закон со кој се уредува

областа на авторски права. Авторското право може да се прошири врз дела од областа на литературата, науката и уметноста без оглед на видот, начинот и формата на изразување, особено врз: пишани дела (книжевни дела, написи, статии, прирачници, брошури, научни трудови, расправи или); компјутерски програми како книжевно дело; говорни дела (говор, беседа, предавање и сл.); музички дела со или без текст; драмски, драмско-музички дела и куклени дела, кореографски и пантомимичарски дела, фиксирани на материјална подлога; фотографски дела и дела создадени во постапка слична на фотографската; ликовни дела, архитектонски дела; дела на применетата уметност и дизајн; картографски дела, планови, скици, технички цртежи, проекти, табели, пластично дело и други дела од ист или сличен карактер од областа на географијата, топографијата, архитектурата или друга научна, образовна, техничка или уметничка природа (член 3).

207. Збирките на авторски дела, на дела од народното творештво, и на други дела или материјали, какви што се енциклопедии, антологии, бази на податоци, збирки на документи и други збирки коишто претставуваат индивидуални или интелектуални творби, се сметаат за самостојни авторски дела. Со внесувањето на изворно дело во збирка не смеат да бидат повредени правата на авторот на таквото дело. Со внесувањето на други дела или материјали во некоја збирка таквите дела или материјали нема да стекнат статус на авторско дело (член 7).

208. Условите на заштита се уредуваат со членовите 43 до 52 од Законот. Авторското право трае за време на авторовиот живот и 70 години по неговата/нејзината смрт, пресметано од смртта на последниот жив коавтор во случајот на коавторства. Аудиовизуелните и колективните дела се заштитени 70 години по законското објавување на делото. Правата на фонограмскиот продуцент траат 50 години од датумот на извршеното снимање а, ако фонограмот е законски објавен во текот на тој период, правата траат 50 години од првото објавување на фонограмот. Правата на изведувачите траат 50 години од датумот на изведбата, или 50 години од датумот на првото објавување на снимката на изведбата. Во случај на радиодифузни снимки на радио и телевизиски компании, заштитата трае 50 години по првото емитување, додека подолга заштита се применува на радио и телевизиски емисии снимени и емитувани во 1976 и по таа година.

209. Запрашан конкретно за обновување на правата на дела, согласно членот 18 од Бернската конвенција и правата на тонски снимки и изведби (членовите 14.6 на Спогодбата за ТРИПС), претставникот на Република Македонија рече дека согласно членот 184, став 1 од Законот за авторското право и сродните права, Законот се применува на сите дела и изведби што во времето на стапувањето во сила на Законот, т.е. на 20 септември 1996 уживале заштита врз основа на претходниот Закон за авторско право (Службен весник на СФРЈ 19/78, 34/78, 24/86, 757/89 и 21/90).

210. Тој додаде дека Законот за авторското право и сродните права ќе претрпи измени, при што ќе се има на ум дека обновувањето на заштитата на авторското право на изведувачите на изведби снимени на фонограми, како и на правата на фонограмските продуценти, не се во согласност со членот 14.5 од Спогодбата за ТРИПС.

211. Претставникот на Република Македонија изјави дека Владата на Република Македонија целосно ќе се усогласи со сите правила на СТО. Како резултат на непредвидените политички настани, неопходната легислатива не беше усовена во јуни 2002, како што беше предвидено, но тоа ќе се направи колку што е можно поскоро. Тој потврди дека Република Македонија ќе ги усвои сите потребни амандмани на Законот за авторското право и сродните права до 31 јануари 2003. Амандманите ќе бидат целосно во согласност со Спогодбата за ТРИПС и сите други релевантни конвенции од областа на интелектуалната сопственост ратификувани од страна на Република Македонија. Во амандманите ќе бидат земени предвид барањата и коментарите од Членките на СТО во врска со усогласеноста на легислативата на Република Македонија со Спогодбата за ТРИПС. Овој Закон, исто така, ќе ги содржи одредбите кои се однесуваат на следниве прашања: (i) национален третман и заштита на странски автори и носители на сродни права; (ii) ограничување на економските права; (iii) заштита на претходно постојни дела, звучни записи и изведби; (iv) времетраење на заштитата на делата; (v) времетраење на заштитата на изведби, фонограми и радиодифузни емитувања; (vi) права на филмски и сценски продуценти; и (vii) спроведување. Во меѓувреме, на 20 август 2002, Владата на РМ усвои Заклучок за усогласеноста со Спогодбата за ТРИПС (Службен весник 70/02), со кој се признава усогласеноста со барањата содржани во Спогодбата за ТРИПС со самото тоа што Република Македонија е веќе Членка на Бернската конвенција и другите конвенции за авторски и сродни праза. Согласно истиот Заклучок, македонската Влада ќе обезбеди спроведување и извршување на сите вакви барања. Тој потенцираше дека меѓународните конвенции и спогодби ратификувани од Република Македонија имаат сила на закон. Тој потврди дека сите одредби ќе бидат

целосно усогласени како со терминологијата, така и со духот на Спогодбата за ТРИПС Во таа смисла, коментарите од страна на Членките на СТО се навистина корисни и истите ќе бидат вклучени во последната верзија на легислативата за интелектуална сопственост на Република Македонија Работната група ја забележа оваа обврска

(б) Трговски марки, вклучително услужни марки

212 Претставникот на Република Македонија рече дека правото на трговска марка се уредува со Законот за индустриска сопственост и Прописите за постапка на признавање на правото на трговска марка и - од јуни 2002 - и согласно новиот Бирото за индустриска сопственост Пријавите се поднесуваат до Бирото за заштита на индустриска сопственост, а датумот на прием е датумот на предност на подносителот на пријавата во однос на кое било друго лице што поднесува пријава за истата трговска марка Заштитата на трговската марка трае 10 години и може да се обновува бесконечно, во последователни периоди од по 10 години. Признаените права се регистрираат во Регистарот што го води Бирото за заштита на индустриска сопственост Доколку, без оправдани причини, некоја регистрирана трговска марка не се користи повеќе од 5 години, тоа може да доведе до поништување на регистрацијата. Во изменетиот нацрт Закон за индустриска сопственост се говори за "непрекинато" користење. Правата на трговска марка можат да се лиценцираат или да се пренесат со писмен договор, што се внесува во регистарот, на барање на една од страните на договорот Таквата регистрација има правно дејство на изјава во однос на трети лица.

213. Претходната легислатива не обезбедуваше заштита на познати марки, но одредби во оваа смисла се внесени во новиот Закон за индустриска сопственост Исклучивото право на носителот на трговска марка да спречи трети лица да користат идентични или слични знаци за исти или слични производи или стоки, во случаи кога таквото користење најверојатно би довело до создавање на заблуда (Член 16(1) од Спогодбата за ТРИПС), е уредено врз основа на членот 149, став 3 и членот 151 од новиот Закон за индустриска сопственост

(ц) Географски ознаки, вклучително ознака на потеклото

214 Претставникот на Република Македонија изјави дека Владата на Република Македонија донела одлука да ја уреди заштитата на географските ознаки во новиот Закон за индустриска сопственост Досега, ознаката на потекло се заштитуваше врз основа на Законот за индустриска сопственост (член 28). Ознаката на потеклото е колективно право и е заштитено со внесувањето на името на производот и придружната ознака во Регистарот за ознаки на потеклото. Правото на употреба на заштитена ознака на потеклото не може да се пренесе. Регистрацијата на правото на користење географска ознака важи пет години, но таквата регистрација може последователно да се обнови неограничен број пати. Дефиницијата на "географски назив" е содржана во членот 3 од Законот за индустриска сопственост. Сертификатните марки, колективните марки, признавањето на ознаки, судските одлуки и другите средства за заштита посочени од Членките на СТО во одговор на листата вклучена во членот 24.2 од Спогодбата за ТРИПС, ќе бидат вклучени во прописите по донесувањето на новиот Закон за индустриска сопственост.

215. Некои Членки забележаа дека легислативата на Република Македонија не обезбедува дополнителна заштита за винаа и жестоките пијалаци, и поставија прашање како новиот Закон ќе се усогласи со членот 23 од Спогодбата за ТРИПС, во кој за винаа и жестоките пијалаци се бара повисоко ниво на заштита на географските ознаки отколку за другите стоки. Како одговор, претставникот на Република Македонија се повика на одредбите од членот 195, став 1, од членот 126, став 1 и од членот 172 од новиот Закон за индустриска сопственост.

(д) Индустриски дизајн

216. Претставникот на Република Македонија рече дека новиот Закон за индустриска сопственост, донесен од Собранието во јуни 2002, ја уредува заштитата на индустриските дизајни. Индустриските дизајни и модели порано се заштитуваа врз основа на членот 18 од Законот за индустриска сопственост. Рокот на заштита е 10 години од датумот на барањето за заштита.Во одговор на конкретно прашање, тој потврди дека во случај на оспорување на пријава, барателот на право на индустриски дизајн ќе биде повикан да даде изјава (декларација) и да ги поднесе своите забелешки во рок од 60 дена

(е) Патенти

217. Претставникот на Република Македонија рече дека пронајдоците што претставуваат нови технички решенија, во кои станува збор за иновација, и кои се применливи во индустријата, имаат право на патентна заштита врз основа на Законот за индустриска сопственост. Рокот на заштита е 20 години од датумот на поднесувањето на пријавата.

218. Некои Членки забележаа дека за исполнувањето на своите обврски согласно Париската конвенција, Република Македонија се потпира на правилото *de jure conventions*, и сметаат дека тоа е несоодветно затоа што таквото потпирање значи дека сообразеноста со обврските ја утврдуваат судии врз основа на поединечни случаи. Ваквата постапка одзема многу време и е скапа, затоа што носителите на правата мораат да поднесуваат докази и аргументи во врска со значењето на меѓународните спогодби и примената на одредбите на тие спогодби на конкретните факти во дадениот случај. Овие Членки изразија загриженост и во однос на одредбите во постојната легислатива за издавањето на задолжителните лиценци.

219. Претставникот на Република Македонија одговори дека новиот Закон за индустриска сопственост, кој се донесе во јуни 2002, сега ја уредува заштитата на патентите. Во однос на задолжителните лиценци, Законот се занимава со тоа прашање во членовите 52-57 и, според претставникот, овие одредби се целосно сообразени со Спогодбата за ТРИПС. Задолжителната лиценца е непренослива. Со новиот Закон се укинува и барањето пронајдоците да се "технички изведливи" како услов за да можат да добијат заштита со патент.

220. Микроорганизми, не-суштински биолошки процеси и микробиолошки процеси можат да бидат заштитени со патент. Компјутерските програми што ги задоволуваат барањата за патентирање, ќе бидат исто така заштитени со патент. Исклучоците за стекнувањето право на патент се наведени во членот 19, став 3 точки 1 до 3, на Законот за индустриска сопственост. Законот говори за заштитата на патент производ кај фармацевтските и земјоделските хемиски производи во членот 56, став 2, каде што се дозволува валидноста на патентот да се продолжи дополнителни пет години за таквите производи. Согласно членот 14, став 1 од Законот за индустриска сопственост, првостепените одлуки од Бирото за индустриска сопственост, вклучително одлуките за поништување или за губење на правото на патент, можат да се обжалат до соодветната Комисија на Владата на Република Македонија.

(ф) Заштита на растителни сорти

221. Претставникот на Република Македонија рече дека растителните сорти се заштитени со патенти. Во одредбите на Законот за индустриска сопственост и прописите за постапката за признавање на патент исто така се говори за нови растителни сорти и хибриди. Траењето на заштитата, постапката за признавање, истекувањето на валидноста и преносот на патентот, се исти како и за другите предмети што можат да се патентираат.

(г) Топографија на интегрирани кола

222. Претставникот на Република Македонија изјави дека оваа ставка се заштитува врз основа на Законот за заштита на топографијата на интегралните кола (Службен весник 5/98). Членот 9 од Законот им дава на носителите на правото исклучиво право на комерцијална експлоатација на топографиите, вклучително интегралните кола и други артикли што се вклучени во дадена топографија. Дерогацијата специфицирана во членот 37 од Спогодбата за ТРИПС е опфатена во членот 16 од овој Закон. Рокот на заштита на топографијата е 10 години (крај на календарска година), броејќи од годината на поднесување на пријавата, или од годината на првата комерцијална експлоатација каде било во светот.

(х) Барања во врска со доверливи информации, вклучително трговски тајни и податоци добиени од испитувања

223. Претставникот на Република Македонија рече дека Република Македонија нема никаков посебен закон за заштита на доверливи информации, вклучително трговски тајни и податоци добиени од испитувања. Заштитата на доверливи информации главно се постигнува преку одредбите за нелојална конкуренција од Законот за трговски друштва (членови 176-178б) и во Законот за трговија

(членови 31-37) Заштитата на know-how (технологија) се уредува со Законот за надворешно трговско работење. Откривањето или неовластеното стекнување на деловни тајни претставуваат кривични дела согласно членот 281 од Кривичниот законик. Од државните службеници се бара да чуваат тајна согласно членот 20 од Законот за државни службеници. Тајните или доверливите информации разоткриени во текот на јавни расправи или судски постапки се заштитени согласно Законот за општа управна постапка (член 150), Законот за парнична постапка (член 292), Законот за кривична постапка (член 280) и Законот за прекршоци

224 Во одговор на конкретно прашање за заштитата на доверливи податоци од испитувања и други податоци поднесени во постапката за одобрување на продажба и маркетинг на фармацевтски и земјоделски хемиски производи (член 39.3 од Спогодбата за ТРИПС), тој додаде дека таквата заштита е осигурена со одредбите за нелојална конкуренција (членовите 31, 34 и 37) од Законот за трговија (Службен весник 23/95, 30/96, 43/95 и 43/99), Законот против нелојална конкуренција (Службен весник 80/99) и членовите 23-24 од Законот против ограничување на конкуренцијата (Службен весник 80/99). Овие закони се сообразени со членот 10bis од Париската конвенција. Покрај тоа, заштитата на доверливи информации и записи за фармацевтски производи се обезбедува и со Законот за лекови, помошни лековити средства и медицински помагала (Службен весник 21/98)

3. Мерки за контрола на злоупотребата на правата од интелектуална сопственост

225. Претставникот на Република Македонија рече дека мерки против злоупотреба на интелектуална сопственост можат да се преземат врз основа на легислативата на Република Македонија, вклучително нејзината легислатива што се однесува на конкуренцијата

4. Спроведување

(а) Граѓански судски постапки и правни лекови

226. Претставникот на Република Македонија рече дека постојната легислатива за интелектуална сопственост, како и Законот за парнична постапка, вклучуваат одредби за граѓанските судски постапки и правни лекови. Секое лице чии права од интелектуална сопственост се повредени со неовластено користење, располагање или имитирање може да поведе постапка пред суд. Носителот на правото може да сведочи пред суд во својство на странка во парницата; пред судот можат да сведочат само вешти лица што се трета странка, овластени од судот. Носителот на правото, овластениот корисник или носителот на лиценцата, може да бара оштета и да бара судска забрана за да се спречи натамошно повредување. Во случај на повреда на моралните права без причинување на материјална штета, судот може да одреди оштета што треба да се плати за штетата предизвикана на личноста, честа и угледот.

227. Тој додаде дека во случаите на повреда на правата од индустриска сопственост важат општите правила за надомест на материјална и нематеријална штета предвидени во Законот за облигациони односи (Службен весник 18/01, 4/02). За повреда на правата стекнати врз основа на ЗИС, ако правата се повредени со умисла или поради крајна небрежност, носителот на правото може да побара исплата на вообичаениот надоместок, зголемен за 200 проценти, независно дали поради повредата претрпел имотна штета со иста големина. При одмерувањето на висината на износот на паричната казна, судот ќе ги земе предвид сите околности на случајот, особено степенот на вината на тужениот, износот на вообичаениот надомест, како и превентивната цел на казната.

228. Лицето чие право е повредено може да бара судот да му наложи на лицето кое ги повредило неговите/нејзините права да се воздржи од натамошна повреда, да му ги одземе и да ги уништи производите кои се произведени или ставени во промет, а со кои се врши повреда на правото, или судот да нареди лицето кое го повредило тоа право да ги достави документацијата и податоците. Пресудата со која се утврдува повредата може да се објави во средствата за јавно информирање, на трошок на тужениот. Специфичните одредби во оваа смисла се содржани во членот 159 од Законот за авторско право и сродни права, како и во членот 162, став 1 (привремени мерки).

(б) Привремени мерки

229. Претставникот на Република Македонија рече дека членовите 263 до 276 од Законот за извршна постапка и одредбите од Законот за парнична постапка ги овластуваат судиите да издаваат привремени забрани и времена помош за да се спречи повреда и за да се сочува доказниот материјал.

Законот за авторско право и сродни права (членови 159, 162 и 168), Кривичниот законик (член 157) и Нацрт законот за индустриска сопственост (член 249) исто така обезбедуваат привремени мерки што се дозволуваат со судска одлука. Привремените мерки може да се дозволат *inaudita altera parte* во случите каде што станува збор за авторско право согласно членот 162, став 2 од Законот за авторско право и сродни права. Привремените мерки во случаи каде што станува збор за интелектуална сопственост се дозволуваат согласно членовите 26 и 263 до 275 од Законот за извршна постапка и членовите 257 и 260 од Законот за парнична постапка. Согласно овие одредби, привремените мерки можат да се донесат *inaudita altera parte*.

(п) Административни постапки и правни лекови

230. Претставникот на Република Македонија изјави дека Законот за општа управна постапка содржи одредби за заштита на граѓаните и јавниот интерес (член 5), ефикасно остварување на правата (Член 6), можност страните да го изразат своето мислење за фактите и околностите (член 8), постапка со најмали трошоци (член 13) и одредба за помагање на неупатените страни како да ги заштитат своите права (член 14). Сите конечни управни одлуки може да се поднесат на преиспитување до Врховниот суд во постапка позната како "управен спор" врз основа на Законот за општа управна постапка и Законот за управен спор.

231. Замолен да ги објасни околностите во кои правата од интелектуална сопственост можат да се остварат со административна, а не со граѓанска судска постапка и правни лекови, претставникот на Република Македонија рече дека, за правата од индустриска сопственост, административните постапки што ги спроведуваат посебни одделенија во Врховниот суд можат да се сметаат за предност, затоа што тоа се специјализирани судови, има помал број предмети и постапките се брзи. Тој рече дека нема слични погодности за случаите во кои станува збор за авторски и сродни права.

(д) Посебни гранични мерки

232. Претставникот на Република Македонија рече дека новиот Закон за индустриска сопственост вклучува мерки што се целосно усогласени со Спогодбата за ТРИПС и со Париската конвенција за гранични контроли и запленување на стоки, кои вршат повреда на правата од индустриска сопственост. Носителот на правото треба да поднесе до царинската управа детален опис на стоката, и да ги докаже своите права и наводното кршење. Носителот на правото или неговиот/нејзиниот застапник ќе има право да ја провери стоката, која ќе биде конфискувана, ќе се забрани тргување со неа, и ќе се смести на безбедно место. Царинските органи се должни веднаш да ги известат увозникот и лицето што треба да ја прими стоката за сите преземени мерки, вклучително и забраната за пуштање во промет на стоката (член 215, став 3 од Законот за индустриска сопственост (Службен весник 47/02)). На барање на увозникот, царинските органи можат да му наредат на носителот на правото да положи кауција за евентуалната штета предизвикана од граничните мерки согласно членот 215, став 2. Членот 165 од Законот за авторското право и сродните права содржи слични одредби во врска со граничната контрола и запленувањето на пиратски стоки. Царинските органи ќе ги укинат мерките ако носителот на правото не покрене судска постапка во рок од 8 дена.

233. Ниту Законот за авторски права и сродни права, ниту пак Законот за индустриска сопственост не обезбедуваат примена на *ex officio* мерки на самата граница. Царината не е овластена да презема активности во врска со извоз или транзитно движење на фалсификувана или пиратска стока.

234. Забраната за пуштање во промет на стоките започнува со поднесување на жалба, за која се наплатува давачка заснована врз вредноста на стоката со која се врши повредата, и определена врз основа на Законот за судски такси (Службен весник 46/90). Соодветните царински органи го утврдуваат и износот на депозитот што треба да биде доволен да ги покрие трошоците за складирање на стоката, врз основа на Законот за индустриска сопственост, Законот за авторски и сродни права, и царинските прописи. Времето потребно за носителот на правото да ја достави кауцијата ќе се утврди во новите прописи засновани врз постојната легислатива. Согласно членот 203 од Законот за индустриска сопственост, тужителот може да поднесе тужба во рок од три години откако ќе дознае за повредата, а најдоцна во рок од пет години по сторената повреда.

(е) Кривични постапки

235. Претставникот на Република Македонија изјави дека повредата на индустриска сопственост подлежи на кривично гонење врз основа на членовите 285, 286 и 272 од Кривичниот законик (Службен

весник 37/96). Кривичниот законик ги утврдува како кривични дела неовластеното користење на туѓа фирма, неовластеното користење на туѓ пронајдок, и фалсификувањето знаци за обележување стоки, мери и тегови. Кривичните дела што се однесуваат на повреда на патент, трговска марка или авторско право се уредени со членот 157 од Кривичниот законик, и за нив се предвидуваат парична казна и казна затвор. Неовластеното користење на туѓа фирма, жиг, трговска марка или посебна марка, пронајдок или модел, се казнува со парична казна или затвор до три години. Фалсификувањето знаци за обележување стоки, мери и тегови се казнува со затворски казни од три месеци до пет години.

236. Секое неовластено користење на дело заштитено со авторско право или на дела заштитени со сродните права, се казнува со парична казна или затвор до една година. Повредата што има за последица значителна нелегална економска добивка се казнува со парична казна или затворска казна до три години. Извршителите на повреди што резултираат со голема нелегална економска добивка можат да се казнат со затворска казна во траење од три месеци до пет години. Обидите да се извршат такви кривични дела исто така се казниви. Копиите од дело заштитено со авторско право и на дела заштитени со сродните права како и средствата за нивно фалсификување, ќе бидат запленети. Судовите вообичаено даваат налог за уништување на стоките со кои се прави повредата, како и на материјалите и опремата со кои бил извршен кривичниот престап.

237. Повредата на моралните права се гони по приватна тужба. Повредата на авторското право и на сродните права исто така може да се смета за прекршок врз основа на членовите 168 и 169 од Законот за авторско право и сродни права. Во случаи на прекршоци поврзани со авторското право, овие одредби предвидуваат парична казна придружена со времени мерки, т.е. забрана на вршење на конкретната активност или запленување на стоката.

238. Претставникот на Република Македонија потврди дека Владата на РМ целосно ќе ги применува сите одредби од Спогодбата за Трговски аспекти на правата од интелектуална сопственост од датумот на пристапувањето кон СТО, без право на повикување на каков било преоден период. Работната група ја забележа оваа преземена обврска.

Мерки што влијаат врз трговијата со услуги

239. Претставникот на Република Македонија, во документот WT/ACC/ 807/5/ Add.2, Анекс 7, поднесе листа на секторски класификации на услугите, а во документот WT/ACC/807/8 податоци за стратешките мерки што ја погодуваат трговијата со услуги, во форма на документ WT/ACC/5. Тој додаде дека некои типови услуги, комерцијално важни во други земји, се уште не се целосно развиени и затоа во Република Македонија не се целосно правно регулирани, или воопшто не се регулирани. Таквото правно регулирање во иднина ќе стане нужно. Новото стопанисување со услуги брзо се шири и во многу случаи го остава легислативниот процес далеку зад себе. Услугите на кои треба да им се обрне посебно внимание се здравствените услуги, за кои е нужно внимателно балансирање меѓу достапноста на соодветни медицински услуги и развојот на цврста економска основа, и електронската трговија, која би можела да изврши значајно влијание врз малите економии, каква што е економијата на Република Македонија. Електронската трговија би требало внимателно да се проучи за да се утврдат соодветните потреби за нејзино правно регулирање.

240. Банкарскиот сектор се уредува со Законот за банките (Службен весник 63/00 и 103/00), кој се однесува само за банките, и Законот за банките и штедилниците (Службен весник 31/93, 78/93, 17/96 и 37/98) кој продолжува да го уредува работењето на штедилниците. Странска банка може да дава банкарски услуги во Република Македонија така што ќе основа банка или подружница на банка. Почнувајќи не подоцна од 1 јануари 2008 година, или на некој претходен датум кој ќе го дозволи Република Македонија, банкарските услуги ќе можат да се даваат преку филијали на странски банки. Според одредбите од Законот за банки, најмалиот основачки капитал неопходен за основање на банка или филијала на странска банка изнесува 3,5 милиони евра во локалната валута. Минималниот потребен основачки капитал е 9 милиони евра ако банката планира да врши платен промет со странство, кредитни и гаранциски работи со странство и тргување со хартии од вредност. Условот со кој се ограничува поединечната сопственост на една третина од акциите со право на управување ќе се укине на 1 јануари 2003, со што се предвидува можност од тој датум да постојат банки во 100 отсто домашна или странска сопственост. Штедилниците прифаќаат депозити од физички лица, и досега биле основани 18 такви институции. Во моментов, странски физички или правни лица не можат да основаат штедилници.

241. Секторот на осигурување се уредува со Законот за осигурување (Службен весник 49/97, 79/99, 13/01, 26/01 и 4/02). Законот за осигурување беше изменет со цел да се укинат ограничувањата како што се барањата за испитувања на економските потреби, ограничувања на странскиот удел, и ретроцесија на реосигурувањето. Собранието усвои нов Закон за супервизија на осигурувањето на 11 април 2002 (Службен весник 27/02). Законот ги уредува условите за вршење на работи за осигурување на живот и неживотно осигурување и реосигурување, осигурително брокерски работи, и основање, работење, супервизија и престанок со работа на друштвата за осигурување и реосигурување и осигурителните брокерски друштваа. Законот за супервизија на осигурувањето содржи одредби кои ја регулираат методологијата за пресметување на потребното ниво на маргина на солвентност за друштвата за осигурување, во зависност од видот на класите на осигурување што ги вршат. Гарантниот фонд изнесува една третина од потребното ниво на маргина на солвентност. Без оглед на оваа одредба, гарантниот фонд на едно друштво за осигурување не може да биде помал од €350.000 - 2.5 милиони за неживотно осигурување (во зависност од видот на дејност); € 750.000 за осигурување на живот; и € 1.5 милиони за реосигурување. Барањата за гарантен фонд се идентични за странски и домашни физички и правни лица

242. Друштвата за осигурување не смеат да вршат банкарски услуги, но можат да основаат и поседуваат банки, и обратно. Странските друштва за осигурување не можат да даваат осигурителни услуги преку филијали. Работењето преку филијали ќе биде дозволено од 1 јануари 2008 година или од некој претходен датум кој ќе го дозволи Република Македонија. Странско или домашно правно или физичко лице, кое не е странско друштво за осигурување или банка, не може да поседува повеќе од 25 отсто од акциите со право на управување во дадено друштво за осигурување, и ова барање ќе важи до 1 јануари 2008,или до некој претходен датум на кој Република Македонија ќе дозволи повисоко ниво на акции со право на управување. Во тек е основањето на Централниот депозитар за хартии од вредност.

243. Во секторот на телекомуникации, новиот правен режим обезбедува услови за недискриминаторска, транспарентна и објективна приватизација. Законот за телекомуникации (Службен весник 33/96, 17/98, 22/98 и 28/00) им дава ексклузивни права на Македонски телекомуникации. Монополските права за месни, меѓуградски и меѓународни говорни телефонски услуги, телеграф, телекс и јавни телефони и услуги за изнајмување на телефонски линии треба да престанат да важат на 31 декември 2004. Доколку Република Македонија издаде дополнителни дозволи за фиксни јавни телекомуникациски мрежи пред 1 јануари 2005 година, на странските фирми ќе им биде дозволено да конкурираат за дозволи врз еднаква и транспарентна основа со домашни фирми, периодот за ексклузивитет ќе заврши и обврските од 1 јануари 2005 ќе стапат во сила веднаш. Други владини монополи постојат во давањето на поштенските услуги; железничкиот сообраќај, шумарството, основното образование; во услугите за поддршка на авионскиот сообраќај; во услужните служби за одржување на автопатите, мостовите и тунелите; и во одржувањето на јавните патишта и патните објекти.

244. Сметководствените услуги се уредени со Законот за сметководство и со Законот за трговски друштва, во нивната изменета форма (Службен весник 70/01, односно 50/01). Изменетите одредби ги уредуваат условите за стекнување звање овластен сметководител, го определува континуираното образование на сметководителите, со цел тие да можат да обезбедуваат услуги со висок квалитет, заштитата на сметководителите и нивната одговорност итн. Обезбедувањето на странски услуги за правен консалтинг е предмет на реципроцитет. Законите на Република Македонија не ги спречуваат странските фирми да основаат или да раководат со хотели, ресторани, патнички агенции или други видови работење во туризмот во Република Македонија.

Транспарентност

Објавување на информации за трговијата

245. Претставникот на Република Македонија изјави дека Собранието го донело Законот за објавување на законите и на другите прописи и акти во Службен весник на Република Македонија, и истиот е објавен во Службен весник 56/99. Актите што треба да се објават во Службениот весник се наброени во Членот 3 од Законот и ги вклучуваат законите и автентичните толкувања на законите, пречистените текстови на законите, изработени од страна на Законодавно-правната комисија на Собранието, буџетот и завршната пресметка на буџетот, меѓународните спогодби, и подзаконските акти, одлуките и упатствата на Владата, и прописите, наредбите, упатствата и другите документи што со закон е утврдено дека ги донесуваат министрите и службениците надлежни за други органи на администрацијата. Нацрт законите не се објавуваат во Службениот весник.

246. Осврнувајќи се посебно на барањата за транспарентност, пропишани во членот X од ГАТТ 1994, членот 3 од ГАТС и во Спогодбите на СТО за постапките за издавање на дозволи, утврдување на царинска вредност, ТБТ, СПС и други, претставникот на Република Македонија додаде дека законите и другите прописи се објавуваат пред да станат во сила, согласно член 52 од Уставот. Законите и другите прописи се објавуваат во Службен весник не подоцна од седум дена по нивното усвојување, а стапуваат во сила најрано на осмиот ден од нивното објавување, или по исклучок – како што ќе утврди Собранието – на денот на нивното објавување. Постапките за објавување и нотификација на санитарни и фитосанитарни прописи беа ревидирани, со цел да се обезбеди целосна усогласеност со барањата од Спогодбата за СПС, Анекс Б, односно, да се дозволи разумен временски интервал помеѓу објавувањето на таквите прописи и нивното стапување во сила. Законите и прописите не можат да се применуваат ретроактивно, освен кога тоа е поповолно за граѓаните.

Известувања

247. Претставникот на Република Македонија рече дека најдоцна по стапувањето во сила на Протоколот за пристапување, Република Македонија ќе ги поднесе сите иницијални известувања што се бараат согласно која било Спогодба што е дел од Спогодбата за СТО. Сите прописи што Република Македонија ќе ги донесе последователно, а со кои стануваат извршни законите донесени за спроведување на која било Спогодба што е дел од Спогодбата за СТО, исто така ќе бидат во сообразност со барањата од таа Спогодба. Работната група ја забележа оваа преземена обврска.

Трговски спогодби

248. Претставникот на Република Македонија информираше дека Република Македонија склучила спогодби за трговија и економска соработка со Албанија, Кина, Унгарија, Полска, Романија, Руската федерација, Швајцарија и Украина, спогодби за трговија со Чешката Република и Египет, Спогодба за трговска соработка со Малезија, Спогодба за економска развојна соработка со Република Кина (Кинески Тајпеј), и Спогодба за стопанска, земјоделска, индустриска, техничка и технолошка соработка со Австрија. Овие спогодби не содржат одредби што се однесуваат на преференцијален пристап на пазарот за стоки, како ни одредби за пристап на пазарот за услугите.

249. Република Македонија доделува преференцијален пристап на пазарот во согласност со спогодбите за слободна трговија склучени со СР Југославија (во сила од 31 јануари 1997), Хрватска (30 октомври 1997), Словенија (1 декември 1999, но применуван врз времена основа од 1 јули 1996), Бугарија (1 јануари 2000) и Турција (1 септември 2000). Спогодбите за слободна трговија со Украина и земјите на ЕФТА - со кои се воспоставуваат подрачја на слободна трговија со траење од 10 години - стапиле во сила на 10 септември 2001, односно на 1 мај 2002. Европската унија и Република Македонија имаат потпишано Спогодба за стабилизација и асоцијација на 9 април 2001. Република Македонија ја ратификувала оваа Спогодба на 12 април 2001, додека Спогодбата се уште чека на ратификација од земјите членки на ЕУ. Преговорите за склучување спогодба за слободна трговија со Романија започнале во мај 2000, но досега се одржани само консултативни средби. Република Македонија применува царински преференцијали за сите производи увезени од Босна и Херцеговина, иако сé уште не е потпишан договор за слободна трговија. Преговорите почнале во 1999, и страните се согласиле околу сите членови на основниот текст на Спогодбата, освен за членовите за динамиката на либерализација на трговијата со индустриски производи. Спогодбите за слободна трговија што ги склучила Република Македонија не ги опфаќаат услугите. Во 2000, уделот на преференцијалните трговски партнери на Република Македонија во увозот на Република Македонија изнесувал приближно 75 проценти, а во извозот околу 80 проценти.

250. Спогодбата за стабилизација и асоцијација со ЕУ цели кон постапно воспоставување на подрачје на слободна трговија, во тек на период од 10 години. Спогодбата содржи одредби за слободното движење на стоките како и за движењето на работници, финансии и капитал, и воспоставување на обезбедување на услуги. Во поглед на трговијата со индустриски производи, со исклучок на стоките наведени во Анексот 1 од Спогодбата за кои Република Македонија фазно, во период од 10 години, ќе ги укине сите царински давачки, со тригодишен грејс-период за извесни производи (Анекс 2), царинските давачки за сите други индустриски производи фазно ќе се укинат на датумот на стапувањето во сила на Спогодбата. Специјални аранжмани постојат за трговијата со текстилни производи и производи од челик (Протоколи 1 и 2). Сите други царини и ограничувања на увозот и извозот на индустриски производи ќе се укинат веднаш. Членот 26 од Спогодбата пропишува укинување на сите квантитативни ограничувања за земјоделски производи и производи од риба. Анексот 4а ги наведува земјоделските производи за кои Република Македонија ќе ги укине тарифите, додека за стоките наведени во Анексот 4б се обезбедува ослободување од царински тарифни квоти и

прогресивно намалување на тарифните стапки над квотата. Република Македонија ќе обезбеди и тарифни отстапки во рамките на тарифните квоти за земјоделските производи наведени во Анексот 4ц. Трговијата со преработени земјоделски производи се уредува со Протоколот 3, во кој се наведени детални табели на намалувања на царински давачки за секој вид производ. Трговијата со вино и алкохолни пијалаци ќе се уредува со посебна спогодба (потпишана од двете страни на 17 јули 2001). Во поглед на рибата и производите од риба, членот 28 од Спогодбата пропишува дека Република Македонија ќе ги укине сите плаќања со еднаквосилно дејство како царинска давачка, и ќе ги намали царинските давачки за риба и производи од риба со потекло од Европската заедница за 50 отсто од царината за најповластена нација. Преостанатите царини ќе се намалат во тек на период од 6 години и ќе се укинат на крајот на тој период. Овие правила не се применуваат на производите наведени во Анексот 5б, кои се предмет на тарифните намалувања изложени во тој анекс. Во очекување на ратификацијата на Спогодбата за стабилизација и асоцијација од страна на државите членки на ЕУ, одредбите што се неопходни за постепеното воспоставување на подрачје на слободна трговија стапија во сила на 1 јуни 2001 врз основа на една Привремена спогодба.

251. Претставникот на Република Македонија поднесе кратки резимеа за спогодбите за слободна трговија со Хрватска, Словенија, СР Југославија, Бугарија, Турција, Украина и земјите на ЕФТА, во документите WT/ACC/807/5/Add.1 (Анекс 8), WT/ACC/807/18 и WT/ACC/807/23. Тој додаде дека трговијата со земјоделски производи врз основа на спогодбите за слободна трговија со Хрватска, Словенија и СР Југославија е предмет на заемни отстапки давани во форма на тарифни квоти. Детални информации за тарифните квоти што се применуваа во 1999, беа дадени во документот WT/ACC/807/3, Анекс II. Само спогодбата за слободна трговија со СР Југославија ја содржи одредбата за "постепено укинување" на тарифните квоти. Меѓутоа, извршени се повторни преговарања на спогодбите за слободна трговија за да се вклучат одредби за постапката за назначување на тарифни квоти за земјоделски и прехранбени производи (принцип прв дојден, прв услужен), количеството на трговијата за која е одредена тарифна квота, нивоата на царини за земјоделски и прехранбени производи, и потеклото на стоките. Тој потврди дека сите тарифни квоти што произлегуваат од пристапувањето на Република Македонија во СТО ќе бидат додадени на тарифните квоти утврдени со нејзините спогодби за слободна трговија.

252. Некои Членки изјавија дека спогодбите за слободна трговија што Република Македонија ги склучила со Хрватска, Словенија и СР Југославија не довеле до слободна трговија меѓу страните и не се во сообразност со членот XXIV од ГАТТ. Овие аранжмани не ги отстрануваат суштествено сите бариери во трговијата меѓу страните, особено во земјоделството, и Република Македонија беше запрашана за идните планови за решавање на недостатоците и усогласување на овие спогодби со членот XXIV од ГАТТ.

253. Претставникот на Република Македонија одговори дека билатералните трговски врски на Балканот минуваат низ суштествени промени. Последиците од сите тие промени сè уште не се целосно осознаени, но Република Македонија настојува да воспоставува билатерални трговски врски кои се целосно усогласени со ГАТТ. Република Македонија презела обврски со Меморандумот на разбирање за либерализација и олеснување на трговијата, што неодамна го потпишаа земјите на Пактот за стабилност за Југоисточна Европа. Според него, спогодбите за слободна трговија со Хрватска, Словенија и СР Југославија веќе се сообразени со членот XXIV од ГАТТ, бидејќи околу 90 отсто од билатералната трговија е ослободена од бариери. Во поглед на земјоделството, мешани комисии и поткомисии за квоти редовно се среќаваат и ги договараат годишните листи на производи што се предмет на отстапки, и разговараат за натамошна либерализација на трговијата со производи што спаѓаат во ХС Поглавја 1-24.

254. Претставникот на Република Македонија потврди дека Владата на Република Македонија ќе се придржува кон одредбите на Спогодбата за СТО вклучително членот XXIV од ГАТТ од 1994 и членот V од ГАТС, при своето учество во трговските спогодби, и ќе осигури одредбите за поднесување известувања, консултации и други барања во врска со зоните на слободна трговија и царинските унии чија членка не е Република Македонија, содржани во тие Спогодби на СТО, да се исполнуваат од датумот на пристапувањето. Тој потврди дека Република Македонија, по пристапувањето, ќе достави до Советите на СТО и до Комисијата за регионални трговски спогодби (CRTA) известувања и примероци од своите Спогодби за слободна трговија, вклучително оние воспоставени во контекстот на Меморандумот за разбирање на Пактот за стабилност. Работната група ја забележа оваа преземена обврска.

Заклучоци

255. Работната група ги забележа објаснувањата и исказите на Република Македонија во поглед на нејзиниот режим на надворешна трговија, како што е прикажано во овој Извештај. Работната група ги

забележа уверувањата и обврските преземени од Република Македонија во поглед на некои конкретни прашања кои се репродуцирани во точките 37, 45, 65, 71, 84, 97, 107, 111, 115, 122, 132, 135, 145, 153, 155, 160, 165, 177, 180, 192, 211, 238, 247 и 254 од овој Извештај. Работната група забележа дека овие обврски ќе бидат внесени во ставот 2 од Протоколот за пристапување на Република Македонија кон СТО.

256. Откако го разгледаа режимот на надворешната трговија на Република Македонија, и во светлината на објаснувањата, обврските и отстапките што ги направи претставникот на Република Македонија, Работната група донесе заклучок Република Македонија да биде поканета да пристапи кон Маракешката спогодба за основање на СТО согласно одредбите од членот XII. За таа цел, Работната група подготви Нацрт одлука и Протокол за пристапување што се претставени во Додатокот кон овој Извештај, и свртува внимание на Листата на Република Македонија на отстапки и обврски во областа на стоките (документ WT/ACC/807/27/Add.1) и Листата на специфични обврски во областа на услугите (документ WT/ACC/80727/Add.2) што се дадени како анекси кон нацрт Протоколот. Се дава предлог овие текстови да бидат усвоени од Генералниот совет при усвојувањето на Извештајот. Кога ќе се усвои Одлуката, Протоколот за пристапување ќе биде отворен за прифаќање од страна на Република Македонија која ќе стане Членка триесет дена откако ќе го прифати споменатиот Протокол. Оттаму, Работната група се согласи дека ја заврши својата работа во поглед на преговорите за пристапување на Република Македонија кон Маракешката спогодба со која сеоснованСТО.
